Dear Permit Holder:

The Water Right Services Division received your written October 1, 2018 progress report for Permit G-9971 on December 23, 2019. Receipt of the progress report was published on the Department's weekly Public Notice, dated December 24, 2019. The Department did not receive any public comment on the progress report.

After reviewing your Progress Report, the Department determined that diligence toward completion of the project and compliance with the terms and conditions of the permit and extension has been demonstrated.

As per your most recent extension, the date by which water must be applied to full beneficial use within the terms and conditions of your permit is October 1, 2022.

If you have any questions, please feel free to contact me by telephone at (503) 986-0802.

Sincerely,

Jeffrey D. Pierceall

Conditions of Permit G-9971

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon

IN COMPLIANCE – The wells are constructed according to the General Standards.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

IN COMPLIANCE – The wells have an adequate infrastructure to determine water level elevation in the wells at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

IN COMPLIANCE – All wells include a flow measuring device and Avion Water Co. (Avion) maintains a complete record of the amount of groundwater withdrawn. Avion submits Total Water Use reports to OWRD annually.

Conditions of Extension Final order issued March 28, 2014

The permittee must submit a written progress report to the Department by October 1, 2018.

IN COMPLIANCE – This is the first Progress Report Form Avion has submitted.

The deadline for completing construction is extended from October 1, 2004 to October 1, 2022. The deadline for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2004 to October 1, 2022.

NOT YET COMPLETE – Avion has completed construction of the wells and elements of the water system. However, there are still lots within the development that have not been built out and Avion is waiting for these to be developed prior to fully developing the permit.

Appeal Rights

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. A request for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either file for judicial review, or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Application History

Permit G-9971 was issued by the Department on March 18, 1983 and modified by Permit Amendment T-7778 on September 3, 1997. The permit amendment approved seventy-one

additional points of appropriation. The permit called for actual construction to begin by March 18, 1984; and completion of construction by October 1, 1984, and complete application of water to beneficial use by October 1, 1985, each extended to 2004. On August 8, 2012, Avion Water Company, Inc. submitted to the Department an Application for Extension of Time for Permit G-9971, modified by Permit Amendment T-7778. In accordance with OAR 690-315-0050(2), on October 8, 2013, the Department issued a Proposed Final Order proposing to extend the time to complete construction and the time to fully apply water to beneficial use to October 1, 2022. The protest period closed November 22, 2013, in accordance with OAR 690-315-0060(1). No protest was filed.

Findings of Fact

The Department adopts and incorporates by reference the findings of fact in the Proposed Final Order dated October 8, 2013.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, any comments received, and information within the file, the permit may be extended subject to the following conditions:

CONDITIONS

1. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2018. A form is enclosed with this Final Order.**

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

CONCLUSION OF LAW

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0040(2).

ORDER

The extension of time for Application G-10348, Permit G-9971, modified by Permit Amendment T-7778, therefore, is approved subject to conditions contained herein. The deadline for completing construction is extended from October 1, 2004 to October 1, 2022. The deadline for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2004 to October 1, 2022.

Summary of Proposed Final Order for Extension of Time

The Department proposes to:

- Grant an extension of time for complete construction of the water system and time to apply water to full beneficial use from October 1, 2004 to October 1, 2022.
- Make the extension subject to certain conditions set forth below.

ACRONYM QUICK REFERENCE

Department – Oregon Department of Water Resources
PFO – Proposed Final Order

Units of Measure

cfs – cubic feet per second
gpm – gallons per minute

AUTHORITY

Generally, see **ORS 537.630** and **OAR Chapter 690 Division 315**.

ORS 537.630(1) provide in pertinent part that the Oregon Water Resources Department (Department) may, for good cause shown, order an extension of time within which: irrigation or other works shall be completed; the well or other means of developing and securing ground water shall be completed; or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under **ORS 539.010(5)** and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

ORS 539.010(5) provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-315-0040 provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

OAR 690-315-0050(5) states that extension orders may include, but are not limited to, any condition or provision needed to: ensure future diligence; mitigate the effects of the subsequent development on competing demands on the resource; and periodically document the continued need for the permit.

OAR 690-315-0050(6) requires the Department, for extensions exceeding five years, to establish checkpoints to determine if diligence is being exercised in the development and perfection of the water use permit. Intervals between checkpoints will not exceed five year periods.

FINDINGS OF FACT

Background

1. Permit G-9971 was granted by the Department on March 18, 1983. The permit authorizes the use of up to 0.48 cfs of water from Three Wells for group domestic use expanded for 151 families, including Irrigation of 0.5 acre lawn and garden for each household. The permit specified complete application of water was to be made on or before October 1, 1985.
2. On July 8, 1988, the Department approved Permit Amendment T-7778 (Special Order Volume 42, Page 281) authorizing an additional point of appropriation under Permit G-9971.
3. Three prior permit extensions have been granted for Permit G-9971. The most recent extension request resulted in the completion dates for construction and full application of water being extended from October 1, 1992 to October 1, 2012.
4. The permit holder submitted an "Application for Extension of Time" to the Department on August 8, 2012 requesting the time to complete construction of the water system and the time to apply water to full beneficial use under the terms and conditions of Permit G-9971 be extended from October 1, 2012 to October 1, 2022. This is the fourth permit extension requested for Permit G-9971.
5. Notification of the Application for Extension of Time for Permit G-9971 was published in the Department's Public Notice dated August 21, 2012. No public comments were received regarding the extension application.

Review Criteria [OAR 690-315-0040]

The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230¹, 537.248², 537.630³ and/or 539.010(5)⁴.

¹ORS 537.230 applies to surface water permits only.

²ORS 537.248 applies to reservoir permits only.

³ORS 537.630 applies to ground water permits only.

⁴ORS 539.010(5) applies to surface water and ground water permits.

Complete Extension of Time Application [OAR 690-315-0040(1)(a)]

6. On August 8, 2012, the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]

7. Actual construction of the well began prior to the March 18, 1984 deadline specified in the permit.

Duration of Extension [OAR 690-315-0040(1)(c)]

Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.

8. As of August 8, 2012, the remaining work to be completed consists of completing construction of the water system and applying water to full beneficial use.
9. Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2022, to complete construction of the water system and to accomplish the application of water to beneficial use under the terms and conditions of Permit G-9971 is both reasonable and necessary.

Good Cause [OAR 690-315-0040(1)(d)]

The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).

Reasonable Diligence of the Applicant [OAR 690-315-0040(2)(a)]

The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:

Amount of Construction [OAR 690-315-0040(3)(a)]

10. Work was accomplished within the time allowed in the permit or previous extension as follows:
 - a. Construction of the well and water system began prior to the March 18, 1984 deadline specified in the permit..
 - b. Work was completed (specified in the Application for an Extension of Time) during the original development time frame under Permit G-9971.

Beneficial Use of Water [OAR 690-315-0040(3)(b)]

11. The following beneficial use of water was made during the permit or previous extension time limits:
- a. Since the issuance of Permit G-9971 on March 18, 1983, a maximum rate of 0.48 cfs of water has been appropriated from the well for group domestic use expanded for 151 families, including irrigation of 0.5 acre lawn and garden for each household. The authorized amount of water the authorized use is 0.48 cfs.

