Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Application No. 43020

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, George Dimeo, the holder of Permit No. 32162

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the Aug 1st day of August, 1970

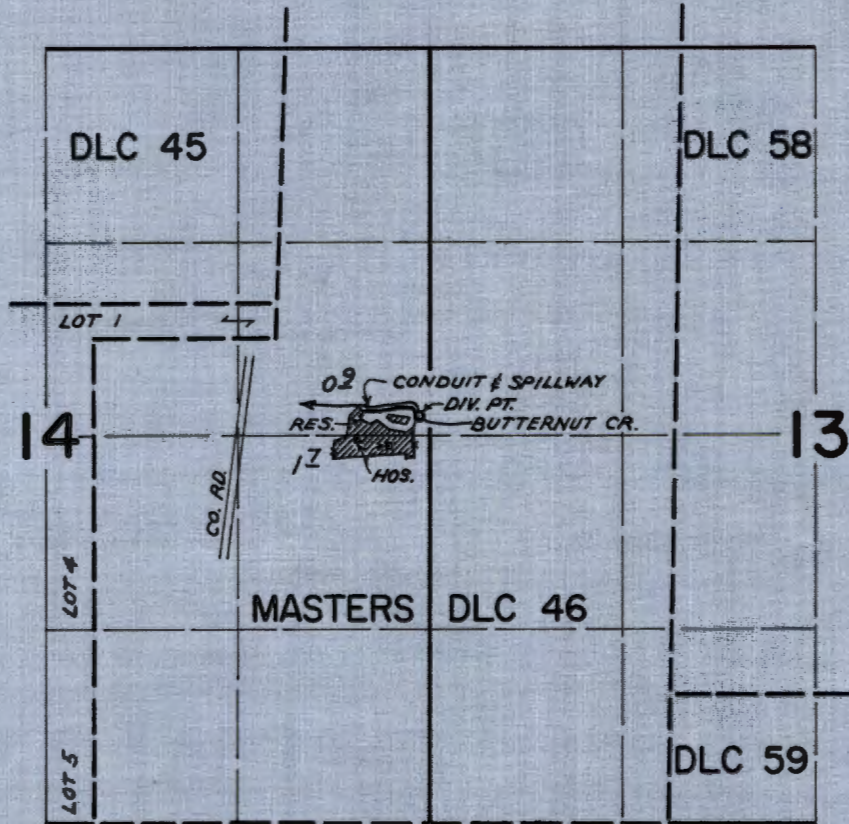

Remarks: An Application for extension of Time was erroneously submitted because with thought Time limit had expired -

IN WITNESS WHEREOF, I have hereunto set my hand this 12 day of November, 1970

Surveyed SEPT. 15 1971, by GREG BACA

43020/

STATE OF OREGON

COUNTY OF WASHINGTON

Proof of Appropriation of Water

GEORGE DIMEO

of **5030 S.W. 209th Avenue, Beaverton**, State of **Oregon**,
 has applied beneficially the waters of
Butternut Creek and reservoir constructed under application number R-43019,
 permit number **R-4898**
 a tributary of **Tualatin River** for the purpose of
irrigation of 2.6 acres

under Permit No. **32162** of the State Engineer, and that the use of said waters has been
 completed under the terms of said permit; that the priority of the
 right dates from **November 10, 1966**

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
 amount of
0.03 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
 The point of diversion is located in the **SE $\frac{1}{4}$ NE $\frac{1}{4}$ as projected within Masters DLC 46,**
Section 14, T. 1 S., R. 2 W., W. M., Reservoir - 2810 feet North and 430 feet
West; Creek - 2780 feet North and 80 feet West; both from SE Corner, Section 14.

The amount of water used for irrigation, together with the amount secured under any other
 right existing for the same lands, shall be limited to **one-eightieth** of one cubic foot per second
 per acre, **or its equivalent for each acre irrigated from direct flow and shall be**
further limited to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each
acre irrigated during the irrigation season of each year from direct flow and
storage from reservoir constructed under Permit No. R-4898,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is
 as follows:

0.9 acre SE $\frac{1}{4}$ NE $\frac{1}{4}$
1.7 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$
Both as projected within Masters DLC 46
Section 14
T. 1 S., R. 2 W., W. M.

