Gentlemen:

The assignment of permit No. 35298 from Nils Edin to you has been recorded in the records of the Water Resources Department. Our records have been changed accordingly and the original is enclosed along with our receipt No. 60577 covering the recording fee of \$2.00 you submitted.

I am also enclosing the surface water application form you may complete describing your proposed use of water for additional families. Our instruction booklet, which briefly explains the fees and requirements for filing is enclosed.

Sincerely,

Wayne J. Overcash

Dear Mr. Edin:

Thank you for your check in the amount of \$2.00 for the certificate recording fee in connection with your permit 35298.

We also have the signed proof form and your letter advising us of the name change. If it is your intent to have the certificate issued in the name of Edin Properties Corporation, an assignment of the right will have to be made and I have enclosed a partially completed form for your use. A \$2.00 assignment recording fee will also be required.

Under the terms of permit 35298, water could be appropriated from Taylor Creek for up to forty families. During our field inspection on July 17, 1975, our engineer found a total of forty nine families using water. As you are aware, you have an existing water right for domestic use in a trailer park for twelve families therefore, we could only allow thirty seven families on the latest right. If there are in fact sixty families being served water, you will have to submit an application for a new permit for the additional families. I have enclosed a new proof form showing domestic use for thirty seven families in the trailer park under the name of Edin Properties Corporation. Just as soon as the properly executed assignment is received along with the recording fee and signed proof form, we will issue a certificate of water right.

Sincerely

Thomas E. Shook
Water Rights Engineer

Dear Mr. Edin:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. 47145.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
