2. SOURCE AND PROPERTY OWNERSHIP

A. The Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

Source 1: Will. Basin Proj. Res. Tributary to: McKenzie River
 Source 2: _____ Tributary to: _____
 Source 3: _____ Tributary to: _____
 Source 4: _____ Tributary to: _____

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

Certificate 72756

B. Applications to Use Stored Water

Complete this section if any source listed in item 2A above is stored water.

Do you, or will you, own the reservoir(s) described in item 2A above?

Yes

No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If all sources listed in item 2A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

C. Property Ownership

Do you own all the land where you propose to divert, transport, and use water?

Yes (Please check appropriate box below then skip to section 3 'Water Use')

There are no encumbrances

This land is encumbered by easements, rights of way, roads or other encumbrances
(please provide a copy of the recorded deed(s))

No (Please check the appropriate box below)

I have a recorded easement or written authorization permitting access.

I do not currently have written authorization or easement permitting access.

Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigated and/or domestic use only (ORS 274.040).

You must provide the legal description of: (1) the property from which the water is to be diverted, (2) any property crossed by the proposed ditch, canal or other work, and (3) any property on which the water is to be used as depicted on the map.

List the names and mailing addresses of all affected landowners.

3. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach **Form I**
- If your proposed use is **mining**, attach **Form R**
- If your proposed use is **municipal or quasi-municipal**, attach **Form M**
- If your proposed use is **commercial/industrial**, attach **Form Q**

B. Amount of Water

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

Source	Type of use	Amount
Proj. Reservoir	Irrigation	236.6 <input type="radio"/> cfs <input type="radio"/> gpm <input checked="" type="radio"/> af

C. Period of Use

Indicate the time of year you propose to use the water: March 1 - October 31
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1-October 31.)

If you will be applying water to land, indicate the total number of acres where water will be applied or used: 118.3 acres
(This number should be consistent with your application map.)

Is the ditch or canal to be lined? Yes No Pipe (give diameter and total length):Diameter 6", 5", 4", 3" Length 20', 1000', 600', 600' other, describe: _____**D. Application/Distribution Method**

What equipment will you use to apply water to your place of use?

Aluminum main and portable lines will pipe water under pressure to the fields. Most of the irrigation will be through overhead sprinkles or drip tubes to individual plants.

Irrigation or land application method (check all that apply):

- Flood High pressure sprinkler Low pressure sprinkler
 Drip Water Cannons Center pivot system
 Hand Lines Wheel Lines
 Siphon tubes or gated pipe with furrows

Distribution method

- Direct pipe from source In-line storage (tank or pond) Open Canal

E. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? Have you considered other methods to transport, apply, distribute or use water? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

The stored water from the USBR Reservoirs in the McKenzie will be re-diverted at a Point of Diversion in the SE of the NE of Section 1, T.17 S., R.1 E., WM. Aluminum main and portable lines will pipe water under pressure to the fields. When necessary, water will be applied by a sprinkler system. Where possible, water will be applied through a drip system.

5. RESOURCE PROTECTION

A. Protection Practices

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

- Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions:

The diversion facility will be reviewed by the Oregon Department of Fish and Wildlife and will meet the fish screen designed standards set forth in the NMFW Anadromous Salmonid Passage Facility Design criteria issued in February 2008 as a part of the Willamette River Basin Biological Opinion.

- Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions:

There will be no stream bank clearing or excavation.

- Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe:

See above description of the diversion facility.

- Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe:

Water will be applied based upon planned need through a highly efficient sprinkler or drip system.

8. MAP REQUIREMENTS

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed points of diversion and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

I swear that all information provided in this application is true and correct to the best of my knowledge:

FORM I FOR IRRIGATION USE

1. Please indicate whether you are requesting a primary or supplemental water right, as well as the number of acres that will be irrigated for each type. The acreages must match those shown on the map submitted with your application.

- Primary: 118.3 Acres
- Supplemental: _____ Acres (supplemental irrigation can be used only when the primary right is not available, and must match the season of the primary right)

List the permit or certificate number of the primary water right that underlies each supplemental right.

Circle one

Season Allowed

Permit/Certificate # _____	_____
Permit/Certificate # _____	_____
Permit/Certificate # _____	_____
Permit/Certificate # _____	_____

2. Indicate the maximum number of acre-feet of water you expect to use in an irrigation season:

236.6 acre-feet (typically 2.5 or 3.0 acre-feet per acre)
(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons)

3. **For Limited License applications proposing to use water for irrigation.** If for use of stored water, a limited license may be issued for up to one year with a valid contract for stored water per ORS 537.143(9). A limited license may also be issued for irrigation from live flow or groundwater, if the sole purpose is to establish a crop for which no further irrigation will be required after the crop is established per ORS 537.143(6)(a). Please describe the proposed project and indicate if stored water, live flow, or groundwater is to be used. When irrigation is needed to establish a crop, you must justify why more than one year is required.
