

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Marc,

With the "OK" "C" noted on the letter, I am hesitant to say the water user did not meet the "C" Date. This type of a notation was meant to say that the Department confirmed that the "C" Date had been met. That letter was followed up with a letter from the Department indicating that the next step was the inspection. We did not make reference to need of a possible extension of time. I think we are OK because the letter does not assert a date after October 1, 1991.

I have attached a copy of the "C" Date confirmation letter for your reference.

Gerry,

Thank you very much for the information.

It looks like the development was documented more than I could tell. S-50206 does have the 'Form "C" field' date 4 months past the 10/1/1991 C date, will there be any issues with this?

Best,

Marc,

I have pulled the files to see if we had Final Proof Surveys or not. I did not locate Final Proofs in either file.

I have attached information that you may find useful in the preparation of the Claim of Beneficial Use (Claim). Specifically, I have included information from the permit Mr. Nickels concerning the development timelines.

Please let me know if you have any questions.

Dear Sir:

Your application for a permit to appropriate 0.05 cubic foot of water per second from an unnamed stream, being 0.04 cubic foot of water per second for irrigation of 3.0 acres and 0.01 cubic foot of water per second for domestic supplies for one family, has been received along with a map, legal description, and fees of \$35.00.

The application has been filed as No. 52737.

Your application requires an examination fee of \$15.00, a domestic recording fee of \$15.00, and an irrigation recording fee of \$10.00. Therefore, an additional \$5.00 is required.

Upon receipt of the additional \$5.00, your application will be in satisfactory form.

Very truly yours,

WAYNE J. OVERCASH
