

**Oregon Water Resources Department**  
**Water Right Services Division**

**Application for Extension of Time**

In the Matter of the Application for an Extension of Time ) PROPOSED  
for Permit S-52289, Water Right Application S-72912 ) FINAL  
in the name of David and Melode Weiner ) ORDER

---

**Permit Information**

Application: S-72912  
Permit: S-52289  
Basin: South Coast / Watermaster District 14  
Date of Priority: October 27, 1992  
Source of Water: three unnamed streams, tributaries of Elk River, and two unnamed reservoirs constructed under Application R-72911, Permit R-11807  
Purpose or Use: cranberry operations on 25.0 acres, livestock use, and domestic use expanded for one household  
Maximum Rate/Volume: 3.77 cubic feet per second (cfs) being; Cranberry Operations – 3.75 cfs; livestock use – 0.01 cfs, domestic use expanded – 0.01 cfs, further limited to 0.005 cfs for human consumption and 18.0 acre-feet (AF) stored water only, being 9.0 AF from Reservoir 1 and 9.0 AF from Reservoir 2 during the period of April 1 through June 30 and August 1 through November 30.

---

***Please read this Proposed Final Order in its entirety***

*In summary, the Department proposes to:*

- Grant an extension of time to complete construction of the water system from October 1, 1998, to October 1, 2000.
- Grant an extension of time to apply water to full beneficial use from October 1, 1999, to October 1, 2000.<sup>1</sup>

This Extension of Time request is being processed in accordance with Oregon Revised Statute 537.230 and 539.010(5), and Oregon Administrative Rule Chapter 690, Division 315

---

<sup>1</sup> Pursuant to ORS 537.230(5), upon the completion of beneficial use of water allowed under the permit, the permit holder shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permit holder shall submit a map of the survey and the claim of beneficial use.

### ACRONYM QUICK REFERENCE

Application – Application for Extension of Time  
Department – Oregon Water Resources Department  
ODFW – Oregon Department of Fish and Wildlife  
PFO – Proposed Final Order  
FOF – Finding of Fact  
cfs - cubic feet per second  
AF – acre-feet

### AUTHORITY

Generally, see **ORS 537.230** and **OAR Chapter 690 Division 315**.

**ORS 537.230(2)** provides in pertinent part that the Oregon Water Resources Department (Department) may, for good cause shown, order an extension of time within which irrigation or other works shall be completed or the right perfected. In determining the extension, the Department shall give due weight to the considerations described under **ORS 539.010(5)** and to whether other governmental requirements relating to the project have significantly delayed completion of construction or perfection of the right.

**ORS 539.010(5)** instructs the Director to consider: the cost of the appropriation and application of the water to a beneficial purpose; the good faith of the appropriator; the market for water or power to be supplied; the present demands therefor; and the income or use that may be required to provide fair and reasonable returns upon the investment.

**OAR 690-315-0040** provides that in order to approve an application for an extension of time to complete construction or apply water to full beneficial use, the Department shall make the findings in **OAR 690-315-0040(1)** including a finding that there is “good cause” to approve the extension. **OAR 690-315-0040(2)-(4)** contains the factors that the Department must consider to make findings that support a “good cause” determination.

### **FINDINGS OF FACT**

1. On June 19, 1996 Permit S-52289 was issued by the Department. The permit authorizes the use of up to 3.77 cfs of water being; Cranberry Operations – 3.75 cfs; livestock use – 0.01 cfs, domestic use expanded – 0.01 cfs, further limited to 0.005 cfs for human consumption and 18.0 acre-feet (AF) stored water only, being 9.0 AF from Reservoir 1 and 9.0 AF from Reservoir 2 during the period of April 1 through June 30 and August 1 through November 30. from the three unnamed streams, tributaries of Elk River, and two unnamed reservoirs constructed under Application R-72911, Permit R-11807, for irrigation of cranberry operations on 25.0 acres, livestock use, and domestic use expanded for one household. The permit specified actual construction was to begin by June 19, 1997, construction of the water system was to be completed by October 1, 1998, and complete application of water was to be made on or before October 1, 1999.

2. On August 24, 2000, a Claim of Beneficial Use (COBU) was submitted to the Department.
3. On November 27, 2002, an assignment from Litterell Ranch to David and Melode Weiner was recorded in the records of the Water Resources Department.
4. On February 23, 2024, the Department mailed a Proposed Order of Certification to cancel Permit S-52289, for failure to demonstrate compliance with permit conditions.
5. On May 3, 2024, David Weiner, submitted an "Application for Extension of Time" (Application) to the Department, requesting the time to complete construction of the water system be extended from, October 1, 1998, to October 1, 2024, and the time to apply water to full beneficial use under the terms and conditions of Permit S-52289 be extended from October 1, 1999, to October 1, 2024. This is the first permit extension requested for Permit S-52289.
6. On March 14, 2024, notification of the Application for Permit S-52289 was published in the Department's Public Notice. No public comments were received.

