OFFICE OF STATE WATER BOARD
RECEIVED

APR 10 1917

SALEM, - OREGON.

Approved:

Priority date Dec. 5, 1911

SALEM, OREGON Jan. 12, 1912.

Mr. Asa Henderson,
Samson, Oregon.

Dear Sir:

I enclose herewith Application No 1905 , by yourself , being Permit No. 981 , which has been approved and recorded in this office. I am also enclosing one blue print map . It is not necessary to record this in your county, or to publish notice of its issuance. This permit is not a water right, but is, in a way, a contract between you and the State. It should be held by the owner of the right, and not disposed of in making final proof on desert land, or for any other purpose.

You should make annual proof under this permit upon the forms attached hereto. Within the time as limited by the State Engineer for the beginning of construction, for completion, and for the application of water to beneficial use, you should fill out the proper blank, detach, and mail to the Secretary, Board of Control, Salem, Oregon. If more than one year is allowed for completion of construction you should give on the proper blank a detailed description of the work performed each year so that the Board may judge as to whether or not the law is being complied with as to the prosecution of work with reasonable diligence.

Final proof will be taken by the Board, through the proper division superintendent, as soon as possible after the expiration of time for the complete application of water to beneficial use, or any extension thereof. The Board of Control will thereafter issue a "Certificate of Water Right" to be recorded with the county clerk of the proper county, which to your water title will correspond to a patent from the United States as foundation for your land title.

Should it be impossible for you to complete the work or to put the water to beneficial use before the expiration of the time fixed in the permit, you should, if you have good reasons for so doing, apply to the State Engineer for an extension of time. All such requests must be received before the date of expiration, otherwise you will have to re-file and lose something in priority by your neglect. No extension of time can be granted for the beginning of work, nor in any case where request is made after the expiration of the time limit as fixed in the permit.

Any assignment of this permit should be made in writing and recorded in the State Engineer's office at Salem. The assignee should make all proofs required after date of assignment.

Water belongs to the land it irrigates and not to the ditch, or ditch owner. The transfer of land will carry with it the water appurtenant thereto.

Failure to fill out and mail the annual proofs required by the Board may jeopardise your rights under this permit and result in its cancellation after proper notice, as the law provides that proof must be made "to the satisfaction of the Board of Control".

Respectfully yours,

State Engineer.

Dear Mr. Taylor:

Enclosed is the copy of the permit No. 981 along with a copy of the related map. I am also enclosing a copy of the certificate of water right issued to Asa Menderson recorded in Volume 2 at Page 1417 State Record of Water Right Certificates, evidencing the right to the use of water perfected under the terms of the permit No. 981.

The water right evidenced by the certificate is appurtenant to the house site where the use was established, passes with the house site through change of ownership, and remains valid so long as the right is not lost through intentional abandonment or through non-use for a period of any five successive years.

Our receipt No. 63858 covering the fee of \$5.00 you submitted is enclosed. The copying fee required amounted to \$2.10. A refund check in the amount of \$2.90 will be prepared and mailed to you at a later date.

Sincerely,

Wayne J. Overcash
Water Rights Engineer

Mr. Asa Henderson,

Samson, Oregon.

Dear Sir:

I beg to acknowledge receipt of \$3.00, together with your application No. 1905 for permit to appropriate water, also blue print and tracing. The fees, as provided by law will be as follows: filing and recording fee for domestic use, \$5.00; examination fee, \$3.00; filing and recording for 5 acres at 15¢ per acre, 75¢; filing and recording for 10 horsepower at 25¢ per horsepower, \$2.50; total \$11.25, or \$8.25 in addition to the \$3.00 examination fee already received. If you can eliminate any of the above uses, the fees would be correspondingly reduced.

Very respectfully,

John H. Lewis.

State Engineer.

Permit No. 981.

Dear Sir:

I note from the records of this office that you have filed no notices of the progress of the work in perfecting your water right under permit No. 961 which covers the use of 0.1 second feet of water from a spring for domestic purposes, although the time for the completion of this water right expired January 11, 1915. In view of the fact that no notices have been filed, we presume you have abandoned your water right and if so, we would be glad to have you authorize the cancellation of the permit on the records of this office as this will eliminate the necessity of following the regular procedure for the cancellation of the same.

However, if the terms of the permit have been complied with, we will be glad to forward final proof blanks for execution upon receipt of the required notices.

In view of the fact that we have received no notices showing the progress of the work nor a reply to our letter of the 17th of November in regard to this matter, you are advised that unless hearing from you within 60 days from the date of this letter the permit will be presented to the Board for appropriate action.

Very respectfully,

RS.
