Form A

Application No. 23949

NOTICE OF BEGINNING OF CONSTRUCTION

OK I, Leland W. Pettegrew, the holder of Permit No. 18907 to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 20th day of May, 1949.

Remarks: The Purchase & Installation of 40 ft. 4" Gal. Pipe 500 ft. 3" Gal. Pipe 1300 ft. 1 1/2" Gal. Pipe & Construction of intake made of 2" x 6" x 10' Fir Lumber. No. of Men Employed, 2 For 5 days

IN WITNESS WHEREOF, I have hereunto set my hand this 2nd day of Sept., 1949. Leland W. Pettegrew Harbor, Oregon

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is begun.

STATE PRINTING DEPT.

Form B

Application No. 23949

NOTICE OF COMPLETION OF CONSTRUCTION

OK I, Leland W. Pettegrew, the holder of Permit No. 18907 to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the 2nd day of Sept., 1949.

Remarks: The works has the same capacity more or less as described in the permit. I do not have a weir or measuring device for measuring the exact amount of water

IN WITNESS WHEREOF, I have hereunto set my hand this 2 day of Sept., 1949. Leland W. Pettegrew Harbor, Oregon

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach, and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 23949

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

OK I, Leland W. Pettegrew, the holder of Permit No. 18907 to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 1 day of JUNE, 1950.

Remarks: Domestic use of water for two resident farm houses one cow barn & irrigation water for meadow, garden, and Lilly Bulb Ground.

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of March, 1951. Leland W. Pettegrew Harbor, Oregon

September 2, 1965

Mr. Leland W. Pettegrew  
Harbor,  
Oregon

Dear Mr. Pettegrew:

This will acknowledge receipt of your memorandum and map showing the relocation of a pipeline for the water system under permit numbered 18907.

It is permissible to change the location of a pipeline without approval of the State Engineer, but if you change the location of diversion from the stream an application for such a change should be submitted.

The location found by our field engineer is not quite that indicated on the application map, so if a change is made, it would be from that found by our field engineer.

Very truly yours,

CHRIS L. WHEELER  
State Engineer

By  
Trevor Jones, Assistant

**REPORT OF PERSON MAKING INSPECTION**

(For use by Representative of State Engineer)

I, N. P. Coffman, do hereby certify that I have made an inspection of the works described herein and in Permit No. 18907, on the 21 day of Sept., 1953 and found the foregoing statements and descriptions of works to be accurate. In my opinion the appropriation has been completed to the extent of \_\_\_\_\_ (Quantity of water in second-feet or acre-feet) and I recommend the issuance of water right certificate for this amount.

**NOTICE TO INSPECTORS**

If conditions do not justify the above report by you, please return the proof without your signature, with a full report by letter.

N. P. Coffman  
(Name)  
Field Engr  
(Title)

April 6, 1954

Mr. Leland W. Pettegrew  
Harbor  
Oregon

Dear Sir:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 18907 granting a right to the use of 0.06 cfs of the waters of an unnamed stream, a tributary of Windchuck River, for domestic use for two families and the irrigation of 13.3 acres.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your Permit. The proof should be dated and signed by you on the second sheet under the Affidavit of Appropriator and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory fee of \$1.00, a Certificate of Water Right will be issued confirming the rights thereunder and, after being recorded in the records of Curry County, will be forwarded to you.

In the interest of economy and due to the fact that your completed project was examined by a representative of this department, it is not necessary that your signature be made before a Notary Public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

*Chas. E. Stricklin*

CHAS. E. STRICKLIN  
State Engineer

Enclosure  
Form 117

March 21, 1951

Mr. Leland W. Pettegrew  
Harbor, Oregon

Dear Mr. Pettegrew:

This will acknowledge receipt of Forms A, B, and C, being notices of the beginning of construction, completion of construction, and complete application of water under your Permit No. 18907.

Pursuant to your reports and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the amount of water used as described in the permit, including the acreage actually irrigated. After this survey, proof may be made by you and certificate issued covering the actual use of water as found by the engineer. Any lands described in the permit that have not been irrigated will be automatically eliminated from your water right.

In the meantime, the permit which you hold will be valid evidence of your water right.

Very truly yours,

CHAS. E. STRICKLIN  
State Engineer

Mr. Leland W. Pettegrew  
Harbor  
Oregon

March 15, 1950

Dear Mr. Pettegrew:

Herewith you will find Application No. 23949, Permit No. 18907, together with blueprint.

This application has been approved and recorded in this office.

PLEASE READ CAREFULLY THE FOLLOWING INSTRUCTIONS:

Your permit has been recorded in this office, but you should hold the original as evidence of your water right unless the land described therein is disposed of. In that event you should file an assignment to the new owner for record in this office. Assignment blanks will be furnished upon request.

The permit, which appears on the back page of the application form, limits the time in which you may begin and complete construction of your project. According to law you must begin actual construction work within one year from the date of issuance of the permit or your right will be lost. The State Engineer is authorized to extend the time for completion of the project on proper showing, but has no authority to extend the time limit for beginning of construction work.

Forms are attached to the permit for your convenience in submitting notice when construction begins, when it is completed, and when the water has been completely applied to the proposed use.

Whenever a measuring device becomes necessary for the proper distribution of water the permittee will be required to install one to the satisfaction of the State Engineer as provided by Section 116-501, O.C.L.A.

As soon as the work is completed and the water applied to the proposed use, you should notify the State Engineer who will then take up with you the matter of final proof, after which a water right certificate will be issued.

If your use of water is for irrigation, proof can be made only after you have actually irrigated ALL of the land described in your permit, which you intend to irrigate at any time.

Yours very truly,

*Chas. E. Stricklin*

CHAS. E. STRICKLIN  
State Engineer

FORM #108

August 3, 1949

Mr. Charles T. M. Echols  
Registered Land Surveyor  
Brookings, Oregon

Dear Mr. Echols:

This will acknowledge receipt of your letter of July 25, transmitting an application in the name of Ieland W. Pettegrew for a permit to appropriate 0.33 cubic foot of water per second for irrigation and domestic use, together with fees in the amount of \$25.10, for which our Receipt No. 7215 has been mailed to Mr. Pettegrew.

The application appears to be in order and it has been placed in line for approval and issuance of a permit with the next group.

You will note by reference to the enclosed copy of the Rules and Regulations that a blueprint fee is not now required in connection with the filing of an application for a permit to appropriate water.

Yours very truly,

CHAS. E. STRICKLIN  
State Engineer
