NOTICE OF BEGINNING OF CONSTRUCTION

I, STEWART L. JONES, the holder of Permit No. 13909
to appropriate the public waters of the state of Oregon, began the actual construction of the works described
therein on the 5 day of Oct, 1940

Remarks:

dug out about 200 ft of ditch one man
also drilling of test holes at dam in June, also cleaning of 200 ft of ditch.
up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 5 day of Oct, 1940.

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, Stewart L. Jones, the holder of Permit No. 13909
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in
accordance with the terms of said permit, on the 30th day of May, 1942

Remarks:

Water was run thru ditch on place 1939-40-41-42.
If all of the water granted in the permit has not been fully applied to beneficial use, you should so state.
I used Coffin dam for diversion of water until permanent dam
was completed. have used all the water all summer irrigating orchard.

Form B

Application No. 18253

NOTICE OF COMPLETION OF CONSTRUCTION

I, Stewart L. Jones, the holder of Permit No. 13909
to appropriate the public waters of the state of Oregon, completed the construction of the works described
therein on the 18th day of Aug., 1942

Remarks:

Changed height of dam from 3 ft. to 2 ft. at high
point as impounding more water would cause destruction of bar
and dam is sufficient to divert all the water applied for.
If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you
should so state in order that our records may not be unnecessarily encumbered.

Mr. Tom R. Pearce
Water Master, District No. 16
Grants Pass, Oregon

Dear Mr. Pearce:

This will acknowledge receipt of the abstract of certificate under Permit No. 13909 in the name of Stewart L. Jones.

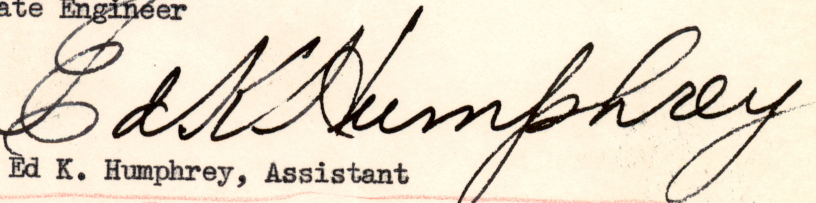

Relative to your note to the effect that the ownership of 5 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 6, Township 40 South, Range 8 West, W. M. is doubtful, the map submitted with the application originating the right in question does not show any land to be irrigated in the above described subdivision. However, where any irrigation right is involved, I do not believe that it is essential that the irrigation in question be accomplished by the owner of the property on which the water is used, and if you know that water was actually used on the 5 acres described above, I believe that proof can properly be made including these five acres, although, of course, if and when a right is perfected to this parcel of land, the right will be appurtenant to this identical land and will belong to whomever owns the land.

Unless there is some reason other than ownership preventing, I believe that certificate should issue in line with abstract, and such certificate will issue. If you know of any other reason for excluding the 5 acres in question, it will be appreciated if you will so advise us.

Very truly yours,

CHAS. E. STRICKLIN

Mr. Stewart L. Jones
Cave Junction, Oregon

Dear Mr. Jones:

This acknowledges receipt of Forms B and C, being notices of completion of construction and complete application of water under your Permit No. 13909.

Pursuant to your reports, and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the acreage actually irrigated. After this survey, proof may be made by you and certificate issued covering the lands which the survey shows to have been irrigated, and any lands described in your permit that have not been irrigated will be automatically eliminated from your water right.

In the meantime, the permit which you hold will be valid and sufficient evidence of your water right.

Very truly yours,

AUG 25 1941

STATE ENGINEER
SALEM, OREGONApplication No. 18253Permit No. 13909

APPLICATION FOR EXTENSION OF TIME

To the State Engineer of Oregon:

I, STEWART L. Jones, of Cave City,
state of ORE., am the owner and holder of Permit No. 13909, to appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or before OCT- 1-, 1941, and complete application of water is required to be made on or before OCT- 1-, 1942.

I have heretofore done the following work described under said permit: Cleaned & repaired several hundred ft. of original main ditch also hired a man last year to build a couple hundred ft. of new main ditch at intake.

costing \$ 25.00, and I estimate the cost of completion to be \$ \$400.00 to \$150.00

I have heretofore used water under said permit to the following extent: To flood and irrigate pasture land this summer, same being done by man in charge of my place.

I am unable to {complete construction work
~~make complete application of water~~
(Strike out phrase not applicable)} within the required time, for the following reasons, to wit: not able to be on premises to complete

the work as I am at present employed at Camp Haan, Riverside - Calif. working on defence work, and hiring construction work on a dam is not practical unless owner can be on premises or has a practical representation on the job.