Compliance with Conditions [OAR 690-315-0040(3)(c)]

12. The water right permit holder's conformance with the permit or previous extension conditions.
- a. The Department has considered the permit holder's compliance with conditions, and did not identify any concerns.

Financial Investments [OAR 690-315-0040(3)(d)]

13. Financial investments made toward developing the beneficial water use.

As of August 8, 2012, the permit holder has invested approximately \$638,250, which is approximately 52 percent of the total projected cost for complete development of this project.

Cost to Appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b)]

14. The permit holder anticipates an additional \$600,000 investment is needed for the completion of this project.

Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]

15. The Department has found good faith of the appropriator under Permit G-9971.

The Market and Present Demands for Water [OAR 690-315-0040(2)(d-e)]

The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:

16. The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife [OAR 690-315-0040(4)(a-c)].

- a. The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit G-9971; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined at such time that such application for a new water right is submitted. The points of appropriation for Permit G-9971, located within the Crooked River Basin, are not located within a limited or critical ground water area. Crooked River is located within or above any state or federal scenic waterway, however it is located within an area ranked “moderate” for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is not located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. Crooked River is not listed by the Department of Environmental Quality as a water quality limited stream.
17. Economic investment in the project to date [OAR 690-315-0040(4)(d)].
As of August 8, 2012, the permit holder has invested approximately \$638,250.
18. Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].
None have been identified.
19. Other factors relevant to the determination of the market and present demand for water and power [OAR 690-315-0040(4)(f)].
a. None have been identified.
20. OAR 690-315-0050(6) requires the Department to place a checkpoint condition on this extension of time in order to ensure diligence is exercised in the development and perfection of the water use permit. A “Checkpoint Condition” is specified under Item 1 of the “Conditions” section of this PFO to meet this condition.

Fair Return Upon Investment [OAR 690-315-0040(2)(f)]

21. Use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

Other Governmental Requirements [OAR 690-315-0040(2)(g)]

22. Delay in the development of this project was not caused by any other governmental requirements.

Unforeseen Events [OAR 690-315-0040(2)(h)]

23. None have been identified.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.630(1).
2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.630 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
4. Completion of construction and full application of water to beneficial use can be accomplished by October 1, 2022⁵, as required by OAR 690-315-0040(1)(c).
5. The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).
6. As required by OAR 690-315-0050(6) and as described in Finding 20 above, the Department has established, as specified in the "Conditions" section of this PFO (Item 1), progress checkpoints in order to ensure future diligence is exercised in the development and perfection of Permit G-9971.

Proposed Order

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time for complete construction of the water system and to apply water to beneficial use under Permit G-9971 from October 1, 2012 to October 1, 2022.

Subject to the following conditions:

⁵Pursuant to ORS 537.630(4), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

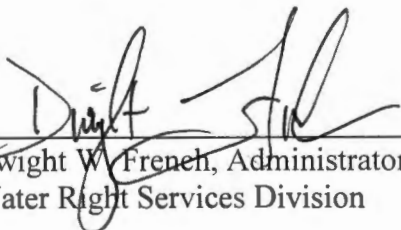

CONDITIONS

1. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2018**. *A form will be enclosed with your Final Order.*

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

DATED: October 8, 2013

Proposed Final Order Hearing Rights

1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **November 22, 2013**, being 45 days from the date of publication of the proposed final order in the Department's weekly notice.
2. A written protest shall include:
 - a. The name, address and telephone number of the petitioner;

- b. A description of the petitioner's interest in the proposed final order and if the protestant claims to represent the public interest, a precise statement of the public interest represented;
 - c. A detailed description of how the action proposed in the proposed final order would adversely affect or aggrieve the petitioner's interest;
 - d. A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
 - e. Any citation of legal authority supporting the petitioner, if known;
 - f. Proof of service of the protest upon the water right permit holder, if petitioner is other than the water right permit holder; and
 - g. The applicant or non-applicant protest fee required under ORS 536.050.
3. Within 60 days after the close of the period for requesting a contested case hearing, the Director shall:
- a. Issue a final order on the extension request; or
 - b. Schedule a contested case hearing if a protest has been submitted, and:
 - 1) Upon review of the issues, the Director finds there are significant disputes related to the proposed agency action; or
 - 2) The applicant submits a written request for a contested case hearing within 30 days after the close of the period for submitting protests.

9. List the reasons why the project was not constructed, and/or water was not beneficially used within permit time limits. *Provide supporting information for the reason(s) that best fits your circumstances (A, B, C or D).*

9-A) The project is of a size and scope that was originally planned to be phased in over a time frame longer than the one allowed in the permit.

9-B) The financial resources needed to develop the project precluded completion of the project within authorized time frames.

9-C) Good faith attempts to comply with permit conditions and/or acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.

9-D) Acts of God or other unforeseen events delayed full development of the water system and use of water within the authorized time frames.

Avion needs more time to add a well(s) to continue to serve this permitted use and to fully beneficially use Permit G-9971. Avion anticipates that it will need until 2022 to permit, finance, build, and fully develop the additional well(s).

10. Justify the time requested to complete the project and/or apply the water to full beneficial use. Your justification should combine information from your answers from Questions 2-B, 7, 8, and 9 of this Application for Extension of Time, and should also include any other information or evidence to establish that the requested amount of time is sufficient and that you will be able to complete the project within the amount of time requested.

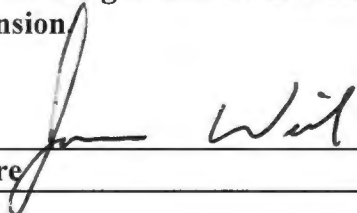

As described above, Avion needs more time to add a well(s) to continue to serve this permitted use. Avion anticipates that it will need until 2022 to permit, finance, build, and fully develop the additional well(s).

11. Provide any other information you wish OWRD to consider while evaluating your Extension of Time Application.

None.

I am the permit holder, or have authorization from the permit holder, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for OWRD to suspend processing of the request and/or reason to deny the extension

WATER RESOURCES DIRECTOR

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

Water Rights Application
Number G-10348

Final Order
Extension of Time for Permit Number G-9971

Appeal Rights

This is a final order other than contested case. Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition the Director for reconsideration of this order or petition for judicial review of this order. As provided in ORS 536.075, this order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 day time period specified by ORS 183.484(2).

Application History

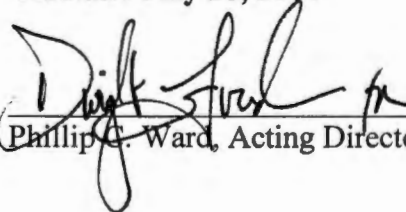

On October 4, 1999, Avion Water Co., Inc. submitted an application to the Department for an extension of time for permit number G-9971. The Department issued permit number G-9971 on March 18, 1983. The permit called for complete construction of the water development project by October 1, 1984, and application of water to full beneficial use by October 1, 1985. In accordance with OAR 690-320-0010(8), on June 1, 2004, the Department issued a Proposed Final Order proposing to extend the time to fully apply water to beneficial use to October 1, 2004. The protest period closed July 16, 2004. No protest was filed.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 537.248, 537.630 and/or 539.010(5).

