R-11956

STATE OF OREGON

COUNTY OF CURRY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PETERS CRANBERRIES INC
PO BOX 301
LANGLOIS OR 97450

confirms the right to store water perfected under the terms of Permit R-11956. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-80798

SOURCE OF WATER: AN UNNAMED STREAM, A TRIBUTARY OF SUMMERS CREEK

STORAGE FACILITY: AN UNNAMED RESERVOIR

PURPOSE OR USE OF THE STORED WATER: CRANBERRY USE

VOLUME: 5.2 ACRE-FEET EACH YEAR

PERIOD OF USE: WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD DECEMBER 1 THROUGH APRIL 30

DATE OF PRIORITY: DECEMBER 29, 1995

The dam is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	33	SE SW	1845 FEET EAST AND 30 FEET NORTH FROM SW CORNER, SECTION 33

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
31 S	15 W	WM	33	SE SW

Measurement, recording and reporting conditions:

A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The water user may be required in the future to install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion.

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8".

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

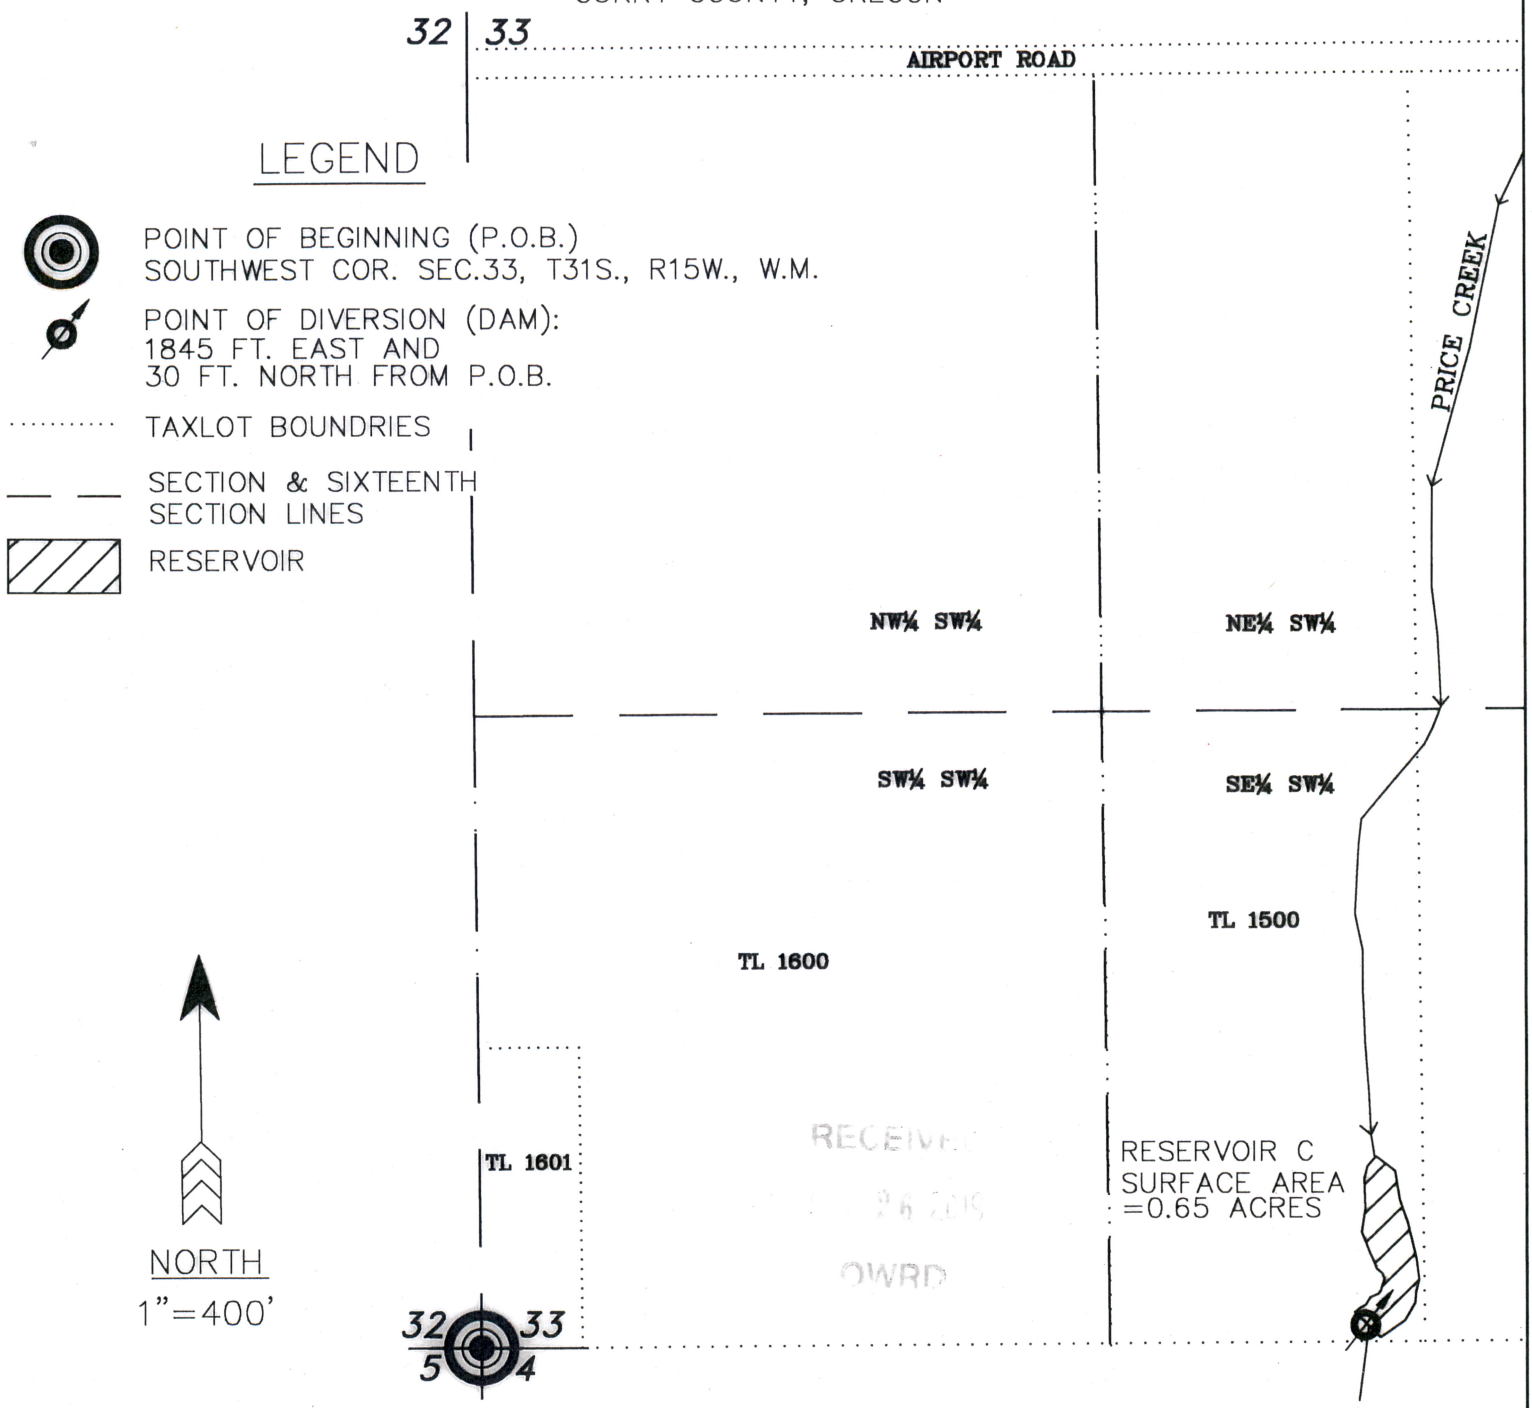

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to store water for the above purpose is restricted to beneficial use at the place of use described.

NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this Department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

