Watermaster Alternate Reservoir Application Review Sheet

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the Water Resources Department provides public notice, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

Applicant's Name		
1. Does the proposed reservoir have the potential to injure existing water rights? ✓ YES □ NO		
Explain: There are:	notream water rights on	. Beaver Creek
2. Can conditions be applied to mitigate the potential injury to existing water rights? 反 YES □ NO		
Explain: Limited storage season of December 1 - March 30 each year		
3. Is water available for the proposed reservoir? 📜 YES 🗆 NO
