Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.
Fill out, detach and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 39712

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

Everett Lsenhart, the holder of Permit No. 29627
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 5 day of September, 1967.

Remarks:

Irrigation started during the summer of 1967.
Completed in Sept. of 67.

IN WITNESS WHEREOF, I have hereunto set my hand this 5 day of October, 1967.

Everett Lsenhart

(Address)

STATE OF OREGON
COUNTY OF CURRY
CERTIFICATE OF WATER RIGHT

This Is to Certify, That EVERETT ISENHART

of Langlois, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of North Fork of Floras Creek and East Fork of Floras Creek

a tributary of Floras Creek for the purpose of irrigation of 50.0 acres

under Permit No. 29627 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from April 6, 1964

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.59 cubic foot per second, being 0.28 c.f.s. from North Fork of Floras Creek and 0.31 c.f.s. from East Fork of Floras Creek

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 26, T. 30 S., R. 14 W., W. M. Diversion points located below:

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $2\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

North Fork	East Fork	
1.6 acres	23.1 acres	SW $\frac{1}{4}$ NE $\frac{1}{4}$
	2.9 acres	SE $\frac{1}{4}$ NE $\frac{1}{4}$
11.0 acres	0.3 acre	SE $\frac{1}{4}$ NW $\frac{1}{4}$
7.8 acres		NE $\frac{1}{4}$ SW $\frac{1}{4}$
2.0 acres	1.3 acres	NW $\frac{1}{4}$ SE $\frac{1}{4}$
		Section 26
		T. 30 S., R. 14 W., W. M.

Diversion points located: 2150 feet South and 750 feet East; 1920 feet South and 560 feet West; 3670 feet South and 200 feet West; all from NW $\frac{1}{4}$ corner, Section 26.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

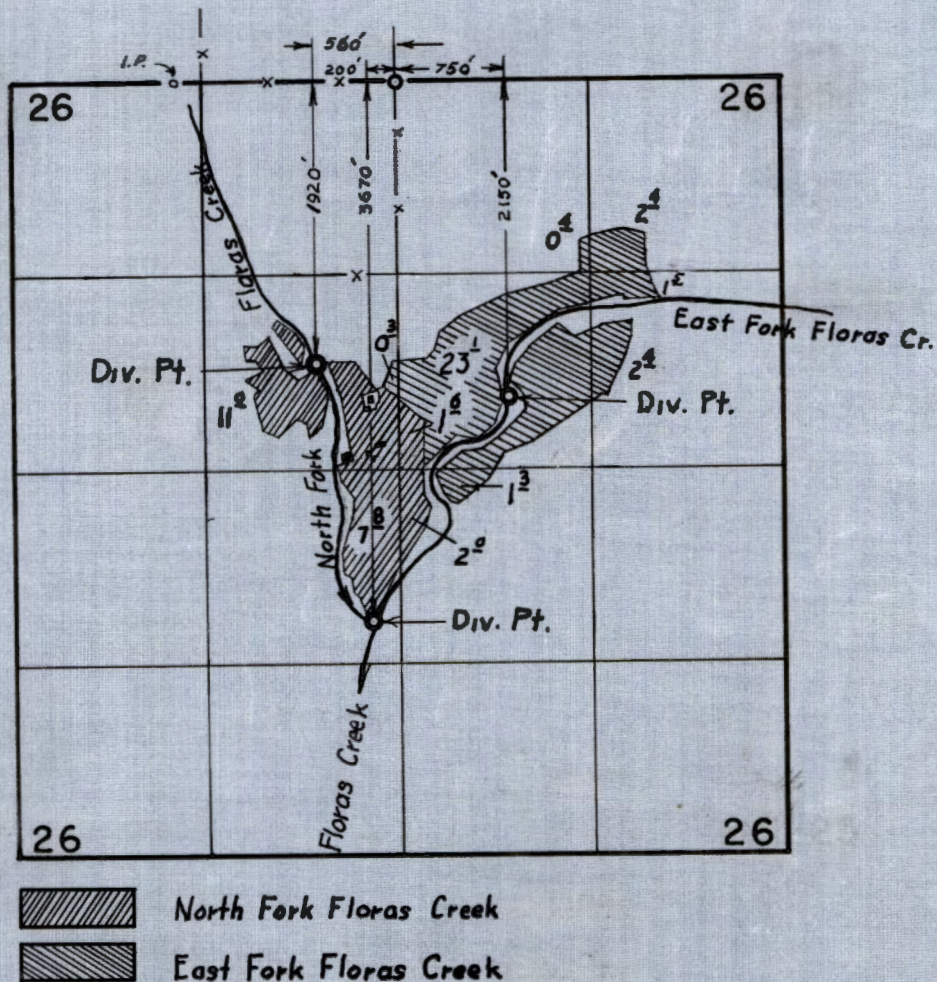

WITNESS the signature of the State Engineer, affixed

this date. March 30, 1970

Dear Sir:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No. 29627.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

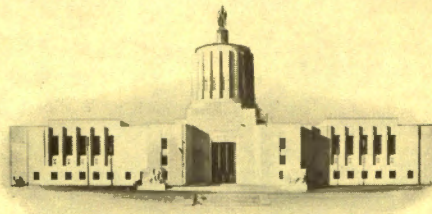

Very truly yours,

CHRIS L. WHEELER
State Engineer

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. 29627.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Application for Extension of Time

To the State Engineer of Oregon:

I, Everett Benhart, of Langdon
state of Oregon, am the owner and holder of Permit No. 29627, to
appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or
before Oct. 1, 1966, and complete application of water is required to be
made on or before Oct. 1, 1967.