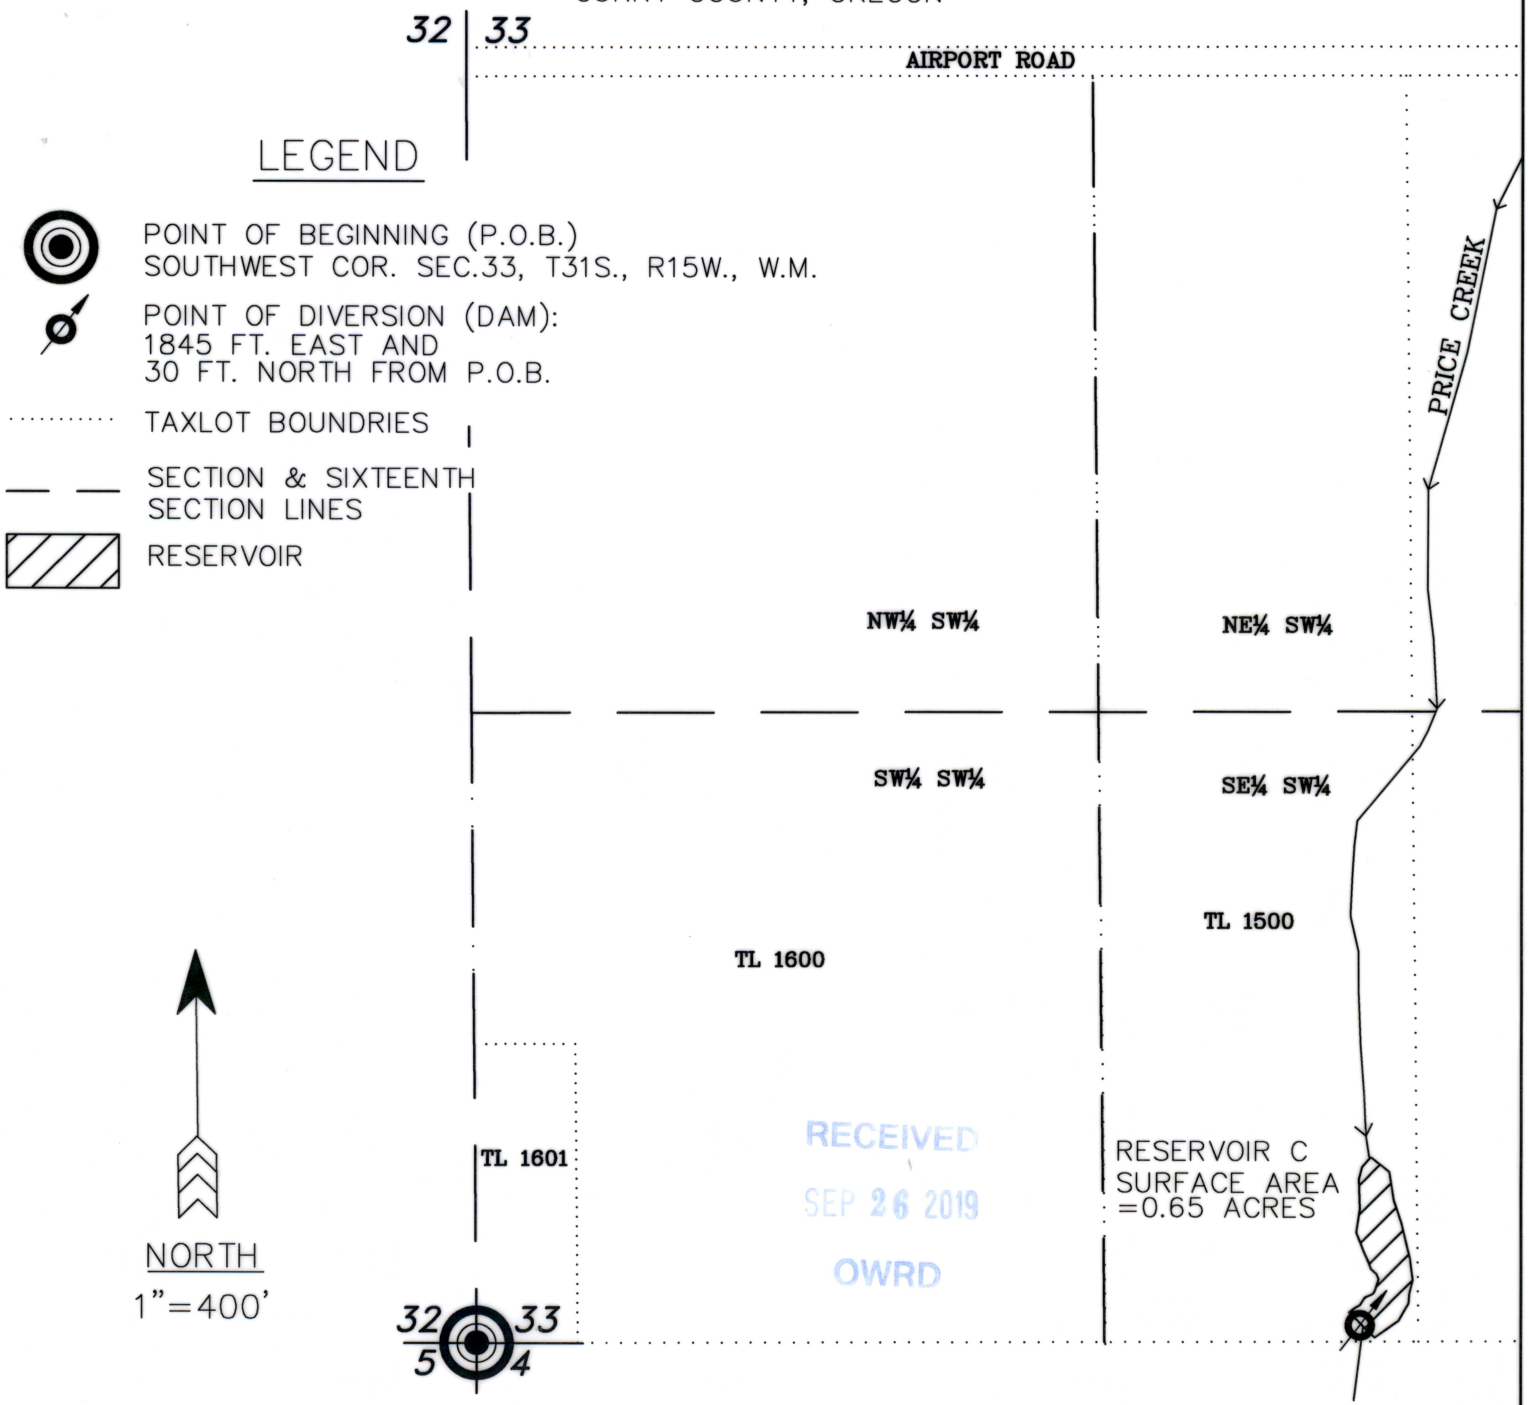

The certificate is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-979-9103.

NOTICE

Reference: Application R-80798, Permit R-11956

Enclosed is a proposed certificate of water right and map. The map and proposed certificate represent the extent water was used within the terms of the permit based upon Claims of Beneficial Use, prepared by a Certified Water Right Examiner, that either you or a previous permit holder submitted.

The certificate is the final step in the water right process. The Department encourages you to review this proposal. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Mary Bjork at 503-986-0817.

If you have any other questions please contact Jonnine Skaug at 503-986-0813.

Sincerely,

Dwight French

Measurement, recording and reporting conditions:

A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion.

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

[redacted]

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

Hi Gerry,

I got a WRIS error on this older permit that has an incorrect township on the document for the POU. It says 3S, but is in Curry county and all other info says 31S. You may have gotten an email from Sheila re: this in 2016. This is the second WRIS error we have gotten. I am not sure you do anything on older permit like this, but I had to let you know.

Thanks,

Marc,

Jeffrey is correct, the permit holder may be able to prepare their own Claim for this permit because the reservoirs were applied for under ORS 537.409. In addition to being evaluated under this statute, they would also have to meet the following criteria:

1. The permit was issued under the authority of ORS 537.409.
2. No secondary permit exists for the use of water stored in the reservoir.
3. The developed capacity of the reservoir is less than 9.2 acre-feet.
4. The water was stored by the date required in the permit.

Here is a link to the entire Claim form than owner can use.

Hope this helps.

Marc,

I have been performing some research related to your questions.

You are correct, there is not currently a secondary right to use water that was authorized to be stored under Permit R-11956. This is something that they will need to remedy. The reservoir permit only allows them to store water, not use the water. We do see this as it relates to reservoir permits because one of our surface water permit processes does not allow for an application for the use of stored water to be filed until there is an existing stored water right for the source; either a permit or certificate.

You can certainly explain the issue of the location of the storage in the Claim. I have attached a copy of the original application and a second map from the file that describes the locations of the reservoirs.

Please let me know if you want to discuss this further. I plan to be in the office all day today.

Subject: COBU Question R11956

Hey Gerry,

I have an interesting permit for you that some clients of mine are hoping to get certified sooner than later. Client is Peter's Cranberries, they have a good amount of cranberry bogs here and they also have a "Mini Oceansprey" processing and juicing plant. Anyway, their bogs have had quite the mess of water rights for a while, I just submitted 2 extensions today for their other 2 permits. They hired me as a general water right consultant just to figure out what they all have exactly. They acquired the bogs in 2007 after grandpa's sudden death and Grandpa, Roy Peters, had done all the water rights work previously, so they never really even knew what they had or what Roy's vision/plan was. Enough of the background, my apologies.

The permit I am looking at is permit R11956 App R80798. The thing I find very interesting about this one is the blank for an associated S permit/application to divert the stored water.... This is interesting because most their other water rights (Certificates
85020, 85021, 88295, 88297) were all transferred under T7514 to one of the two Reservoirs. Have you ever seen this before? Is it something we would need to apply for a surface right for?

Also, the Permit calls out the SE-SW and SW-SE QQ of Section 33. The Peters do not own any land in the SW-SE QQ and it should be SW-SW (That's where the reservoirs are). But I am thinking that something I can explain in the COBU...

Anyway, I figured I would give you a quick rundown and the permit #'s quickly over email so we can chat whenever you get a chance to look it over. I hope the New Year is treating you well.

Sincerely,

One acre-foot is the volume of water that would cover one acre with one foot of water. To find out how much water your pond stores, multiply the surface area by the average depth. This will give you a rough estimate of cubic feet. One acre-foot equals 43,560 cubic feet. To be eligible to apply under the expedited review process (HB 2376, 1995), your pond must store less than 400,752 cubic feet (43,560 X 9.2).

Completeness Checklist for Permit Extension of Time Application

Minimum completeness criteria for Extension of Time Applications are set forth in OAR 690-086-0020(3) for NON-Municipal or NON-Quasi-Municipal permits and in OAR 690-086-0070(3) for Municipal or Quasi-Municipal permits.

☑ **1.** Pull the permit file. If a copy of the permit is not in the file, pull up an image of the permit in WRIS.

☑ **2.** Is the permit to be extended Non-Cancelled according to WRIS and the permit file? _____

If the permit has been cancelled, the Extension Application cannot be accepted.

☑ **3.** Is the extension applicant's name and mailing address supplied? yes

If yes, is the applicant a permit holder of record *(i.e., permit issued or assigned to them)*? no

If the extension applicant is **NOT** a permit holder of record, a *"Request for Assignment"* must be accepted and processed before the Extension Application can be processed.

If an Assignment has **not** yet occurred, and is **not** submitted with the Extension of Time Application, the application cannot be accepted.

* ***NOTE:*** The applicant **may** submit a complete *"Request for Assignment,"* at the same time, which **must** include the statutory fee of $85 for the assignment, required proof of ownership, or signature of previous permit holder, in addition to all necessary items required for the Extension of Time Application so that **both applications can be accepted**.

☑ **4.** Is the appropriate Extension of Time Application used? yes

If the wrong application form is used, the Extension Application cannot be accepted.

- If a Municipal or Quasi-Municipal permit, use: *"Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits."*
- If a NON-Municipal or NON-Quasi-Municipal permit, use: *"Application for Extension of Time for a Water Right Permit (Non-Municipal / Non-Quasi-municipal Water Use)."*

☑ **5.** Are the requested date(s) for extension identified *(Page 1)*? yes

- Check the permit to see if it includes a "B-Date" and/or a "C-Date."

