

**WATERMASTER**  
**WATER RIGHT PERMIT APPLICATION REVIEW**

Application Number:   R-89298  

Applicant's Name:   Dig It Construction INC  

**Evaluation of potential for injury to other water rights:**

1. Would the proposed water allocation have the potential for injury to other water rights?  
 Yes             No
2. If the proposed water allocation will cause injury, can the permit be conditioned to avoid injury?  
 Yes             No             N/A

If "Yes", please list conditions necessary to avoid injury:

**Evaluation of appropriate Measurement, Recording and Reporting Condition:**

3. Please select the measurement device(s) required for any permit issued under this application.  
 Totalizing Flow Meter             Other/None – please describe below:  
 Staff Gage
4. Please select your recommended reporting requirement for any permit issued under this application. Please consider site-specific information, including but not limited to potential for injury to other water rights, regulation history of the area, and level of stakeholder interest in the application.  
 Require recording of volume of water diverted each month and require submission of a report to the Department annually.  
 Do not require recording and reporting at this time.
5. Please provide any additional information or permit conditions that are necessary for this application:  
**Initial review found No water available for storage during any month at the 50% exedence level. There needs to be a rating table associated with the staff gage so total volume used over the course of the season can be measured.**
6. Would you like to review a draft of any permit that might be issued under this application?  
 Yes             No
