REMARKS

T-11289

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

5-7143

THIS CERTIFICATE ISSUED TO

DANNY M. COOK
PO BOX 725
SELMA OR 97538

confirms the right to the use of water perfected under the terms of Permit S-4483. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

SOURCE OF WATER: DRAPER CREEK, A TRIBUTARY OF DEER CREEK

PURPOSE OR USE: IRRIGATION OF 5.3 ACRES

MAXIMUM RATE: 0.066 CUBIC FOOT PER SECOND

DATE OF PRIORITY: MARCH 13, 1920

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	8 W	WM	1	SW SW	70 FEET NORTH AND 1070 FEET EAST FROM SW CORNER, SECTION 1

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	8 W	WM	1	SW SW	5.3

The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	8 W	WM	1	SE SW	1280 FEET NORTH AND 1920 FEET EAST FROM SW CORNER, SECTION 1

Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meter or measuring device, in good working order, as approved by the Director, at each point of diversion.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

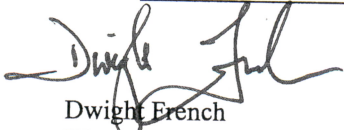

- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall maintain and operate the fish screen, as appropriate, at the new point of diversion consistent with Oregon Department of Fish and Wildlife's operational and maintenance standards.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described and subject to the existing minimum flow policies established by the Water Policy Review Board.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director entered January 10, 2012, at Special Order Volume 85, Page 888, approving Transfer Application T-11289, and together with Certificate 87384, supercedes Certificate 46193, State record of Water Right Certificates.

NOTICE OF CERTIFICATE ISSUANCE

Attached is a certificate that confirms the water rights established under the terms of a transfer order issued by this Department.

This certificate is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If you have any questions please contact Gerry Clark at 503-986-0811.

) FINAL ORDER APPROVING A
) CHANGE IN POINT OF DIVERSION

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Agent

JESSICA KARR
PO BOX 725
SELMA, OR 97538

Background

- Certificate:** 46193 in the name of FRED KRAUSS (perfected under Permit S-4483)
Use: IRRIGATION of 5.3 ACRES
Priority Date: MARCH 13, 1920
Rate: 0.066 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre.
Source: DRAPER CREEK, tributary to DEER CREEK
Authorized Point of Diversion: Not Listed in Certificate

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	8 W	WM	1	SW SW	5.3

3. Certificate 46193 does not describe the location of the point of diversion; however, information is available from the Certified Water Right Examiner indicating that the point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	8 W	WM	1	SE SW	1280 FEET NORTH AND 1920 FEET EAST FROM THE SW CORNER OF SECTION 1

4. Transfer Application T-11289 proposes to move the authorized point of diversion approximately 1400 feet downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	8 W	WM	1	SW SW	70 FEET NORTH AND 1070 FEET EAST FROM THE SW CORNER OF SECTION 1

5. Notice of the application for transfer was published on September 6, 2011, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
6. On October 7, 2011, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11289 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of November 8, 2011, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
7. On November 9, 2011, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11289 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on November 15, 2011, and in the Grants Pass Daily Courier newspaper on November 26, and December 3 and 10, 2011, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
8. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

9. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

10. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11289.
11. The proposed change would not result in enlargement of the right.
12. The proposed change would not result in injury to other water rights.

Conclusions of Law

The change in point of diversion proposed in Transfer Application T-11289 is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

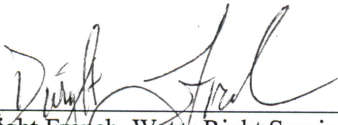

Now, therefore, IT IS ORDERED:

1. The change in point of diversion proposed in Transfer Application T-11289 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 46193 and any related decree.
3. Water right certificate 46193 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
4. The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion located in the SE¼ SW¼, Sec. 1, T 38 S, R 8, W.M.
5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.
 - b. The water user shall maintain the meter or measuring device in good working order.
 - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen

and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

7. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2013**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
8. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 10 day of January 2012.

Dwight French, Water Right Services Administrator, for
PHILLIP C. WARD, DIRECTOR

Mailing date: JAN 11 2012

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

FRED KRAUSS
SELMA, OR 97538

confirms the right to use the waters of DRAPER CREEK, a tributary of DEER CREEK for IRRIGATION of 8.7 ACRES.

This right was perfected under Permit S-4483. The date of priority is MARCH 13, 1920. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.109 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	8 W	WM	1	SW SW	3.7
38 S	8 W	WM	1	SE SW	5.0

This certificate describes that portion of the water right confirmed by Certificate 46193, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered JAN 10 2012, approving Transfer Application T-11289.

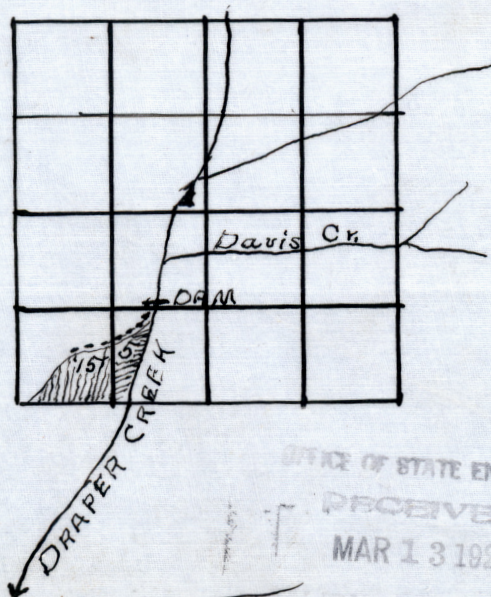

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed JAN 10 2012.

