

Application for a Permit to Use Surface Water

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

RECEIVED BY OWRD

Water-Use Permit Application Processing

MAR 04 2016

1. Completeness Determination

SALEM, OR

The Department evaluates whether the application and accompanying map contain all of the information required under OAR 690-310-0040 and OAR 690-310-0050 (www.oregon.gov/owrd/law.our). The Department also determines whether the proposed use is prohibited by statute. If the Department determines that the application is incomplete, all fees have not been paid, or the use is prohibited by statute, the application and all fees submitted are returned to the applicant.

2. Initial Review

The Department reviews the application to determine whether water is available during the period requested, whether the proposed use is restricted or limited by rule or statute, and whether other issues may preclude approval of or restrict the proposed use. An Initial Review (IR) containing preliminary determinations is mailed to the applicant. The applicant has 14 days from the mailing date to withdraw the application from further processing and receive a refund of all fees paid minus \$200. The applicant may put the application on hold for up to 180 days and may request additional time if necessary.

3. Public Notice

Within 7 days of the mailing of the initial review, the Department gives public notice of the application in the weekly notice published by the Department at www.oregon.gov/owrd. The public comment period is 30 days from publication in the weekly notice.

4. Proposed Final Order Issued

The Department reviews any comments received, including comments from other state agencies related to the protection of sensitive, threatened or endangered fish species. Within 60 days of completion of the IR, the Department issues a Proposed Final Order (PFO) explaining the proposed decision to deny or approve the application. A PFO proposing approval of an application will include a draft permit, and may request additional information or outstanding fees required prior to permit issuance.

5. Public Notice

Within 7 days of issuing the PFO, the Department gives public notice in the weekly notice. Notice includes information about the application and the PFO. Protest must be received by the Department within 45 days after publication of the PFO in the weekly notice. Anyone may file a protest. The protest filing fee is \$350.00 for the applicant and \$700.00 for non-applicants. Protests are filed on approximately 10% of Proposed Final Orders. If a protest is filed the Department will attempt to settle the protest but will schedule a contested case hearing if necessary.

6. Final Order Issued

RECEIVED BY OWRD

If no protests are filed, the Department can issue a Final Order within 60 days of the close of the period for receiving protest. If the application is approved, a permit is issued. The permit specifies the details of the authorized use and any terms, limitations or conditions that the Department deems appropriate.

By my signature below I confirm that I understand:

MAY 09 2016

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- The Department encourages all applicants to wait for a permit to be issued before beginning construction of any proposed diversion. Acceptance of this application does not guarantee a permit will be issued.
- If I begin construction prior to the issuance of a permit, I assume all risks associated with my actions.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be cancelled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit, I may have to stop using water to allow senior water right holders to get water to which they are entitled.

SALEM, OR

I (we) affirm that the information contained in this application is true and accurate.

SECTION 2: PROPERTY OWNERSHIP

Please indicate if you own all the lands associated with the project from which the water is to be diverted, conveyed, and used.

Yes

- There are no encumbrances.
- This land is encumbered by easements, rights of way, roads or other encumbrances.

RECEIVED BY OWRD

MAR 04 2016

No

- I have a recorded easement or written authorization permitting access.
- I do not currently have written authorization or easement permitting access.
- Written authorization or an easement is not necessary, because the only affected lands I do not own are state-owned submersible lands, and this application is for irrigation and/or domestic use only (ORS 274.040).
- Water is to be diverted, conveyed, and/or used only on federal lands.

SALEM, OR

List the names and mailing addresses of all affected landowners (*attach additional sheets if necessary*).

TL600: POD and Pipe Route
Bureau of Land Management
Medford District Office

Public Works Dept.
201 River Heights Way
Grants Pass, OR 97527

TL200: Pipe Route
Wilma G. Rosenthal
1080 Ferry Road
Grants Pass, OR 97526

You must provide the legal description of: 1. The property from which the water is to be diverted, 2. Any property crossed by the proposed ditch, canal or other work, and 3. Any property on which the water is to be used as depicted on the map.

