Subject: OID protest of IS water right application IS-70354

Hello Patricia,

I left you a voice mail message a little while ago. I'm responding on behalf of OID to the letter you sent Mike Kasberger, dated Dec. 2, 2015. Your letter requested a meeting in early 2016. We would propose to meet in Salem in January, and potential dates that would work for OID include Jan. 11, 12 (afternoon), 14, and 21. Please let us know if any of these dates might work for you. In addition, it would be helpful to discuss who from the Department would attend the meeting.

Thank you.

David.

Re: Protest to ODFW Instream Water Right Application IS-70354

Dear Mr. Kasberger:

The Oregon Department of Fish and Wildlife filed numerous applications for instream water rights in 1990 on various streams around Oregon. Your organization protested Application #70354 on the Crooked River. Water Resources is working to resolve the protests where possible, and where resolution is not possible, preparing the application for referral to contested case hearing. OWRD would like to arrange a meeting to discuss the application, the protest and possible next steps for the parties. We are hoping to arrange a meeting in early 2016.

Please contact me at the number or email address below and let me know whether your organization still has an interest in pursuing the protest in light of developments since 1990. For your convenience, I have enclosed a copy of the application file for your review.

Sincerely,

Patricia McCarty
Protest Program Coordinator
Water Right Services Division

Re: Protest to ODFW Instream Water Right Application

Dear Mr. Kasberger,

The Oregon Department of Fish and Wildlife filed numerous applications for instream water rights in 1996 on various streams around Oregon. Ochoco Irrigation District protested Application # 70354 on the Crooked River.

Water Resources is working to resolve the protests where possible, and where resolution is not possible, preparing the application for referral to contested case hearing. Please contact me and let me know whether your District still has any interest in pursuing the protest in light of developments since 1996.

Sincerely,

Patricia McCarty

Water Right Application Number: IS 70354

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft certificate be issued with conditions.

Application History

On 5/11/90, the Oregon Department of Fish and Wildlife submitted an application to the Department for the following instream water right certificate.

Source: CROOKED RIVER TRIBUTARY TO DESCHUTES RIVER

County: Crook

Purpose: Migration, spawning, egg incubation, fry emergence, and juvenile rearing.

The amount of water (in cubic feet per second) requested by month:

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
1st½	75.0	75.0	255.0	255.0	255.0	150.0	75.0	75.0	75.0	75.0	75.0	75.0
2nd½	75.0	150.0	255.0	255.0	255.0	150.0	75.0	75.0	75.0	75.0	75.0	75.0

To be maintained in:

BOWMAN DAM RIVER MILE 71.0 (SOWN, SECTION 11, T17S, R16E); TO LAKE BILLY CHINOOK RIVER MILE 6.0 (NWNE, SECTION 33, T12S, R12E)

The Department mailed the applicant notice of its Initial Review on December 12, 1995. Public notice of the application was provide in the Department's weekly public notice on December 27, 1996. Comments were received for 30 days.

The following supporting data was submitted by the applicant:

- (a) Fish and Wildlife Resources of the Deschutes Basin, Oregon, and Their Water Requirements; (an unpublished report).
- (b) Determining Minimum Flow Requirements for Fish, ODFW Report January 20, 1984.
- (c) Developing and Application of Spawning Velocity and Depth Criteria for Oregon Salmonids, Alan K. Smith, Transactions of the American Fisheries Society, April 1973.

- (e) A letter dated April 5, 1996, stating that the flows requested in this application are the minimum amount necessary to restore, protect and enhance populations and habitats of native wildlife species at self-sustaining levels

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the proposed rate of use
- pending senior applications and existing water rights of record
- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any comments received

An assessment with respect to conditions previously imposed on other instream water rights granted for the same source has been completed.

An evaluation of the information received from the local government(s) regarding the compatibility of the proposed instream water use with land use plans and regulations has been completed.

The level of instream flow requested is based on the methods of determining instream flow needs that have been approved by administrative rule of the agency submitting this application.

Findings of Fact

The basin Basin Program allows the proposed use.

Senior water rights exist on this source or on downstream waters.

The source of water is within or above a State Scenic Waterway.

The source of water is not withdrawn from appropriation by order of the State Engineer or legislatively withdrawn by ORS 538.

The estimated average natural flow for the lower end of the requested reach is as follows (in cubic feet per second):

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
303	641	1100	1320	805	391	112	55.8	64	75.6	97.2	192

Conclusions of Law

Under the provisions of ORS 537.153, the Department must

presume that a proposed use will not impair or be detrimental to the public interest if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complied with rules of the Water Resources Commission.

