**CERTIFICATE OF WATER RIGHT**

**This Is to Certify, That **ORVILLE WIMORS****

of **Rt. 1, Box 1, Brooks**, State of **Oregon**, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of a well

a tributary of **Willamette River** for the purpose of **irrigation of 2.7 acres**

under Permit No. **0-817** of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from **May 9, 1958**

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed **0.03 cubic foot per second**

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the **NE $\frac{1}{4}$  SW $\frac{1}{4}$** , as projected within Brooks DLC G $\frac{1}{2}$ , Section 17, T. 6 S., R. 2 W., W.M. Well is 23 chains S. & 50.7 chains E. from NW corner DLC G $\frac{1}{2}$ .

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to **one-eightieth** of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed **2 $\frac{1}{2}$  acre feet per acre** for each acre irrigated during the irrigation season of each year,

and shall

conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

**2.7 acres NE $\frac{1}{4}$  SW $\frac{1}{4}$ , as projected within Brooks DLC G $\frac{1}{2}$

Dear Mr. Wymore:

On the reverse side of this paper is a copy of a draft of water right certificate to confirm the right under Permit No. G-817. You are requested to examine this draft and if you find it correctly describes the appropriation of water made, execute the following final proof. A fee of \$1.00 is required for recording your certificate of water right in the office of the County Clerk. The fee of \$1.00, together with this signed draft, must be returned to the State Engineer.

Very truly yours,

LEWIS A. STANLEY  
State Engineer

FINAL PROOF

I have read the draft of water right certificate shown on the reverse side of this paper and as final proof of appropriation of water I hereby certify that the water has been used as described in said draft.

Dear Mr. Wymore:

On August 29, 1961 we mailed you a copy of a draft of the certificate in connection with the incomplete water right represented by your permit number G-817 granting a right to the use of 0.03 cubic foot per second from the waters of a well for irrigation, together with the instructions that the statement under "Final Proof" be signed at the bottom of the page and the copy be returned to this office accompanied by the certificate recording fee in the amount of \$1.

To date this form has not been received nor has any correspondence regarding reasons for not returning it been received. This is to notify you that unless we receive the signed draft form and the certificate recording fee, or a request for additional time within thirty days from the date of this letter, we will be required to take steps toward the cancellation of this permit.

Very truly yours,

Dear Sir:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. G-817.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

LEWIS A. STANLEY  
State Engineer