**Review Criteria [OAR 690-315-0040]**

*In order to approve an Application for an Extension of Time to complete construction and/or apply water to full beneficial use pursuant to ORS 537.230 or 537.630, or to begin construction, pursuant to ORS 537.248, the Department must make the findings in OAR 690-315-0040(1)(a) – (d).*

**Complete Extension of Time Application [OAR 690-315-0040(1)(a)]**

7. On May 3, 2024, the Department received a completed Application and the fee specified in ORS 536.050 from the permit holder.

**Start of Construction [OAR 690-315-0040(1)(b) and 690-315-0040(5)]**

8. According to the Application, construction of the water system began July 1, 1996.

Based on Findings of Fact (FOF) 8, the Department has determined the permit holder began construction prior to October 1, 1999.

**Good Cause [OAR 690-315-0040(1)(d)]**

*The Department must find that there is "good cause" to approve the extension. In making a "good cause" finding, the Department shall consider the requirements set forth under OAR 690-315-0040(2).*

**Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]**

*In order to make a finding of "good cause" to approve the extension, the Department shall consider whether the applicant has demonstrated "reasonable diligence" in previous performance under the permit. OAR 690-315-0040(2)(a). In determining "reasonable*

*diligence”, the Department shall consider, but is not limited to, the following factors: a) The amount of construction completed within the time allowed in the permit or previous extension; b) The amount of beneficial use made of the water during the permit or previous extension time limits; c) Water right holder conformance with the permit or previous extension conditions; and d) Financial investments made toward developing the beneficial use of water.*

**Amount of Construction [OAR 690-315-0040(3)(a)]**

*The amount of construction completed within the time allowed in the permit or previous extension.<sup>2</sup>*

9. During the original development time frame under Permit S-52289, all bogs, water distribution system, fish screen, and flowmeters were installed by September 30, 1999.

The Application provides evidence that progress of physical work, enough to qualify as the minimum necessary, has been made towards completion of the water system for the Department to find good cause and reasonable diligence towards complete application of water to a beneficial use.

**Compliance with Conditions [OAR 690-315-0040(3)(c)]**

*The water right permit holder’s conformance with the permit or previous extension conditions.*

10. The Department has considered the permit holder’s compliance with conditions, and has identified the following concern, annual reports of the amount of water used each month have not been received by the Department by October 1, 1999.

11. The first water use report was submitted for water year 2000.

Based on FOF 10, the Department has determined that the permit holder has not demonstrated compliance with following permit conditions as required by Permit S-52289 by October 1, 1999.

**Beneficial Use of Water [OAR 690-315-0040(3)(b)]**

*The amount of beneficial use made of the water during the permit time limits or previous extension time limits.*

12. A maximum rate of 3.77 cfs of water has been diverted from the three unnamed streams, tributaries of Elk River, for cranberry operations on 20.0 acres. The Application does not identify water use from the reservoirs, or for stock water or domestic expanded use.
13. According to the COBU submitted August 24, 2000, development of 22.4 acres of cranberry operations, livestock use, and domestic use expanded for one household.

Based on FOF 20, the Department has determined that beneficial use of water has not been demonstrated under Permit S-52289 by October 1, 1999.

---

<sup>2</sup>“Actual Construction” is defined in OAR 690-315-0020(3)(d)(A)and(B) as physical work performed toward completion of the water system which demonstrates the water right permit holder’s good faith and intention to complete the project with reasonable diligence. Actual construction does not include planning a diversion system, formulating a business plan, securing financing, letting contracts, purchasing but not installing equipment, surveying, clearing land or planting crops.

**Financial Investments to appropriate and Apply Water to a Beneficial Purpose [OAR 690-315-0040(2)(b),(3)(d),(4)(d)]**

14. The permit holder has invested approximately \$70,000, which is the total cost for complete development of this project.

The Department has determined that the permit holder had made an investment, which provides evidence of good cause and reasonable diligence towards the complete application of water to a beneficial use.

**Reasonable Diligence of the Appropriator [OAR 690-315-0040(2)(a)]**

The Application provides evidence of progress towards completion of the water system; a financial investment has been made; the permit holder has not demonstrated compliance with all permit conditions, and; beneficial use has not been demonstrated. The Department has determined the applicant has demonstrated the minimum necessary for the Department to find reasonable diligence towards complete application of water to a beneficial use.

