NOTICE OF COMPLETION OF CONSTRUCTION

Application No. 24623

I, H.B. Holyhausen, Richard F. Lewman and Glen Orval Lewman, the holder of Permit No. 19388 to appropriate the public waters of the state of Oregon, completed the construction of the works described therein on the _____ day of _____, 1858.

Remarks: With the consent of the owners this water was appropriated through the Baltimore Ditch which was completely constructed in the year of 1858. If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 2nd day of September, 1950.

H.B. Holyhausen (Signature of Applicant)

Provoct Ore (Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is completed.

Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

Application No. 24623

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

H.B. Holyhausen, Richard F. Lewman and Glen Orval Lewman, the holder of Permit No. 19388 to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 1st day of Aug, 1956.

Gentlemen:

On the reverse side of this paper is a copy of a draft of water right certificate to confirm the right under Permit No. 19388..... You are requested to examine this draft and if you find it correctly describes the appropriation of water made, execute the following certificate. You should return this paper, along with a fee of \$1.00 for recording your water right certificate, when issued, in the office of the County Clerk.

Very truly yours,

LEWIS A. STANLEY
State Engineer

Return this paper to the State Engineer. Do not record in County Clerk's office.

FINAL PROOF

I have read the draft of water right certificate shown on the reverse side of this paper and as final proof of appropriation of water I hereby certify that the water has been used as described in said draft.

IN NAME OF

H.B. HOLZHAUSER, RICHARD F. & GLEN ORVAL LEWMAN

Surveyed 25 July 1959, by M. B. Rich

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

Josephine County

IN THE MATTER OF CANCELLATION OF)
A PORTION OF A WATER RIGHT IN THE)
NAMES OF H. B. HOLZAUSER, RICHARD)
F. LEWMAN & GLEN ORVAL LEWMAN - -)

O R D E R

On July 15, 1977, Janeen Armbruster and Joan M. Vanderwall submitted affidavits that they are the owners of a certain water right and the lands to which the water right is appurtenant; that they have abandoned any and all interest in and to the said water right and request the same be canceled.

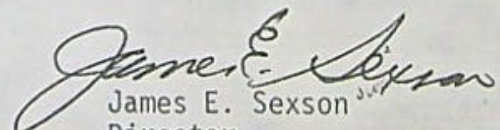

The water right in question is a portion of the right described by the certificate recorded at Page 44085, Volume 36, State Record of Water Right Certificates, in the names of H. B. Holzhauser, Richard F. Lewman and Glen Orval Lewman, and is for the use of not to exceed 0.76 cubic foot of water per second from West Fork Williams Creek, with a date of priority of April 19, 1950, for irrigation of a certain 10.6 acres in NE $\frac{1}{4}$ NE $\frac{1}{4}$, 2.4 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$ and 17.4 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 26, Township 38 South, Range 5 West, W. M.

ORS 540.621 provides that: "Whenever the owner of a perfected and developed water right certifies under oath to the Water Resources Director that the water right has been abandoned by him and that he desires cancellation thereof, the Water Resources Director shall enter an order canceling the water right."

NOW, THEREFORE, it hereby is ORDERED that the said water right, being a portion of the right described by the certificate recorded at Page 44085, Volume 36, State Record of Water Right Certificates, is canceled.

It is FURTHER ORDERED that the said certificate of water right is canceled, and in lieu thereof a new certificate be issued to describe the balance of the water right NOT involved in this proceeding.

Dated at Salem, Oregon, this 16th day of March, 1978.

Dear Ms. Armbruster:

This will acknowledge receipt, as of July 15, 1977, of the following items:

(a) Affidavits by Janeen Armbruster and Joan M. Vanderwall, as owners of certain real property, abandoning use of water from West Fork Williams Creek under the right described by the certificate issued to H. B. Holzhauser, Richard F. Lewman and Glen Orval Lewman and recorded at page 44085, Volume 36, State Record of Water Right Certificates, on the subject lands.

(b) Affidavits by Janeen Armbruster and Ted LeBraun alleging non-use of water from storage in Holzhauser Reservoir on lands across the county road to the West of the reservoir.

(c) An application for a permit to store 40.0 acre feet of water in Holzhauser Reservoir for irrigation purposes, together with a print of a plans sheet prepared by Tom Pearce.

(d) An application for a permit to appropriate water from East Fork of Williams Creek and from storage in Holzhauser Reservoir for irrigation of a certain 33.0 acres within the NE $\frac{1}{4}$ of Section 26, Township 38 South, Range 5 West, W.M., together with a map of the irrigation project.

With reference to item (a) above, the affidavits appear to be satisfactory for the preparation of an order cancelling the subject right.

With reference to item (b) above, we have asked the watermaster at Grants Pass to make his usual investigation and report on the matter.

With reference to items (c) and (d) above, since payment of the statutory filing fees was not received with the applications, they have not yet been filed. Filing and recording fees in the total amount of \$60.90 will be required for these applications.