"B-Date" = date by which construction of the water delivery system for the permit is to be completed.

"C-Date" = date by which full beneficial use of water under the permit is to be accomplished.

NOTE: For permits with both a "B-Date and a "C-Date," the applicant will likely request an extension of both dates *(i.e., to complete construction of the water delivery/distribution system and to apply water to full beneficial use)*. Unless, of course, construction of the water delivery system is complete. In which case, the applicant would likely only request an extension of the "C-Date" *(i.e., to apply water to full beneficial use)*.

For permits with only a "C-Date," the applicant will only be requesting an extension of the date in which to apply water to full beneficial use.

☑ **6.** Is the Extension Application signed (with an original signature) by permit holder(s) of record or an authorized agent? _____

(If signed by agent, documentation from the permit holder(s) granting authorization for the agent to sign on their behalf must be provided or be present and current in the permit file.)

If **not** signed by a permit holder of record or authorized agent, the Extension Application cannot be accepted.

NOTE: If the permit covers land that has been subdivided and assigned to different, individual parties… we only need signatures of the permit holder(s) of record for the portion of the permit involved in the Extension of Time Application.

☑ **7.** Are all questions on the application answered? yes

(NOTE: Supporting documentation such as: copies of the permit/well log(s), annual water use reports, static water level measurement reports, evidence demonstrating construction/work/water use accomplished, etc. may be included.)

The tables below are informational only. No need to check off.

■ NON-Municipal or NON-Quasi-Municipal Permit Extension Applications:

▪ **Ques. #1** - Information provided on beginning of construction ("A" Date) under the permit.	▪ **Ques. #5-C** - Well location information provided and whether a permit amendment is necessary.
▪ **Ques. #2** - Information provided on compliance with permit conditions.	▪ **Ques. #6** - Information provided on number of acres irrigated, if applicable.
▪ **Ques. #3** - Description provided of progress made in developing the permit.	▪ **Ques. #7** - Description provided of remaining work left to be accomplished to perfect the permit.
▪ **Ques. #4** - Monetary investment made in the project to date provided.	▪ **Ques. #8** - Description provided of estimated cost to complete the project associated with the permit.
▪ **Ques. #5-A** - Max amount of water beneficially used to date for a SW permit indicated.	▪ **Ques. #9** - Explanation provided of why the permit has not been fully developed/perfected.
▪ **Ques. #5-B** - Well construction information provided and max amount of water beneficially used to date for a GW permit indicated.	▪ **Ques. #10** - Justification provided of why the requested time is necessary to complete project.

■ Municipal/Quasi-Municipal Permit Extension Applications:

▪ **Ques. #2** – For Quasi-Municipal permits only, information provided on beginning of construction ("A" Date) under the permit.	▪ **Ques. #8** - Estimate provided of current peak water demand of the population served and the methodology used to make the estimate.
▪ **Ques. #3** – For Municipal permits issued on or after June 29, 2005, information provided on beginning of construction ("A" Date).	▪ **Ques. #9** - Explanation provided of why the permit has not been fully developed/perfected.
▪ **Ques. #4** - Description provided of progress made in developing the permit and financial expenditures made in the project to date.	▪ **Ques. #10-A** - Estimate provided of demand projection for the permit, the methodology used to make the estimate and anticipated date for full beneficial use of the permit.
▪ **Ques. #5-A & #5-B -** Information provided on compliance *(or non-compliance)* with permit conditions.	▪ **Ques. #10-B** – For extension requests greater than 50 years, documentation provided that the demand projection is consistent with the lands and uses proposed to be served by the permit holder.
▪ **Ques. #6-A** - Max amount of water beneficially used to date for a SW permit indicated.	▪ **Ques. #11** – Estimate of costs to complete the project and a summary of future schedule to complete construction / perfect the water right.
▪ **Ques. #6-B** - Well construction information provided and max amount of water beneficially used to date for a GW permit indicated.	▪ **Ques. #12** - Justification provided of why the requested time is necessary to complete project and/or apply water to full beneficial use.
▪ **Ques. #6-C** - Well location information provided and whether a permit amendment is necessary.	▪ **Ques. #14**- A copy of any agreements regarding use of the undeveloped portion of the permit and maintaining the persistence of fish, if applicable.
▪ **Ques. #7** – Estimate provided of current population served under the permit and the methodology used to make the estimate.	▪ **Attachment A** – A tabular inventory of the water supplier's water rights and any other water use authorizations.

☑ **8.** Has the $575 fee been paid? yes

***If applicable**, has the $85 fee for the Assignment been paid? yes

(As of July 1, 2013, the Extension of Time fee is $575, and Request for Assignment fee is $85)

If the fee has **NOT** been paid, the application cannot be accepted.

***NOTE:** If the fee is the only item missing, contact the applicant to see if they can submit the fee with the next few days. If the applicant commits to submitting the fee within one week, hold the Extension Application, and explain to them that if it is not received the application will be returned (as we are required to keep any application, regardless of how complete, if retained by the Department as long as two weeks.*

☐ **9.** If after completing this checklist, it is not clear whether the application can be accepted, please route both the money slip and Extension Application to **Extension Specialist,** or **Anne Reece** for municipal and quasi-municipal applications. One will either: **1)** accept the application; **2)** return the application; or **3)** prepare a deficiency letter.

REFERENCE: Application for Extension of Time

Dear Extension of Time Applicant:

The Water Right Services Division has received your application for an extension of time for **APPLICATION FILE #: R-80798 (Permit R-11956).** Your application will be reviewed in the future. Following the review, you will receive a Proposed Final Order either approving or rejecting the extension of time request. A 45-day protest period begins upon issuance of the Proposed Final Order. After the protest period closes, a Final Order is issued.

You may continue the use of water under your water right until the Water Resources Department formally takes action on your extension application. If your permit includes conditions, water use reporting, water level measurement reporting, etc., you are required to comply with the conditions.

Any additional development that occurs after the expired completion date, identified on the permit or an extension order, can only be claimed upon an approved extension application.

If you have questions concerning your extension of time application, please contact Corey Courchane at (503) 986-0825. For general information about the Water Resources Department, you may contact the Water Resources' Customer Service Group at (503) 986-0801 or you may access the Department's website at: www.wrd.state.or.us.

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2004.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2004. The fee for submitting a claim of beneficial use is $175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is $575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (March 17, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a $450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, you may contact me at the address above or by telephone at 503-986-0817.

Jerry Sauter

PROPOSED FINAL ORDER

In the Matter of the Application for an Extension of Time for Permit R-11956, Water Right Application R-80798, in the name of Peters Cranberries, Inc.

Permit Information

Application:	R-80798
Permit:	R-11956
Basin:	17 – South Coast / Watermaster District 19
Date of Priority:	December 29, 1995
Source of Water:	An unnamed stream, a tributary of Summers Creek
Purpose of Use:	Storage, for cranberry use
Maximum Volume:	16.04 Acre-Feet (AF) each year

Please read this Proposed Final Order in its entirety* as it may contain additional conditions not included in the original permit*

In summary, the Department proposes to:

- Grant an extension of time to complete construction of the water system from October 1, 2004 to October 30, 2020.
- Grant an extension of time to apply water to full beneficial use from October 1, 2004 to October 30, 2020.[1]
- Make the extension subject to certain conditions set forth below.

This Extension of Time request is being processed in accordance with Oregon Revised Statute 537.230 and 539.010(5), and Oregon Administrative Rule Chapter 690, Division 315

[1] Pursuant to ORS 537.230(4), upon the completion of beneficial use of water allowed under the permit, the permit holder shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permit holder shall submit a map of the survey and the claim of beneficial use.

ACRONYM QUICK REFERENCE
Department – Oregon Water Resources Department
PFO – Proposed Final Order
cfs – cubic feet per second
gpm – gallons per minute
AF – acre-feet

AUTHORITY

Generally, see ORS 537.230 and OAR Chapter 690 Division 315.

ORS 537.230(3) provides in pertinent part that the Oregon Water Resources Department (Department) may, for good cause shown, order an extension of time within which irrigation or other works shall be completed or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under ORS 539.010(5) and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

ORS 539.010(5) provides in pertinent part that the Water Resources Director, for good cause shown, may extend the time within which the full amount of the water appropriated shall be applied to a beneficial use. This statute instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefore; and the income or use that may be required to provide fair and reasonable returns upon the investment.

OAR 690-315-0040 provides in pertinent part that the Water Resources Department shall make findings to determine if an extension of time may be approved to complete construction and/or apply water to full beneficial use.

OAR 690-315-0050(6) requires the Department, for extensions exceeding five years, to establish checkpoints to determine if diligence is being exercised in the development and perfection of the water use permit. Intervals between checkpoints will not exceed five year periods.

FINDINGS OF FACT

Background

1. Permit R-11956 was issued by the Department on August 20, 1996. The permit authorizes the storage of up to 16.04 AF of water in two unnamed reservoirs from an unnamed stream, a tributary of Summers Creek, to be stored for cranberry use. The permit specified actual construction was to begin by August 20, 1997 and construction of the water system was to be completed by October 1, 2004, and complete application of water was to be made on or before October 1, 2004.

2. The permit holder, Peters Cranberries, Inc., submitted an "Application for Extension of

Time" to the Department on April 23, 2015, requesting the time to complete construction of the water system extended from October 1, 2004 to October 30, 2020 and the time to apply water to full beneficial use under the terms of Permit R-11956 be extended from October 1, 2004 to October 30, 2020. This is the second permit extension requested for Permit R-11956.

3. One prior permit extension has been granted for Permit R-11956. The most recent extension resulted in the completion dates for construction being extended to October 1, 2004 and full application of water being extended to October 1, 2004.

4. On April 29, 2015, an assignment from Wendell R. Peters to Peters Cranberries, Inc. was recorded in the records of the Department.

5. Notification of the Application for Extension of Time for Permit R-11956 was published in the Department's Public Notice dated May 5, 2015. No public comments were received regarding the extension application.