RECEIVED BY OWRD

MAY 09 2016

SECTION 3: SOURCE OF WATER

A. Proposed Source of Water

Provide the commonly used name of the water body from which water will be diverted, and the name of the stream or lake it flows into. If unnamed, say so:

SALEM, OR

Sources : **Irrigation: Lost Creek Reservoir** Tributary to: **Rogue River**
Domestic: Rogue River

If any source listed above is stored water that is authorized under a water right permit, certificate, or decree, attach a copy of the document or list the document number (for decrees, list the volume, page and/or decree name).

B. Applications to Use Stored Water

Do you, or will you, own the reservoir(s) described in item 3A above?

- Yes.
- No. (Please enclose a copy of your written notification to the operator of the reservoir of your intent to file this application, which you should have already mailed or delivered to the operator.)

If *all* sources listed in Section 3A are stored water, the Department will review your application using the expedited process provided in ORS 537.147, unless you check the box below. Please see the instruction booklet for more information.

By checking this box, you are requesting that the Department process your application under the standard process outlined in ORS 537.150 and 537.153, rather than the expedited process provided by ORS 537.147. To file an application under the standard process, you must enclose the following:

- A copy of a signed non-expired contract or other agreement with the owner of the reservoir (if not you) to impound the volume of water you propose to use in this application.
- A copy of your written agreement with the party (if any) delivering the water from the reservoir to you.

RECEIVED BY OWRD

MAR 04 2016

SECTION 4: WATER USE

SALEM, OR

Provide the amount of water you propose to use from each source, for each use, in cubic feet-per-second (cfs) or gallons-per-minute (gpm). If the proposed use is from storage, provide the amount in acre-feet (af):

(1 cfs equals 448.8 gpm. 1 acre-foot equals 325,851 gallons or 43,560 cubic feet)

SOURCE	USE	PERIOD OF USE	AMOUNT
Lost Creek Reservoir	Irrigation	April 1 thru October 31	4.50 acre-feet
Rogue River	Domestic Use	Year Round	0.005 cfs

For irrigation use only:

Please indicate the number of primary and supplemental acres to be irrigated.

Primary: **1.00 Acre** Supplemental: NA

List the Permit or Certificate number of the underlying primary water right(s): NA

Indicate the maximum total number of acre-feet you expect to use in an irrigation season: **4.50 af**

RECEIVED BY OWRD

MAY 09 2016

SALEM, OR

- If the use is **municipal or quasi-municipal**, attach **Form M** NA
- If the use is **domestic**, indicate the number of households: ONE
- If the use is **mining**, describe what is being mined and the method(s) of extraction: NA

S-88727

SECTION 5: WATER MANAGEMENT

RECEIVED BY OWRD

A. Diversion and Conveyance

MAR 04 2016

What equipment will you use to pump water from your source?

Pump (give horsepower and type): **2 hp Submersible**

SALEM, OR

Other means (describe): _____

Provide a description of the proposed means of diversion, construction, and operation of the diversion works and conveyance of water.

An infiltration gallery is proposed to be constructed in a gravel bar on the north bank of the Rogue River approximately 20' east and 20' south of an existing infiltration gallery at the POD approved for Certificates No. 84285, 84819 and 84921. A 2 hp submersible pump will convey water through approximately 2850' of 2" PVC underground pipe to a 2000 gallon underground storage tank on the subject property. A 1 hp submersible pump will convey water from the tank to the proposed house, landscaping and garden.

B. Application Method

What equipment and method of application will be used? (e.g., drip, wheel line, high-pressure sprinkler)

The landscape and garden areas will be irrigated using a combination of drip applicators and pop-up sprinklers utilizing a zoned irrigation system controlled by timers.

RECEIVED BY OWRD

MAY 09 2016

C. Conservation

Please describe why the amount of water requested is needed and measures you propose to: prevent waste; measure the amount of water diverted; prevent damage to public uses of affected surface waters.

