SALEM, OREGON

REMARKS: System was installed in Mid to Late 1980's.

Owner was unaware of the need to acquire permits. Water has been used constantly since 1988. At present time (1994)

water is used for Approximately - 1000 Blueberry plants

300 Fruit Trees

2000 Evergreen Christmas trees

1/4 ac. Produce Garden

1/4 ac. Herb Garden

Small Plant Nursery

This property is zoned EFU. Due to substantial outcrops of bedrock and shallow subsils to rock, planting without water available is not likely to produce any type of income on a property of this nature. Rejection of this permit could result in an improperly zoned property.

Income taxes were filed for Blueberry sales for 1993 and will be for 1994.

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