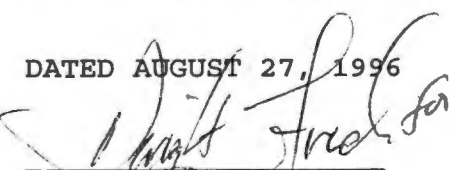

- the flows are to be measured at the lower end of the stream reach to protect necessary flows throughout the reach.
- the stream flows listed below represent the minimum flows necessary to support the public use.

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
1st½	75.0	75.0	255.0	255.0	255.0	150.0	75.0	55.8	64.0	75.0	75.0	75.0
2nd½	75.0	150.0	255.0	255.0	255.0	150.0	75.0	55.8	64.0	75.0	75.0	75.0

Recommendation

The Department recommends that the attached draft certificate be issued with conditions.

DATED AUGUST 27, 1996

 Steven P. Applegate
 Administrator
 Water Rights and Adjudications Division

Protest Rights

Under the provisions of ORS 537.153(6) or 537.621(7), you have the right to submit a protest against this proposed final order. Your protest *must* be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050.
- Proof of service of the protest upon the applicant.

Your protest must be received in the Water Resources Department no later than October 11, 1996.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled *only* if a protest has been submitted and if

- upon review of the issues the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

The proposed use requested in this application is allowed in the basin Basin Plan.

No preference for this use is granted under the provisions of ORS 536.310(12).

The proposed use will not injure other water rights.

The proposed use complies with rules of the Water Resources Commission.

The proposed use complies with the State Agency Agreement for land use.

The proposed instream flows do not fully appropriate this source of water year round. Water is available for additional storage.

Water is not available for the proposed use at the amount requested year round because the unappropriated water available is less than the amounts requested during some months.

For these reasons, the presumption set forth in ORS 537.153, as discussed above, has not been established. The application therefore has been processed without the statutory presumption.

"When instream water rights are set at levels which exceed current unappropriated water available the water right not only protects remaining supplies from future appropriation but establishes a management objective for achieving the amounts of instream flows necessary to support the identified public uses." OAR 690-77-015(2).

"The amount of appropriation for out-of-stream purposes shall not be a factor in determining the amount of an instream water right." "The amount allowed during any time period for the water right shall not exceed the estimated average natural flow ..." (excerpted from OAR 690-77-015 (3) and (4)).

Because the proposed use exceeds the available water, it can not be presumed to be in the public interest. However, under the direction of OAR 690-77-015 (2)(3) and(4), the proposed use is in the public interest up to the limits of the estimated average natural flow.

Oregon law allows certain uses of water to take precedence over other uses in certain circumstances. When proposed uses of water are insufficient for all who desire to use them, preference shall be given to human consumption purposes over all other uses and for livestock consumption over any other use (excerpted from ORS 536.310 (12)).

The Department therefore concludes that

- the proposed use, as limited in the draft certificate, will not result in injury to other water rights,
- the proposed use, as limited in the draft certificate, will not impair or be detrimental to the public interest as provided in ORS 537.170.
- the proposed use, as limited in the draft certificate, will include the following conditions: for purposes of water distribution, this instream right shall not have priority over human or livestock consumption.

DRAFT
STATE OF OREGON

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

Oregon Water Resources Department
158 12th Street NE
Salem, Oregon 97310

The specific limits for the use are listed below along with conditions of use.

Source: CROOKED RIVER TRIBUTARY TO DESCHUTES RIVER

County: Crook

Purpose: Migration, spawning, egg incubation, fry emergence, and juvenile rearing.

To be maintained in:

BOWMAN DAM RIVER MILE 71.0 (SWNW, SECTION 11, T17S, R16E); TO LAKE BILLY CHINOOK RIVER MILE 6.0 (NWNE, SECTION 33, T12S, R12E)

The right is established under Oregon Revised Statutes 537.341.

The date of priority is 5/11/90.

