Since we now have a Watermaster in District #21, Scott White, I think it best we refer these to him. I have called Scott this morning and he has agreed to look into what he thinks would be an appropriate season given that we do not need to consider Division 33 rules.

From: Kerry Kavanagh**Sent:** Monday, December 20, 2010 7:36 AM**To:** Tony Justus**Cc:** Kerry Kavanagh**Subject:** Alt Res Apps R-87314, R-87315, R-87316, R-87317, and R-87318 Robert Gobet

Hi Tony,

On December 17, 2010, I received revised reviews from Brent Smith, ODFW for these alternate reservoir applications. Brent has recommended a storage season from December 1 through June 30, based on water availability.

Here are links to ODFW revised reviews:

WATERMASTER ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

Date: April 15, 2009

ODFW ALTERNATE RESERVOIR APPLICATION REVIEW SHEET

Recommendations for Water Right Applications under the Alternate Reservoir review process (ORS 537.409)

In lieu of the water right application process set forth in ORS 537.140 to 537.211, an owner of a reservoir may submit an alternate reservoir application for a reservoir that has a storage capacity less than 9.2 acre-feet or a dam or impoundment structure less than 10 feet in height. ORS 537.409 describes the criteria used to evaluate alternate reservoir applications.

The review shall be limited to issues pertaining to: a) water availability, b) potential detrimental impact to existing fishery resources; and c) potential injury to existing water rights. (ORS 537.409 (6))

Within 60 days after the department provides public notice...any person may submit detailed, legally obtained information in writing, requesting the department to deny the application for a permit on the basis that the reservoir: (a) Would result in injury to an existing water right; or (b) Would pose a significant detrimental impact to existing fishery resources. (ORS 537.409 (5))

The review of alternate reservoirs is limited to these criteria only.

Application #: R- 87316 Applicant's Name: Robert Gobet

- 1) Would the proposed reservoir pose a significant detrimental impact to an existing fishery resource? ☒ NO ☐ YES

Explain: (For example, list STE species or other existing fishery resources that would be negatively impacted.)

Have no record of fish presence for corn cob creek. Fish presence is highly unlikely.

Please check either of the boxes below if appropriate:

☒ Any diversion or appropriation of water for storage during the period July through November poses a significant detrimental impact to existing fishery resources. *(For example, if diversion of water for storage during a certain time period would cause a significant detrimental impact to an existing fishery resource, then ODFW should recommend conditions or limitations.)*

☐ This proposed pond or reservoir contemplates impounding water in the Columbia Basin above Bonneville Dam. ODFW has determined that additional diversions of water in this area poses a significant detrimental impact to existing fishery resources during the period April 15 through September 30.

- 2) Can conditions be applied to mitigate the significant detrimental impact to an existing fishery resource? ☐ NO ☐ YES

If YES, which conditions are recommended: (select from the Menu of Conditions listed on back)

- 3) Did you meet with staff from another agency to discuss this application? ☒ NO ☐ YES

Hi Kerry,

Yes the water availability model shows ample water for storage during the time frame December 1 through June 30. So I have modified all my reviews of Gobets applications (R-87314 through R-87318) to include the December 1 to June 30 for allowed storage. Thanks for the additional information.

Take care,

Alternate Reservoir Applications (ORS 537.409)

For alternate reservoir applications filed under ORS 537.409, the public is invited to comment within 60 days of this notice. The law provides that within 60 days after the Department provides public notice of the application, any person may submit detailed, legally obtained information in writing, requesting the Department to deny the application for a permit on the basis that the reservoir:

- (A) Would result in injury to an existing water right; or
- (B) Would pose a significant detrimental impact to existing fishery resources as determined on the basis of information submitted by the State Department of Fish and Wildlife.

Such comments must be submitted on or before January 21, 2012.

Hi Bob,

Response in red below. Thank you

Please answer the following questions so that I may continue processing the five applications.

Do you want to use the existing OWRD (watermaster) review or do you want to seek a new injury review from the watermaster and submit it to OWRD?