Review Criteria *[OAR 690-315-0040]*

The time limits to complete construction and/or apply water to full beneficial use may be extended if the Department finds that the permit holder has met the requirements set forth under OAR 690-315-0040. This determination shall consider the applicable requirements of ORS 537.230[2], 537.248[3] and/or 539.010(5)[4].

Complete Extension of Time Application *[OAR 690-315-0040(1)(a)]*

6. On April 23, 2015, the Department received a completed Application for Extension of Time and the fee specified in ORS 536.050 from the permit holder.

Start of Construction *[OAR 690-315-0040(1)(b) and 690-315-0040(5)]*

7. Actual construction of the water system began prior to the August 20, 1997 deadline specified in the permit. According to the permit holder, the date for beginning construction is unknown. However, according to the Application for Extension of Time submitted to the Department on September 24, 1999, the agent representing the permit holder states construction of the lower reservoir/dam was completed prior to August 20, 1997.

Duration of Extension *[OAR 690-315-0040(1)(c)]*

Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.

8. As of April 23, 2015, the permit holder states the remaining work to be completed is unknown. The Department identifies the remaining work to be completed consists of

---

[2]ORS 537.230 applies to surface water permits only.

[3]ORS 537.248 applies to reservoir permits only.

[4]ORS 539.010(5) applies to surface water and ground water permits.

installing a meter; completing construction of the water system; and applying water to full beneficial use, by storing 10.04 AF of water authorized by Permit R-11956.

9. Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 30, 2020, to complete construction of the water system and to accomplish the application of water to beneficial use under the terms and conditions of Permit R-11956 is both reasonable and necessary.

Good Cause *[OAR 690-315-0040(1)(d)]*
The Department's determination of good cause shall consider the requirements set forth under OAR 690-315-0040(2).

Reasonable Diligence of the Appropriator *[OAR 690-315-0040(2)(a)]*
The Department's determination of reasonable diligence shall consider the requirements set forth under OAR 690-315-0040(3)(a-d). In accordance with OAR 690-315-0040(3), the Department shall consider, but is not limited to, the following factors when determining whether the applicant has demonstrated reasonable diligence in previous performance under the permit:

Amount of Construction *[OAR 690-315-0040(3)(a)]*

10. The permit holder states work was not accomplished within the time allowed in the permit or previous extension as follows:

    a. Actual construction of the water system began prior to the August 20, 1997 deadline specified in the permit. According to the permit holder, the date for beginning construction is unknown. However, according to the Application for Extension of Time submitted to the Department on September 24, 1999, the agent representing the permit holder states construction of the lower reservoir/dam and installation of an outlet culvert/gate valve was completed prior to August 20, 1997.

    b. Work was not completed during the original development time frame under Permit R-11956.

Beneficial Use of Water *[OAR 690-315-0040(3)(b)]*

11. According to the water user no water has been appropriated for storage in the reservoirs. According to the Application for Extension of Time submitted to the Department on September 24, 1999, the agent representing the permit holder states approximately 6.0 AF has been stored in the reservoirs. The authorized amount of water to be stored is 16.04 cfs.

12. Beneficial use of water has not yet been demonstrated under this permit because not all permit conditions were satisfied by October 1, 2004.

13. According to the permit holder delay of full beneficial use of water under Permit G-11956 was due, in part; to the passing of the original permit holder, and the poor

performance of the cranberry market. The permit holder needs more time in which to obtain the full quantity of water allowed under the permit.

Compliance with Conditions *[OAR 690-315-0040(3)(c)]*

14. The water right permit holder's conformance with the permit or previous extension conditions.

    a. The Department has considered the permit holder's compliance with conditions, and has identified the following concern: (1) the record does not show that a meter or other suitable measuring device has been installed. The Department recognizes that it is the intent of the permit holder to comply with all permit conditions at the time the conditions become applicable.

    b. Beneficial use of water under this permit, therefore, has not yet been demonstrated. In order to legally perfect the use of water under this permit, the permit holder must demonstrate that all conditions of the permit have been satisfied.

Financial Investments to appropriate and Apply Water to a Beneficial Purpose *[OAR 690-315-0040(2)(b),(3)(d),(4)(d)]*

15. As of April 23, 2015, the permit holder states the amount invested is unknown. According to the Application for Extension of Time submitted to the Department on September 24, 1999, the agent representing the permit holder states the permit holder has invested approximately $15,000, which is about 56 percent of the total projected cost for complete development of this project. The agent representing the original permit holder anticipated an additional $12,000 investment was needed for the completion of this project.

Good Faith of the Appropriator *[OAR 690-315-0040(2)(c)]*

16. The Department has found good faith of the appropriator under Permit R-11956.

The Market and Present Demands for Water *[OAR 690-315-0040(2)(d-e)]*

The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:

17. The amount of water available to satisfy other affected water rights and scenic waterway flows; special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d); or the habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife *[OAR 690-315-0040(4)(a-c)]*.

a. The amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit R-11956; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined when an application for a new water right is submitted. The point of diversion is located on an unnamed stream, a tributary of Summers Creek, and is not located within a Withdrawn Area. The unnamed stream, a tributary of Summers Creek is not located within or above a state or federal scenic waterway, however, it is located within an area ranked "Highest" for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife. The point of diversion is not in a location listed by the Department of Environmental Quality as a water quality limited stream.

18. Other economic interests dependent on completion of the project [OAR 690-315-0040(4)(e)].

a. None have been identified.

19. Other factors relevant to the determination of the market and present demand for water and power *[OAR 690-315-0040(4)(f)]*.

a. None have been identified.

20. OAR 690-315-0050(6) requires the Department to place a checkpoint condition on this extension of time in order to ensure diligence is exercised in the development and perfection of the water use permit. A "Checkpoint Condition" is specified under Item 1 of the "Conditions" section of this PFO to meet this condition.

Fair Return Upon Investment *[OAR 690-315-0040(2)(f)]*

21. Use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

Other Governmental Requirements *[OAR 690-315-0040(2)(g)]*

22. Delay in the development of this project was not caused by any other governmental requirements.

Unforeseen Events *[OAR 690-315-0040(2)(h)]*

23. According to the permit holder, unforeseen events extended the length of time needed to fully develop and perfect Permit R-11956, in that the permit holder was faced with the death of the original permit holder and a poor cranberry market, which restricted their ability to complete development of the project in a timely manner.

CONCLUSIONS OF LAW

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230(3).

2. The applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).

3. The applicant complied with begin actual construction timeline requirements pursuant to ORS 537.230 as required by OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).

4. Completion of construction and full application of water to beneficial use can be accomplished by October 30, 2020[5], as required by OAR 690-315-0040(1)(c).

5. The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to complete construction and apply water to full beneficial use pursuant to OAR 690-315-0040(1)(d).

6. As required by OAR 690-315-0050(6) and as described in Finding 19, above, the Department has established, as specified in the "Conditions" section of this PFO (Item 1), progress checkpoints in order to ensure future diligence is exercised in the development and perfection of Permit R-11956.

Continued on the following page

[5]Pursuant to ORS 537.230(3), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

PROPOSED ORDER

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to complete construction of the water system under Permit R-11956 from October 1, 2004 to October 30, 2020.

Extend the time to apply water to beneficial use under Permit R-11956 from October 1, 2004 to October 30, 2020.

Subject to the following conditions:

CONDITIONS

1. **Checkpoint Condition**
The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2019.** ***A form will be enclosed with your Final Order.***

(a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;

(b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

DATED: June 9, 2015

Dwight W. French, Administrator
Water Right Services Division

If you have any questions, please check the information box on the last page for the appropriate names and phone numbers.

Proposed Final Order Hearing Rights

1. Under the provisions of OAR 690-315-0100(1) and 690-315-0060, the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. The written protest must be received by the Water Resources Department no later than **July 24, 2015,** being 45 days from the date of publication of the proposed final order in the Department's weekly notice.

2. A written protest shall include:

   a. The name, address and telephone number of the petitioner;
   b. A description of the petitioner's interest in the proposed final order and if the protestant claims to represent the public interest, a precise statement of the public interest represented;
   c. A detailed description of how the action proposed in the proposed final order would adversely affect or aggrieve the petitioner's interest;
   d. A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;
   e. Any citation of legal authority supporting the petitioner, if known;
   f. Proof of service of the protest upon the water right permit holder, if petitioner is other than the water right permit holder; and
   g. The applicant or non-applicant protest fee required under ORS 536.050.

3. Within 60 days after the close of the period for requesting a contested case hearing, the Director shall:

   a. Issue a final order on the extension request; or
   b. Schedule a contested case hearing if a protest has been submitted, and:
      1) Upon review of the issues, the Director finds there are significant disputes related to the proposed agency action; or
      2) The applicant submits a written request for a contested case hearing within 30 days after the close of the period for submitting protests.

Appeal Rights

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Application History

Permit R-11956 was issued by the Department on August 20, 1996. The permit called for actual construction of the reservoirs to begin by August 20, 1997, completion of construction by October 1, 2004, and complete application of water to beneficial use by October 1, 2004. On April 23, 2015, Peters Cranberries, Inc. submitted to the Department an Application for Extension of Time for Permit R-11956. In accordance with OAR 690-315-0050(2), on June 9,

2015, the Department issued a Proposed Final Order proposing to extend the time to complete construction from October 1, 2004 to October 30, 2020 and the time to apply water to full beneficial use from October 1, 1999 to October 30, 2020. The protest period closed July 24, 2015, in accordance with OAR 690-315-0060(1). No protest was filed.

FINDINGS OF FACT

The Department adopts and incorporates by reference the findings in the Proposed Final Order dated June 9, 2015.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions.

CONDITIONS

1. **Checkpoint Condition**

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2019.** ***A form is enclosed with this Final Order.***

(a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;

(b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

CONCLUSION OF LAW

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 539.010(5) and OAR 690-315-0040(2).

ORDER

The extension of time for Application R-80798, Permit R-11956, therefore, is approved subject to conditions contained herein. The deadline for completing construction is extended from October 1, 2004 to October 30, 2020. The deadline for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2004 to October 30, 2020.

Measurement, recording and reporting conditions:

A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion.