SALEM, OR

The amount of water requested is considered to be the minimum amount needed to provide adequate water for domestic use and to properly maintain the proposed landscaping and garden areas. The timed irrigation will allow the application to be made during the early morning hours to provide more efficient usage and minimize evaporation losses. An in-line flow meter will be used to quantify the amount of water diverted. The entire delivery system will be underground and parallel with an existing water line which is located within existing easements. The trench will be backfilled daily after pipe and control wire installation to mitigate potential erosion.

SECTION 6: RESOURCE PROTECTION

In granting permission to use water from a stream or lake, the state encourages, and in some instances requires, careful control of activities that may affect the waterway or streamside area. See instruction guide for a list of possible permit requirements from other agencies. Please indicate any of the practices you plan to undertake to protect water resources.

Diversion will be screened to prevent uptake of fish and other aquatic life. Describe planned actions:

The POD/Pump Site will be completely underground except for the pump access conduit. The infiltration gallery will consist of 12" diameter perforated PVC pipe wrapped with a geotextile filter fabric. The water will enter the gallery via percolation through the sand/gravel bar. The water will not be pumped directly from the river. No fish screen is needed.

Excavation or clearing of banks will be kept to a minimum to protect riparian or streamside areas. Describe planned actions:

The proposed POD site is in a gravel bar on the north bank of the Rogue River. The area of excavation will disturb less than a ten foot long section of the bank with minimal disturbance of the riparian vegetation. The excavated area will be immediately backfilled and restored after installation of the gallery is completed.

Operating equipment in a water body will be managed and timed to prevent damage to aquatic life. Describe:

The pump used to divert water from the river will be in a 12" PVC underground infiltration gallery constructed on the north river bank. No aquatic life should be impacted.

Water quality will be protected by preventing erosion and run-off of waste or chemical products. Describe:

The trench excavation for the gallery installation will be open less than a day. The potential of erosion damage will be minimal. No treatment of the water is proposed, therefore no chemicals will be required. The proposed pump is electrical, therefore there is no danger from a potential fuel spill.

SECTION 7: PROJECT SCHEDULE

Date construction will begin: **May, 2016**
 Date construction will be completed: **July, 2016**
 Date beneficial water use will begin: **August, 2016**

SECTION 8: WITHIN A DISTRICT

Check here if the point of diversion or place of use are located within or served by an irrigation or other water district.

Irrigation District Name NA	Address	
City	State	Zip

SECTION 9: REMARKS

Use this space to clarify any information you have provided in the application.

The water delivery system proposed for this application will provide water to three users located at Tax Lots 102, 104 and 117 of Assessor's Map No. 36-07-02-AD. The proposed system will parallel the existing pipe alignment within existing easements used to convey water for Certificates No. 84285, 84819 and 84921. It was determined that the existing system cannot adequately provide the additional water flows required to meet the needs of the three new users.

SALEM, OR

OTHER TERMS AND CONDITIONS

1. The Holder shall comply with the applicable Federal and State laws and regulations concerning the use of pesticides (i.e., insecticides, herbicides, fungicides, rodenticides, and other similar substances) in all activities/ operations under this grant. The Holder shall obtain from the Authorized Officer approval of a written plan prior to the use of such substances. The plan must provide the type and quantity of material to be used; the pest, insect, fungus, etc. to be controlled; the method of application; the location for storage and disposal of containers; and other information that the Authorized Officer may require. The plan should be submitted no later than December 1 of any calendar year that covers the proposed activities for the next fiscal year (i.e., December 1, 1979, deadline for a fiscal year 1981 action). Emergency use of pesticides may occur. The use of substances on or near the right-of-way shall be in accordance with the approved plan. A pesticide shall not be used if the Secretary of the Interior has prohibited its use. A pesticide shall be used only in accordance with its registered uses and within other limitations if the Secretary has imposed limitations. Pesticides shall not be permanently stored on public lands authorized for use under this grant.
2. The Holder shall promptly remove and dispose of all waste caused by its activities as directed by the Authorized Officer. The term "waste" as used herein means all discarded matter including, but not limited to, human waste, trash, garbage, refuse, petroleum products, ashes, and equipment.
3. The United States will not be held liable for any damage to the water system caused by the general public or as a result of fire, wind, or other natural disasters or as a result of silvicultural practices, timber harvesting operations, or other actions stemming from the land management activities of the Bureau of Land Management.
4. Cultural and Paleontological Resources. Any cultural and/or paleontological resource (historic or prehistoric site or object) discovered by the holder, or any person working on his behalf, on public or Federal land shall be immediately reported to the authorized officer. Holder shall suspend all operations in the immediate area of such discovery until written authorization to proceed is issued by the authorized officer. An evaluation of the discovery will be made by the authorized officer to determine appropriate actions to prevent the loss of significant cultural or scientific values. The holder will be responsible for the