The following conditions apply to the use of water under this certificate:

1. The right is limited to not more than the amounts, in cubic feet per second, during the time periods listed below:

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
1st½	75.0	75.0	255.0	255.0	255.0	150.0	75.0	55.8	64.0	75.0	75.0	75.0
2nd½	75.0	150.0	255.0	255.0	255.0	150.0	75.0	55.8	64.0	75.0	75.0	75.0

2. The water right holder shall measure and report the in-stream flow along the reach of the stream or river described in the certificate as may be required by the standards for in-stream water right reporting of the Water Resources Commission.
3. For purposes of water distribution, this instream right shall not have priority over human or livestock consumption.
4. The instream flow allocated pursuant to this water right is not in addition to other instream flows created by a prior water right or designated minimum perennial stream flow.
5. The flows are to be measured at the lower end of the stream reach to protect necessary flows throughout the reach.

Witness the signature of the Water Resources Director affixed this ___ day of _____, 19__.

Water Resources Director

Recorded in State Record of Water Right Certificate number _____.

IS 70354

PROTEST TO PROPOSED FINAL ORDER

Any person may protest the Proposed Final Order. Applicants are not required to pay a fee, but non-applicant protestants must include a \$200 fee as part of their protests. The protest must be submitted to the Water Resources Department; 158 12th St., NE; Salem, OR 97310, and must include the following:

Application No. 15 70354 Applicant's Name ODFW
Protestant's Name OCHOCO IRRIGATION DISTRICT
Address 1001 N. DEER STREET
City PRINEVILLE State OREGON Zip Code 97754

Describe your interest in the proposed final order. If you claim to represent the public interest, include a precise statement of the public interest that you represent. IRRIGATION DISTRICT

DELIVERS IRRIGATION WATER TO SEVERAL HUNDRED USERS FROM THE CROOKED RIVER, STORED WATER IN PRINEVILLE RESERVOIR - THERE ARE MANY DIVERSIONS TO AREA IRRIGATORS FROM THIS REACH OF THE CROOKED RIVER

Describe in detail how the proposed final order will impair or be detrimental to your interest. SHOULD THE RIVER BE REGULATED FOR THESE FLOWS, THE AVAILABILITY OF WATER TO STORE WATER FOR IRRIGATION IN PRINEVILLE RESERVOIR WOULD BE SERIOUSLY JEOPARDIZED. WE ONLY RECEIVE FULL ALLOCATION IN STORAGE IF THE RESERVOIR SPILLS, THIS WOULD REDUCE IRRIGATION WATER FOR CROPS.

Describe in detail how the proposed final order is deficient or in error, and how to correct it. THE MATH 001099 FOR THE FLOWS IS FLAWED AND ERMF IS TOO HIGH. IN CONSENT WITH THE WATER USERS ABOVE THE RESERVOIR WE ARE GATHERING MORE SPECIFIC HYDROLOGIC DATA TO FURTHER REFINING THE ERMF.

Cite any legal authority that supports your protest. ORR-690-776-020, OAR-690-77-015, ORS 537.336, ORS 537.332, ORS 537.343

I certify that to the best of my knowledge the information I have provided in this protest is accurate, true, and correct.

Protestant's Signature Hugh Moon Date Oct 10, 1996

For Applicants only: If you file or another person files a protest and you request a hearing, the Department must hold a contested case hearing.

I am the applicant, and I

request a contested case hearing.

do not request a contested case hearing.

OCT 11 1996

(This proof of service, by regular mail is required for all protests by parties other than the applicant. The applicant is not required to submit a proof of service to the Water Resources Department of a protest against a Proposed Final Order.)

PROOF OF SERVICE

I, HUGH MOORE, being first duly sworn, depose and say that on OCTOBER 10, 1996, I mailed a copy of the attached protest against a proposed final order on application number 15-70354 to the applicant by regular mail. A copy of the protest was placed in an envelope addressed to:

STATE OF OREGON

WATER RESOURCES DEPARTMENT

Application for Instream Water Right
by a State Agency

There is no fee required for this application.

RECEIVED
MAY 11 1990
WATER RESOURCES DEPT.
SALEM, OREGON

Applicant: Randy Fisher for Oregon Department of Fish and Wildlife, PO Box 59, Portland, OR 97207

- The name of the stream of the proposed instream water right is Crooked River, a tributary of Deschutes River.
- The public uses this instream water right is based upon include providing minimum stream flows for wild rainbow trout for migration, spawning, and juvenile rearing.
- The amount of water needed by month for each category of public use is as follows:

USE(S): Migration, spawning, and juvenile rearing.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
<u>75</u>	<u>75/</u>	<u>255</u>	<u>255</u>	<u>255</u>	<u>150</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>
	<u>150</u>										

- The reach of the stream identified for an instream water right is from (upstream end) Bowman Dam, river mile ~71, within the SW quarter of the NW quarter of Section 11, Township 17S, Range 16E W.M., in Crook County...