I have heretofore done the following work described under said permit during the past year:

Purchased sprinkler irrigation system at cost
of \$2419.00

and did the following work prior to last year: Used a gasoline sprinkler
system, that I have had for 8 or 9 years.

costing \$....., and I estimate the cost of completion to be \$.....

I have heretofore used water under said permit to the following extent: irrigating
garden and some pasture.

I am unable to { complete construction work
make complete application of water } within the required time, for the following
(Strike out phrase not applicable)

reasons, to wit: The power company has not yet
installed the poles to the pump site

(If additional space is required, attach separate sheet)

(A fee of \$2.00 for each permit involved must accompany this application.)

RE: EVERETT ISENHART
FILE No. 39712

ATTN: CHRIS L. WHEELER, STATE ENGINEER

DEAR SIR:

EVERETT ISENHART HAS ENTERED INTO AGREEMENT WITH US FOR CONSTRUCTION TO SERVE THREE (3) IRRIGATION LOCATIONS. THIS WILL CONSIST OF 240 VOLT SINGLE PHASE FOR 10 HORSEPOWER PUMP AT EACH LOCATION.

OUR IRRIGATION FEES ARE BASED ON AN ANNUAL CHARGE OF \$10.00 PER CONNECTED HORSEPOWER AND SINCE MR. ISENHART CAN NOT DERIVE ANY BENEFIT FOR THE CURRENT YEAR OF 1966 WE WOULD LIKE TO SCHEDULE CONSTRUCTION SO AS TO BE READY FOR THE 1967 IRRIGATING SEASON.

WE WILL CERTAINLY APPRECIATE YOUR CONSIDERATION FOR THIS EXTENSION OF TIME.

YOURS VERY TRULY,

James B Wilson
DISTRICT MANAGER

JBW/wg

CC: EVERETT ISENHART

October 12, 1966

Everett Isenhardt
Langlois, Oregon

Dear Sir:

This will acknowledge receipt of your notice of completion of construction in regards to permit No. 29627.

On your notice you state work is complete except for power poles, and it would appear that the power has not been installed to the pump side yet. If the power lines have not been installed to the pump side, then construction work would not be complete, and you should apply for an extension of the time limit for completion of construction work.

The State Engineer may grant an extension of the time limit only upon the showing of due diligence by the permittee towards the progress of the project.

Enclosed is a form for your use in applying for an extension of time.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir:

I have erased my pencil marks
& replaced it with ink on my applica-
also on question 2 I have noted $\frac{1}{2}$ of
water is to be used from each source.

I also have included a different
map, which the surveyor says is the
one I should have submitted before.

I hope there are the necessary
corrections & thank you.

Yours Truly,
Carrett Denhart

June 2, 1964

Mr. Everett Isenhardt
Langlois
Oregon

Dear Mr. Isenhardt:

This will acknowledge receipt of your returned application numbered 39712, the accompanying map, and legal description.

Your application has been re-examined, and it is noted that you have not specified the quantity of water you wish to appropriate from each fork of Floras Creek. As we explained in our letter of April 21, 1964, the maximum quantity which may be authorized for appropriation from all sources for the irrigation of fifty acres is $1/80$ th of one cubic foot of water per second for each acre or 0.625 cubic foot of water per second. If you wish to appropriate one-half of this quantity from each source, this should be clearly specified in your application.

It will also be necessary that you complete all entries in ink or with a typewriter. The map must be submitted on a good grade of tracing paper or tracing linen so that it may be reproduced by blue print process.

We are again returning your application and the accompanying map for completion, the application being endorsed so that in order to retain its date of priority, it must be returned to this office on or before August 3, 1964.

Very truly yours,

CHRIS L. WHEELER
State Engineer

By
Walter N. Perry, Assistant

WNP:egw
Enclosures-2

April 21, 1964

Mr. Everett Isenhardt
Langlois
Oregon

Dear Mr. Isenhardt:

This will acknowledge your application for a permit to appropriate 1/80 cubic foot of water per second from the North and East Forks of Floras Creek for the irrigation of fifty acres, a map, and fees in the sum of \$18 for which our receipt numbered 520 is enclosed.

Your application has been examined and filed under file number 39712. Before your application may be considered for approval by issuance of a permit, it must be completed to specify the quantity of water you wish to appropriate from each source. The maximum quantity which may be approved for appropriation to irrigate fifty acres is 0.625 cubic foot of water per second. You may, if you wish, specify that this quantity of water will be appropriated from one source with any deficiency in that source to be made up by appropriation from the second source; or you may divide the appropriation between the two sources.

The location of the points of diversion as shown in Item 4 should be further identified as being within a particular quarter section. The tie from the point of reference to the point of diversion must be shown on the application map, and the map must be prepared on a good grade of tracing paper or tracing linen to a scale of not less than four inches equal to one mile.

A legal description must accompany your application, describing the lands upon which the water will be used. This description should be copied word for word from your deed, abstract, title insurance policy, or sales contract.

Mr. Everett Isenhart

-2-

April 21, 1964

Your application and the accompanying map are returned for completion, the application being endorsed so that in order to retain its date of priority, it must be returned to this office on or before June 22, 1964.