OR-110-2810-29 (May 1986)

SALEM, OR

S-88227

cost of evaluation and any decision as to proper mitigation measures will be made by the authorized officer after consulting with the holder.

5. Holder shall protect all survey monuments, witness corners, reference monuments, and bearing trees within this right-of-way against disturbance during construction, operation, maintenance, and rehabilitation. If any monuments, corners, or accessories are destroyed, obliterated, or damaged during construction, operation, or maintenance, Holder shall secure the services of a Registered Land Surveyor to restore the disturbed monuments, corners, or accessories, at the same location, using surveying procedures found in the Manual of Surveying Instructions for the Survey of the Public Lands of the United States, latest edition. Holders shall record such survey in the appropriate county and shall send a copy to BLM Oregon State Office, P.O. Box 2975, Portland, OR 97208.
6. The Holder shall contact the Authorized Officer or his representative at least seven (7) days prior to the anticipated start of construction to schedule a preconstruction conference. This conference shall be attended by the Holder, or his designated representative(s), and all contractors or agents involved with construction activities under this grant, and the Authorized Officer or his representative(s). The Authorized Officer is the BLM Area Manager, and his designated representative is:

Name: Matt Craddock/Eric Schoblom
Address: 3040 Biddle Road, Medford, Oregon 97504
Telephone No: (503) 770-2272
Pager No: 857-5525 (Matt)
Pager No: 857-5528 (Eric)
7. Natural vegetation shall be cleared or trimmed only when necessary to provide suitable access for construction, operation, maintenance, and termination of the system.
8. Prior to abandonment of the facilities authorized by this grant, the Holder shall contact the Authorized Officer to arrange a joint inspection of the right-of-way. The inspection will be held to agree on an acceptable abandonment and rehabilitation plan. The Authorized Officer must approve the plan in writing prior to the Holder commencing any abandonment and/or rehabilitation activities. The plan may include removal of drainage structures or surface material; recontouring; replacement of topsoil; seeding, mulching, etc.
9. No tree 8 inches in diameter or over at breast height shall be cut without prior written approval from the Authorized Officer during the exercise of those rights granted through this right-of-way.

NOTE TO APPLICANTS

SALEM, OR

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

B. Description of Proposed Use

SALEM, OR

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir: **(Lost Creek Reservoir)**
 Ground Water
 Surface Water: **Rogue River**

Estimated quantity of water needed: **4.50**
 cubic feet per second
 gallons per minute
 acre-feet

Intended use of water: Irrigation
 Commercial
 Industrial
 Domestic for **One** household
 Municipal
 Quasi-Municipal
 Instream
 Other _____

Briefly describe:

The proposed system will utilize a 2 hp pump at the POD on the BLM property to divert water from the Rogue River. Approximately 2850 ft of underground 2" PVC pipe will convey water to the place of use on Tax Lot 117, Map No. 36-7-2-AD. Proposed Use: domestic from Rogue River and irrigation from Lost Creek Reservoir per a pending B.O.R. Contract.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 65, 020. B.5

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

RECLAMATION *Managing Water in the West*

1. Applicant Information:

A. Landowners

- 1) Name of landowner(s): Louis P. and Anita Scaparo
- 2) Address: 994 Ferry Road
- 3) Mailing Address (if different): same
- 4) Taxpayer Identification Number(s): _____
(Social Security Number or Employer Identification Number)¹
- 5) Do you own all of the land where you propose to divert and make use of water? No