Downstream to Lake Billy Chinook, river mile ~6, within the NW quarter of the NE quarter of Section 33, Township 12S, Range 12E W.M., in Crook County.

- The method used to determine the requested amounts was direct measurement and the Oregon Method.
- When were the following state agencies notified of the intent to file for the instream water right?

Dept. of Environmental Quality	Date: <u>April 25, 1990</u>
ODFW (Fish, Wldlf, and Habitat Div's)	Date: <u>April 25, 1990</u>
Parks and Recreation Division	Date: <u>April 25, 1990</u>

- If possible, include recommendations for measuring locations or methods:

IWR Application # 70354 Certificate # _____

Establish a gaging structure near the downstream limit of reach, perhaps near the town of Prineville.

8. If possible, include recommendations for assisting the Water Resources Department (WRD) in measuring and monitoring procedures:

ODFW will assist the watermaster in establishing and implementing a monitoring program.

9. If possible, include other recommendations for methods or conditions necessary for managing the water right to protect the public uses [see OAR 690-77-020 (5)(c)]: Since critical flows have been identified in both winter and summer, flows need to be monitored year round.

10. Remarks: Managed for wild fish. Receives heavy angler use. Upper 18 miles of reach is designated as "recreation" under the Wild and Scenic Rivers Act.

THIS APPLICATION MUST BE ACCOMPANIED BY A BASIN MAP WITH THE APPLICABLE LAKE OR STREAM REACH IDENTIFIED.

An instream water right may be allowed for an instream beneficial use of water subject to existing water rights with an effective date prior to the filing date of this application.

This type of beneficial use is for the benefit of the public and a certificate issued confirming an instream water right shall be held in trust by the Water Resources Department for the people of the State of Oregon, pursuant to ORS 537.341.

Re: IS 70353, 70354, 70355, 70356, 70357, 70585, 70586, 70594, 70595,
70597, 70598, 70601, 70604, 70608, 70609, 70611, 70613

Ochoco Irrigation District is concerned about Oregon Department of Fish and Wildlife's applications for instream water rights in Crook County. The above application numbers have requests for excessive instream flows. The computer model flows do not reflect the actual flows.

An example, IS 70353 is excessive. In July and August the river gage on the eastern (upstream) end of Prineville Reservoir records 10.0 cfs or less. This should be the amount of the instream water right as the agriculture rights are senior and should be retained as agriculture rights.

IS 70354 - The water in Prineville Reservoir is for irrigation, which was reserved in 1914 for irrigation and has no provision for instream flows or any other flows. Releasing water downstream for instream flows would harm irrigation rights as well as going contrary to the storage rights.

IS 70598 - Johnson Creek is an intermittent stream, drying up in the summer months. During the drought years no water flowed in the stream for months at a time. How can an instream right be issued for 4.0 cfs in August when the stream is dry?

IS 70601 - Lytle Creek during the months from April on is a live stream only because Ochoco Irrigation District diverts water into the stream for irrigation purposes.

We must rely on the watermasters to distribute the water in a fashion to assure the water right holder has their entitlement. We trust the Water Resource Department will continue to protect the agriculture rights and not let a State agency harm senior rights.

Respectfully submitted

OCHOCO IRRIGATION DISTRICT

NOTE: Exceptions to the instream water right flows are likely to appear on the certificate if one is issued. The Department is working on the exact wording of the conditions. The conditions are likely to allow some amount of additional appropriations for human and livestock consumption.

Your applications can be moved to the next phase of the water rights application review process.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period, will be evaluated at the next phase of the process.

At this time, you must decide whether to proceed or to withdraw your applications as described below.

Withdrawal:

If you choose not to proceed, you may withdraw your application. To accomplish this you must notify the Department in writing by **December 27, 1995**. For your convenience you may use the enclosed "STOP PROCESSING" form.

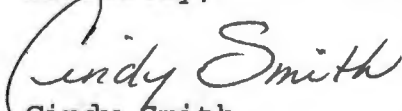

To Proceed With Your Application:

If you choose to proceed with an application, you do not have to notify the Department. Your applications will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

If you have any questions:

Feel free to call Michael Mattick at (503) 378-8455 ext. 276 or 1 (800) 624-3199 if you have any questions. Please have your application number(s) available if you call.

