Dear Sir and Madam:

This will acknowledge your application for a permit to appropriate 1.78 cubic feet per second from the Willamette River for the irrigation of 176.6 acres, a map, and the fee of \$34.35 for which our receipt No. 22886 is enclosed. This application has been filed and numbered 48029.

Also acknowledged is receipt of affidavit of abandonment to clear our records of ground water registration claim No. GR-2728, GR-2731, and certificate No. 32610.

Small areas of land claimed as irrigated under ground water registration claims No. GR-2727 and GR-2732 are included in the land described in Item No. 8 on application No. 48029. Assuming that all of the land described in the new application is to receive primary irrigation from the river, the enclosed affidavits of abandonment should also be completed to clear our records of this duplication.

Application No. 48029 will be in satisfactory form when the affidavits are returned to this office.

Dear Sir and Madam:

This will acknowledge the receipt of your application for a permit to appropriate 0.968 cubic foot of water per second from an unnamed slough of the Long Tom River for the irrigation of 77.5 acres, the accompanying map and legal description; your application for a permit for the construction of a well and the appropriation therefrom of 0.3875 cubic foot of water per second for the irrigation of 31 acres, the accompanying print and legal description; your six registration statements and the accompanying four prints and payment of fees in the amount of \$157.30, for which our Receipts Nos. 18401, 18402, 18403, 18404, 18405, 18406, 18407 and 18408 are enclosed.

The six registration statements, which have been given File Nos. GR-2727 through GR-2732, have been referred to the Ground Water Division of this office. You will hear from that division as soon as the necessary entries have been made in the registration records.

Your application for a permit for the construction of a well and the appropriation therefrom has been examined, given File No. G-1091, and the following defects are noted:

Map: The map necessary to accompany your ground water application must be prepared and submitted on a good quality tracing paper or tracing cloth so that the necessary additional copies can be made by a blue-printing process.

Application Item 4: The well should be further located as being within a specific 1/16th of a section.

Your application for a permit to appropriate from the unnamed slough has been examined, given File No. 32497, and the following defects are noted:

Map and Item 4: The location of diversion point #2 as listed on Item 4 does not appear to agree with the location as shown on the accompanying map.
