Remarks: That, we are the owners of that certain 1 ac. tract of land as shown on the accompanying map. The unnamed spring and source of our water supply, is located on land owned by Carl Nielson, Route 1, Troutdale, Oregon, who has given us permission to make this filing and lay our water system. Edward Nielson and son of said Carl Nielson, recipient of Application No. 12060 & Permit No. 8468, a prior filing, on a spring adjacent to ours, suggested that, we make our filing and has given his consent to same. The maximum flow from our spring is about 0.05 cu. ft. per sec. The water from spring flows into the Sandy River. A 2'x2'x2' wooden box serves as intake at spring to feed a 80' drive pipe the same consisting of 20' of 1 1/4" iron pipe and 60' of 1" iron pipe. A No. 3 ram drives the water through 450' of 1/2" pipe, to a 50 gal. barrel that serves as storage tank. A 65'x3/4" pipe conveys the water to our home. There is a fall of 15' from intake to ram. The water is lifted 75 feet.