Dear Mr. Holzhauser:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 19388, 19653 and completion of construction under R-1054.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date. After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In the case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

Dear Mr. Holshausen:

This will acknowledge receipt of your applications for extensions of time for completion of construction on Permit No. R-1054 and for completion of construction and complete application of water on Permits No. 19388 and 19653, together with your check in the amount of \$6, for which our receipt No. 5082 is enclosed.

Please be advised that the State Engineer is permitted by law to extend the time for completion of a project only on showing of due diligence by the permittee.

From your applications for extensions of time it appears questionable if due diligence has been exercised, however, if no protests are received you will be given the benefit of the doubt and the time extended to October 1, 1956, on all permits.

You should make every attempt to complete your projects on or before that date because it is doubtful if any further extension can be granted.

With reference to your letter, I will call on you the next time I am in your area, however, we do not have regular schedules trips to that vicinity, and it may be considerable time will elapse before I will have an opportunity to be there.

If your question is pressing, it is suggested that you either write or call at this office, or perhaps your water master, Mr. Tom Pearce at Grants Pass could answer it for you.

Dear Mr. Holzhauser:

This will acknowledge receipt of your application for a permit to appropriate 2.50 cubic feet per second from West Fork of Williams Creek for the irrigation of 112.5 acres, together with fees in the amount of \$26.25, for which our Receipt No. 9367 is enclosed.

The application appears to be in order, but as I add the acreages thereon and on the accompanying map, the total amounts to only 98.5 acres. For your convenience in making any revisions if such are indicated, I am returning the application and map herewith, the application being endorsed so that to retain its priority it must be returned to this office on or before May 29, 1950.

Very truly yours,

CHAS. E. STRICKLIN

Dear Mr. Lewman:

This will acknowledge receipt of your letter of June 6, with which you enclosed a sketch and a partial sheet of typed matter headed "ROGUE RIVER DECREE (Page 26, Column 2)".

Pursuant to your request, I am returning your sketch and the typed partial sheet.

For your convenience in filing an application for a permit to appropriate water, I am enclosing a form, together with a copy of the Rules and Regulations of the State Engineer, in which you will find definite instructions for preparing an application and the map which must accompany it.

It is essential that the map accompanying an application be drawn on transparent tracing paper or tracing cloth showing all of the important items of the proposed appropriation, including definitely the area to be irrigated in each forty-acre tract and in the instant case the location of the lateral delivering water to the lands to be irrigated, as explained on pages 6 and 8 of the Rules and Regulations. This specific map is required regardless of the fact that there may be maps on file in this office covering the general area involved.

If it is proposed to file an application for a permit to irrigate more than 30 acres of land, the required map must be made by an engineer or a surveyor as explained in the Rules and Regulations.

Detailed information relative to old rights to the use of the waters of Rogue River is on file in the office of Mr. Tom R. Pearce, Watermaster of District No. 16, in the Court House at Grants Pass. Maps of the Rogue River are also on file in the Watermaster's office and available for inspection.

Yours very truly,

Dear Sir:

Yours of June 1st at hand and contents noted. And what we want to do is to appropriate water through the Baltimore Ditch. H. B. Holyhauser and my self to cover around 80 acres (40 acres each) of land, 40 acres of which will be new land now all cleared in Sec 24 And under The Baltimore Ditch. I all ready irrigate 10 acres in Sec 24 from The Baltimore Ditch And I want to take out a 1949 water right through the Baltimore Ditch to irrigate the rest of that 40 acres. And Holyhauser has about 12 acres in Sec 24 that he wants to irrigate. And the rest is land that we already irrigate without a adjudicated water right. Holyhauser has a water right for 37.2 acres. But your engineers

shows him to be irrigating 65.² acres
And I have about 11 acres that I want
water for in sec 23.

And your office surely has all
the maps of the Baltimore Ditch
all ready. And the maps of
our farms. And I have all ready
submitted a map to your office
of my 48 acres in Sec 24. And
now under these circumstances
what do you recommend for us to
do to obtain a water right. Some of
my land has been irrigated over 90 years.
And Albert Biglow tells me that he
and his brother C O Biglow put in a
claim for the water for Lot 8. That
I own. But for some reason the claim
was overlooked in Salem. at the
State Water Masters office.

Thanking you for any information
that you can give us.

I Am, Yours Truly,
P F Leonard.

RETURN this.

Dear Mr. Lewman:

In reply to your letter of May 27, this will advise you that we do not now have for distribution the four-section plats formerly supplied by this office in connection with the filing of applications, which plats I believe are the "blank maps" referred to in your letter.

Maps submitted with applications for permits are now required to be drawn on plain transparent tracing paper or tracing cloth as explained on pages 6 and 8 of the enclosed copy of the Rules and Regulations of the State Engineer.