AUG 7 1941
STATE ENGINEER
SALEM, OREGON

Dear Sir:

I was planing to move to Cave City this summer and start farming but this Defence program came up and as the country is short on skilled workers such as Operating Engineers I decided to stay here untill next spring befor going on my place.

I could hire some one to finish rebuilding my ditch & build a dam but I want to personally supervise the construction as I want a permerant job done as I expect to use it for several years. I am on Civil Service here at Camp Haan but my Superior Engineer wants me to stay on the job untill next spring when I can get away for a few weeks at the least if not permerantly.

I am sending you a statement from the Construction Eng. Quarter Master Corps showing you reason why I am not able to complete the work on my water project. No. appli. 18253 - Permit No. 13909. by Oct. 1941 and have it done to my own and the States satisfaction.

Will you grant me an extension of a year for completion of the work and application for final water rights?

I hope you will take under consideration my reasons for not wanting to complete the work untill I can be on the job personally.

Thanking you very much,

Respectfully

Stewart L. Jones.

P.S. If there is any extra cost for extension please let me know and I will send it immediately.

STATEMENT OF EMPLOYMENT.

Camp Haan, U. S. Army Post, Riverside Calif., Aug. 2, 1941.

This statement is to certify that Stewart L. Jones is now employed in Civil Service on Defense Work, in construction and maintainance, at the Army Post. As there is such a shortage of men for skilled work at present, is impossible to release men for any length of time before some time next year.

Stewart L. Jones

May 2, 1941

Mr. Stewart L. Jones
Perris, California

Dear Mr. Jones:

This will acknowledge receipt of your letter of April 29 relative to your Permit No. 13909.

With reference to your statement that you have had word from Grants Pass that someone has filed on your water right, this will advise you that the only filing in the vicinity of your project which has been made subsequent to your application is one represented by Permit No. 14076 in the name of George H. Shade, covering the use of 0.01 second-foot of water for domestic use from Shade Creek, which is a tributary of Mendenhall Creek.

The Shade permit covers only a very small quantity of water subject to existing rights, which includes your right, since your application was filed prior to Mr. Shade's application.

Your permit, which is in good standing, covers the use of 0.70 second-foot of water from Mendenhall Creek and Spring, and any permit issued after yours is of course subject to your right and would entitle the holder to divert only the surplus water remaining after your right has been satisfied, just as your permit entitles you to divert water only when there is sufficient water in the stream after prior rights to its use have been satisfied, and this holds with reference to any stream or streams to which Mendenhall Creek is tributary.

Your filing does not automatically withdraw Mendenhall Creek and its tributaries from appropriation. If this were the theory of the law, you would have been unable to secure a permit to use the unappropriated waters of Mendenhall Creek because it furnishes water to streams on which many old water rights existed at the time of your filing.

If you proceed with development and use of water as described in your permit, the Oregon law recognizes your right to such use of water subject to existing rights, and it is impossible under Oregon law for any person to secure a legal right to the use of water to which you have a legal right.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

April 29-1941.

Dear Sirs: I have just
had word from Grants Pass
that some one had filed on
my water right on the
old Whitmore property
near Cave City.

I filed on water rights
in June 1939 & it was
allowed in Oct. 1939 & I was
given until Oct. 1941 to
complete the job.

I have complied with
the law in regards

to working on ditch
& have sent notice of
work being done.

I am going to live on
property this spring &
complete the work as I need
the water to farm with.

In what way could any
one file a contest on my
rights before Oct. 1941
especially as I have complied
with the laws of Ore.?

Please let me know
if this is correct.

I have been paying the

taxes on the property as
I want it for a home &
intend to live there from
now on but land with out
water is worthless there &
I do not want to pay taxes
on valueless property.

my contract for water rights
is Per. No. 13909 Application 18253

I hope to hear from
you soon,

Resp.

Stewart L. Jones.

STATE OF OREGON
COUNTY OF JOSEPHINE

ABSTRACT OF CERTIFICATE OF WATER RIGHT NO. 14488

STEWART L. JONES of Cave Junction
State of Oregon, has made proof to the satisfaction of
the State Engineer of Oregon, of a right to the use of the waters of
Mendenhall Creek and a spring
a tributary of West Fork Illinois River, for the purpose of
Irrigation
under Permit No. 13909 of the State Engineer, and that said right to the use
of said waters has been perfected in accordance with the laws of Oregon;
that the priority of the right hereby confirmed dates from
July 5, 1939
that the amount of water to which such right is entitled and hereby con-
firmed, for the purposes aforesaid, is limited to an amount actually bene-
ficially used for said purposes, and shall not exceed
0.70 c.f.s., being 0.60 c.f.s. from Mendenhall Creek and 0.10 c.f.s. from
the spring.
or its equivalent in case of rotation.
The point of diversion is located in the
SW $\frac{1}{4}$ NE $\frac{1}{4}$ & SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, T. 40 S., R. 9 W., W. M.

