Reference: Application G-14417, Permit G-13220

The assignment from Ethan E. Janke and Rene N. Janke to James N. Orth has been recorded in the records of the Water Resources Department.

The Departments records will now show James N. Orth as the permit holder of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number 140495 covering the recording fee is also enclosed.

A permit is not a perfected water right, and has conditions and timelines that must be satisfied prior to a Certificate of Water Right being issued. Please review the permit to be familiar with the conditions and timelines contained in the permit.

Please note that this permit required complete application of water to the proposed use by October 1, 2006, and within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use (COBU), which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE). A COBU was received on September 29, 2006. The Department is prepared to issue a proposed certificate for the permit; however, the required pump test did not meet the Departments standards and was rejected as explained in the enclosed correspondence dated July 9, 2015.

Sincerely,

Mary F. Bjork
Water Rights Program Analyst
Water Right Services Division