Order

The extension of time for Application Number G-10348, Permit Number G-9971, therefore, is approved. The deadline for applying water to full beneficial use is extended to October 1, 2004.

Date of Priority: May 29, 1981

Authorized Use of Water

Source of Water:	Three Wells within the Deschutes River Basin
Purpose or Use:	Group Domestic for 151 families including irrigation of lawns and gardens not to exceed one-half acre in area per family (Boonesborough)
Maximum Rate:	0.48 cubic foot per second (cfs), being 0.17 cfs from well #1, 0.22 cfs from well #2, and 0.09 cfs from well #3.

This Extension of Time request is being processed in accordance with Oregon Administrative Rule Chapter 690, Division 320.

Please read this Proposed Final Order in its entirety.

This Proposed Final Order applies only to Permit #G-9971, water right Application #G-10348. A copy of Permit #G-9971 is enclosed as Attachment 1.

Summary of Proposed Final Order for Extension of Time

The Department proposes to:

- grant the extension for complete application of water from October 1, 1999, to October 1, 2004;

AUTHORITY

ORS 537.230 and ORS 537.630(1) provide in pertinent part that the Water Resources Department shall, for good cause shown, order an extension of time within which: irrigation or other works shall be completed; the well or other means of developing and securing ground water shall be completed; or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5).

ORS 539.010(5) provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-320-0010(6) provides in pertinent part that the Water Resources Department may extend the time limits to complete construction or to apply the water to a beneficial use upon showing of good cause for the untimely completion.

FINDINGS OF FACT

Background

1. Permit #G-9971 was granted by the Water Resources Department on April 18, 1983. The permit authorizes the use of up to 0.48 cfs of water from three wells, within the Deschutes River Basin, for Group Domestic use for 151 families including irrigation of lawns and gardens not to exceed one-half acre in area per family (Boonesborough). It specified that construction of the water development project should be completed by October 1, 1984, and that complete application of water was to be made on or before October 1, 1985.
2. Three prior extensions have been granted for Permit #G-9971. The most recent extension request resulted in the construction and completion dates being extended to October 1, 1999.
3. The permit holder submitted an "Application for Extension of Time" to the Department on October 4, 1999, requesting the time in which to accomplish beneficial use of water to the full extent under the terms of Permit #G-9971 be extended from October 1, 1999, to October 1, 2004.

Review Criteria [OAR 690-320-0010(6)]

As set forth under OAR 690-320-0010(6), the time limits to complete construction or to apply the water to a beneficial use may be extended upon showing of good cause for the untimely completion. The good cause determination shall consider the requirements of ORS 537.230, 537.248¹, 537.630 and 539.010(5).

Other Governmental Requirements [ORS 537.230(2)]

4. Delay in the development of this project was not caused by any other governmental requirements.

Start of Construction [ORS 537.630]

5. The applicant demonstrated that construction of the wells and water system began within the time specified in the permit, being March 18, 1984.

Financial Investment [ORS 539.010(5)]

¹ ORS 537.248 applies to reservoir permits only.

6. As of October 4, 1999, the permit holder had invested a total of \$625,000 into the project, consisting of installation of 14 service connections to homes, and installation of drive units. An additional investment of \$20,000 is anticipated for the completion of this project.

Reasonable Diligence and Good Faith of the Appropriator [ORS 537.230(1) and 539.010(5)]

Reasonable diligence during the permit period constitutes a continuing test of whether and under what conditions to grant an extension [ORS 537.260, OAR 690-320-010(9)].

7. On or prior to October 1, 1999, the following had occurred: construction of the of the wells, installation of 123 service connections to homes, installation of distribution line, installation of drives, and installation of all 151 meter stops.
8. Since the issuance of Permit #G-9971 on March 18, 1983, a maximum rate of 0.43 cfs, being approximately 89 percent of water allowed under Permit #G-9971, has been appropriated from the wells and used for group domestic purposes.
9. Delay of full beneficial use of water was due to economic conditions and location.

The Market and Present Demands for Water [ORS 539.010(5)]

10. The permit holder maintains several other water use permits and certificates in addition to Permit #G-9971. However, this permit is the sole source of water to meet current and future demands for the subject project.
11. The permit holder has established service connections to 137 of 151 residential lots, being approximately 91 percent of the permitted lots. An extension of time is necessary to allow full build-out and complete development of the project under Permit #G-9971.
12. Permit #G-9971 was issued on March 18, 1983, and is not subject to regulation or mitigation for scenic waterway flows in the Deschutes Basin [ORS 390.835(9)].
13. Permit #G-9971 has a priority date of May 29, 1981, which predates instream water rights on the Deschutes River.

Fair Return Upon Investment [ORS 539.010(5)]

14. Income from the permitted water development already results in reasonable returns upon the investment made to date.

Duration of Extension [OAR 690-320-0010(7), ORS 539.010(5)]

As set forth under OAR 690-320-0010(7), time extensions granted shall be for the reasonable time period necessary to complete construction and application of water to beneficial use.

15. As of October 1, 1999, the remaining work to be completed consists of application of water to beneficial use.
16. The scope and nature of the project extended the length of time needed to fully develop and perfect Permit #G-9971, caused by economic conditions and location.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230 and ORS 537.630.
2. The applicant has submitted an extension application form and the fee required by ORS 536.050(1)(k).
3. The applicant has pursued perfection of the right in good faith and prosecuted construction with reasonable diligence.
4. Permit #G-9971 is not subject to regulation or mitigation for scenic waterway flows.
5. Permit #G-9971 is senior to instream water rights located on the Deschutes River.
6. Given the permit holder's current water supply situation and the anticipated demands for water, there is presently a demand and market for the use of water under Permit #G-9971.
7. The Department has considered the requirements of other governmental

agencies, the financial investment made, the reasonable diligence and good faith of the appropriator, the market and present demands for water and the fair return upon the investment, and has determined that the applicant has shown good cause for the untimely completion of the water development project and complete application of water to full beneficial use pursuant to ORS 537.230(2) and ORS 537.630(1).

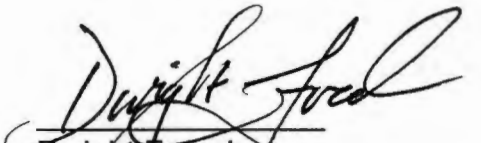

8. Given the amount of development left to occur, the Department has determined that the permittee's request to have until October 1, 2004², to complete the application of water to beneficial use under the terms of Permit #G-9971 is both reasonable and necessary.

Proposed Order

Based upon the foregoing findings of fact and conclusions of law, the Department proposes to issue an order to:

Extend the time for complete application of water to beneficial use under Permit #G-9971 from October 1, 1999, to October 1, 2004.