Use existing OWRD (watermaster) review

Do you want to use the existing ODFW review or do you want to seek a new fisheries review from ODFW and submit it to OWRD?

Use existing ODFW review

Thank you.

Hi Bob,

We are modifying how we process applications under the alternate reservoir process. We will no longer consider an application complete unless it contains information from the Oregon Water Resources Department (OWRD) regarding whether the proposed use will injure any existing water right and information from the Oregon Department of Fish and Wildlife (ODFW) regarding whether the proposed use poses a significant detrimental impact to existing fishery resources.

With regard to your pending application(s), we need direction from you regarding how to proceed so that we may deem the application(s) complete. You may either:

1. **Seek a determination** from the OWRD regarding whether the proposed use would injure any existing water right and a determination from the ODFW regarding whether the proposed use will pose a significant detrimental impact to existing fishery resources; *or*
2. **Direct the OWRD to use the existing reviews** completed by OWRD and ODFW in your application file so that we may deem the application(s) complete. Please see the attached reviews from the watermaster and ODFW fish biologist.

Please select the two appropriate boxes below and delete the two selections that do not apply and reply to kerry.l.kavanagh@state.or.us at the Oregon Water Resources Department.

I will seek an injury review from OWRD & submit it to OWRD

I will seek a fisheries review from ODFW & submit it to OWRD

OR:

Please use the **existing OWRD review** to process the application

Please use the **existing ODFW review** to process the application

**Note: you may choose to use both existing reviews from OWRD and ODFW, use only one and seek a new review from the other agency, or seek new reviews from both agencies.*

This information is required for us to continue processing the application(s). If you do not respond within 60 days from the date of this letter, the Department may issue a Final Order denying the

Instream Flow Requirements in Cubic Feet per Second

No instream flow requirements were found for this watershed.

Alternate Reservoir Application Completeness Checklist

This is the checklist used by WRD staff

#3

Application R 87316
Priority Date 10-20-2008
Use M-P
Amount (AF) 1.14

County WHEELER SE SW
Township 8S Range 24E Section 3 Taxlot 200
Caseworker KERRY K
Watermaster 4

*Minimum Requirements (ORS 537.409)

- ☒ Landowner Name, Mailing Address* and Telephone Number.
- ☒ Source* and tributary listed. NO WELLS-MUST HAVE GW APP TO USE A WELL AS A SOURCE !!
- ☒ Reservoir Location- Township, Range, Section, Quarter Quarter, Taxlot
- ☒ Dam height*, if applicable
- ☐ Total Quantity * of Storage Requested: 1.14 AF
- ☒ Proposed Use of the water....Cannot accept application for use of this stored water at the same time (E2)
- ☒ Property ownership indicated? * If applicant does not own all the land, is the affected landowner's name and mailing address listed? (Including: lands not owned by applicant, upon which the source is locatedor..... that are crossed by the diversion works. This includes any roads or rights-of-way.)
- ☒ Environmental Impact section completed? Not fatal if omitted
- ☒ Application signed by the landowner(s)? All parties noted as applicants must sign the application. *Must be an original "wet" signature.*
- ☒ Completed Land-Use Form * or receipt signed by the appropriate planning department official enclosed? *Does the use on land-use form match the proposed use on the application? Must be an original "wet" signature within the last 12 months.*
- ☒ Acceptable map ** Indicates requirements of standards set forth by the Commission and causes fatal flaw if not provided by the applicant.
 - ☐ Reservoir Location - noting Township, Range, Section, 1/4 1/4 and Tax Lot number(s)*
 - ☐ Scale of the Map (not less than 1"-1320') **
 - ☐ Reference corner on map
 - ☐ North Directional Symbol **
 - ☐ 1/4 1/4's clearly identified
 - ☐ Reservoir clearly identified *
 - ☐ Dam or POD (If off channel) Location coordinates referenced to a government land survey corner* If no dam, use coordinates to center of reservoir.**

☒ Fees enclosed*?
