(Signature of Applicant)

(Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 29633

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, R.R. McLeod, the holder of Permit No. 29633
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in
accordance with the terms of said permit, on the 3 day of June, 1965.

Remarks: displaces instructions on returning
from 1. Portable unit pump + pipelines
installed on same day

IN WITNESS WHEREOF, I have hereunto set my hand this 11 day of Oct, 1965

STATE OF OREGON
COUNTY OF COOS
CERTIFICATE OF WATER RIGHT

This Is to Certify, That R. E. MCLEOD

of Box 367, Bandon, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of North Fork of Floras Creek

a tributary of Pacific Ocean for the purpose of irrigation of 0.9 acre

under Permit No. 29633 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from April 16, 1964

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.01 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 13, T. 30 S., R. 14 W., W. M. Diversion point located: 750 feet South and 710 feet West from NE Corner, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 13.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $2\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

0.9 acre SE $\frac{1}{4}$ NW $\frac{1}{4}$
Section 13
T. 30 S., R. 14 W., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

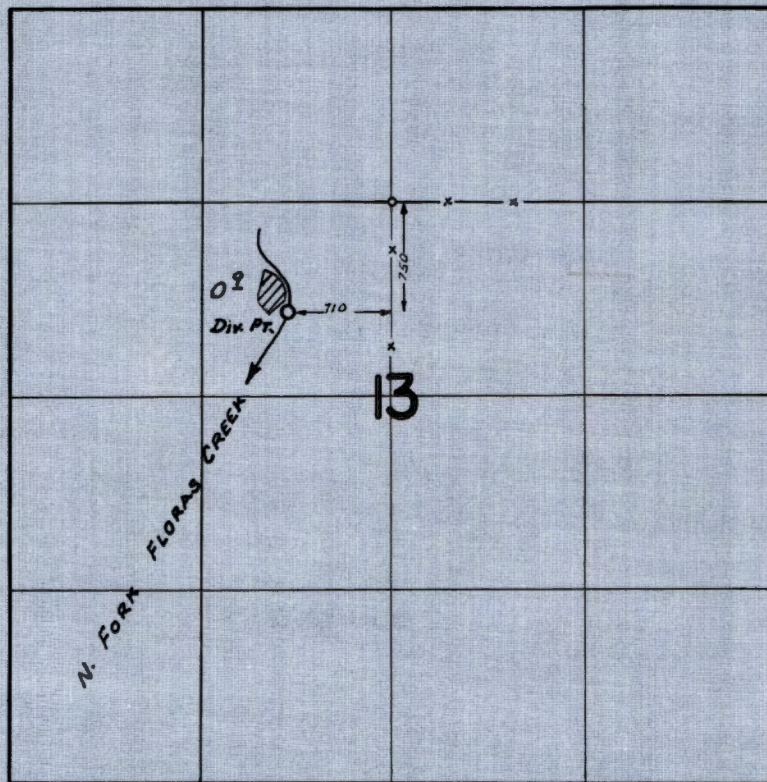

WITNESS the signature of the State Engineer, affixed

this date. October 21, 1970

FILE NO. 39748

R. E. McLeod
Box 367
Bandon, Oregon 97411

Dear Sir:

Enclosed is the final proof in connection with the incomplete water right represented by your permit No. 29633.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Bandon, Oregon

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. 29633.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Mr. McLeod:

This will acknowledge your letter of July 8, 1964, submitting a map to accompany your application numbered 39748.

In accordance with your instructions, your application has been amended by deletion of stock water from Item 3. The application now appears to be in satisfactory form to be considered for approval by issuance of a permit with the next group.

Very truly yours,

CHRIS L. WHEELER
State Engineer

STATE ENGINEER
SALEM, OREGON

You may ignore the parts in the application
for water rights pertaining to stock water.

Yes I own all of the S.E. $\frac{1}{4}$ & N.W. $\frac{1}{4}$ of sec. 13.

Township 30 R. 14. W. W. M. Cors Co. Ore,

Property marked R.E. McLEOD on Tracing
are owned by me Raymond E. McLeod,

You have a map traced from a Metsker
township map showing location of water right
distance from established corner, with the
correct compass reading on it

You did not return this map with your
letter and I have not a copy of these compass
reading so cannot write or trace them upon
this new or second map tracing

June 16, 1964

Mr. R. E. McLeod
Box 367
Bandon, Oregon

Dear Mr. McLeod:

This will acknowledge your letter returning application numbered 39748 and the accompanying maps.

It is noted in your letter that the livestock drink directly from the stream at any convenient place. It appears that in view of this, you should delete stock water from Item 3 of the application as, in order to establish a right for the appropriation of water for livestock use, a physical diversion of the water must be made from the natural source and that water supplied to the livestock in a tank, pond, or trough. The livestock enjoy a natural right to drink from any stream or body of water to which they have access.

To assist you in completing the map required to accompany your application, we are enclosing a sheet of tracing paper and request that you complete the map by preparing the required tracing.

We will withhold further action on your application pending the submission of the map and your authorization to amend your application by deletion of stock water use in Item 3 with your statement as to whether you own all of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13 or, if not, what part of the quarter quarter section you do own.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir,

In regards to paragraph two of your letter
The live-stock drink directly from the stream at
no given place or quantity. The water is not
pumped.

Sincerely Yours,

R. M. Leach

April 23, 1964

Mr. R. E. McLeod
Box 367
Bandon, Oregon

Dear Mr. McLeod:

This will acknowledge Mr. Engelgau's letter of April 15, 1964, submitting an application in your behalf for a permit to appropriate 1/8 cubic foot of water per second from the North Fork of Floras Creek for the irrigation of five acres and stock watering purposes, the accompanying sketch map, and fees in the sum of \$15 for which our receipt numbered 626 is enclosed.

Your application has been examined and filed under file number 39748. Before it may be considered for approval by issuance of a permit, it will be necessary that you prepare the map on a good grade of tracing paper or tracing linen showing the tie from the government survey corner to the point of diversion, the location of the five acres to be irrigated, and the location of the place where the water will be used for stock watering purposes. The scale to which the map is constructed should be clearly indicated on the map.

It is also necessary that you specify the quantity of water you wish to use for livestock watering purposes and submit additional recording fees in the sum of \$10, covering the appropriation of water for livestock use.

A legal description of the property upon which the water is to be used must accompany your application, copied word for word from your deed, abstract, title insurance policy, or sales contract.

Your application and the accompanying map are returned for completion, the application being endorsed so that in order to retain its date of priority, it must be returned to this office on or before June 23, 1964.

Very truly yours,

CHRIS L. WHEELER
State Engineer