Protest Rights and Comments

1. Under the provisions of OAR 690-320-0010(8), you have the right to protest this proposed final order. Your protest must be in writing and must include the following:
 - a. Your name, mailing address and telephone number;

² For permits applied for or received on or before July 9, 1987, upon complete development of the permit, you must notify the Department that the work has been completed and either: (1) Hire a water right examiner certified under ORS 537.798 to conduct a survey, the original to be submitted as required by the Water Resources Department, for issuance of a water right certificate; or (2) Continue to appropriate water under the water right permit until the Water Resources Department conducts a survey and issues a water right certificate under ORS 537.250 or 537.625.

- b. Your interest in this proposed final order, and if you claim to represent the public interest, a precise statement of the public interest represented;
 - c. A detailed description of how the action in the proposed final order would impair or be detrimental to your interest;
 - d. A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
 - e. Any citation of legal authority supporting your protest, if known; and
 - f. The \$250 protest fee required under ORS 536.050(1).
2. Each person submitting a protest shall raise all reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the comment period.
 3. The Water Resources Department must receive written protests or written comments no later than **Friday, July 16, 2004.**
 4. After the close of the comment and protest period, the Director will either issue a final order, or schedule a contested case hearing if the Director finds there are significant disputes related to the use of water.

owner of record, or duly authorized agent, of Application No. G10348, Permit No. G9971, do hereby request that the time in which to:

complete the construction of diversion/appropriation works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, _____, be extended to October 1, _____,

and/or the time in which to:

accomplish beneficial use of water to the full extent under the terms of the permit, which time now expires on October 1, 1999, be extended to October 1, 2004.

NOTE: The extension of time requested should be long enough to finish the project. Should this request be approved, it will be the Department's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.

Attached is an instruction sheet to assist you in completing the information on the permit extensions application form. Oregon Water Law and Administrative Rules requires this information to be considered by the Water Resources Department when reviewing a permit extension. All items must be completed or the application will be returned. Please feel free to provide the Department with any additional information that would aid us in making our decision. Please use additional sheets of paper as needed to fully respond to the questions.

After reviewing the application form and the instruction sheet, if you have any questions, please contact the Department at 1-800-624-3199, or locally in the Salem vicinity at (503) 378-3739, and request assistance from the Water Rights Division, permit extensions personnel.

1-Did water system construction/well drilling begin within the time specified in the permit [yes/no]?
—Yes—

2-Has construction of diversion/appropriation works, distribution system, and use of water, if any, been accomplished consistent with the limitations and conditions of this permit [yes/no]? Yes

A) Please describe how you have complied with each applicable permit condition (NOTE: the instruction sheet for permit extension applications provides some direction as to what is an "applicable" condition at time of permit extension review). Time clocks have been installed to measure gallons pumped per day. Air lines have been installed in each well to measure drawdown.

B) If you have not complied with all applicable conditions, please explain the reasons why and indicate a date certain, in the near future, by which time you will be in compliance with applicable conditions. _____

3-I have accomplished the following described works, purchases and installation of equipment necessary to the use of water under said permit:

A) Within the past year or, if a prior extension was authorized, during the last permit extension period:
During extension Avion installed drive units in Boonesborough pumphouse to reduce excessive pressure swings. Installed 14 service connections for a total of 137 service connections.

B) Prior to the past year or, if a prior extension was authorized, prior to the last extension period:
Installed 123 service connections, drilled 3 wells, installed all necessary distribution lines, installed meter stops to all 151 lots.

C) I have accomplished beneficial use of water under the permit to the extent of (amount of water used or acres irrigated): Avion is delivering 192 gpm to 137 families including irrigation of lawns and gardens.

4-Cost of project to date \$625,000.00 Estimated remaining cost to complete the project \$20,000.00.

5-Please list the reasons why the project was not constructed, and/or water not beneficially used within permit time limits under the appropriate categories below. Please provide supporting information for each reason identified.

A) The project is of a size and scope that the original intent was to phase it in over a period longer than the timeframes allowed in the permit. This right encompasses 3 subdivisions located between Bend and Redmond. It was done by different developers with different time lines. Sylvan Knolls is completely served. Buena Ventura has 1 lot left to be served. Boonesborough I has 13 lots yet to be served.

B) Financing and/or cash-flow needs to develop the project precluded completion of the project within authorized timeframes. N/A

C) Good faith attempts to comply with permit conditions and/or to acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.
N/A

D) Acts of God or other unforeseen events delayed full development of the water system and use of water. Economic conditions delayed the full development as well as geographic. However, the real estate market is very good which will help develop the remaining lot.

6-Please identify the economic market or markets to which beneficial use of water under the permit is responding. Residential housing

A) Has there been any change in this market since the permit was issued? Yes it has improved greatly

B) Have these changes, if any, affected the economic feasibility of your project? No

7-Are there other present competing demands for water in your community? No

A) Has there been any change in these demands for water since the permit was issued? No

B) Are you aware of alternative sources of water that may be able to satisfy the competing demands?
No

C) Are you aware of any adverse affects on your source of water that may have been caused by recent changes in use of water in your community? No

8-Will the income or use from the water development project authorized by this permit provide reasonable returns against the investment in the project? No, Avion's rates are set by the Public Utilities Commission.

9-If the extension request is denied, is the current level of water use economically feasible? No, this would seriously impact the 14 lots yet to be served by Avion Water Co., Inc.

I am the permittee, or have authorization from the permittee, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for the Department to suspend processing of the request and/or reason to deny the extension.

REFERENCE: Application for Extension of Time

Dear Extension of Time Applicant:

The Water Right Services Division has received your application for an extension of time for **APPLICATION FILE #: G-10348 (Permit G-9971)**. Your application will be reviewed in the future. Following the review, you will receive a Proposed Final Order either approving or rejecting the extension of time request. A 45-day protest period begins upon issuance of the Proposed Final Order. After the protest period closes, a Final Order is issued.

If you are interested in having your application reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at: http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml

You may continue the use of water under your water right until the Water Resources Department formally takes action on your extension application. If your permit includes conditions, water use reporting, water level measurement reporting, etc., you are required to comply with the conditions.

Any additional development that occurs after the expired completion date, identified on the permit or an extension order, can only be claimed upon an approved extension application.

If you have questions concerning your extension of time application, please contact Jerry Gainey (503) 986-0812. For general information about the Water Resources Department, you may contact the Water Resources' Customer Service Group at (503) 986-0801 or you may access the Department's website at: www.wrd.state.or.us.

STATE OF OREGON

COUNTY OF DESCHUTES

ORDER APPROVING ADDITIONAL POINTS OF APPROPRIATION

Pursuant to ORS 537.211, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, PERMIT AMENDMENT 7778 submitted by

AVION WATER COMPANY, INC.
60813 PARRELL ROAD
BEND, OREGON 97702.

The first permit to be modified is Permit G-9341 with a date of priority of APRIL 8, 1981. The permit allows the use of THREE WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 0.66 cubic foot per second (cfs), BEING 0.22 CFS FROM EACH WELL, if available at the original points of appropriation; WELL 1 (WHISPERING PINES), WELL 2 (GLACIER VIEW), AND WELL 3 (POHAKU RANCH), or its equivalent in case of rotation, measured at the well.

