Application for a Permit to Store Water in a Reservoir (Standard Review)

OWRD

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 503-986-0900 www.oregon.gov/OWRD

You must use this form for any reservoir storing more than 9.2 acre-feet and with a dam more than 10 feet high.

SECTION 1: APPLICANT INFORMATION AND SIGNATURE

Applicant

Form with fields for Applicant Name (Wilderness Trails Inc), Phone (541 772 2892), Cell (541.621.8303), Address (18225 DEAD INDIAN MEMORIAL RD), City (ASHLAND), State (OR), ZIP (97520), and E-MAIL (CSMITH@WILDERNESSTRAILS.NET)

Organization

Form with fields for Organization Name, Phone, Fax, Address, City, State, ZIP, and E-MAIL

Agent - The agent is authorized to represent the applicant in all matters relating to this application.

Form with fields for Agent/Business Name (RICK PARSONS/PARSONSWATER CONSULTING LLC), Phone (541.499.0257), Fax, Address (1619 MINEAR RD), City (MEDFORD), State (OR), ZIP (97501), and E-MAIL (RICK.PARSONS@PARSONSWATER.COM)

Note: Attach multiple copies as needed

* By providing an e-mail address, consent is given to receive all correspondence from the Department electronically. (Paper copies of the final order documents will also be mailed.)

By my signature below I confirm that I understand:

- List of 10 terms and conditions regarding water use, permit issuance, and construction responsibilities.

I (we) affirm that the information contained in this application is true and accurate.

Applicant Signature (Handwritten signature)

Print Name and Title if applicable (Chris Smith Executive Director) Date (4/7/23)

Applicant Signature

Print Name and Title if applicable Date

SECTION 2: PROPERTY OWNERSHIP

Indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

RECEIVED

APR 19 2023

OWRD

- YES, there are no encumbrances.
- YES, the land is encumbered by easements, rights of way, roads or other encumbrances.
- NO, I have a recorded easement or written authorization permitting access.
- NO, I do not currently have written authorization or easement permitting access.
- NO, written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- NO, because water is to be diverted, conveyed, and/or used only on federal lands.

Affected Landowners: List the names and mailing addresses of all the owners of any lands that are not owned by the applicant and that are crossed by the proposed ditch, canal or other work, even if the applicant has obtained written authorization or an easement from the owner. *(Attach additional sheets if necessary).*

Legal Description: You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

SECTION 3: SOURCE OF WATER

A. Reservoir Name: WILDERNESS TRAILS POND

B. Source: Provide the name of the water body or other source from which water will be diverted, and the name of the stream or lake it flows into. Indicate if source is run-off, seepage, or an unnamed stream or spring.

Source 1: DEAD INDIAN CREEK	Tributary to: S FK LITTLE BUTTE CREEK
TRSQQ of POD: SW SW SECTION 2 TOWNSHIP 38 SOUTH RANGE 3 EAST	
Source 2:	Tributary to:
TRSQQ of POD:	

- Is the proposed reservoir in a wetland (as determined by DSL)? Yes No Don't know
- Is the proposed reservoir an enlargement of an existing dam/reservoir? Yes No – EXISTING DAM
- Is the proposed reservoir in-channel of a stream or off-channel: In-channel Off-Channel
- If the reservoir is proposed to be in-channel, is the stream: Perennial Intermittent Ephemeral
- If the reservoir is proposed to be in-channel, has ODFW determined that native migratory fish are present?
 Yes No Don't know – MIGRATORY FISH PASSAGE PRECLUDED BY DOWNSTREAM NATURAL FALLS
- Is the reservoir in the 100-year floodplain? Yes No Don't know
- If the reservoir is not in the channel of a stream, state how it is to be filled:

SECTION 4: SENSITIVE, THREATENED OR ENDANGERED FISH SPECIES PUBLIC INTEREST INFORMATION

This information must be provided for your application to be accepted as complete. The Water Resources Department will determine whether the proposed use will impair or be detrimental to the public interest with regard to sensitive, threatened or endangered fish species.