The amount of water used for irrigation, together with the amount
secured under any other right existing for the same lands shall be limited
to 1/50th of one cubic foot per second per acre, or its equivalent
for each acre irrigated throughout the irrigation season from April 1st to
November 1st of each year.

and shall conform to such reasonable rotation system as may be ordered by
the proper state officer.

A description of the place of use under the right hereby confirmed,
and to which such right is appurtenant, is as follows:

- (5 acres in the NW $\frac{1}{4}$ NW $\frac{1}{4}$) ?
- 20 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$
- 2 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$,
- Section 6,
- T. 40 S., R. 8 W., W. M.
- 8 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$,
- Section 1,
- T. 40 S., R. 9 W., W. M.

The right to the use of water for the purposes aforesaid is
restricted to the lands or place of use herein described.

REMARKS: Assessor map shows NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 6 T40S R8W
belongs to E. J. Boyd. See if description checks with
map that accompanied application.
Otherwise O.K.

Tom R. Pearson

Watermaster

(Make any further remarks on reverse side)

Note: I have a faint recollection that Jones
said he purchased that 40 acre tract from Boyd.
and if the map you have, shows this land I think
it would be safe to consider it O.K. Otherwise I would
have to check the assessor's records.

Township	Range	Section	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
40S	9W	1	SE $\frac{1}{4}$ NE $\frac{1}{4}$	3	8
40S	8W	6	SW $\frac{1}{4}$ NW $\frac{1}{4}$	20	20
		6	NW $\frac{1}{4}$ SW $\frac{1}{4}$	12	2
		6	NW $\frac{1}{4}$ NW $\frac{1}{4}$	0	5
				35	35
(9) Pipe line: Description of intake Give general description: If for irrigation, this appropriation shall be limited to 1/50th of one cubic foot per second or its equivalent for each acre irrigated throughout the irrigation season from April 1st to November 1st of each year, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. of construction: concrete headworks (p) Give description of headgate: concrete dam connecting rock outcroppings length on bottom: 100 ft (r) If a dam has been constructed, give description: height 5 ft; length on top 10 ft					

This column must be filled in if water is used for irrigation

(Attach separate sheet if necessary)

DESCRIPTION OF WORKS

DESCRIPTION OF WORKS

9. (a) If a dam has been constructed, give description: Height, 2 ft.; length on top, 10 ft.; length on bottom 8 ft.; material used and character of construction, _____

Concrete dam connecting rock outcroppings

(b) Give description of headgate: Width, 1 ft.; depth, 1 ft.; material used and character of construction, Timber, concrete headworks

(c) Size of canal: Width on top (at waterline) 1.5 ft.; width on bottom, 1 ft.; depth of water, 0.6 ft.; grade, 5 ft. fall per 1,000 ft. Actual capacity, 1.0 sec.-ft.

Give general description: Earth ditch

(d) Pipe line: Description of intake, _____

Length of pipe, _____ ft.; size at intake, _____ in.; size at _____ ft. from intake, _____ in.; size at place of use, _____ in. Difference in elevation between intake and place of use, _____ ft.

Is grade uniform? _____ Actual capacity of pipe line, _____ sec.-ft.

Give general description: _____

(Material: Steel, wrought, cast iron, wood stave, etc.)

(e) Pumping plant: Give size and type of pump, _____

Suction lift, _____ ft.; discharge lift, _____ ft. Type of motor used _____

Horse power rating, _____ H. P. Actual capacity of pump, _____ sec.-ft.

10. During what months is water beneficially used? Apr. 1 to Oct. 1

11. State character of soil Serpentine

Kind of crops raised Pasture, garden

12. Does the accompanying map, filed with your application, show correctly the point of diversion, area of land irrigated, or place of use? No

13. If not, wherein is such map in error? Error in location of area irrigated.

Corrected under Item 8.

14. Domestic use: Give number of families actually using water at this time _____

15. If for power, mining, municipal, manufacturing, storage or any other purpose than irrigation, give extent and method of such use _____
