### NOTICE OF BEGINNING OF CONSTRUCTION

I, Harley S. Belt, the holder of Permit No. 17704  
to appropriate the public waters of the state of Oregon, began the actual construction of the works described  
therein on the 3 day of July, 1947.

Remarks: I have worked on & sealed 14 acres of Pasture Grass (Lobelia  
clay) and irrigated it with sprinklers since May 1947. This type of  
irrigation will be used on the entire project  
The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed  
up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of July, 1948.

**IMPORTANT**—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

**NOTE** In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 22396 Permit No. 17704

IN NAME OF

Surveyed 4 April 1956, by Tom Bish

January 31, 1957

Harley S. Belt  
Rt. 1  
Yamhill, Oregon

Dear Mr. Belt:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 17704 granting a right to the use of 1.38 cfs of the waters of North Yamhill River, for irrigation.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your Permit. The proof should be dated and signed by you on the second sheet under the Affidavit of Appropriator and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory fee of \$1, a Certificate of Water Right will be issued confirming the rights thereunder and, after being recorded in the records of Yamhill County, will be forwarded to you.

In the interest of economy and due to the fact that your completed project was examined by a representative of this department, it is not necessary that your signature be made before a Notary Public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

*Lewis A. Stanley*

Mr. Harley S. Belt  
Route 1  
Yamhill, Oregon

Dear Mr. Belt:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 17704.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In the case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

Dear Mr. Belt:

This will acknowledge the receipt of your application for an extension of time and your check in the amount of \$2.00, for which our Receipt No. 898 is enclosed.

Since your application was filed on April 3, 1947, and the permit issued on July 3, 1947, it would appear that you should have completed your project by this time. We have given you the benefit of the doubt and the time is being extended to October 1, 1955, at which time you should submit forms "B" and "C", reporting on your project, and make proof on that land which you have actually irrigated by that time as it is felt that no further extension beyond 1955 could be granted since the area you are in is becoming critical in regard to water for irrigation purposes.

Very truly yours,

### Application for Extension of Time

To the State Engineer of Oregon:

I, Harley S. Belt, of Yamhill County,  
state of Oregon, am the owner and holder of Permit No. 17704, to  
appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or  
before Oct 1, 1953, and complete application of water is required to be  
made on or before \_\_\_\_\_, 19\_\_\_\_.

I have heretofore done the following work described under said permit: I was told  
by county agent to put in on all of  
the land that I would want to water  
in future. I did not know that so  
much was involved in this permit  
I do not need water on some of the land at the  
costing \$\_\_\_\_\_, and I estimate the cost of completion to be \$\_\_\_\_\_.

I have heretofore used water under said permit to the following extent: I have used  
water on approximately 70 acres by bringing more  
pipe. a long Electric line is the large cost  
to complete my project. and I do not have a  
crop on the remaining 40 acres that need water.

I am unable to {complete construction work  
make complete application of water} within the required time, for the following  
(Strike out phrase not applicable)  
reasons, to wit: as I rotate my crops in the future  
water will then be applied to the other  
40 acres.

pany the application for extension.)

Dear Sir:

According to the terms of your Permit No. 17704, which is for the appropriation of 1.38 second-feet of water from N. Yamhill River, complete application of water was to have been made on or before October 1, 1953. It appears from our records that you have failed to submit the notice of complete application, although a postal card, calling this matter to your attention, was mailed to you on October 9, 1953.

ORS 537.260 provides: "Whenever the time within which any appropriation under a permit should have been perfected has expired and the owner of the permit fails or refuses within three months thereafter to submit to the State Engineer proof of completion of the appropriation as required by ORS 537.230 and 537.250, the State Engineer may, after 60 days' notice by registered mail, order the cancellation of the permit.  
\* \* \*"

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if sufficient evidence has been shown.

Rt. 1  
Yamhill, Oregon

Dear Mr. Belt:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 17704 granting a right to the use of 1.38 cfs of the waters of North Yamhill River, for irrigation.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your Permit. The proof should be dated and signed by you on the second sheet under the Affidavit of Appropriator and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory fee of \$1, a Certificate of Water Right will be issued confirming the rights thereunder and, after being recorded in the records of Yamhill County, will be forwarded to you.

In the interest of economy and due to the fact that your completed project was examined by a representative of this department, it is not necessary that your signature be made before a Notary Public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

Harley S. Belt

(Signature of applicant)

Remarks:

I am entering the Dairy business and would like very much to have irrigated pasture for my cows. The river flows thru my place and along my place for about 2 mi and I think I have an ideal setup for irrigation. I have a field of alfalfa which I believe would produce much more with about 2 waterings a season.

PS

I dont understand about the amount of water to be used, but I will use sprinklers and on the pasture I expect to irrigate every 10 days in dry season but on alfalfa will water not more than 2 times and possibly only 1 time.