The second permit to be modified is Permit G-9946 with a date of priority of FEBRUARY 27, 1981 FOR 1595 GALLONS PER MINUTE (GPM), AND NOVEMBER 12, 1982 FOR 300 GPM. The permit allows the use of 11 WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 1895 GPM, BEING 45 GPM FROM WELL A-1, 120 GPM FROM WELL A-2, 125 GPM FROM WELL B-1, 125 GPM FROM WELL B-2, 85 GPM FROM WELL C-1, 125 GPM FROM WELL D-1, 125 GPM FROM WELL E-1, 240 GPM FROM WELL F-1, 600 GPM FROM WELL F-2, 120 GPM FROM WELL G-1, and 185 GPM FROM WELL H-1, if available at the original points of appropriation; WELL A-1, WELL A-2, WELL B-1, WELL B-2, WELL C-1, WELL D-1, WELL E-1, WELL F-1, WELL F-2, WELL G-1, AND WELL H-1, or its equivalent in case of rotation, measured at the well.

The third permit to be modified is Permit G-9948 with a date of priority of JULY 2, 1981. The permit allows the use of FIVE WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 1130 gallons per minute (gpm), BEING 150 GPM FROM WELL 1, 150 GPM FROM WELL 2, 325 GPM FROM WELL 3, 180 GPM FROM WELL 4, AND 325 GPM FROM WELL 5, if available at the original points of

appropriation; WELL 1, WELL 2, WELL 3, WELL 4, AND WELL 5 (RIVERBEND #1), or its equivalent in case of rotation, measured at the well.

The fourth permit to be modified is Permit G-9971 with a date of priority of MAY 29, 1981. The permit allows the use of THREE WELLS, in the DESCHUTES RIVER BASIN, for GROUP DOMESTIC USE FOR 151 FAMILIES INCLUDING IRRIGATION OF LAWNS AND GARDENS NOT TO EXCEED ONE-HALF ACRE IN AREA PER FAMILY (BOONESBOROUGH). The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 0.48 cubic feet per second (cfs), BEING 0.17 CFS FROM WELL 1, 0.22 CFS FROM WELL 2, AND 0.09 CFS FROM WELL 3, if available at the original points of appropriation; WELL 1, WELL 2, AND WELL 3, or its equivalent in case of rotation, measured at the well.

The fifth permit to be modified is Permit G-9975 with a date of priority of JUNE 16, 1981. The permit allows the use of SEVEN WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE (GREATER BEE TREE AREA). The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 950 gallons per minute (gpm), BEING 175 GPM FROM WELL A, 100 GPM FROM WELL B, 75 GPM FROM WELL C, 150 GPM FROM WELL D, 200 GPM FROM WELL E, 150 GPM FROM WELL F, AND 100 GPM FROM WELL G, if available at the original points of appropriation; WELL A, WELL B, WELL C, WELL D, WELL E, WELL F, AND WELL G, or its equivalent in case of rotation, measured at the well.

The sixth permit to be modified is Permit G-9981 with a date of priority of NOVEMBER 19, 1981. The permit allows the use of A WELL, in the DESCHUTES RIVER BASIN, for GROUP DOMESTIC USE FOR 53 FAMILIES INCLUDING IRRIGATION OF LAWNS AND GARDENS NOT TO EXCEED ONE-HALF ACRE IN AREA PER FAMILY (GOSNEY). The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 0.18 cubic feet per second (cfs), if available at the original point of appropriation; NW $\frac{1}{4}$ NE $\frac{1}{4}$, SECTION 20, T 18 S, R 13 E, W.M.; 868 FEET SOUTH AND 368 FEET EAST FROM THE N $\frac{1}{4}$ CORNER OF SECTION 20. WELL, or its equivalent in case of rotation, measured at the well.

The seventh permit to be modified is Permit G-10000 with a date of priority of JULY 10, 1981. The permit allows the use of TWO WELLS, in the DESCHUTES RIVER BASIN, for GROUP DOMESTIC USE FOR 281 FAMILIES INCLUDING IRRIGATION OF LAWNS AND GARDENS NOT TO EXCEED ONE-HALF ACRE EACH (DESCHUTES RIVER WOODS - BAKER - TUSCARORA). The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 250 gallons per minute (gpm), BEING 100 GPM FROM WELL 1 AND 150 GPM FROM WELL 2, if available at the original points of appropriation; WELL 1 AND WELL 2, or its

equivalent in case of rotation, measured at the well.

The eighth permit to be modified is Permit G-12788 with a date of priority of MAY 18, 1992 FOR 11210 GALLONS PER MINUTE (GPM), AND DECEMBER 4, 1992 FOR 95 GPM. The permit allows the use of 39 WELLS, tributary to the DRY RIVER in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 11305 GPM, if available at the original points of appropriation; WELL A, WELL B-1, WELL B-2, WELL C-1, WELL C-2, WELL C-3, WELL D-1, WELL D-2, WELL D-3, WELL E-1, WELL E-2, WELL F-1, WELL F-2, WELL G-1, WELL G-2, WELL H-1, WELL H-2, WELL I, WELL J, WELL K, WELL L, WELL M, WELL O, WELL P, WELL Q, WELL S, WELL T, WELL V, WELL X, WELL Y, WELL Z-1, WELL Z-2, WELL A-1, WELL A-2, WELL N-1, WELL N-2, WELL R, WELL U, AND WELL W, or its equivalent in case of rotation, measured at the well.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be reduced.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

The applicant proposes to add additional points of appropriation so that water under these permits may be appropriated from any one, or any combination of, the following wells:

WELL 1 (WHISPERING PINES) - SE $\frac{1}{4}$ SE $\frac{1}{4}$, SECTION 21, T 16 S, R 12 E, W.M.; 20 FEET NORTH AND 20 FEET WEST FROM THE SE CORNER OF SECTION 21.

THIS CHANGE TO THESE EXISTING WATER PERMITS MAY BE MADE PROVIDED THE FOLLOWING CONDITIONS ARE MET BY THE WATER USER:

1. The quantity of water diverted at the new points of appropriation (wells), together with the quantity diverted at the old points of appropriation, shall not exceed the quantity of water lawfully available from the original points of appropriation.
2. The quantity of water diverted from any well or combination of wells, shall not exceed the total quantity of water authorized by the permits.
3. The water user shall install in-line flow meters or other suitable devices for measuring and recording the quantity of water used. The types and plans of the measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
4. If substantial or undue interference with an existing well used under an existing right, including existing exempt uses, occurs, and such interference can be shown to the satisfaction of the Department to result from the change in the way the water right permits are exercised as authorized herein, the use of water from the wells authorized by this permit amendment causing the interference shall be regulated to mitigate the interference.
5. Water shall be acquired from the same aquifer as the original points of appropriation.
6. All other terms and conditions of the permits remain the same.