To answer the following questions, refer to the map shown on [Attachment 3](#) or the link below to determine whether the proposed point of diversion (POD) is located in an area where the Upper Columbia, the Lower Columbia, and/or the Statewide public interest rules apply.

For more detailed information, click on the following link and enter the TRSQQ or the Lat/Long of a POD and click on "Submit" to retrieve a report that will show which section, if any, of the rules apply:

https://apps.wrd.state.or.us/apps/misc/lkp_trsqq_features/

If you need help to determine in which area the proposed POD is located, please call the customer service desk at (503) 986-0801.

Upper Columbia - OAR 690-033-0115 thru -0130

Is the POD located in an area where the Upper Columbia Rules apply?

Yes No

If yes, you are notified that the Water Resources Department will consult with numerous federal, state, local and tribal governmental entities so it may determine whether the proposed use is consistent with the "Columbia River Basin Fish and Wildlife Program" adopted by the Northwest Power Planning Council in 1994 for the protection and recovery of listed fish species. The application may be denied, heavily conditioned, or if appropriate, mitigation for impacts may be needed to obtain approval for the proposed use.

If yes,

- I understand that the proposed use does not involve appropriation of direct streamflow during the time period April 15 to September 30, except as provided in OAR 690-033-0140.
- I understand that I will install, operate and maintain a fish screen and fish passage as listed in ORS 498.301 through 498.346, and 509.580 through 509.910, to the specifications and extent required by Oregon Department of Fish and Wildlife, prior to diversion of water under any permit issued pursuant to this application.
- I understand that the Oregon Department of Environmental Quality will review my application to determine if the proposed use complies with existing state and federal water quality standards.
- I understand that I will install and maintain water use measurement and recording devices as required by the Water Resources Department, and comply with recording and reporting permit condition requirements prior to diversion or use of water under any permit issued pursuant to this application.

RECEIVED

APR 19 2023

OWRD

Lower Columbia - OAR 690-033-0220 thru -0230

Is the POD located in an area where the Lower Columbia rules apply?

Yes No

If yes, you are notified that that the Water Resources Department will determine, by reviewing recovery plans, the Columbia River Basin Fish and Wildlife Program, and regional restoration programs applicable to threatened or endangered fish species, in coordination with state and federal agencies, as appropriate, whether the proposed use is detrimental to the protection or recovery of a threatened or endangered fish species and whether the use can be conditioned or mitigated to avoid the detriment.

If a permit is issued, it will likely contain conditions to ensure the water use complies with existing state and federal water quality standards; and water use measurement, recording and reporting required by the Water Resources Department. The application may be denied, or if appropriate, mitigation for impacts may be needed to obtain approval of the proposed use.

If yes, provide the following information (the information must be provided with the application to be considered complete).

Yes No The proposed use is for more than **one** cubic foot per second (448.8 gpm) and is not subject to the requirements of OAR 690, Division 86 (Water Management and Conservation Plans).

If yes, provide a description of the measures to be taken to assure reasonably efficient water use:

Statewide - OAR 690-033-0330 thru -0340

Is the POD located in an area where the Statewide rules apply?

Yes No

If yes, the Water Resources Department will determine whether the proposed use will occur in an area where endangered, threatened or sensitive fish species are located. If so, the Water Resources Department, Department of Fish and Wildlife, Department of Environmental Quality, and the Department of Agriculture will recommend conditions required to achieve “no loss of essential habitat of threatened and endangered (T&E) fish species,” or “no net loss of essential habitat of sensitive (S) fish species.” If conditions cannot be identified that meet the standards of no loss of essential T&E fish habitat or no net loss of essential S fish habitat, the agencies will recommend denial of the application unless they conclude that the proposed use would not harm the species.

SECTION 5: WATER USE

- a) The use of the impounded water will be: RECREATION
- b) The amount of water to be stored is: 3 acre-feet.
- c) The area submerged by the reservoir, when filled, will be 0.43 acres.

RECEIVED

APR 19 2023

OWRD

SECTION 6: DAM HEIGHT AND COMPOSITION

The maximum height of the structure will be 10 feet above streambed or ground surface at the centerline of the crest of the dam.