**The Market and Present Demands for Water [OAR 690-315-0040(4)(a-f)]**

*The Department's determinations of market and present demand for water or power to be supplied shall consider the requirements set forth under OAR 690-315-0040(4)(a-f). In accordance with OAR 690-315-0040(4), the Department shall consider, but is not limited to, the following factors when determining the market and the present demand for water or power to be supplied:*

- *(a) The amount of water available to satisfy other affected water rights and scenic waterway flows;*
- *(b) Special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d);*
- *(c) The habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife;*
- *(d) Economic investment in the project to date;*
- *(e) Other economic interests dependent on completion of the project; and*
- *(f) Other factors relevant to the determination of the market and present demands for water and power.*

**OAR 690-315-0040(4)(a)**

**The amount of water available to satisfy other affected water rights and scenic waterway flows.**

15. A review of the amount of water available to satisfy other affected water rights and scenic waterway flows was determined at the time of issuance of Permit S-52289; furthermore, water availability for other affected water rights and scenic waterway flows after the permit was issued is determined when an application for a new water right is submitted.

16. Current Water Availability Analysis for the Elk River, (Tributary to Pacific Ocean) at the mouth (watershed ID 70895) show that no water is available in the months of April through November at the 80% exceedance level.
17. Current Water Availability Analysis has determined that 18.0 AF, being 9.0 AF from Reservoir 1, and 9.0 AF from Reservoir 2 of water is available under Permit R-11807.

**OAR 690-315-0040(4)(b)**

Special water use designations established since permit issuance, including but not limited to state scenic waterways, federal wild and scenic rivers, serious water management problem areas or water quality limited sources established under 33 U.S.C. 1313(d).

18. The points of diversion are located on tributaries of Elk River, and two unnamed reservoirs constructed under Application R-72911, Permit R-11807, and are not located within a Withdrawn Area.
19. Elk River is not located within or above a/the state or federal scenic waterway.
20. The points of diversion are not in a location listed by the Department of Environmental Quality as a water quality limited stream.

**OAR 690-315-0040(4)(c)**

The habitat needs of sensitive, threatened or endangered species, in consultation with the Oregon Department of Fish and Wildlife.

21. Elk River is located within an area ranked “moderate” for stream flow restoration needs as determined by the Department in consultation with the Oregon Department of Fish and Wildlife, and is located within a Sensitive, Threatened or Endangered Fish Species Area as identified by the Department in consultation with Oregon Department of Fish and Wildlife.

**OAR 690-315-0040(4)(d)**

Economic interests dependent on completion of the project.

22. An approximate total of \$70,000 has been invested in the project.

**OAR 690-315-0040(4)(e)**

Other economic interests dependent on completion of the project.

23. Other economic interests dependent on the completion of the project have not been identified.

**OAR 690-315-0040(4)(f)**

Other factors relevant to the determination of the market and present demand for water and power.

24. No other factors relevant to the determination of the market and present demand for water and power have been identified.

**Fair Return Upon Investment [OAR 690-315-0040(2)(f)]**

25. The use and income from the permitted water development will likely result in reasonable returns upon the investment made to date.

**Other Governmental Requirements [OAR 690-315-0042(2)(g)]**

26. Delay in the development of this project that was caused by other governmental requirements have not been identified.

**Unforeseen Events [OAR 690-315-0040(2)(h)]**

27. No unforeseen events were identified that extended the length of time needed to fully develop and perfect Permit S-52289.

**Denial of an Extension Would Result in Undue Hardship [OAR 690-315-0040(2)(i)]**

28. A denial of the extension would result in undue hardship, and there are no other reasonable alternatives exist for meeting water use needs.

**Good Faith of the Appropriator [OAR 690-315-0040(2)(c)]**

29. The Application provides evidence of good faith of the appropriator under Permit S-52289.

Based on FOF 8, 9, 11, 12, 13, 14, and 22, the Department has determined that the applicant has shown good faith and reasonable diligence.

**Duration of Extension [OAR 690-315-0040(1)(c)]**

*Under OAR 690-315-0040(1)(c), in order to approve an extension of time for water use permits the Department must find that the time requested is reasonable and the applicant can complete the project within the time requested.*

30. As of May 3, 2024, the permit holder states work is completed. An extension of time is needed to demonstrate compliance with the permit condition requiring submittal of annual water use reports.

31. The first annual water use report was submitted for water year 2000.

Given the amount of development left to occur, the Department has determined that the permit holder's request to have until October 1, 2024, to complete construction of the water system and to accomplish the application of water to beneficial use under the terms and conditions of Permit S-52289 is not necessary. The Department has determined an extension of time to October 1, 2000, is sufficient and necessary to demonstrate compliance with the permit condition requiring submittal of annual water use reports.