Sincerely,

Cindy Smith
Initial Review Team

The Crook County Soil & Water Conservation District has the following concerns regarding the Water Right Applications listed above. These areas are semi-arid, having a limited amount of precipitation, and most streams are already fully or over allocated. After the traditional Spring runoff the stream flows turn from little to sometimes nothing by mid to late Summer. As stated in earlier comments we request that Historical records be reviewed and studied to be sure that there is water to be allocated, and that existing water rights be protected.

Subject: RE: Deschutes/Crooked ISWR Applications
Herb,

I'm a Program Manager here at the Deschutes River Conservancy in Bend. We're working with several irrigation districts to outline a suite of projects that will meet ODFW's flow targets in the Crooked and Deschutes Rivers.

I'm trying to track down copies of the ISWR applications for the Crooked (IS70354) and Deschutes (IS70695) Rivers. Kyle Gorman suggested that you might have access to them. Is there any way I could get paper or digital copies of those two applications?

Thanks,

Brett

INTEROFFICE MEMORANDUM
Water Rights Section

~~TO: [REDACTED]~~

FROM: Dwight French, x268 *DF*

DATE: March 26, 1997

RE: Water Availability for ISWR applications/files

You asked about the file copies of Estimated Average Natural Flow (EANF) for ISWR applications.

There is not a printout in each file similar to what you would generally see in an out of stream application file. The EANF information is in either the Technical Review (TR) or Initial Review (IR) as well as the Proposed Final Order (PFO).

During the processing of the ISWR applications, Rick Cooper and/or Ken Stahr would provide us with a electronic copy of the water availability information for a particular group of ISWR applications. We would then cut and paste that information directly into the TR or IR. When preparing the PFO, we would cut and paste from the TR or IR directly into the PFO.

In summary, our EANF numbers are in the TR or IR and the PFO for each particular ISWR application file.

Water Rights Section, WRD
158 12th St.N.E.
Salem OR 97310

Dear Water Rights Reviewer:

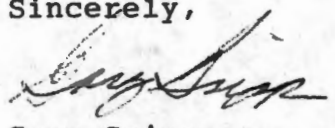

When we came into this country we brought Europe with us. We were not equipped, culturally, to accept the land for what it was--interlocking ecosystems evolved to perfect dynamic equilibrium, alive with natural beauty. Now that it's almost lost to us, a handful of specialists (fish biologists, river ecologists), and a few generalists (who have the gift of seeing whole) begin to appreciate what we had here, before we cut, gouged, plowed, dammed, diverted, "harvested," overgrazed, and generally pillaged to the point, almost, of breakdown. Almost too late, we now have the opportunity to listen to those scientists and other voices of understanding, to preserve some remnant of integrity to our natural systems and cycles by legally protecting instream flows in the creeks and rivers of Oregon.

I would like to see instream water rights guaranteed for every stream and river in Oregon. I like to see wholeness and robust good health, generally. But let me here name specific flows, all part of Deschutes River system, for your particular consideration: Willow Cr., 70591; Trout Cr., 70339; N. Fork Crooked R., 70355 & 70357; Crooked River, 70353 & 70354; Brown's Cr., 73325; Unnamed spring, 73329; White R., 79644. Also, the Deschutes River itself, 70087, 70764 & 71194, plus these secondary tributaries: Crescent Cr., 70765; Abbot Cr., 70766; Three Cr., 73330; Link Cr., 73331. I would like to see these rights issued at the flow levels requested, without any exceptions for future human consumption or livestock use.

If we think of the Earth as an organism much like ourselves, dependent upon a functioning circulatory system to provide life-sustaining nutrition to its interdependent parts, like blood to our own lungs, fingers, and brain, then we see our stake in keeping the system functional. When the system breaks down, so do we. So it is with the intricate water system of our state. If we destroy its natural functions (the distribution of nutrients, aquatic habitat, nature's own flood control) and impair its natural purity, we will be destroying what is, ultimately, our own life support system. And by the time the majority of our citizens has figured this out, and come to understand their own deepest self-interest, the damage will be beyond remedy. That is why it is so important that you base your decision on instream

water rights upon scientific understanding and long-term sustainability rather than short-term political expediency and the economic interests of the few. Oregon's rivers need water; they need the state's legal guarantee of minimum instream flows. Thank you for your good work.

Sincerely,

Gary Gripp

PUBLIC NOTICE COMMENT FORM

Use the back of this form to offer comments on water use requests or other items in this notice or to order copies of proposed final and final orders. You are welcome to submit comments on a separate sheet, but please be sure to include your name and address and reference the specific request or document that concerns you. Please mail your comments to the address listed above.

