Application No. 29789

NOTICE OF BEGINNING OF CONSTRUCTION

I, U. S. Dept. of the Interior-Fish and Wildlife Service, the holder of Permit No. 23508

to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 27 day of May, 1955.

Remarks: Installed intake at spring and piped water to site. Average of 4 men per day

The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed

used. Intake and pipe to site are completed.

up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 6 day of September, 1955

Arthur G. Huey, Regional Engineer.

P. O. Box 3737, Interior, Bldg., Portland 8, Oregon.

State Printing 75491

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is begun.

RECEIVED SEP 8 1955 STATE ENGINEER SALEM, OREGON

Gentlemen:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No. 23508 granting a right to the use of 0.02 c.f.s. of the waters of Hatchery Spring for domestic use for 6 families.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of the permit. The proof should be dated, and signed by you on the bottom of the page.

Upon receipt of the signed proof accompanied by the statutory recording fee in the amount of \$1, a certificate of water right will be issued confirming the right thereunder and will be forwarded to you, after recording in Clackamas County.

Very truly yours,

LEWIS A. STANLEY  
State Engineer

**Gentlemen:**

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. **23508**.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

LEWIS A. STANLEY  
State Engineer