Permits G-9341, G-9946, G-9948, G-9971, G-9975, G-9981, G-10000, and G-12788, all in the name of AVION WATER COMPANY, INC., are amended as described herein.

Martha O. Pagel, Director

BEFORE THE WATER RESOURCES DEPARTMENT OF OREGON

IN THE MATTER OF APPLICATION FOR)
 EXTENSION OF TIME IN WHICH TO)
 COMPLETE CONSTRUCTION WORK AND) OREGON
 MAKE COMPLETE APPLICATION OF WATER)
 UNDER CERTAIN PERMITS)

The owners of the following water permits issued by the Water Resources Director have submitted applications for extensions of time limits within which to complete the construction work and/or make complete application of water to beneficial use under their respective permits.

The Water Resources Director is authorized under the provisions of ORS 537.230 to grant extensions of time for good cause shown, within which to complete work to perfect a water right under a permit;

The statements in the applications for extensions filed regarding completion of the projects indicate that each has shown such reasonable diligence as entitles him to an extension of time; and

No protest or objections to the granting of an extension under any of the following permits have been filed by any subsequent permit holders;

NOW, THEREFORE, it hereby is ORDERED that extensions of time are granted as follows:

COUNTY OF DESCHUTES

ORDER APPROVING ADDITIONAL POINTS OF APPROPRIATION

Pursuant to ORS 537.211, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, PERMIT AMENDMENT 7778 submitted by

AVION WATER COMPANY, INC.
60813 PARRELL ROAD
BEND, OREGON 97702.

The first permit to be modified is Permit G-9341 with a date of priority of APRIL 8, 1981. The permit allows the use of THREE WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 0.66 cubic foot per second (cfs), BEING 0.22 CFS FROM EACH WELL, if available at the original points of appropriation; WELL 1 (WHISPERING PINES), WELL 2 (GLACIER VIEW), AND WELL 3 (POHAKU RANCH), or its equivalent in case of rotation, measured at the well.

The second permit to be modified is Permit G-9946 with a date of priority of FEBRUARY 27, 1981 FOR 1595 GALLONS PER MINUTE (GPM), AND NOVEMBER 12, 1982 FOR 300 GPM. The permit allows the use of 11 WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 1895 GPM, BEING 45 GPM FROM WELL A-1, 120 GPM FROM WELL A-2, 125 GPM FROM WELL B-1, 125 GPM FROM WELL B-2, 85 GPM FROM WELL C-1, 125 GPM FROM WELL D-1, 125 GPM FROM WELL E-1, 240 GPM FROM WELL F-1, 600 GPM FROM WELL F-2, 120 GPM FROM WELL G-1, and 185 GPM FROM WELL H-1, if available at the original points of appropriation; WELL A-1, WELL A-2, WELL B-1, WELL B-2, WELL C-1, WELL D-1, WELL E-1, WELL F-1, WELL F-2, WELL G-1, AND WELL H-1, or its equivalent in case of rotation, measured at the well.

The third permit to be modified is Permit G-9948 with a date of priority of JULY 2, 1981. The permit allows the use of FIVE WELLS, in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 1130 gallons per minute (gpm), BEING 150 GPM FROM WELL 1, 150 GPM FROM WELL 2, 325 GPM FROM WELL 3, 180 GPM FROM WELL 4, AND 325 GPM FROM WELL 5, if available at the original points of

equivalent in case of rotation, measured at the well.

The eighth permit to be modified is Permit G-12788 with a date of priority of MAY 18, 1992 FOR 11210 GALLONS PER MINUTE (GPM), AND DECEMBER 4, 1992 FOR 95 GPM. The permit allows the use of 39 WELLS, tributary to the DRY RIVER in the DESCHUTES RIVER BASIN, for QUASI-MUNICIPAL USE. The amount of water to which this permit is entitled is limited to an amount actually beneficially used and shall not exceed 11305 GPM, if available at the original points of appropriation; WELL A, WELL B-1, WELL B-2, WELL C-1, WELL C-2, WELL C-3, WELL D-1, WELL D-2, WELL D-3, WELL E-1, WELL E-2, WELL F-1, WELL F-2, WELL G-1, WELL G-2, WELL H-1, WELL H-2, WELL I, WELL J, WELL K, WELL L, WELL M, WELL O, WELL P, WELL Q, WELL S, WELL T, WELL V, WELL X, WELL Y, WELL Z-1, WELL Z-2, WELL A-1, WELL A-2, WELL N-1, WELL N-2, WELL R, WELL U, AND WELL W, or its equivalent in case of rotation, measured at the well.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

Abstract of Permit

This is to certify that I have examined APPLICATION **G-10348** and do hereby grant the same SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

This permit is issued to **Avlon Water Co., Inc., 60813 Parrell Road, Bend, Oregon 97702, phone 382-5342** for use of the waters of 3 wells being 0.17 cubic foot per second from Well 1, 0.22 cfs from Well 2, 0.09 cfs from Well 3

for the PURPOSE of **group domestic use for 151 families including irrigation of lawns and gardens not to exceed one-half acre in area per family (Boonesborough)**

that the PRIORITY OF THE RIGHT dates from **May 29, 1981**

and is limited to the amount of water which can be applied to beneficial use and shall not exceed **0.48 cfs**

measured at the point of diversion from the **wells**, or its equivalent in case of rotation with other water users.

The well is to be LOCATED: **Well 1 - 930 feet South and 735 feet West from N 1/4 Corner of Section 36, being within the NE 1/4 NW 1/4 of Section 36; Well 2 - 330 feet North and 170 feet West from the E 1/4 Corner of Section 36, being within the SE 1/4 NE 1/4 of Section 36; Well 3 - 740 feet North and 1,217 feet West from the SE Corner of Section 26, being within the SE 1/4 ***

A description of the PLACE OF USE under the permit, and to which such right is appurtenant, is as follows:

* **SE 1/4 of Section 26; all in Township 16 South, Range 12 East, WM, in the County of Deschutes.**

Township 16 South, Range 12 East, WM	Section 25	<u>Group Domestic</u>

		NE 1/4	
		NE 1/4	SE 1/4
		NW 1/4	SE 1/4
		NE 1/4	SW 1/4

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before **March 18, 1984**, and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 **84**.

Complete application of the water to the proposed use shall be made on or before October 1, 19 **85**.

Witness my hand this **18th** day of **March**, 19 **83**.

By way of background; from 1989 through 2000 Avion Water Company embarked upon a very major improvement in its water delivery system. A large number of small wells were removed from service, and connected to large storage reservoirs by large diameter pipes. The water rights permits associated with the small wells were transferred to the new well sites. The transfer was approved by OWRD. Subsequent to the approval of the transfer the claim of beneficial use was made for the rights.

Is it possible for the Department to Certificate the rights for which the final proof survey has been submitted some three and half years ago? If that were so, the extension of the above referenced permit would become moot.

Thank you for your consideration.

Dear Dwight,

The proposed final order for the above referenced Permit is actually a little behind the times. The point of diversion was transferred in 1999, the transfer was approved by OWRD. The OWRD file no. is T-7778, the transfer was filed by Bruce Estes.

