File No. G-1892

Dear Madam:

Enclosed is the final proof in connection with the incomplete water right represented by your permit number G-1731.

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your permit. The proof should be dated and signed by you and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory recording fee of \$1.50, a certificate of water right will be issued confirming the right thereunder and, after being recorded in the county records, will be forwarded to you.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Conn and Lynch
Attorneys at Law
P.O. Box 351
Lakeview, Oregon 97630

ATTENTION: James C. Lynch

Dear Sir:

Permit No. G-1731 was issued to Walter M. Cory for the appropriation of not to exceed 0.97 cubic foot per second from a well for irrigation and supplemental irrigation of 77.3 acres. The time limit to complete the construction and complete the application of water was extended to October 1, 1964 at which time Mr. Cory notified us that he had irrigated about 60.0 acres and was abandoning the balance.

We have not yet made the final proof survey in connection with this, but the permit is valid to the extent that water was issued within the time limits of the permit.

Very truly yours,

CHRIS L. WHEELER
State Engineer

Re: Application G-1892, Permit G-1731

Dear Sir:

On January 30, 1961, a permit to appropriate ground water, begin application No. G-1892 and Permit G-1731, was granted to Walter M. Cory of Lakeview, Oregon.

Mr. Cory is now deceased and his wife has found these papers among his files. I cannot find any record of this being placed in the files of Lake County and I wonder, therefore, if you could inform me as to the current status of this application and permit.

Thank you in advance.

Sincerely yours,

CONN & LYNCH

Gentlemen:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under permit No. G-1731.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date.

After this survey, proof may be made and certificate issued covering the actual use of water as found by the engineer. In case of irrigation, any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right in question so long as you continue to use the water.

Very truly yours,

CHRIS L. WHEELER
State Engineer

STATE ENGINEER
SALEM, OREGON

Dear Sir:

on approximately 140 acres has been irrigated for 2 years about 80 acres has been seeded to irrigated grasses but after leuding the ditches have not been re-established. one fill ditch has been used for the ditch has been giving me trouble so am going to put pipe across this and the pipe is on hand. one field has been irrigated 3 years and the other two but before the lower field can successfully be irrigated the pipe must go in.

The balance of the application will be abandoned.

With this explanation I am signing that the work necessary to get the water on the land as completed.

Sincerely,

November 8, 1962

Mr. Walter M. Corey
Box 223
Lakeview, Oregon

Dear Mr. Corey:

This will acknowledge your application for an extension of time in which to complete construction and make complete application of water under permit No. G-1731, and your remittance in the amount of \$2 for which our receipt No. 36056 is enclosed.

The application indicates reasonable diligence has been exercised toward completion of the project; therefore the time limits are being extended to October 1, 1964.

Very truly yours,

Application for Extension of Time

RECEIVED
NOV - 7 1962
STATE ENGINEER
SALEM, OREGON

To the State Engineer of Oregon:

I, Walter M. Cory, of Lakeview

state of Oregon, am the owner and holder of Permit No. G-1731, to appropriate the public waters of the state of Oregon.

Under the terms and conditions of said permit, construction work is required to be completed on or before October 1, 1962 and complete application of water is required to be made on or before Oct 1, 1963

I have heretofore done the following work described under said permit during the past year:

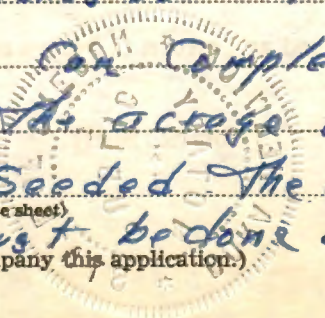

Completed a fill for the ditch involving approx 6,000 Cy built 1/2 mile of main line ditch placed in eleven permanent control structures shaped 20 acres and irrigated 40 acres.
and did the following work prior to last year: Started the fill and worked until the frost made dirt work impossible to continue work a year ago last fall and installed 60 feet of corrugated pipe.

costing \$ 3,000, and I estimate the cost of completion to be \$ 3,000

I have heretofore used water under said permit to the following extent: in 1961 I irrigated 20 acres in 1962 I irrigated an additional 20 acres

I am unable to ~~complete construction work~~ ~~make complete application of water~~ within the required time, for the following
(Strike out phrase not applicable)

reasons, to wit: The soil placed in the fill is such that saturates and washes out and the fill washes out this fill will have to be lined before I can complete the use of the water the rest of the acreage will have to be leveled before it can be seeded the ditch lining was not part of my plans but must be done before water use can be completed -
(If additional space is required, attach separate sheet)
(A fee of \$2.00 for each permit involved must accompany this application.)