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

Dear Ms. Peters;

The Department received an application for an extension of time for the above referenced Permit on March 16, 2015 along with check #2433 for $575.00. Unfortunately you are not the permit holder of record, so I am returning your application and check. I have enclosed a form for Request for an Assignment for your convenience.

You will need to fill out the Request for an Assignment, copy of proof of ownership/or death certificate, and with a fee of $85.00 you can be the permit holder of record. At the same time return the application for an extension of time and a check for $575.00. Then we can process your requests.

If you have any questions, please feel free to contact me at 503-986-0802.

together with all and singular the tenements, hereditaments and appurtenances and all other rights thereunto belonging or in any way now or hereafter appertaining, and the rents, issues and profits thereof, and all fixtures now or hereafter attached to or used in connection with the property.

FOR THE PURPOSE OF SECURING PERFORMANCE of each agreement of grantor herein contained and payment of the sum of Nine Hundred Thirty Eight Thousand ($928,000.00) Dollars, with interest thereon according to the terms of a promissory note of even date herewith, payable to beneficiary or order and made by grantor, the final payment of principal and interest, if not sooner paid, to be due and payable on _____.

The date of maturity of the debt secured by this instrument is the date, stated above, on which the final installment of the note becomes due and payable. Should the grantor either agree to, attempt to, or actually sell, convey, or assign all (or any part) of the property, or all (or any part) of grantor's interest in it without first obtaining the written consent or approval of the beneficiary, then, at the beneficiary's option*, all obligations secured by this instrument, irrespective of the maturity dates expressed therein, or herein, shall become immediately due and payable. The execution by grantor of an earnest money agreement** does not constitute a sale, conveyance or assignment.

To protect the security of this trust deed, grantor agrees:

1. To protect, preserve and maintain the property in good condition and repair; not to remove or demolish any building or improvement thereon; and not to commit or permit any waste of the property.
2. To complete or restore promptly and in good and habitable condition any building or improvement which may be constructed, damaged or destroyed thereon, and pay when due all costs incurred therefor.
3. To comply with all laws, ordinances, regulations, covenants, conditions and restrictions affecting the property; if the beneficiary so requests, to join in executing such financing statements pursuant to the Uniform Commercial Code as the beneficiary may require, and to pay for filing the same in the proper public office or offices, as well as the cost of all lien searches made by filing officers or searching agencies as may be deemed desirable by the beneficiary.
4. To provide and continuously maintain insurance on the buildings now or hereafter erected on the property against loss or damage by fire and other hazards, as the beneficiary may from time to time require, in an amount not less than $full insurable value, written by one or more companies acceptable to the beneficiary, with loss payable to the latter. All policies of insurance shall be delivered to the beneficiary as soon as issued. If the grantor shall fail for any reason to procure any such insurance and to deliver the policies to the beneficiary at least fifteen days prior to the expiration of any policy of insurance now or hereafter placed on the buildings, the beneficiary may procure the same at grantor's expense. The amount collected under any fire or other insurance policy may be applied by beneficiary upon any indebtedness secured hereby and in such order as beneficiary may determine, or at option of beneficiary the entire amount so collected, or any part thereof, may be released to grantor. Such application or release shall not cure or waive any default or notice of default hereunder or invalidate any act done pursuant to such notice.
5. To keep the property free from construction liens and to pay all taxes, assessments and other charges that may be levied or assessed upon or against the property before any part of such taxes, assessments and other charges becomes past due or delinquent and promptly deliver receipts therefor to beneficiary. Should the grantor fail to make payment of any taxes, assessments, insurance premiums, liens or other charges payable by grantor, either by direct payment or by providing beneficiary with funds with which to make such payment, beneficiary may, at its option, make payment thereof, and the amount so paid, with interest at the rate set forth in the note secured hereby, together with the obligations described in paragraphs 6 and 7 of this trust deed, shall be added to and become a part of the debt secured by this trust deed, without waiver of any rights arising from breach of any of the covenants hereof. For such payments, with interest as aforesaid, the property hereinbefore described, as well as the grantor, shall be bound to the same extent that they are bound for the payment of the obligation herein described. All such

13. After the trustee has commenced foreclosure by advertisement and sale, and at any time prior to 5 days before the date the trustee conducts the sale, the grantor or any other person so privileged by ORS 86.753 may cure the default or defaults. If the default consists of a failure to pay, when due, sums secured by the trust deed, the default may be cured by paying the entire amount due at the time of the cure other than such portion as would not then be due had no default occurred. Any other default that is capable of being cured may be cured by tendering the performance required under the obligation or trust deed. In any case, in addition to curing the default or defaults, the person effecting the cure shall pay to the beneficiary all costs and expenses actually incurred in enforcing the obligation of the trust deed, together with trustee and attorney fees not exceeding the amounts provided by law.

14. Otherwise, the sale shall be held on the date and at the time and place designated in the notice of sale or the time to which the sale may be postponed as provided by law. The trustee may sell the property either in one parcel or in separate parcels and shall sell the parcel or parcels at auction to the highest bidder for cash, payable at the time of sale. Trustee shall deliver to the purchaser its deed in form as required by law conveying the property so sold, but without any covenant or warranty, express or implied. The recitals in the deed of any matters of fact shall be conclusive proof of the truthfulness thereof. Any person, excluding the trustee, but including the grantor and beneficiary, may purchase at the sale.

15. When trustee sells pursuant to the powers provided herein, trustee shall apply the proceeds of sale to payment of: (1) the expenses of sale, including the compensation of the trustee and a reasonable charge by trustee's attorney; (2) to the obligation secured by the trust deed; (3) to all persons having recorded liens subsequent to the interest of the trustee in the trust deed as their interests may appear in the order of their priority; and (4) the surplus, if any, to the grantor, or to any successor in interest entitled to such surplus.

16. Beneficiary may, from time to time, appoint a successor or successors to any trustee named herein or to any successor trustee appointed hereunder. Upon such appointment, and without conveyance to the successor trustee, the latter shall be vested with all title, powers and duties conferred upon any trustee herein named or appointed hereunder. Each such appointment and substitution shall be made by written instrument executed by beneficiary, which, when recorded in the mortgage records of the county or counties in which the property is situated, shall be conclusive proof of proper appointment of the successor trustee.

17. Trustee accepts this trust when this deed, duly executed and acknowledged, is made a public record as provided by law. Trustee is not obligated to notify any party hereto of pending sale under any other deed of trust or of any action or proceeding in which grantor, beneficiary or trustee shall be a party unless such action or proceeding is brought by trustee.

The grantor covenants to and agrees with the beneficiary and the beneficiary's successors in interest that the grantor is lawfully seized in fee simple of the real property and has a valid, unencumbered title thereto, except as may be set forth in any addendum or exhibit attached hereto, and that the grantor will warrant and forever defend the same against all persons whomsoever.

WARNING: Unless grantor provides beneficiary with evidence of insurance coverage as required by the contract or loan agreement between them, beneficiary may purchase insurance at grantor's expense to protect beneficiary's interest. This insurance may, but need not, also protect grantor's interest. If the collateral becomes damaged, the coverage purchased by beneficiary may not pay any claim made by or against grantor. Grantor may later cancel the coverage by providing evidence that grantor has obtained property coverage elsewhere. Grantor is responsible for the cost of any insurance coverage purchased by beneficiary, which cost may be added to grantor's contract or loan balance. If it is so added, the interest rate on the underlying contract or loan will apply to it. The effective date of coverage may be the date grantor's prior coverage lapsed or the date grantor failed to provide proof of coverage. The coverage beneficiary purchases may be considerably more expensive than insurance grantor might otherwise obtain alone and may not satisfy any need for property damage coverage or any mandatory liability insurance requirements imposed by applicable law.

The grantor warrants that the proceeds of the loan represented by the above described note and this trust deed are (choose one):*

~~(a) primarily for grantor's personal, family or household purposes (see Important Notice below).~~

(b) for an organization, or (even if grantor is a natural person) are for business or commercial purposes.

This deed applies to, inures to the benefit of, and binds all parties hereto, their heirs, legatees, devisees, administrators, executors, personal representatives, successors and assigns. The term beneficiary shall mean the holder and owner, including pledgee, of the contract secured hereby, whether or not named as a beneficiary herein.

In construing this trust deed, it is understood that the grantor, trustee and/or beneficiary may each be more than one person; that if the context so requires, the singular shall be taken to mean and include the plural, and that generally all grammatical changes shall be made, assumed and implied to make the provisions hereof apply equally to corporations and to individuals.

IN WITNESS WHEREOF, the grantor has executed this instrument the day and year first written above.

***IMPORTANT NOTICE: Delete, by lining out, whichever warranty (a) or (b) is inapplicable. If warranty (a) is applicable and the beneficiary is a creditor as such word is defined in the Truth-in-Lending Act and Regulation Z, the beneficiary MUST comply with the Act and Regulation by making required disclosures. For this purpose use Stevens-Ness Form No. 1319, or the equivalent. If compliance with the Act is not required, disregard this notice.**

NOW, THEREFORE, in consideration of the premises, which shall be deemed an integral part of this Agreement and not as mere recitals thereto, and in consideration of the mutual agreements and covenants herein contained, the parties hereto, intending to be legally bound thereby, agree as follows:

1. Pledge. Pledgors hereby grant to Pledgee a security interest in their partnership interests in the Company.

2. Term. Equitable and legal title to such partnership interest shall remain vested in Pledgors, subject to the security interest granted herein, for the repayment to Pledgee of all of the indebtedness described in Exhibit "A" hereof. Such partnership interest shall remain so pledged to Pledgee until the said indebtedness is repaid in full with interest, in accordance with Exhibit "A" attached hereto.

3. Representations as to Ability to Pledge Partnership Interest. Pledgors warrant and represent that there are no restrictions upon the transfer of any of the partnership interest, and that Pledgors have the right to transfer such partnership interest free of any encumbrances and without obtaining the consent so to do from any other person, corporation, or entity whomsoever.

4. Covenants and Warranties of the Pledgors. Pledgors covenant and warrant that:

A. Until all of the aforesaid indebtedness and other obligations shall have been paid in full, the Company will be an Oregon limited partnership validly existing and in good standing under the laws of the State of Oregon.