I have read the above and foregoing proof of appropriation of water; I know the contents
 thereof, and that the facts therein stated are true.

IN WITNESS WHEREOF, I have hereunto set my hand this 4th day of January,

19.73

Dear Madam:

This will acknowledge the signed proofs of the proposed certificates in connection with your water right permits numbered R-4898 and 32162 and the certificate recording fee of \$1.50 for which our receipt number 31994 is enclosed.

There are two certificates involved, each of which will require a recording fee, so if you will submit the additional fee of \$1.50 we will be able to issue the confirming certificates.

Very truly yours,

VESTAL R. GARNER
Assistant

Dear Sir:

Enclosed is the final proof in connection with the incomplete water right represented by your permit number ~~8 K-4898~~ and 32162.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1.50, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Application No.43020.....

Application for Extension of Time

To the State Engineer of Oregon:

I, George Dimeo, of 5030 S.W. 209 Beaverton
state of Oregon, am the owner and holder of Permit No. 32162, to
appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or
before Oct 1st 69, 1969, and complete application of water is required to be
made on or before Oct 1, 1970

I have heretofore done the following work described under said permit during the past year:

~~Completed Reservoir~~ Installed 5 hp. Irrigation
Pump & underground Sprinkling System
Permit # R43019 - # R43020

and did the following work prior to last year: Constructed Reservoir Permit #
Purchased Pumping Equipment R43019

costing \$ 1000, and I estimate the cost of completion to be \$ 2000.00

I have heretofore used water under said permit to the following extent: irrigation of
Lawns, garden & Orchard 5.66 Acres

I am unable to {complete construction work } within the required time, for the following
{make complete application of water }
(Strike out phrase not applicable)

reasons, to wit: Due To Illness (heart surgery) I was
unable To complete required Time

(If additional space is required, attach separate sheet)

\$5.00 FEE PAID

(A fee of \$2.00 for each permit involved must accompany this application.)

Gentlemen:

Pursuant to your request I am enclosing a form for use in making application for an extension of time limits under permit No. 32162.

Please be advised that the State Engineer is permitted by law to extend the time for completion of a project only upon a showing of due diligence by the permittee. Therefore, you should execute the application carefully and completely so that this office may determine from your sworn statement whether due diligence has been shown.

The application must be executed before a notary public and submitted to this office with the statutory filing fee in the amount of \$5 for each permit.

Upon receipt of the application, the matter of extending the time under the appropriation will be given further consideration and you will be advised of our action.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir:

This will acknowledge receipt of your returned reservoir application No. R-43019 and the small dam data sheet.

Item No. 6 on the reservoir application indicates the height of dam above highwater line when full as being 6 feet. The height of dam above the highwater line is the freeboard. The small dam data sheet now indicates the depth of spillway as being 6 feet. However, item No. 7 on the reservoir application indicates only 3 feet of freeboard above the pool level. These three entries should correspond.

Would you please give us written authorization to correct, whichever is in error, so that they do correspond.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Dear Sir:

This will acknowledge receipt of the returned reservoir application No. R-43019 and the small dam data sheet.

Item No. 6 on the reservoir application and the small dam data sheet show the height of dam above highwater line when full, as being 6 feet. However, item No. 7 indicates the dam will be constructed with only 2 feet of freeboard above the pool. Inasmuch as the height of dam above the highwater line is the freeboard, these two entries must correspond.

I am returning your reservoir application No. R-43019, and the small dam data sheet for correction. The application is endorsed so that in order to retain its date of priority, it must be returned on or before April 10, 1967.

Very truly yours,

CHRIS L. WHEELER

Aloha, Oregon

Dear Sir:

This will acknowledge receipt of the returned applications No. R-43019 and 43020, map, and small dam data sheet.