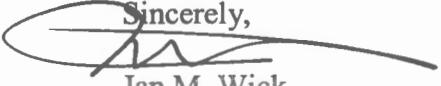

Further, a claim of beneficial use was made for this permit on January 18th 2000 by Bruce Estes on Avion Water Companies behalf. The claim of beneficial use covers a number of water rights that had been transferred to centralized well pumping locations as Avion Water Company modernized and centralized its system (see enclosed).

By way of background; from 1989 through 2000 Avion Water Company embarked upon a very major improvement in its water delivery system. A large number of small wells were removed from service, and connected to large storage reservoirs by large diameter pipes. The water rights permits associated with the small wells were transferred to the new well sites. The transfer was approved by OWRD. TIE: The maps are tied to quad maps.

REMARKS: This is a very large water provider. All of the wells included in this claim are interconnected through a common mainline system which forms the well net.

An inspection of the system under the terms of transfer T-7779 was made by me on January 5 & 5, 2000, and the facts contained in this report and accompanying map are correct to the best of my knowledge.

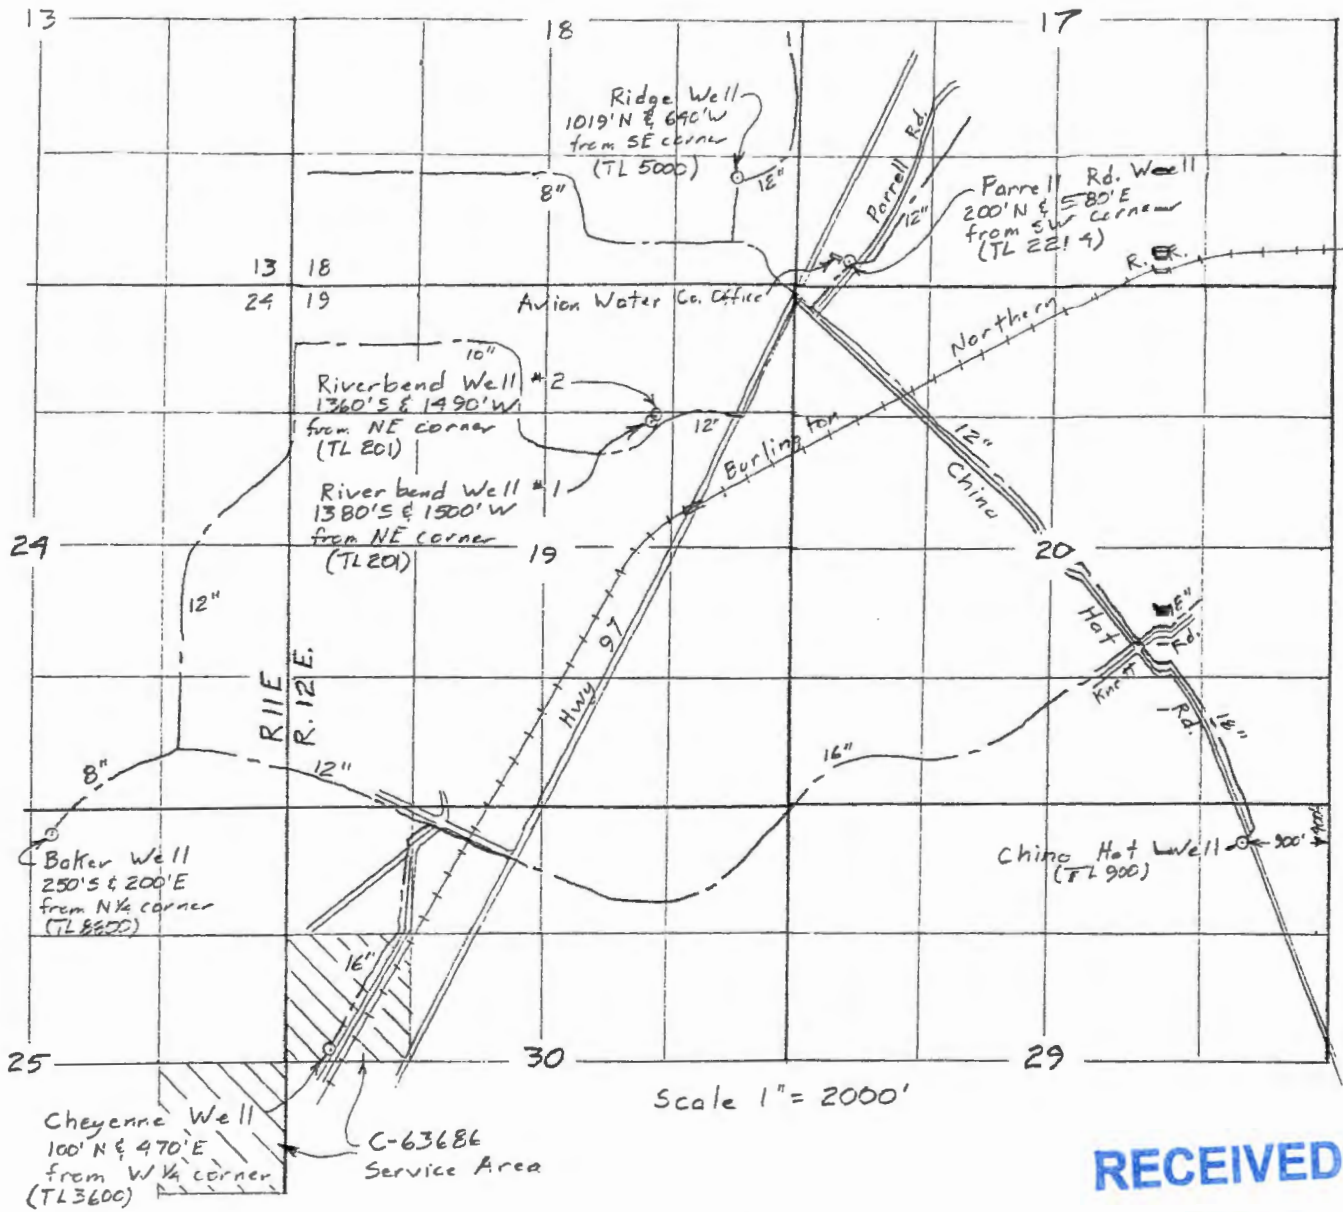

I, Jan Wick, owner, agree with Mr. Estes' findings and submit this site report and map as my Claim of Beneficial Use of the water as provided under the terms and conditions of transfer T-7779 and hereby request a water right certificate be issued.

FINDINGS OF FACT

Background

1. Permit #G-9971 was granted by the Water Resources Department on April 18, 1983. The permit authorizes the use of up to 0.48 cfs of water from three wells, within the Deschutes River Basin, for Group Domestic use for 151 families including irrigation of lawns and gardens not to exceed one-half acre in area per family (Boonesborough). It specified that construction of the water development project should be completed by October 1, 1984, and that complete application of water was to be made on or before October 1, 1985.
2. Three prior extensions have been granted for Permit #G-9971. The most recent extension request resulted in the construction and completion dates being extended to October 1, 1999.
3. The permit holder submitted an "Application for Extension of Time" to the Department on October 4, 1999, requesting the time in which to accomplish beneficial use of water to the full extent under the terms of Permit #G-9971 be extended from October 1, 1999, to October 1, 2004.