B. Until all of the aforesaid indebtedness and other obligations shall have been paid in full, Pledgors will not allow the Company or Pledgors, without the written consent of Pledgee, to:

(1) Merge or consolidate with or into any other company, or to acquire another company or the assets of such company.

(2) Liquidate, cease doing business as a going concern, fail to meet its obligations as they mature or

5. Default. In the event Pledgors default in the performance of any of the terms of this Agreement, or in the event that there is a default in the payment of any installment due with respect to the indebtedness and other obligations secured hereby, then and in any of such events, Pledgee shall have the right to exercise any of the remedies of a secured creditor under ORS Chapter 79. The parties do not intend by this agreement to either expand or contract those statutory remedies, nor to specifically define any term relevant to those remedies.

6. Prohibition of Sale or Further Encumbrance of Partnership Interests. During the term of this pledge, Pledgors agree not to sell, assign, dispose of or further encumber the shares of partnership interest subject to this pledge, without the written consent of Pledgee.

7. Construction. This Agreement shall be construed in accordance with the laws of the State of Oregon and shall be binding upon and inure to the benefit of the parties hereto, and their respective heirs, personal representatives, successors or assigns, and it is particularly understood and agreed that whenever the term "Pledgee" is used in this Agreement, the said term shall include and mean the Pledgee's successors and assigns.

8. Attorney Fees. Should any party utilize the services of an attorney with respect to any aspect of this Agreement or to enforce this Agreement, the losing party promises and agrees to pay the prevailing party's reasonable attorney fees and costs, even though no arbitration, suit or action is filed hereon. However, if arbitration is instituted or a suit, action or motion for relief from stay in bankruptcy court is filed, the amount of such reasonable attorney fees shall be fixed by the arbitrator, court or courts in which the arbitration, suit, action, or motion, including any appeal therein, is tried, heard or decided.

In the event Pledgors default in the performance of any of the terms of this Agreement, or in the event that there is a default in the payment of any installment due with respect to the indebtedness and other obligations secured hereby, then and in any of such events, Pledgee shall have the right to exercise any of the remedies of a secured creditor under ORS Chapter 79. The parties do not intend by this agreement to either expand or contract those statutory remedies, nor to specifically define any term relevant to those remedies.

6. Prohibition of Sale or Further Encumbrance of Partnership Interests. During the term of this pledge, Pledgors agree not to sell, assign, dispose of or further encumber the shares of partnership interest subject to this pledge, without the written consent of Pledgee.

7. Construction. This Agreement shall be construed in accordance with the laws of the State of Oregon and shall be binding upon and inure to the benefit of the parties hereto, and their respective heirs, personal representatives, successors or assigns, and it is particularly understood and agreed that whenever the term "Pledgee" is used in this Agreement, the said term shall include and mean the Pledgee's successors and assigns.

8. Attorney Fees. Should any party utilize the services of an attorney with respect to any aspect of this Agreement or to enforce this Agreement, the losing party promises and agrees to pay the prevailing party's reasonable attorney fees and costs, even though no arbitration, suit or action is filed hereon. However, if arbitration is instituted or a suit, action or motion for relief from stay in bankruptcy court is filed, the amount of such reasonable attorney fees shall be fixed by the arbitrator, court or courts in which the arbitration, suit, action, or motion, including any appeal therein, is tried, heard or decided.

Such sums shall include an amount estimated by the arbitrator or court as the reasonable costs and fees to be incurred by the prevailing party in collecting any monetary judgment or award or otherwise enforcing each order, judgment or decree entered in such arbitration, suit, action, motion or other proceeding.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first above written.

will be kept at Company's premises at 93030 Airport Road, Sixes, Curry County, Oregon, as it may exist from time to time.

C. Company authorizes Secured Party to sign and file financing statements at any time with respect to any Collateral pursuant to this Agreement without the signature of Company. Company will, however, at any time on request of Secured Party, sign financing statements with respect to the Collateral. Company will pay all filing fees and reimburse Secured Party for all costs and expenses of any kind incurred in any way in connection with the Collateral. Company further agrees that it will execute and deliver to Secured Party any instrument, document, assignment or other writing which may be necessary or convenient to carry out the terms of this Agreement.

D. Company will keep the Collateral free from any adverse lien, security interest or encumbrance and in good order and repair and will not waste or destroy the Collateral or any part thereof. Company will not use the Collateral in violation of any statute or ordinance and Secured Party may examine and inspect Collateral during ordinary business hours, wherever located. Company will pay promptly, when due, all taxes, liens and assessments of any kind whatsoever levied or assessed against the Collateral, or any part thereof, for its use and/or operation.

E. Company will keep the Collateral separate and identifiable and Company will not sell, lease, transfer, hypothecate (other than in the normal course of business to replace economic or functionally obsolete equipment, provided it is done on a commercially reasonable basis) or permit or suffer any attachment, judgment or other judicial or involuntary lien against, or otherwise dispose of, the Collateral or any part thereof.

F. Company will observe all conditions, comply with all terms, and perform and discharge all acts and obligations secured hereby.

H. Secured Party may, at its option, discharge taxes, liens or security interest or other encumbrances at any time levied or placed on the Collateral. Secured Party may pay for insurance on the Collateral and may pay for the maintenance and preservation of the Collateral, in the event Company fails to obtain such insurance or fails to maintain said Collateral. Company agrees to reimburse Secured Party on demand for any payment made or any expense incurred by Secured Party pursuant to the foregoing authorization.

I. Company will have and maintain insurance at all times in an amount not less than the full insurable value with respect to the Collateral against the risks of fire, theft and other perils.

J. In the event an attorney is employed by either party to enforce any of the terms hereof, the prevailing party shall be entitled to recover from the other party all costs and reasonable attorneys' fees at both trial and appellate levels incurred in connection therewith.

3. The happening of any of the following shall constitute a default by Company under this Security Agreement:

A. Any warranty, or representation made or furnished by Company in this Security Agreement proves to have been false in any material respect when made or furnished.

B. Failure by Company to keep or perform any of its covenants in or to observe any of the terms of this Security Agreement, if such failure shall not be cured within 30 calendar days after written notice thereof from Secured Party to Company describing such failure in reasonable detail; provided, however, that if such failure is, by its nature and not merely by inadvertence, lack of diligence, or delay on the part of Company, not susceptible of cure within a period of 30 days, then Company shall have a reasonable time to cure such failure, and such failure shall not constitute a default hereunder so long as, within such reasonable time, Company is diligently and in good faith attempting to effect such cure.

D. The levy of any attachment, execution or other process against Company or against the Collateral or any part thereof and the failure of removal of such process within 30 days.

E. The loss, theft, damage, destruction, sale or encumbrance to or of the Collateral, or any substantial part thereof, unless substantially covered by insurance;

F. The suspension of the business of Company or commencement of proceedings for its dissolution or liquidation or the making of a general assignment for the benefit of creditors or the commencement of proceedings under any bankruptcy, insolvency, readjustment of debt or liquidation law or statute of the federal government or any state government, or the adjudication of Company as a bankrupt or insolvent under any law or statute, or the application for, or by any action of Company the indication of its approval of, consent to, acquiescence in, the appointment of a trustee or receiver for the whole or any substantial portion of its assets, or if a trustee or receiver (other than an ex parte trustee or receiver) is appointed for the whole or any substantial portion of its assets.

4. Time is of the essence in this Security Agreement and upon, or at any time after, a default by Company, as set forth above, Secured Party may, at Secured Party's option:

A. Declare the entire indebtedness secured hereby or any portion thereof immediately due and payable; and

B. Exercise all rights and remedies accorded to Secured Party by law; and

5. This Security Agreement shall be construed in accordance with the following provisions:

A. This Security Agreement applies and shall inure to the benefit of the successors and assigns of Secured Party and shall bind the successors and assigns of Company;

Dear Ms. Peters;

The Department received an application for an extension of time for the above referenced Permit on March 16, 2015 along with check #2433 for $575.00. Unfortunately you are not the permit holder of record, so I am returning your application and check. I have enclosed a form for Request for an Assignment for your convenience.

You will need to fill out the Request for an Assignment, copy of proof of ownership/or death certificate, and with a fee of $85.00 you can be the permit holder of record. At the same time return the application for an extension of time and a check for $575.00. Then we can process your requests.

If you have any questions, please feel free to contact me at 503-986-0802.

Completeness Checklist for Permit Extension of Time Application

Minimum completeness criteria for Extension of Time Applications are set forth in OAR 690-086-0020(3) for NON-Municipal or NON-Quasi-Municipal permits and in OAR 690-086-0070(3) for Municipal or Quasi-Municipal permits.

☑ **1.** Pull the permit file. If a copy of the permit is not in the file, pull up an image of the permit in WRIS.

☑ **2.** Is the permit to be extended Non-Cancelled according to WRIS and the permit file? _____

If the permit has been cancelled, the Extension Application cannot be accepted.

☐ **3.** Is the extension applicant's name and mailing address supplied? ~~NO~~ YES

If yes, is the extension applicant a permit holder of record *(i.e., permit either issued to them or assigned to them)*? NO, She is the daughter of applicant who is deceased.

Return the Application fee and explain

If the extension applicant is **NOT** a permit holder of record, a "*Request for Assignment*" must be processed before the Extension Application can be accepted.

If an Assignment has **not** yet occurred, or if a concurrent "*Request for Assignment*" was **not** submitted along with the Extension Application, the Extension Application cannot be accepted.

****NOTE***: The applicant can submit both the assignment and extension of time requests at the same time, if they present a complete application for assignment, with proof of ownership if the previous owner was not available to sign the form, and the statutory fee of $85 for the assignment, and the necessary items for the application for Extension of Time.

☑ **4.** Is the appropriate Extension of Time Application used? _____

If the wrong application form is used, the Extension Application cannot be accepted.