Attach preliminary plans, specifications and supporting information for the dam and impoundment area including 1) dam height, 2) width, 3) crest width, 4) surface area and 5) preliminary fish passage design.

Note: If your dam height is greater than or equal to 10.0' above land surface AND your reservoir will store equal to or greater than 9.2 acre-feet, engineered plans and specifications must be approved by the Department Dam Safety Section prior to storage of water. PRELIMINARY SPECIFICATIONS OF 10' x 12'; 1' CREST, ~0.5 ACS; NO FISH PASSAGE (SEE SECTION 3b) ARE PROVIDED IN ORIGINAL APPLICATION FROM EARLY-1980s (ATTACHED). ENGINEERED PLANS AND SPECIFICATIONS ARE NOT NECESSARY SINCE THE RESERVOIR WILL NOT STORE MORE THAN 9.2 AC-FT.

The dam will be (check one): Earthfill Concrete Flash board Other

SECTION 7: PRIMARY OUTLET WORKS

a) Describe the location and the dimensions of the outlet conduit through the dam:

NOTE: Most dams across a natural stream channel will need an outlet conduit having a minimum diameter of 8 inches or greater.

DAM IS IN-CHANNEL. 4" X 8" FLASHBOARDS PLACED WITHIN CONCRETE KNEE BRACES USED TO CREATE DAM. FLASHBOARDS CAN BE REMOVED TO BYPASS INFLOWS.

b) How and when will the outlet be operated?

FLASHBOARDS WILL BE REMOVED, AS NECESSARY, TO PASS INFLOWS OUTSIDE OF STORAGE SEASON

c) If ODFW has determined fish are present in the stream, how do you propose to protect fish through the outlet conduit (the conduit does not constitute fish passage)?

N/A. NATURAL WATERFALL DOWNSTREAM PRECLUDES MIGRATION BY ANADRAMOUS FISH. ANY FISH, IF PRESENT, ARE NON-NATIVE SPECIES.

SECTION 8: EMERGENCY SPILLWAY

a) Describe the location and the dimensions of the spillway channel.

N/A. SEE ABOVE REGARDING FLASHBOARDS USED TO CREATE DAM.

b) How will the emergency spillway be designed to prevent erosion?

ROCK OUTCROPPINGS EXIST ON BOTH SIDES OF THE STREAM; THEREFORE, EROSION SHOULD NOT BE A PROBLEM

c) What is the maximum design flow for the spillway? (Should be able to handle high flow events. 10-year flood events? 50-year flood events?)

FLASHBOARDS HAVE BEEN REMOVED EACH FALL TO ENSURE NO IMPACT ON WINTER FLOWS. UPON RECIEPT OF STORAGE PERMIT, FLASHBOARDS WILL BE INSTALLED TO IMPOUND WATER AT THE END OF THE PERMITTED STORAGE SEASON (MAY, PER WAB ANALYSIS).

RECEIVED

APR 19 2023

OWRD

SECTION 9: WATER QUALITY

- a) Describe how the reservoir will be managed to maintain water quality in the reservoir and downstream. WATER QUALITY IMPACTS FROM YOUTH CAMP OPERATIONS WILL BE MINIMAL AND THEREFORE NOT NOTICEABLY IMPACT WATER QUALITY, NUTRIENT LOADING, BACTERIA LOADING
- b) Describe how the perimeter of the reservoir will be buffered to limit nutrient and bacteria contamination. SEE 9a
- c) Describe how annual maintenance of the reservoir will be accomplished without discharging contaminated water instream. SEE 9a

SECTION 10: PROJECT SCHEDULE (List Month and Year)

- a) Proposed date construction work will begin: RESERVOIR WAS CONSTRUCTED IN EARLY-1980S AFTER INITIAL PERMIT APPLICATION FILED WITH AND RECEIVED BY OWRD (SEE ATTACHED). IT IS NOT CLEAR WHAT HAPPENED IN RESPONSE TO THIS SUBMITTAL SINCE APPLICATION NUMBER DOES NOT APPEAR TO HAVE BEEN ASSIGNED AND WATER RIGHT WAS NOT PERMITTED. (Fish passage approval is necessary prior to construction.)
- b) Proposed date construction work will be completed: HISTORICAL STRUCTURE
- c) Proposed date water use will be completed: HISTORICAL STRUCTURE

SECTION 11: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or are served by an irrigation or other water district.