B. Water User Organizations (Such as Irrigation Districts, Ditch/Canal Companies, Water Control Districts, Water User Associations & Cooperatives, Irrigation Improvement Districts, and similar entities organized according to State Law)

- 1) Name of Organization: _____ **RECEIVED BY OWRD**
- 2) Name & Title of Applicant: _____ **MAY 09 2016**
- 3) Mailing Address of Organization: _____
- 4) Taxpayer Identification Number: _____ **SALEM, OR**
(Social Security Number or Employer Identification Number)
- 5) Please provide the following information:
 - (a) A description of the area served by the organization (location, total acreage, # of water users, prominent crops, etc.)
 - (b) Copy of organization by-laws, articles of incorporation (if applicable), board resolution authorizing the applicant to represent and bind the organization under contract with the United States.

- 2. Source of Water (*name of stream, river*): Stored Water from Lost Creek Reservoir via Rogue River
- 3. Proposed point of diversion: 945 feet South and 1490 feet West
of E 1/4 corner of Section 2, Township 36 South, Range 7 West,
Willamette Meridian, Josephine County, Oregon.
- 4. A water right permit to divert storage water is required. Application or file number with OWRD if you have applied for a permit to divert storage water: Application is Pending
- 5. Include a map of lands and diversion points. [Same as required by Oregon Water Resources Department (OWRD) for application for surface/ground water permit].

6. Do you currently hold a right to natural flows for irrigating the property described herein? No
If yes, what is/are the priority date(s)? _____

7. Total quantity of water from storage requested: 4.50 acre-feet.

8. Location of land to be irrigated in each 40-acre tract:

TOWNSHIP	RANGE	SECTION	40-ACRE TRACT (1/4) (1/4)	NO. of ACRES	TYPE of IRRIGATED CROP
36 South	7 West	2	SENE	1.00	Lawn, Landscaping and
					Non-Commercial Garden

RECEIVED BY OWRD

MAY 09 2016

SALEM, OR

9. What is the present use of the land identified above? [*farming; idle* (fallow cultivated land); *native* (appears never to have been tilled); *planted pasture or other* (please specify)].

 NATIVE

10. Is the land identified above currently being irrigated? NO If yes, what is the source? (*natural flows, wells, etc.*) _____

11. Diversion must be screened to prevent uptake of fish and other aquatic life. Describe plan(s) to comply with State/Federal fish screen standards: **The proposed point of diversion will be a 2 hp submersible pump installed in a 12" PVC underground infiltration gallery. No fish screen will be necessary.**

12. Telephone number where you can be reached during the day: 541-659-6012

Before returning the completed Contract Data Sheet to the address provided on page 1, please check that you have done the following:

- ANSWERED ALL QUESTIONS COMPLETELY
- ATTACHED AND IDENTIFIED ADDITIONAL SHEET(S) AS NECESSARY
- ATTACHED THE REQUIRED MAP
- SUBMIT PAYMENT FOR THE APPROPRIATE CONTRACT ADMINISTRATION FEE ², MAKE CHECK PAYABLE TO THE U.S. BUREAU OF RECLAMATION

1. Section 31001.(i) of the Debt Collection Improvement Act of 1996 (Chapter 10 of Pub. L. 104-134) requires each contractor with an agency of the United States to furnish their taxpayer identifying number (social security number or employer identification number) and each agency to disclose to that contractor its intent to use such number for purposes of collecting and reporting on any delinquent amounts arising out of such contractor's relationship with the Government.

2. The minimum contract administration fee for most applications is \$100. However, from time to time this fee may be revised to cover the costs of the United States. We recommend you contact this office to verify the current minimum contract administration fee. In the event that the costs to the United States of evaluating the application are in excess of the minimum contract administration fee, an estimate of the reimbursable costs for which advance payment is required will be provided to the applicant.