- If a Municipal or Quasi-Municipal permit, use: "*Application for Extension of Time for Municipal and Quasi-Municipal Water Use Permits.*"
- If a NON-Municipal or NON-Quasi-Municipal permit, use: "*Application for Extension of Time for a Water Right Permit (Non-Municipal / Non-Quasi-municipal Water Use).*"

☑ **5.** Are the requested date(s) for extension identified *(Page 1)*? Original "C-Date" 10-1-98, 1st extension was request till 10/1/01, till 10/1/2020

- Check the permit to see if it includes a "B-Date" and/or a "C-Date."

  "B-Date" = date by which construction of the water delivery system for the permit is to be completed.

  "C-Date" = date by which full beneficial use of water under the permit is to be accomplished.

NOTE: For permits with both a "B-Date and a "C-Date," the applicant will likely request an extension of both dates *(i.e., to complete construction of the water delivery/distribution system and to apply water to full beneficial use)*. Unless, of course, construction of the water delivery system is complete. In which case, the applicant would likely only request an extension of the "C-Date" *(i.e., to apply water to full beneficial use)*.

For permits with only a "C-Date," the applicant will only be requesting an extension of the date in which to apply water to full beneficial use.

☐ **6.** Is the Extension Application signed (with an original signature) by permit holder(s) of record or an authorized agent? _____

(If signed by agent, documentation from the permit holder(s) granting authorization to agent to sign on their behalf must be provided or already in the permit file.)

If **not** signed by a permit holder of record or authorized agent, the Extension Application cannot be accepted.

NOTE: If the permit covers land that has been subdivided and assigned to different, individual parties… we only need signatures of the permit holder(s) of record for the portion of the permit involved in the Extension of Time Application.

☐ **7.** Are all questions on the application answered? _____

(NOTE: Supporting documentation such as: copies of the permit, well log(s), annual water use reports, static water level measurement reports, evidence demonstrating construction/work/water use accomplished, etc. may be included.)

The tables below are informational only. No need to check off.

■ **For NON-Municipal or NON-Quasi-Municipal Permit Extension Applications:**

▪ **Ques. #1** - Information provided on beginning of construction ("A" Date) under the permit.	▪ **Ques. #5-C** - Well location information provided and whether a permit amendment is necessary.
▪ **Ques. #2** - Information provided on compliance with permit conditions.	▪ **Ques. #6** - Information provided on number of acres irrigated, if applicable.
▪ **Ques. #3** - Description provided of progress made in developing the permit.	▪ **Ques. #7** - Description provided of remaining work left to be accomplished to perfect the permit.
▪ **Ques. #4** - Monetary investment made in the project to date provided.	▪ **Ques. #8** - Description provided of estimated cost to complete the project associated with the permit.
▪ **Ques. #5-A** - Max amount of water beneficially used to date for a SW permit indicated.	▪ **Ques. #9** - Explanation provided of why the permit has not been fully developed/perfected.
▪ **Ques. #5-B** - Well construction information provided and max amount of water beneficially used to date for a GW permit indicated.	▪ **Ques. #10** - Justification provided of why the requested time is necessary to complete project.

■ **For Municipal/Quasi-Municipal Permit Extension Applications:**

▪ **Ques. #2** – For Quasi-Municipal permits only, information provided on beginning of construction ("A" Date) under the permit.	▪ **Ques. #8** - Estimate provided of current peak water demand of the population served and the methodology used to make the estimate.
▪ **Ques. #3** – For Municipal permits issued on or after June 29, 2005, information provided on beginning of construction ("A" Date).	▪ **Ques. #9** - Explanation provided of why the permit has not been fully developed/perfected.
▪ **Ques. #4** - Description provided of progress made in developing the permit and financial expenditures made in the project to date.	▪ **Ques. #10-A** - Estimate provided of demand projection for the permit, the methodology used to make the estimate and anticipated date for full beneficial use of the permit.
▪ **Ques. #5-A & #5-B** - Information provided on compliance *(or non-compliance)* with permit conditions.	▪ **Ques. #10-B** – For extension requests greater than 50 years, documentation provided that the demand projection is consistent with the lands and uses proposed to be served by the permit holder.
▪ **Ques. #6-A** - Max amount of water beneficially used to date for a SW permit indicated.	▪ **Ques. #11** – Estimate of costs to complete the project and a summary of future schedule to complete construction / perfect the water right.
▪ **Ques. #6-B** - Well construction information provided and max amount of water beneficially used to date for a GW permit indicated.	▪ **Ques. #12** - Justification provided of why the requested time is necessary to complete project and/or apply water to full beneficial use.
▪ **Ques. #6-C** - Well location information provided and whether a permit amendment is necessary.	▪ **Ques. #14**- A copy of any agreements regarding use of the undeveloped portion of the permit and maintaining the persistence of fish, if applicable.
▪ **Ques. #7** – Estimate provided of current population served under the permit and the methodology used to make the estimate.	▪ **Attachment A** – A tabular inventory of the water supplier's water rights and any other water use authorizations.

☐ **8.** Has the $575 fee been paid? _____

(As of July 1, 2013, the Extension of Time fee is $575.)

If the fee has **NOT** been paid, the application cannot be accepted.

NOTE: *If the fee is the only item missing, contact the applicant to see if they can submit the fee with the next few days. If the applicant commits to submitting the fee within a certain timeframe, hold the Extension Application. If the fee does not arrive within that timeframe, return the Extension Application to the applicant.*

☐ **9.** If after completing this checklist, it is not clear whether the application can be accepted, please route both the money slip and Extension Application to **Michele McAleer**. She will either: **1)** accept the application; **2)** return the application; or **3)** prepare a deficiency letter.

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2004.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2004. The fee for submitting a claim of beneficial use is $175.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is $575.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (March 17, 2015) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a $450.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, you may contact me at the address above or by telephone at 503-986-0817.

Extension of Time for Permit Number R-11956

Appeal Rights
Under the provisions of ORS 536.075, the applicant may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served. ORS 183.484.

Application History
On September 24, 1999, Peter's Cranberries & Co. submitted an application to the Department for an extension of time for permit number R-11956. The Department issued Permit number R-11956 on August 20, 1996. The permit called for completion of construction of the water development project by October 1, 1998 and complete application of water to the full beneficial use by October 1, 1999. In accordance with OAR 690-320-0010(8), on February 22, 2000, the Department issued a Proposed Final Order proposing to extend the time to complete development of the water development project to October 1, 2004, and/or the time to fully apply water to beneficial use to October 1, 2004.

At time of issuance of the PFO the Department concluded that, based on the factors demonstrated by the applicant, the permit may be extended subject to the following conditions:

The permittee must submit a satisfactory surface water application to the Department by February 22, 2001. The application shall request to appropriate the 16.04 acre-feet of water authorized for storage under permit R-11956 for cranberry operations. The Department will find that the application has not been diligent toward completing the project if an application for use of the stored water is not submitted by the deadline noted above. ***Failure to submit the application by the due date above will likely result in the cancellation of permit R-11956.***

The protest period closed April 7, 2000. No protest was filed.

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.230, 537.248, 537.630 and

Water Right Permit Extension Application
for Permit Number R-11956

Water Right Application Number S-80798

Proposed Final Order

Please read this Proposed Final Order in it's entirety, it contains additional conditions, not included in the original permit.

This Proposed Final Order applies only to permit number R-11956.

Summary of Recommendation

The Department proposes to:

grant the extension for complete construction of the water system from October 1, 1998, to October 1, 2004, and

grant the extension for complete application of water from October 1, 1999, to October 1, 2004.

Application History

Permit no. R-11956 was granted by the Water Resources Department on August 20, 1996. The permit authorizes use of 16.04 acre-feet of water from an unnamed stream for storage for cranberry operations in the Summers Creek basin. It specified that construction must be completed by October 1, 1998, and water applied to full beneficial use by October 1, 1999. A copy of permit no. R-11956 is attached.

On September 24, 1999, the Department received an application from Peter's Cranberries & Co. for an extension of time to complete construction and to apply water to full beneficial use. The applicant has requested until October 1, 2004, to complete construction of the water system and until October 1, 2004, to apply water to full beneficial use. This is the first permit extension request.

Findings of Fact

ORS 537.230(2) and 537.630 (1) allows the Department to grant an extension of time to perfect a water right for good cause. In evaluating good cause, the Department has

considered the written record in the permit application file in relation to the requirements of ORS 537.230(2), ORS 537.630 (1) and ORS 539.010(5) and makes the following findings.

1. The applicant is legally entitled to apply for an extension on this permit.
2. The applicant has submitted a completed permit extension form and the required fee.
3. The water project development made to date has been accomplished in accordance with the terms and conditions contained in the permit.
4. Progress in perfecting the permit is being held up because of limited financial resources due to a drop in the price of wholesale cranberry.
5. The applicant has pursued perfection of the right in good faith and with reasonable diligence.
   a) Work on the water development project completed to date includes clearing of the reservoir area and spoil area, construction of the access road and lower dam, installed outlet culvert and gate valve, and storage of 6.0 acre-feet of water.
   b) The applicant has invested approximately $ 15,000 of an estimated total water system project cost of $ 27,000.
   c) The work remaining to be completed consists of the construction of the remaining reservoir water delivery system, filing of a secondary permit to use the stored water, as required below, and storage of the total amount of acre-feet allowed in the permit water.
6. Based on the written record, the Department finds there is good cause to approve the extension request. The applicant has pursued perfection of the right in good faith and with reasonable diligence. Perfection of the permit has been delayed by limited financial resources.
7. Due to the reasons outlined above in item 4 and the water development progress to date, the Department finds that the length of time requested for completion of construction should be extended to October 1, 2004, and the length of time requested for completion of the application of water should be extended to October 1, 2004, as requested by the applicant.
8.

Conclusions of Law

1. The applicant is entitled to apply for an extension of time to complete construction and/or completely apply water to the full beneficial use pursuant to ORS 537.230, and ORS 537.630.
2. The applicant has submitted an extension application form and the fee required by ORS 536.050(1)(L).
3. The applicant has pursued perfection of the right in good faith and prosecuted construction with reasonable diligence.
4. The applicant has shown good cause for the untimely completion of the water

development project and complete application of water to full beneficial use pursuant to ORS 537.230(2), and ORS 537.630 (1).

5. The permit extension should be approved until October 1, 2004 to complete construction and until October 1, 2004 to complete the application of water.

