The Department has reviewed the status of your pump test and any requests for extension(s) or exemption(s) for the following permitted well(s). The results are summarized in the table below:

Application	Water Right	Permitted Well	Pumped Well	Test Date	Request Status	Exemption	Well Name
G 18594	Permit: G 18460 *	LAKE0052530	LAKE0052529	08/26/2021	APPROVED	Multiple Well	SVE#1
G 18594	Permit: G 18460 *	LAKE0052529	LAKE0052529	08/26/2021	APPROVED	Unreas Burden	SVE#2
G 18594	Permit: G 18460 *	LAKE0052812	LAKE0052529	08/26/2021	APPROVED	Multiple Well	SVE#3

Pump tests are intended to provide aquifer and well information for ground water resource characterization and to help solve well problems (OAR 690-217-0015(9)). A review of the test results indicates the requirements were met under OAR 690-217, however; the limitations of the airline measurement method required due to steam flash hazard result in little to no drawdown or recovery data useful for ground water resources characterization as was the intent of the rules. It is likely that a new test will yield similar results and therefore the Department has granted an exemption for testing this well on the above listed permit(s).

Approved pump test letters will be digitally posted to the water right in WRIS; all other pump test letters will be mailed to permit holder.

Please contact me if you have any questions.

Sincerely,

Darrick Boschmann