Item No. 6 on the reservoir application indicates the maximum height of dam above highwater line when full, as being six feet. The small dam data sheet indicates the depth of spillway as seven feet. These figures usually correspond. If they do not, would you please explain in the section provided for remarks. Our computation indicates that a minimum depth of spillway of 3.75 feet is required.

I am returning the reservoir application and the small dam data sheet for correction. The application is endorsed so that in order to retain its date of priority, it must be returned on or before February 14, 1967.

November 21, 1966

George Dimeo
18440 S. W. Blanton
Aloha, Oregon

Dear Sir:

This will acknowledge receipt of your application for a permit to construct a reservoir and store 2.2 acre feet of water therein from Butternut Creek for irrigation, small dam data sheet, legal description, and the fees of \$15 for which our receipt No. 1554 is enclosed. This application has been filed and numbered R-43019.

Also acknowledged is receipt of your application for a permit to appropriate 0.07 cubic feet of water per second from Butternut Creek for the irrigation of 5.66 acres, print, and the fees of \$15 for which our receipt No. 1555 is enclosed. This application has been filed and numbered 43020.

Item No. 6 on the reservoir application indicates the height of dam above highwater line when full, as being six feet. The accompanying small dam data sheet indicates the depth of spillway as being only three feet. The height of dam above highwater line and depth of spillway usually correspond. Is the spillway in embankment or natural material? If the spillway is in embankment, do you intend to riprap for protection.

Item No. 1 on application No. 43020 should also include the reservoir, as a source of appropriation.

A map in the form of a transparency so that it may be easily reproduced is required. A tracing of the map submitted would be satisfactory.

I am returning both applications and the print for correction and completion. The applications are endorsed so that in order to retain their dates of priority, they must be returned on or before January 23, 1967.

Dear Mr. Dimeo:

This will acknowledge receipt of your application for a permit to construct a reservoir and store 2.2 acre feet of water therein from Butternut Creek for irrigation and the small dam data sheet.

This application can not be filed because the required fee of \$15 was not submitted.

The address should be completed to indicate the city. All entries on the application must be completed in ink. The small dam data sheet must show your complete signature.

A secondary application for the appropriation of this 2.2 acre feet for irrigation purposes is required. The proper forms and a booklet of rules and regulations are enclosed.

A map in the form of a transparency so that it may be easily reproduced is required. It must be to a minimum scale of not less than four inches equal to the mile. The map must show the location of the point of diversion in reference to a government survey corner and correspond to item No. 4 on the application. The map must also show the number of acres to be irrigated in each quarter-quarter section and correspond to item No. 8 on the application.

A legal description of the property upon which the water will be used must accompany the application. This can be copied from your deed, title insurance policy, or sales contract.

George Dimeo

Remarks: This appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir to be constructed under Permit No. R-4898 and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

$\frac{1}{80} \times 2.6 = 0.033$

Basin 2, Vol. 1

INFO: GEORGE DIMEO

PUMP: MOTOR: LEWIS ALLIS 5HP 3500RPM
PUMP: GOULDS CENTR. ; 1 1/2" x 1 1/4"

PIPE: BURIED ; 2" MAINLINE PLAS.
400 ft GARDEN HOSE

HEADS: (47) RAINROL U618 5/32" ; BUCKNER 9178 5/32" x 3/32" ;
RB 40 5/32" x 3/32"
15 MAX. (RAINROLS)

LIFT: 0 to + 30 ft.

CROP: LAWN & GARDEN

TIE: SW COR. DLC 46 (1 1/4" I.P.)

.01

$$\frac{45 \text{ psl}}{\text{Heads}} \frac{(15)(4.72)}{450} = 0.157 \text{ cfs}$$

$$\text{Pump} \frac{(6.61)(5)}{15 + 1.1 \left(\frac{45}{.433} \right)} = \frac{33.1}{129} = 0.256 \text{ cfs}$$
