Dear Sir:

Enclosed find the application of Theodore Froelic for the appropriation of the waste~~d~~ water from the R. P. George ranch. Mr. George's ranch is on a hill side and he is entitled to the use of a considerable amount of water and consequently much of it runs off his land and has formed a channel which goes through Mr. Froelic's place and which he has had to dig a ditch to drain during the wet weather and now he wants to appropriate it in the dry weather for irrigation, and after investigation I think he is entitled to it and there is no objection to his digging his ditch on the quarter between he and George.

I will also state that the land which Mr. Froelic owns was railroad land and he acquired it last fall. However, not knowing that Mr. Froelic had acquired this piece of land a Mr. Geo. Allen filed on the same piece of land and I made out a water application for him. However, he being unable to get the land his application should be canceled if it is still on file and Mr. Froelic's substituted.

Trusting that you will understand my explanation of this matter, I am

Dear Sir:

Mr. Theodore Frolic, the holder of Application No. 6503, Permit No. 4059, which expires on October 1st, has asked me to write to secure an extension of time of one year on said application. Owing to difficulty to getting labor he has not been able to get what land he desires quite ready for application of the water, but will be able to do so in another year.

I am familiar with Mr. Frolic's situation and would recommend that such extension be granted.
