

**Oregon Water Resources Department
Water Right Services Division**

Water Right Application S-89299 in the)	FINAL ORDER
name of DARRELL DRISKELL)	APPROVING THE USE OF
)	STORED WATER

Authority

Oregon Revised Statute (ORS) 537.147 establishes the process by which an application to use stored water exclusively may be submitted. Oregon Administrative Rule (OAR) Chapter 690, Divisions 310 and 340 implement the statute, and provide the Department's procedures and criteria for evaluating applications to use stored water exclusively.

FINDINGS OF FACT

1. On December 1, 2022, Darrell Driskell submitted an application for a water-use permit pursuant to ORS 537.147.

Source: APPELGATE RESERVOIR, CONSTRUCTED UNDER PERMIT R-7810, TRIBUTARY TO APPELGATE RIVER

Use: IRRIGATION of 2.0 ACRES

Volume: 9.0 ACRE-FEET (AF)

Period of Use: APRIL 1 THROUGH OCTOBER 31

County: JOSEPHINE COUNTY

Place of Use: SECTION 35, TOWNSHIP 37 SOUTH, RANGE 5 WEST, W.M.

2. The required examination fees were paid, and the minimum application requirements were met.
3. The Department has determined that the proposed use is an authorized use under the water right permit, certificate, or decree that allows the storage of water.
4. On December 6, 2022, the Department provided public notice of the application in the Department's weekly public notice. A 30-day comment period followed.
5. The Department has not received public comments related to the possible issuance of the attached permit. Therefore, the Department has determined that no public interest issues as identified in ORS 537.170(8) have been raised.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 536.075 and ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. The application proposed to use 9.0 acre-feet for the irrigation of 2.0 acres. This is higher than the general basin-wide standard duty of 2.5 acre-feet per acre; therefore, the maximum volume has been limited to 5.0 acre-feet in the permit.

CONCLUSIONS OF LAW

1. Application S-89299 is consistent with the requirements of ORS 537.147 and OAR Chapter 690.

ORDER

Application S-89299 is approved and Permit S-55428 is issued by the conditions contained therein.