**Good Cause [OAR 690-315-0040(1)(d)]**

*The Department must find that there is "good cause" to approve the extension. In making a "good cause" finding, the Department shall consider the requirements set forth under OAR 690-315-0040(2).*

The Department has considered the reasonable diligence and good faith of the appropriator, the cost to appropriate and apply water to a beneficial purpose, the market and present demands for water to be supplied, the financial investment made and fair and reasonable return upon the investment, the requirements of other governmental agencies, and unforeseen events over which the permit holder had no control, whether denial of the extension will result in undue hardship to the applicant and whether there are no other reasonable alternatives for meeting water use needs, any other factors relevant to a determination of good cause, and has determined that the applicant has shown that good cause exists for an extension of time to complete construction and apply water to full beneficial use to October 1, 2000, pursuant to OAR 690-315-0040(1)(d).

**CONCLUSIONS OF LAW**

1. The Applicant has submitted a complete extension application form and the fee specified in ORS 536.050, as required by OAR 690-315-0040(1)(a).
2. The Applicant complied with construction timeline requirements to begin actual construction as required by ORS 537.230, OAR 690-315-0040(1)(b) and OAR 690-315-0040(5).
3. Based on Finding of Facts 8, through 30, completion of construction and full application of water to beneficial use can be accomplished by October 1, 2000<sup>3</sup>, as required by OAR 690-315-0040(1)(c).
4. The Applicant can complete the project within the time period provided in the extension on the project.
5. The Applicant has demonstrated good cause for an extension of time to October 1, 2000.

**PROPOSED ORDER**

Based upon the foregoing Findings of Fact and Conclusions of Law, the Department proposes to issue an order to:

Extend the time to complete construction of the water system under Permit S-52289 from October 1, 1998, to October 1, 2000.

---

<sup>3</sup>Pursuant to ORS 537.230(5), upon the completion of beneficial use of water allowed under the permit, the permittee shall hire a certified water rights examiner to survey the appropriation. Within one year after the complete application of water to a beneficial use (or by the date allowed for the complete application of water to a beneficial use), the permittee shall submit a map of the survey and a new or revised claim of beneficial use as deemed appropriate by the Department.

Extend the time to apply water to beneficial use under Permit S-52289 from October 1, 1999, to October 1, 2000.

DATED: July 2, 2024

Dwight French, Administrator  
Water Right Services Division

*If you have any questions,  
please check the information  
box on the last page for the  
appropriate names and  
phone numbers.*

**Protests:**

Pursuant to OAR 690-315-0060(1), the applicant or any other person adversely affected or aggrieved by the proposed final order may submit a written protest to the proposed final order. Protests must be received by the Water Resources Department no later than **August 16, 2024**, at this address: Oregon Water Resources Department, Water Right Services Division, 725 Summer St NE, Suite A, Salem, OR 97301-1266. Protests may not be submitted by electronic mail. OAR 690-002-0025(3).

Protests must be in writing and include all of the following:

- The name, address, and telephone number of the protestant
- A detailed description of the protestant's interest in the proposed final order, and, if the protestant claims to represent the public interest, a precise statement of the public interest represented
- A detailed description of how the action proposed in the proposed final order would impair or be detrimental to the protestant's interest
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency
- If the applicant protests, a statement of whether a hearing is requested
- Citation of legal authority supporting the protestant, if known
- Proof of service of the protest on the water right permit holder, if protestant is other than the water right permit holder, and
- If you are the applicant, the protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, the protest fee of \$950 required by ORS 536.050.

Within 60 days after the close of the period for requesting a contested case hearing, the Director shall either issue a final order on the extension request, or schedule a contested case hearing if a protest has been submitted, and, upon review of the issues, the Director finds there are significant disputes related to the proposed agency action; or, the applicant submits a written request for a contested case hearing within 30 days after the close of the period for submitting protests. The hearing will be conducted as provided in Oregon Revised Statutes (ORS) Chapter 183, and Oregon Administrative Rules (OAR) 137-003-0501 to 137-003-0700.

If the applicant does not request a hearing within 30 days after the close of the protest period, or if the request for a hearing is withdrawn, or the Department or the administrative law judge is notified that the protestant will not appear, or the protestant fails to appear, at a scheduled hearing, the Director may issue a Final Order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

A party may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 137-003-0555, an agency representative may represent a partnership, corporation, association, governmental subdivision or public or private organization if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

**Notice Regarding Servicemembers:** Active-duty service members have a right to stay proceedings under the federal Servicemembers Civil Relief Act. For more information contact the Oregon State Bar at 800-452-8260, the Oregon Military Department at 800-452-8260, or the nearest United States Armed Forces Legal Assistance Office through <http://legalassistance.law.af.mil>.