Gentlemen:

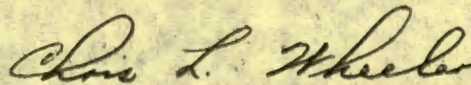

Pursuant to your request I am enclosing a form for use in making application for an extension of time limits under permit No. G-1731.

Please be advised that the State Engineer is permitted by law to extend the time for completion of a project only upon a showing of due diligence by the permittee. Therefore, you should execute the application carefully and completely so that this office may determine from your sworn statement whether due diligence has been shown.

The application must be executed before a notary public and submitted to this office with the statutory filing fee in the amount of \$2 for each permit.

Upon receipt of the application, the matter of extending the time under the appropriation will be given further consideration and you will be advised of our action.

Very truly yours,

CHRIS L. WHEELER

Appl. No. G 1896
Permit No 1731

Chris L Wheeler
State Engineer
Salem, Oregon

Dear Sir:

The work on my Water Right has been somewhat delayed - I have about half of the land irrigated and am seeding to permanent grasses. The other half will be delayed for a time for the following reasons.

1. The fill I built to carry the water to the portion that has not been as yet irrigated is of such soil that water soon soaks through the fill and washes it out. Also there is a rodent problem. It will be necessary to use about 2000 feet of pipe to get the water on the land to be irrigated.

2. The topography is such that the land is going to need more leveling for flood irrigation than I originally anticipated.

This additional work and costs make it necessary to request an extension of the completion date of the project. Please send me the necessary forms.

Sincerely

Walter Cory

STATE ENGINEER
SALEM, OREGON

ESTATE OF WALTER M. CORY
c/o Martha K. Cory
of Box 223, Lakeview, State of Oregon
has applied beneficially the waters of
Ogle Well

a tributary of West Fork Crooked Creek for the purpose of
irrigation of 10.7 acres and supplemental irrigation of 23.3 acres

under Permit No. G-1731 of the State Engineer, and that the use of said waters has been
completed under the terms of said permit; that the priority of the
right dates from December 8, 1960

that the amount of water for the purposes aforesaid, has been actually beneficially used in the
amount of
0.43 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the SE¹/₄ SW¹/₄, Section 25, T. 37 S., R. 20 E., W. M.
Well located: 430 feet North and 2780 feet West from SE Corner, Section 25.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during
the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.
A description of the place of use under the right, and to which such right is appurtenant, is
as follows:

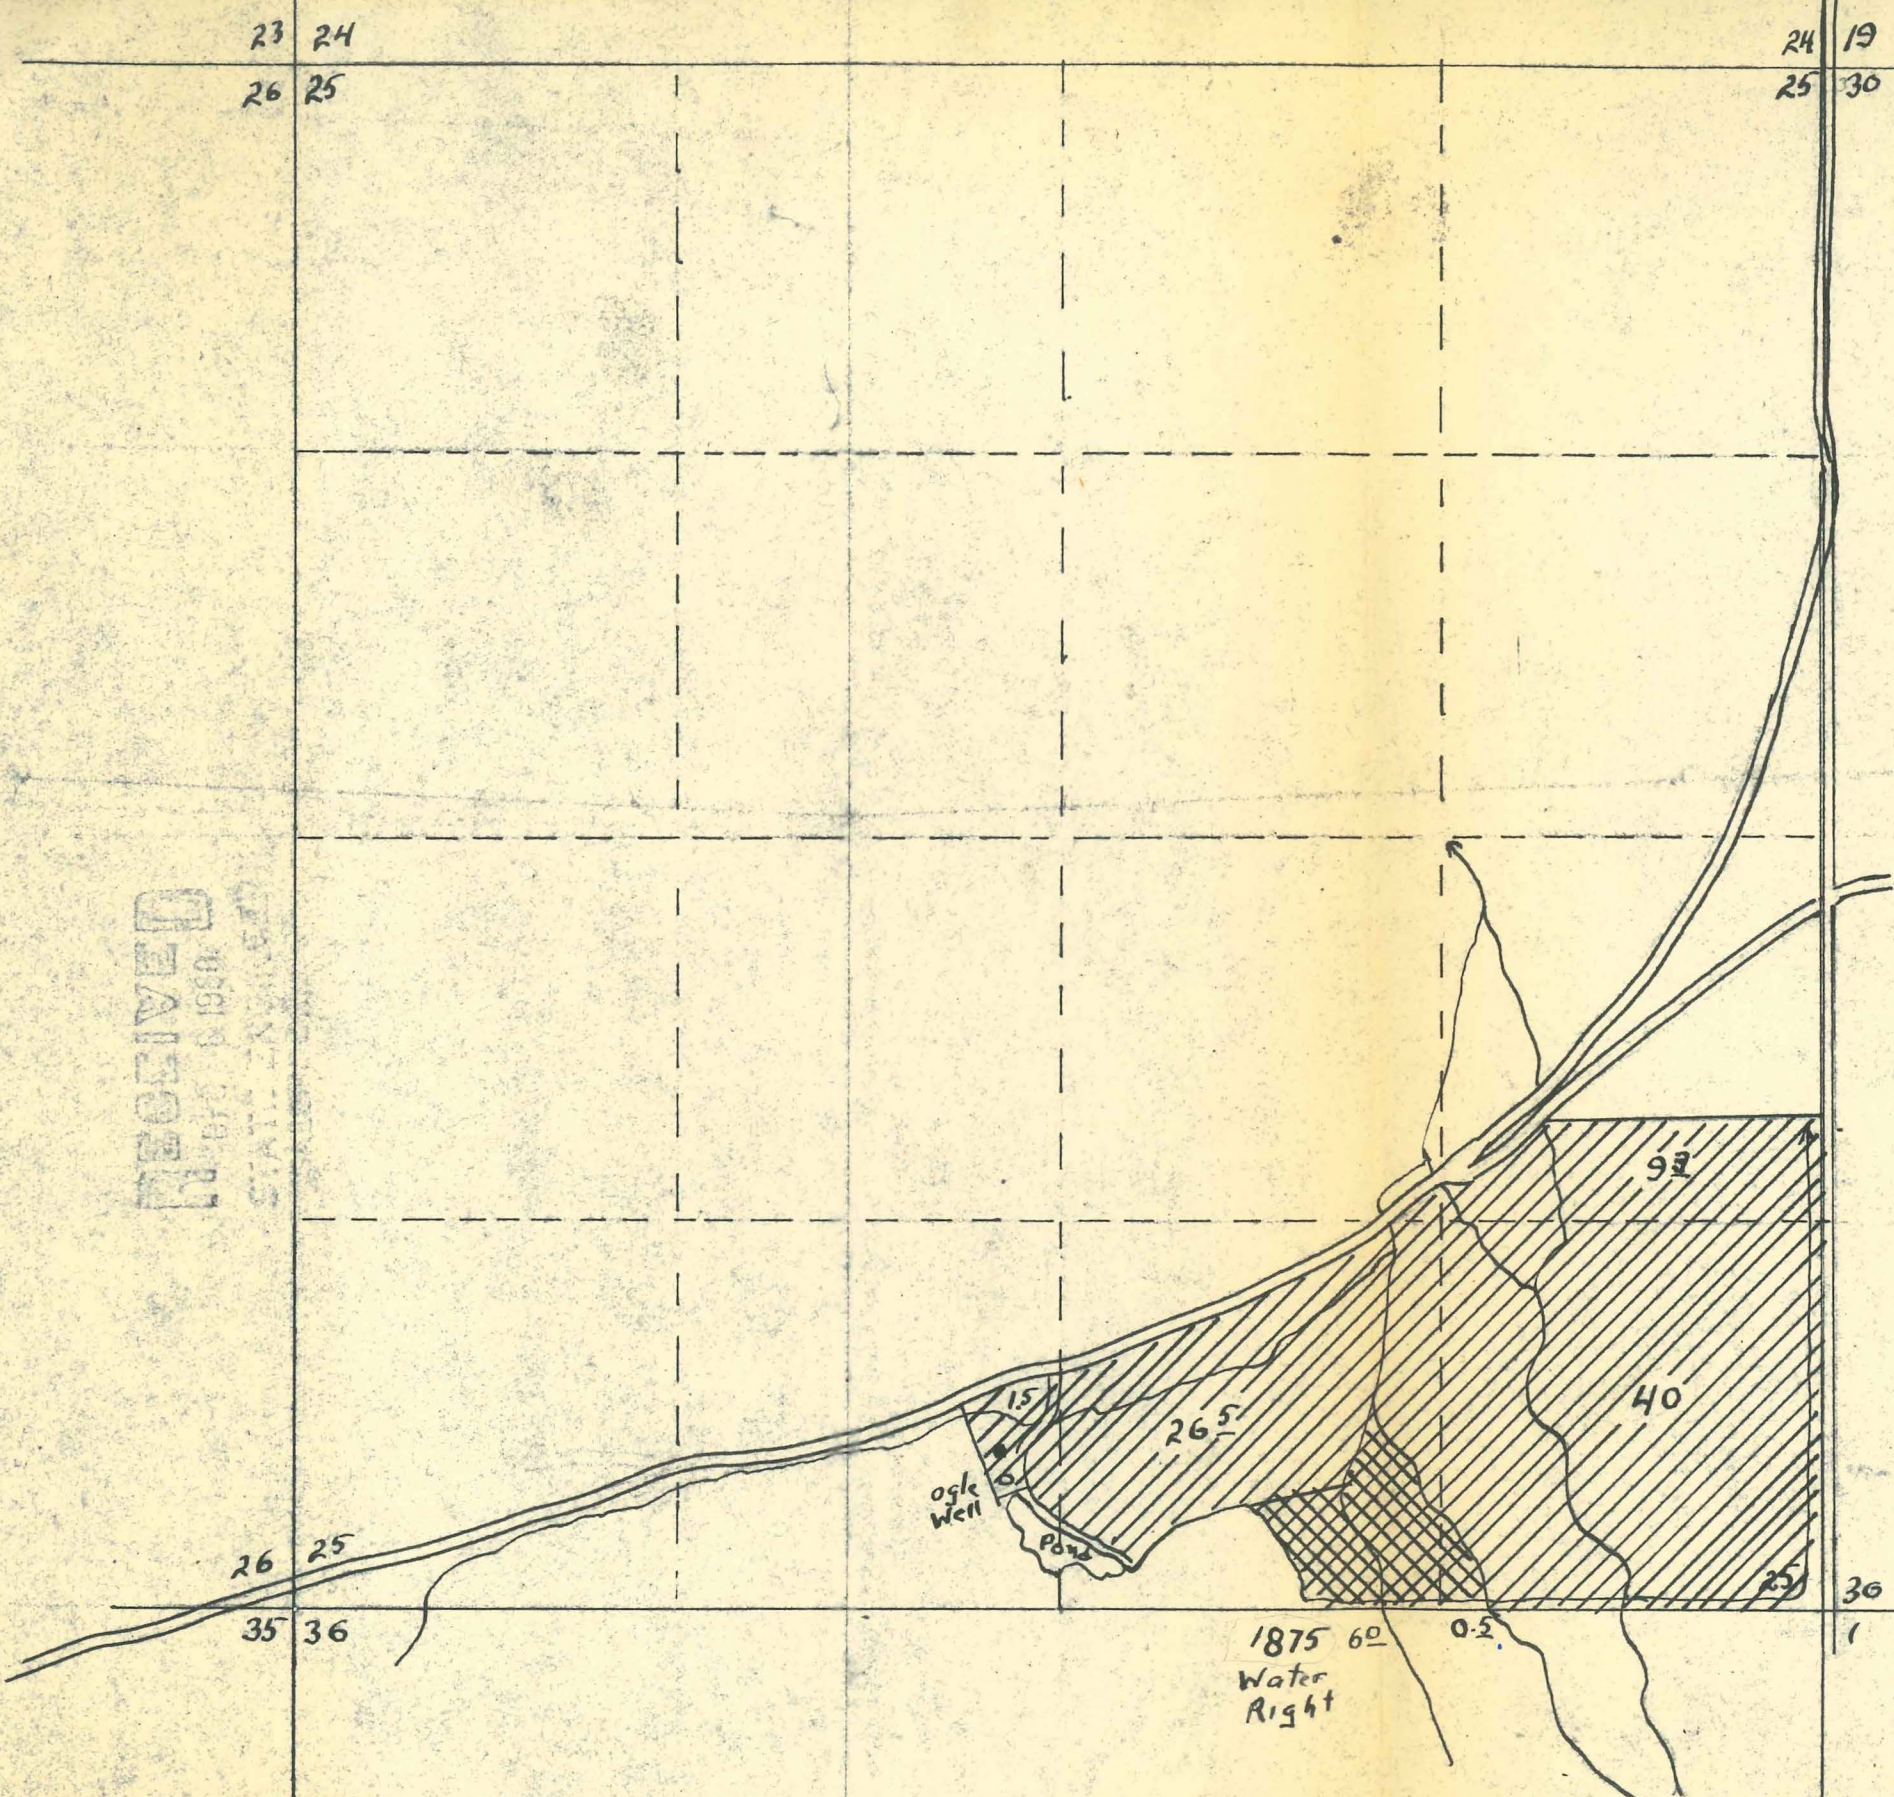

<u>Primary</u>	<u>Supplemental</u>
	0.2 acre NE ¹ / ₄ SE ¹ / ₄
	22.6 acres SW ¹ / ₄ SE ¹ / ₄
10.7 acres	0.5 acre SE ¹ / ₄ SE ¹ / ₄
	Section 25
	T. 37 S., R. 20 E., W. M.

I have read the above and foregoing proof of appropriation of water; I know the contents
thereof, and that the facts therein stated are true.
