Subject: GW re-look complete for G-18788
Date: Thursday, May 23, 2024 2:20:30 PM

Reviewed and concurred with the cannot be determined finding for over-appropriation on this right. No changes to [GW Review](#) dated 8/21/2019.

Thanks,

PS - In this case, where the IR was propose to approve, perhaps we should include in the PFO (or a revised IR?) the minimum amount of data the applicant can collect to assess over-appropriation? For this application a static wl measurement made by a qualified individual in the months of August and the following March can be submitted for re-review by the groundwater section to determine over-appropriation.