Conditions

The permittee must submit a satisfactory surface water application to the Department by February 22, 2001. The application shall request to appropriate the 16.04 acre-feet of water authorized for storage under permit R-11956 for cranberry operations. The Department will find that the applicant has not been diligent toward completing the project, if an application for use of the stored water is not submitted by the deadline noted above. ***Failure to submit the application by the due date above will likely result in cancellation of permit R-11956.***

Recommendation

The Department proposes to issue an order to:
extend the permit time to complete construction from October 1, 1998, to October 1, 2004, and
extend the permit time to complete application of water from October 1, 1999, to October 1, 2004.

DATED: February 22, 2000

Dwight French
Water Rights Section Manager

Protest Rights and Comments

1. Under the provisions of OAR 690-320-0010(8) you have the right to protest this proposed final order. Your protest must be in writing and must include the following:
   a) Your name, address and telephone number;
   b) Your interest in this proposed final order, and if you claim to represent the public interest, a precise statement of the public interest represented;
   c) A detailed description of how the action in the proposed final order would impair or be detrimental to your interest;
   d) A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;

e) Any citation of legal authority supporting your protest, if known; and

f) The $25 protest fee required under ORS 536.050 (1)(j).

2. Each person submitting a protest shall raise all reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the comment period.

3. The Water Resources Department must receive written protests or written comments no later than **April 7, 2000**.

4. After the close of the comment and protest period, the Director will either issue a final order, or schedule a contested case hearing if the Director finds there are significant disputes related to the use of water.

This document was prepared by Russell W. Klassen. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. owner of record, or duly authorized agent, of Application No. R-80798, Permit No. R-11956, do hereby request that the time in which to:

[X] complete the construction of diversion/appropriation works and/or purchase and installation of the equipment necessary to the use of water, which time now expires on October 1, 1998, be extended to October 1, 2004,

and/or the time in which to:

[X] accomplish beneficial use of water to the full extent under the terms of the permit, which time now expires on October 1, 1999, be extended to October 1, 2004.

NOTE: The extension of time requested should be long enough to finish the project. Should this request be approved, it will be the Department's expectation that you will complete your project within the new time period allowed. Future extensions may not be granted.

Attached is an instruction sheet to assist you in completing the information on the permit extensions application form. Oregon Water Law and Administrative Rules requires this information to be considered by the Water Resources Department when reviewing a permit extension. All items must be completed or the application will be returned. Please feel free to provide the Department with any additional information that would aid us in making our decision. Please use additional sheets of paper as needed to fully respond to the questions.

After reviewing the application form and the instruction sheet, if you have any questions, please contact the Department at 1-800-624-3199, or locally in the Salem vicinity at (503) 378-3739, and request assistance from the Water Rights Division, permit extensions personnel.

1-Did water system construction/well drilling begin within the time specified in the permit [yes/no]? YES

2-Has construction of diversion/appropriation works, distribution system, and use of water, if any, been accomplished consistent with the limitations and conditions of this permit [yes/no]? YES

A) Please describe how you have complied with each applicable permit condition (**NOTE: the instruction sheet for permit extension applications provides some direction as to what is an "applicable" condition at time of permit extension review**). There are no date specific conditions on the permit. The requirements to install a measuring device and fish screens (future potential) are "before water use may begin." It is not practical to install a measuring device until the reservoir is completed, at which time the Watermaster can prescribe the specific type, location, etc.

B) If you have not complied with all applicable conditions, please explain the reasons why and indicate a date certain, in the near future, by which time you will be in compliance with applicable conditions. N/A - see 2A

3-I have accomplished the following described works, purchases and installation of equipment necessary to the use of water under said permit:

A) Within the past year or, if a prior extension was authorized, during the last permit extension period:
- Continued to clear additional reservoir area of brush, cleared access road to site to allow for dragline & other equipment to area.
- Cleared additional brush for providing location for spoils to be placed.

B) Prior to the past year or, if a prior extension was authorized, prior to the last extension period:
- Constructed lower reservoir area / dam. Installed outlet culvert / gate valve, etc. for water level control.

C) I have accomplished beneficial use of water under the permit to the extent of (amount of water used or acres irrigated): Approximately 6 acre-feet of water has been stored in the existing reservoir site & used to supplement other water sources on existing cranberry bogs. (approx. 60 acres of bogs.)

4-Cost of project to date $15,000. Estimated remaining cost to complete the project $12,000.

5-Please list the reasons why the project was not constructed, and/or water not beneficially used within permit time limits under the appropriate categories below. Please provide supporting information for each reason identified.

A) The project is of a size and scope that the original intent was to phase it in over a period longer than the timeframes allowed in the permit. No – given market conditions at the time the permit was requested, project would have been completed by this time.

B) Financing and/or cash-flow needs to develop the project precluded completion of the project within authorized timeframes. The plummeting prices in the cranberry market have reduced available financial resources so drastically that little funds are available or advisable for expansion.

C) Good faith attempts to comply with permit conditions and/or to acquire permits from other agencies, or otherwise comply with government regulations, delayed completion of the project.
None

D) Acts of God or other unforeseen events delayed full development of the water system and use of water. None

RECEIVED

6-Please identify the economic market or markets to which beneficial use of water under the permit is responding. Wholesale cranberry prices have dropped from $0.80 per pound to a current level of $0.30 over the past year. This is seen as a temporary (2-4 yr) downturn. Meanwhile, we must proceed conservatively

over the next year or two to reserve current resources to ride out this price downfall.

A) Has there been any change in this market since the permit was issued? Yes - see above.

RECEIVED
SEP 24 1999
WATER RESOURCES DEPT.
SALEM, OREGON

B) Have these changes, if any, affected the economic feasibility of your project? Yes, certainly. If, as we anticipate, prices return to normal, this project will again be feasible. If they do not, ultimate development plans will be reduced accordingly.

7-Are there other present competing demands for water in your community? Of course - but, presumably all are affected by this downturn in the market.

A) Has there been any change in these demands for water since the permit was issued? Demand was increasing rapidly due to favorable economic conditions until the recent drop in crop prices. All are now reducing development plans & therefore water demand to get through this period!

B) Are you aware of alternative sources of water that may be able to satisfy the competing demands? No. Water users in this area must develop & combine all available water supplies in order to have sufficient water to get through the dry season. This means storage during the high flow months.

C) Are you aware of any adverse affects on your source of water that may have been caused by recent changes in use of water in your community? No.

8-Will the income or use from the water development project authorized by this permit provide reasonable returns against the investment in the project? Yes. As stated above, however, if product prices do not improve over current conditions, alternative plans will be developed.

9-If the extension request is denied, is the current level of water use economically feasible? No. As stated above, all available sources must be developed & combined to provide adequate supplies for the dry months.

I am the permittee, or have authorization from the permittee, to apply for an extension of time under this permit. I understand that false or misleading statements in this extension application are grounds for the Department to suspend processing of the request and/or reason to deny the extension.

Water Rights Application
Number R-80798

Final Order

Application History

On December 29, 1995, Wendell R Peters submitted an application to the Department for a water use permit. Pursuant to 537.409, the Department provided public notice of the application in the Department's weekly public notice. A 60 day comment period followed.

No comments were recieved during the comment period.

The Department has not received any adverse comments related to the possible issuance of the attached permit.

Water is available for the proposed use as described in the attached permit.

The use, as described on the attached permit, will not injure any existing water rights and does not pose potential detrimental impacts to existing fishery resources.

Therefore, the proposed use would not impair or be detrimental to the public interest.

Order

Application R-80798 therefore is approved pursuant to ORS 537.409, and Permit Number R-11956 is issued as limited by the conditions contained therein.

DATED August 20, 1996

for Martha O. Pagel
Director

Appeal Rights

Under the provisions of ORS 183.484, the applicant may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

Measurement, recording and reporting conditions:

A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The permittee may be required in the future to install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion.

STANDARD CONDITIONS

The storage of water allowed herein is subject to the installation and maintenance of a fully functional conduit/gate assembly having a minimum diameter of 8 inches.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1999.

WENDELL R PETERS

BANDON, OR 97411

REFERENCE: File # R-80798;

This is to let you know we have received your water use permit application, supporting documentation and fees. A receipt is enclosed, unless you were previously issued one. Your application has been assigned the number listed above.

Under the expedited review process for qualifying small ponds, the department is required to issue a final order approving or denying the permit, or grant a permit with conditions within 180 days of receiving an application.

If a permit is approved, the use allowed will be subject to existing Basin Program Rules, the demands of prior right holders and other limitations as needed to protect the resource. It may also be subject to new criteria or restrictions deemed necessary by the Oregon Water Resources Commission (a citizen body which oversees the agency's activities) to respond to water and other natural resource issues.

The filing of an application does not allow you to use water. By law, an applicant may not legally store, divert or use water until the Department issues a final order approving a water right permit. Please bear in mind that the issuance of a permit is not guaranteed; therefore, the Department advises against investments in storage or delivery systems until you receive a permit.

If you have questions about your application, please write to us at the address below or call the Water Rights Information Group at (503)378-8455, or toll free in Oregon at 1-800-624-3199.

REFERENCE: File # R-80798;

This is to let you know we have received your water use permit application, supporting documentation and fees. A receipt is enclosed, unless you were previously issued one. Your application has been assigned the number listed above.

Under the expedited review process for qualifying small ponds, the department is required to issue a final order approving or denying the permit, or grant a permit with conditions within 180 days of receiving an application.

If a permit is approved, the use allowed will be subject to existing Basin Program Rules, the demands of prior right holders and other limitations as needed to protect the resource. It may also be subject to new criteria or restrictions deemed necessary by the Oregon Water Resources Commission (a citizen body which oversees the agency's activities) to respond to water and other natural resource issues.

The filing of an application does not allow you to use water. By law, an applicant may not legally store, divert or use water until the Department issues a final order approving a water right permit. Please bear in mind that the issuance of a permit is not guaranteed; therefore, the Department advises against investments in storage or delivery systems until you receive a permit.

If you have questions about your application, please write to us at the address below or call the Water Rights Information Group at (503)378-8455, or toll free in Oregon at 1-800-624-3199.