Water Use Request Type & File Number
(e.g. "Permit Application G-12345" or "Transfer T-1234"):

IS-70354

Mail me a
Copy of the Order (payment enclosed)*

Your Name, Address, and Phone Number:

Crook County Soil & Water
Conservation District
350 North Dunham
Prineville, Oregon 97754

Phone: 541-447-4214

* We are required by law to charge a fee of \$10 to mail a copy of a proposed final or final order for a permit application to any interested person. Please include a check made out to the Oregon Water Resources Department in the amount of \$10 for each proposed final order you would like mailed to you. This fee entitles you to also receive a copy of the final order, when issued. (Copies of proposed final and final orders are also available for viewing—at no charge—at our Salem office or at the local watermaster office.)

CROOK

5/11/1990

Crooked River From Bowman Dam River Mile 71.0 (SWNW, Section 11, T17S, R16E); To Lake Billy Chinook River Mile 6.0 (NWNE, Section 33, T12S, R12E)

The Crook County SWCD Board has the following comment concerning the above Water Right Application listed above. This area is semi-arid with very limited precipitation. Traditionally we have a Spring runoff and then by mid to late Summer the flows are little or none. Most streams are already fully or over allocated. Before any further allocations are made, Historical records need to be reviewed and studied to be sure that there is water to be allocated. Also we recommend that existing water rights be protected.

Richard W. Breese

CHAIR: Crook County SWCD

IWR Application # 70354 Certificate # _____

STATE OF OREGON

WATER RESOURCES DEPARTMENT

Application for Instream Water Right
by a State Agency

There is no fee required for this application.

APR 25 1990
WATER RESOURCES DEPT.
Salem, OREGON

Applicant: Randy Fisher for Oregon Department of Fish and Wildlife, PO Box 59, Portland, OR 97207

1. The name of the stream of the proposed instream water right is Crooked River, a tributary of Deschutes River.
2. The public uses this instream water right is based upon include providing minimum stream flows for wild rainbow trout for migration, spawning, and juvenile rearing.
3. The amount of water needed by month for each category of public use is as follows:

USE(S): Migration, spawning, and juvenile rearing.

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
<u>75</u>	<u>75/</u>	<u>255</u>	<u>255</u>	<u>255</u>	<u>150</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>	<u>75</u>
	<u>150</u>										

4. The reach of the stream identified for an instream water right is from (upstream end) Bowman Dam, river mile ~71, within the SW quarter of the NW quarter of Section 11, Township 17S, Range 16E W.M., in Crook County...

Downstream to Lake Billy Chinook, river mile ~6, within the NW quarter of the NE quarter of Section 33, Township 12S, Range 12E W.M., in Crook County.

5. The method used to determine the requested amounts was direct measurement and the Oregon Method.
6. When were the following state agencies notified of the intent to file for the instream water right?

Dept. of Environmental Quality	Date: <u>April 25, 1990</u>
ODFW (Fish, Wldlf, and Habitat Div's)	Date: <u>April 25, 1990</u>
Parks and Recreation Division	Date: <u>April 25, 1990</u>

7. If possible, include recommendations for measuring locations or methods:

IWR Application # 70354 Certificate # _____

Establish a gaging structure near the downstream limit of reach, perhaps near the town of Prineville.

8. If possible, include recommendations for assisting the Water Resources Department (WRD) in measuring and monitoring procedures:

ODFW will assist the watermaster in establishing and implementing a monitoring program.

9. If possible, include other recommendations for methods or conditions necessary for managing the water right to protect the public uses [see OAR 690-77-020 (5)(c)]: Since critical flows have been identified in both winter and summer, flows need to be monitored year round.

10. Remarks: Managed for wild fish. Receives heavy angler use. Upper 18 miles of reach is designated as "recreation" under the Wild and Scenic Rivers Act.

THIS APPLICATION MUST BE ACCOMPANIED BY A BASIN MAP WITH THE APPLICABLE LAKE OR STREAM REACH IDENTIFIED.

An instream water right may be allowed for an instream beneficial use of water subject to existing water rights with an effective date prior to the filing date of this application.

This type of beneficial use is for the benefit of the public and a certificate issued confirming an instream water right shall be held in trust by the Water Resources Department for the people of the State of Oregon, pursuant to ORS 537.341.

Date: 5/9/90