Irrigation District Name	Address	
City	State	Zip

SECTION 12: REMARKS

Attachment 2: Land Use Information Form

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. (Please attach documentation of applicable land use approvals which have already been obtained. Record of Action/land use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land Use Approval:	
DD01-3-DAR	1.7.5, 4.3-1	<input checked="" type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

THIS MEMORANDUM OF CONTRACT OF SALE of real property made this 31st day of January, 1973, between A. B. WAMPLER and MAYME WAMPLER, husband and wife, as tenants in common, hereinafter called "Vendor", and WILDERNESS TRAILS, INC., an Oregon non-profit corporation, hereinafter called "Purchaser";

W I T N E S S E T H:

Vendor has agreed to sell to Purchaser and Purchaser has agreed to buy from Vendor the following described real property situate in the County of Jackson, State of Oregon, more particularly described as follows:

The Southwest quarter of Section 2, Township 38 South, Range 3 East of the Willamette Meridian.

The Contract of Sale and related documents are to be placed in escrow with the Klamath Falls Branch of First National Bank of Oregon and all payments to be made to said Escrow Holder. Included in the Special Terms, Covenants, Conditions and Provisions is a lien by Vendor on both standing and severed timber which shall not be removed or cut until and unless there is a written agreement between the Vendor, Purchaser and the harvester or user of said timber providing for the payment of all proceeds from timber harvest and sale to the above named Escrow Holder.

WITNESS the hands and seals of the parties hereto the day and year first above written, the corporate party pursuant to a resolution of its Board of Directors.

State of Oregon

97530

Phone No. 503-899-1381

Zip Code

do hereby make application for a permit to construct the Indian Meadows reservoir

and to store the unappropriated waters of the State of Oregon, subject to existing rights.

1. The name of the stream from which the reservoir is to be filled is Dead Indian Creek

tributary to South Fork, Little Butte Creek

2. If not in channel of a stream, state how it is to be filled. it is in channel

RECEIVED

APR 19 2023

OWRD

3. The dam will be located in the Southwest 1/4 of the Southwest 1/4 of Section 2, Township 38 south, Range 3 east, W. M.

4. The maximum height will be ten feet above stream bed or ground surface at the centerline. The top width will be one feet, slope of upstream face to a three foot base slope of downstream face none (concrete knee braces), and height of dam above water line when full 2 1/2 feet.

5. The dam will be (check one) earthfill, X concrete, flashboard, other. If "other", give description:

6. Give the location, description, and dimensions of the outlet conduit: Located at center of dam, Concrete bottom, 12' wide by 10' high, bordered on each side by concrete knee braces designed to use 4 by 12 planking as a gate.

(All dams across natural stream channels must be provided with an outlet conduit, of such capacity and location to pass the normal flow of the stream at any time)

Application No.

Permit No.

7. The impounded water will be used for... recreational purposes

8. The amount of water to be stored is... three... acre feet.

9. The area submerged by the reservoir, when full, will be... 1/2... acres,
and the maximum depth of water will be ... 7 1/2... feet.

10. Give the location and dimensions of the spillway .spillway and conduit are the same...
(State whether over or around dam)

RECEIVED

APR 19 2023

OWRD

The bottom width of the spillway, B, will be12..... feet.

The top width of the spillway, T, will be12..... feet.

The distance between the crest of the dam and the crest of the spillway, D, will be 2 1/2..... feet.
(Must be at least 2 1/4 feet)

If any other type of spillway describe and give dimensions:

11. Construction work will begin on or before... May 1, 1983

12. Construction work will be completed and the reservoir filled by... June 15, 1983

Remarks:..... There are no migratory fish in the stream because of a

natural falls downstream. The elevation is approximately 4300 feet so

evaporation should be minimal. There are rock outcroppings on both sides

of the stream, thus erosion should be no problem.
