

WATERMASTER

WATER RIGHT PERMIT APPLICATION REVIEW

Application Number: R-89323

Applicant's Name: Robert Van Loo, Don & Alice Baum

Evaluation of potential for injury to other water rights:

1. Would the proposed water allocation have the potential for injury to other water rights?

☒ Yes ☐ No

2. If the proposed water allocation will cause injury, can the permit be conditioned to avoid injury?

☒ Yes ☐ No ☐ N/A

If "Yes", please list conditions necessary to avoid injury:

Water may be appropriated for storage during the fill season and when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Evaluation of appropriate Measurement, Recording and Reporting Condition:

3. Please select the measurement device(s) required for any permit issued under this application.

☒ Totalizing Flow Meter ☐ Other/None – please describe below:
☒ Staff Gage

Require the installation of a staff gage to measure the full depth of the reservoir and a totalizing flow meter at the diversion point from the fill source.

4. Please select your recommended reporting requirement for any permit issued under this application. Please consider site-specific information, including but not limited to potential for injury to other water rights, regulation history of the area, and level of stakeholder interest in the application.

☐ Require recording of volume of water diverted each month and require submission of a report to the Department annually.
☒ Do not require recording and reporting at this time.

5. Please provide any additional information or permit conditions that are necessary for this application:
Potential injury to ISWR C-78508 & IL 285.

6. Would you like to review a draft of any permit that might be issued under this application?

☒ Yes ☐ No