Review Criteria [OAR 690-320-0010(6)]

As set forth under OAR 690-320-0010(6), the time limits to complete construction or to apply the water to a beneficial use may be extended upon showing of good cause for the untimely completion. The good cause determination shall consider the requirements of ORS 537.230, 537.248¹, 537.630 and 539.010(5).

Other Governmental Requirements [ORS 537.230(2)]

4. Delay in the development of this project was not caused by any other governmental requirements.

Start of Construction [ORS 537.630]

5. The applicant demonstrated that construction of the wells and water system began within the time specified in the permit, being March 18, 1984.

Financial Investment [ORS 539.010(5)]

¹ ORS 537.248 applies to reservoir permits only.

WATER RESOURCES DEPT
SALEM, OREGON

Fair Return Upon Investment [ORS 539.010(5)]

14. Income from the permitted water development already results in reasonable returns upon the investment made to date.

Duration of Extension [OAR 690-320-0010(7), ORS 539.010(5)]

As set forth under OAR 690-320-0010(7), time extensions granted shall be for the reasonable time period necessary to complete construction and application of water to beneficial use.

15. As of October 1, 1999, the remaining work to be completed consists of application of water to beneficial use.
16. The scope and nature of the project extended the length of time needed to fully develop and perfect Permit #G-9971, caused by economic conditions and location.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230 and ORS 537.630.
2. The applicant has submitted an extension application form and the fee required by ORS 536.050(1)(k).
3. The applicant has pursued perfection of the right in good faith and prosecuted construction with reasonable diligence.
4. Permit #G-9971 is not subject to regulation or mitigation for scenic waterway flows.
5. Permit #G-9971 is senior to instream water rights located on the Deschutes River.
6. Given the permit holder's current water supply situation and the anticipated demands for water, there is presently a demand and market for the use of water under Permit #G-9971.
7. The Department has considered the requirements of other governmental

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Actual construction work shall begin on or before March 18, 1984, and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1984. Extended to October 1, 1989, extended to 10-1-94, 10-1-99

Complete application of the water to the proposed use shall be made on or before October 1, 1985. Extended to October 1, 1989, extended to 10-1-94, 10-1-99

Witness my hand this 18th day of March, 1983.

WATER RESOURCES DIRECTOR

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

We have received \$700 along with requests to extend the time limits for the following permits: G-9946, G-9971, G-9972, G-9975, G-9948, G-10000, and G-10019.

I know Avion Water Company, Inc. has several other permits. Perhaps you have a complete understanding of the terms and conditions of the various permits, but with this group, it appears some of the limits are nearly satisfied, so we would appreciate a little more information. During the peak demand for water usage, what has been the maximum amount of water diverted under each permit? This should be a figure in gallons per minute or cubic foot per second.

Also, for those permits identifying a number of families for group domestic purposes, you will be restricted to that number. On the other hand, if all of the lots will not or cannot be developed, please advise us and let us know when you have appropriated the maximum amount of water.

Further action will be withheld on these files for a reasonable length of time pending your reply.

Gentlemen:

Your applications for an extension of the time limits in which to complete construction and make complete application of water under the terms of your Permits Numbered G-9982, G-9999, G-8258, G-9972, and G-9971 were received. We also have your check in the amount of \$500.

The applications indicate reasonable diligence has been exercised toward completion of the proposed projects; therefore, the time limits to complete construction and make complete application of water for the first three applications are being extended to October 1, 1988 and the time limits for the last two are being extended to October 1, 1989.

Sincerely,

Bruce A. Estes, Supervisor

Dear Mr. Tolve:

REFERENCE: File G-10348

Thank you for returning Application G-10348 and the accompanying map.

Now that it has been established that this application should properly be filed as group domestic use from three wells, we can proceed with the proper corrections needed to get this application into satisfactory form for issuance of a permit.

In Item 7 of the application, the uses should now be stated as follows: 'Group domestic for 149 families, irrigation, and maintenance of a fire suppression system.' The amount of water to be appropriated from each well must be broken down to the amount of water to be appropriated from each well for each use.

The maps must show the location of the 60 current users and the 89 future users, the acreage to be irrigated must be crosshatched and outlined with the number of acres to be irrigated in each quarter-quarter section written on the maps, and the fire protection system should be shown on the maps.

In Item 3 of the application, please list the number of families to be supplied, the number of acres to be irrigated, and fire protection in each quarter-quarter section. This information should agree with your maps.

The application requires an examination fee of \$20 and permit recording fees based on the use. For irrigation, the recording fee is \$10 for the first 30.0 acres and 0.30 per acre over 30.0. For domestic use, the recording fee is \$15 for the first cubic foot per second of water and \$2 each additional cfs. For fire protection, the recording fee is \$15 for the first cfs and \$2 each additional cfs. Please submit the necessary fees to complete this application (Note: \$37 has already been received).

Dear Mr. Ramsay:

REFERENCE: File G-10348

Your Application G-10348 describing the proposed use of 550 gallons of water per minute from three wells for quasi-municipal use, together with the maps and the attachment, has been reviewed. I apologize for the delay in processing your application.

There are some corrections needed to your application before it is ready for issuance of a permit.

The N 1/2 SW 1/4 of Section 36 is listed as an area of use in Item 3 of your application. On the map, there is no use shown in the NW 1/4 SW 1/4 of Section 36. Please amend Item 3 of your application and/or the map to correctly locate the areas of use.

Please list the types of use in Item 3 of your application.

According to your maps and Item 10 of your application, it would appear that this application should not have been filed as quasi-municipal, but as group domestic, irrigation and fire protection, especially if there is no industrial or commercial uses of water.

If quasi-municipal is to be changed to group domestic, irrigation and fire protection, then the land to be irrigated and the houses must be shown on the map. The number of houses and acreage to be irrigated must be broken down by quarter-quarter section and listed in Item 3 of your application and on the maps. All information on the maps and in the application must be in ink.

If you do not wish to have Permit G-8089 any longer, then this permit must be dropped before a new permit can be issued for the same area. Please state that you do not intend to make proof on Permit G-8089 which is in conflict with this application.

We have received your applications for use of water for quasi-municipal along with the supporting data and fees. Our Receipts 24316, 24315, and 24314 are enclosed. Your applications have been filed and assigned numbers G-10347, G-10348, and G-10349.

Because of the many applications which have been filed in recent months, we are temporarily behind in our processing. Your applications will be examined in detail as soon as possible. We will contact you if we need any additional information. If permits are required to satisfy the conditions of a loan or land sale or if other emergency conditions exist, please let us know and we will attempt to process your applications in the shortest possible time.

The permits approving your applications will be issued without further correspondence if no additional information is required. The proposed appropriation will be subject to existing minimum flows and demands of prior rights during periods of low water.

Thank you for your patience.
