Ernest J. Walsh, M.D.

Fullerton, California 92632

Dear Doctor Walsh:

I have your application for a change in point of diversion for an existing water right involving the waters of Louse Creek and accompanying map.

Fifteen dollars from your \$30 check has been credited to this application as shown by our enclosed receipt No. 1198.

The application has been filed and designated application No. W-105.

Item 5 of the application should be completed to identify the lands involved in the proposed change in point of diversion. I have made pencilled entries to show the entirety of the water right evidenced by the certificate recorded at page 7432, State Record of Water Rights Certificates, in the name of W. J. Savage.

With reference to item 14 and the map, it appears that more than one point of diversion is indicated by the map. If you intend to irrigate by means of a portable pump, moving the pump with each change of the sprinkler pipes, it will be necessary for you to list the location of each end of travel of the pump.

Since the distance between the old and new points of diversion is more than one-quarter of a mile the law requires that notice of the proposed change be published at least once a week for three consecutive weeks in a newspaper printed and having general circulation in Josephine County.

It is necessary that you submit a deposit of \$30 toward cost of publication of notice. If the actual cost is less than \$30, we will refund the difference. If it is more than \$30, we will bill you for the difference.

Ernest J. Walsh, M.D.

Dear Sir:

I have received your proof of appropriation of water under Permit No. 4512 accompanied by a reply from Mr. Tom R. Pearce recommending that a water right certificate be issued for 24 acres. Receipt is also acknowledged of the \$1.00 submitted as a certificate recording fee and you will find enclosed my official receipt No. 7371 therefor.

This proof appears to be in proper form and will soon be taken up for the issuance of a water right certificate.

Yours very truly,

Dear Sir:-

I have completed the ditch  
ready to apply the water  
on Application No 7172.

Permit No 4512 For the appropriation  
of 0.40 second feet of the waters of Louse  
Creek, But as we have had such  
a drouth this year there was no  
water to apply to the land, so  
will have to wait until water comes  
next Spring, I never knew it to be so  
dry here before no rain since last February  
to amount to anything.

I would fill out the notice of complete application of water to beneficial use, and send it to you and as I have had no water I cannot do so, If there is anything the Law requires me to do in this case please advise me,

Yours truly

Dear Sir:

Mr. W. J. Savage, the holder of Application No. 7172, Permit No. 4512, was in the office this morning and asked for an extension of time in which to apply the water to his land under said permit. The reason for this extension is:

That in completing his ditch he run into a lot of rock that delayed him in its completion and he wishes to level his land before applying the water, as there is some of it that he cannot reach until he does level it.

I know the conditions relative to this request and would recommend that the extension be granted.