Dwight French, Water Right Services Administrator, for
PHILLIP C. WARD, DIRECTOR

OREGON

Application No. 7143
Permit No. 4483

Permit No. 4483

County of Josephine

Application No. 7143

(In accordance with the provisions of Chapter 216, Laws of Oregon for 1909, and the regulations of the State Water Board thereunder.)

From Draper Creek Tributary of Deer Creek (Illinois R.)

1. Name Fred Krauss.
2. Postoffice address Selma, Oregon.
3. For what purpose is water used? Irrigation of 20 acres (0.25 sec.ft.)
4. Did you begin the actual construction of the Krauss Ditch,
(or other distributing works described in said permit), on or before March 27, 1921?

5. Give the date of completion of such construction work April, 1922

6. When was all the water completely applied to the proposed use? June, 1921

7. The description of land given below corresponds to that found in your permit covering land to be irrigated, or, if for other purposes, the place of use. In the blank column on the right, headed "No. acres actually irrigated," fill in the number of acres you have irrigated in each of the tracts described.

[illegible]

8. During what months is water beneficially used? June to October
9. State the character of the soil and kind of crops raised Grain, Hay.
and garden. Red and black loam
10. Does the accompanying blue print of the map filed with your permit show correctly the location of diverting works and area of land where water is used?
11. If not, state wherein such map is in error
12. If the dimensions of your ditch or dam do not correspond to those described in your permit, state what changes have been made, giving dimensions of ditch (or other distributing works)
13. If water is used for power, mining, domestic, municipal, storage, manufacturing, or any other purpose than irrigation, give the extent and method of such use

STATE OF OREGON,

County of Josephine

Permit No. 4482

Application No. 7143

Twp. 38 S. R. 8 W.

October 16, 1923.

Mr. Fred Krauss,
Selma, Oregon.

Dear Sir:

Blank for making proof of appropriation of water under your permit No. 4483, has been forwarded to Mr. M. L. Opdycke, water master for your district, who will make an inspection and assist in filling out the proof at an early date.

When properly filled out and executed, the proof should be returned to this office, together with the \$1.00 fee required for recording final water right certificate.

Very truly yours,

Rhea Luper,
State Engineer.

H.

October 16, 1923.

Mr. M. L. Opdycke,
Water Master,
Grants Pass, Oregon.

Dear Sir:

Blank for making proof of appropriation of water under permit No. 4483, by Fred Krauss, is enclosed.

Please make an inspection in accordance with your usual practice, and also see that the proof is filled out and signed in proper form and transmitted with your report and recommendations.

The usual fee of \$1.00 for recording final water right certificate should accompany the proof.

Yours truly,

H.
Enclosure.

Rhea Luper,
State Engineer.

October 9, 1923.

Mr. Fred Krauss,
Selma, Oregon.

Dear Sir:

Notice of complete application of water
under your application No. 7143, Permit No. 4483
has been received in proper form and placed on file.

Final proof blanks will be forwarded for
execution within a short time and you will be fur-
ther advised.

Very respectfully,

Rhea Luper,
State Engineer.

H.

7143

April 1, 1920

Mr. Fred Krauss,
Selma, Josephine Co.,
Oregon.

Dear Sir:- Herewith you will find Application No. 7143, being Permit No. 4483,
which has been approved and recorded in this office.

Applications 7143
7144
7145
7146
7147

March 15th, 1920.

Mr. M. L. Opdycke,
Water Master,
Grants Pass, Oregon.

Dear Sir:

Enclosed please find my official receipts Nos. 7427, 7429, 7430, 7431, and 7432, for \$6.00, \$12.75, \$9.35, \$3.30, and \$6.45 respectively, which amount was transmitted with your letter of March 12th, together with application for permit to appropriate water in the name of Fred Krauss, B. M. and L. H. Clute, Ralph S. Bennett, J. E. and L. L. Sharp, and J. W. Krauss. These applications have been numbered 7143, 7144, 7145, 7146, and 7147, and placed on file in this office. I am also in receipt of blueprint and tracing for each application.

I am returning herewith application No. 7144 for correction. Under question No. 9, 25 acres are to be irrigated within the Southeast quarter of Northwest quarter Section 16, while the map would indicate that this 25 acres is located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 16, and I am returning the application together with blueprint and tracing for correction.

I am also returning blueprint and tracing which was filed with application No. 7145 in the name of Ralph S. Bennett, and desire to call your attention to Section 2, Chapter 381, Laws of Oregon for 1919, which provides that on and after January 1st, maps, plans and drawings required to be certified or approved by professional engineers, shall be certified or approved by a duly registered professional engineer. You will understand that according to the Rules of the State Water Board maps to accompany applications for more than three second feet of water must bear the signature and certificate of a surveyor, and we believe this comes under the provisions of this statute.

In order to retain its original date of priority, this application corrected and accompanied by the required maps, should be returned to this office on or before April 15, 1920.

Very respectfully,

Percy A. Copper,
State Engineer.

assignment ap- 6674

Krauss 7143
Chute 7144
Bennett 7145
Sharp 7146

Dear Sir:

I am enclosing herewith ^{*five*} ~~four~~ applications for water and one assignment, with plats and checks to cover the same. *Krauss* 7147

Relative to the assignment you may return the same to me after redording it.

Relative to the applications I wish to call your attention to that of J. W. Krauss for the appropriation of waste water. I am familiar with this waste water and it has been running down on Mr. Krauss for a number of years and he has had to take care of it. It strikes his place on the county road and is of no benefit to anyone except him, and it will benefit him in a supplementary way besides his using the water will protect the county road. His land is covered by a right from Sucker Creek but it is a late right and there are several early water users just above him so that many times in the late summer he has no water. This waste water comes from the users out of what is know as the White Ditch and I think he should be granted a permit for this waste water.

Yours very truly,

M. L. Opdycke
