I (We) make application for a Limited License to use or store the following described surface waters or groundwater – not otherwise exempt, or to use stored water of for a use of a short-term or fixed-duration:

- SOURCE(S) OF WATER:** Groundwater a tributary of see Attachment A
- AMOUNT OF WATER** to be diverted; 165 gpm cumulative total; up to a per well rate of 165 gpm
 Maximum and instantaneous rate (cubic feet or gallons per minute): NW3: 85 gpm, NW5: 76 gpm, NW6: 111 gpm
 Total volume (gallons or acre-feet): 26.5 ac-ft. If water is to be used from more than one source, give the quantity from each: up to 26.5 ac-ft of groundwater from a combination of NW3, NW5, and NW6

3. INTENDED USE(S) OF WATER: (check all that apply)

- Road construction or maintenance
- General construction
- Forestland and rangeland management; or
- Other: Establish vegetation for wildlife corridor, visual buffer, and mitigation area at a solid waste landfill facility.

4. DESCRIPTION OF PROPOSED PROJECT: Include a description of the place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines:

The project description is included as Attachment A.

5. PROJECT SCHEDULE: (List day, month, and year)

Date water use will begin: May 15, 2023
 Date water use will be completed: October 31, 2028

Months of the year water would be diverted and used: March 1 through October 31 annually.

If for other than irrigation from stored water, how and where will water be discharged after use:

 Date

PLEASE READ CAREFULLY

NOTE: A completed water availability statement from the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-340-030 must accompany this request. The fee for this request is **\$280** for the first point of diversion plus **\$30** for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

Failure to provide any of the required information will result in return of your application. The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tied to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

**A summary of review criteria and procedures that are generally applicable to these applications is available at:
<http://www.oregon.gov/owrd/pages/pubs/forms.aspx>*

Mapping Requirements (OAR 690-340-0030):

- (1) A request for a limited license shall be submitted on a form provided by the Water Resources Department, and shall be accompanied by the following:
 - a. A site map of reproducible quality, drawn to a standard, even scale of not less than 2 inches = 1 mile, showing:
 - i. The locations of all proposed points of diversion referenced by coordinates or by bearing and distance to the nearest established or projected public land survey corner;
 - ii. The general course of the source for the proposed use, if applicable;
 - iii. Other topographical features such as roads, streams, railroads, etc., which may be helpful in locating the diversion points in the field.

REMARKS:

For WRD Use Only

Attachment A to Application for Limited Water Use License**Description of Proposed Project**

This project by Hillsboro Landfill, Inc. (HLI) involves withdrawing water from three existing wells located on City of Hillsboro property adjacent to HLI, with these wells designated as NW3, NW5 and NW6. The water from these three wells will be applied to establish and maintain vegetation at three HLI facility areas: wildlife corridors separating the landfill operational area from mitigation wetlands, the Phase III Wetland Mitigation Site, and a visual buffer at landfill areas along S.E. Minter Bridge Road. The site map included here as Attachment B depicts the three wells. The cross-hatched areas within solid black lines on the site map show the wildlife corridors, mitigation site and visual buffer.

Establishing the vegetated corridor and buffer are mitigation requirements of Hillsboro Landfill's wetlands and solid waste facility permits, respectively. The OWRD previously authorized similar water use under Limited License LL-1394, issued April 12, 2012, and Limited License LL-1747, issued May 25, 2018. No more than five years of water under this license application is expected to be needed to establish vegetation in the three areas and make that self-sustaining.

Each of the three wells has a pump with a meter. Water from the three wells is combined and sent through approximately 1,000' of pipeline to a truck fill station located in the northern portion of the HLI facility. The water is applied by truck to the vegetation in the wildlife corridor and visual buffer.

WATER AVAILABILITY STATEMENT

Name of Applicant: Hillsboro Landfill, Inc. Limited License Number: LL-1957

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights?

Yes No

If yes, please explain:

The Tualatin River Basin is regulated each year for senior water rights

2. Based on your observations, would there be water available in the quantity and at the times needed to supply the use proposed by this application?

Yes No

3. Do you observe this stream system during regular fieldwork?

Yes No

If yes, what are your observations for the stream?

Low streamflow conditions during irrigation season.

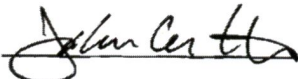

4. If the source is a well and if WRD were to determine that there is the potential for substantial interference with nearby surface water sources, would there still be ground water and surface water available during the time requested and in the amount requested without injury to existing water rights?

Yes No N/A

What would you recommend for conditions on a limited license that may be issued approving this application?

5. Any other recommendations you would like to make?

Standard conditions should apply

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:			Proposed Land Use:
See Attachment A (project description) and B (map) showing land and locations.						<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Points of diversion (i.e. wells) are located within City of Hillsboro. Place of use for water will be used in unincorporated Washington County.

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: Up to 0.36 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-Municipal Instream Other _____

Briefly describe:

Withdrawing water from three existing wells on City of Hillsboro property adjacent to Hillsboro Landfill to establish vegetation at facility wildlife corridors, visual buffers, and mitigation planting areas.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

Subject: Application for a Limited Water Use License
Hillsboro Landfill, Inc.

Ms. Bjork:

On behalf of the applicant, Hillsboro Landfill, Inc., please find enclosed an Application for a Limited Water Use License requesting the use of 165 gallons per minute (gpm) from three wells to supply water to establish vegetation at a solid waste landfill facility. Please also find enclosed a check for payment of the required application fee of \$340 (base fee with 3 points of appropriation).

If you have any questions regarding the enclosed application, you can reach me at 503-967-7050 x204. Please copy me on any correspondence regarding this application.

Respectfully submitted,

Theodore Ressler, RG, CWRE
Summit Water Resources LLC.
