NOTICE OF BEGINNING OF CONSTRUCTION

91c

I, Julius Blechaffer, the holder of Permit No. 17946 to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 1st day of October, 1947

Remarks: Dug trench and laying pipe from creek (intake) to house. Water available for one (1) family up to date. One (1) man employed

The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 5th day of March, 1948

Julius Blechaffer (Signature of Applicant)

Slide, Oregon (Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is begun.

Certificate of Water Right issued to Henry M. Von Clasen & Richard P. Smith and recorded at page 21448, Volume 15, State Record of Water Right Certificates, confirms a right under Permit number 17946, with a date of priority of August 26, 1947, for the use of 0.02 c.f.s. of the waters of an unnamed creek (Little River) for domestic use for two families.

STATE OF OREGON
COUNTY OF DOUGLAS
CERTIFICATE OF WATER RIGHT

This Is to Certify, That HENRY M. VON GLASEN & RICHARD P. SMITH

of Glide, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of an unnamed creek a tributary of Little River for the purpose of domestic use for two families under Permit No. 17946 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from August 26, 1947

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.02 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the ~~NE 1/4 SW 1/4~~ Section 4, Township 27 South, Range 2 West, W.M.

1900 ft North AND 650 ft W from SE Cor Sec 4

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to _____ of one cubic foot per second per acre,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

SW 1/4 SW 1/4
Section 3
Township 27 South, Range 2 West, W.M.

Land on which water is to be used is part of the property described as follows:

All of the land west of Little River located in the North half (N 1/2) of the Southwest Quarter (SW 1/4) of the Southwest Quarter (SW 1/4), Section 3, Township 27 South, Range 2 West, Willamette Meridian, consisting approximately 10 acres, more or less.

THIS CERT IS ISSUED TO SUPERSEDE CERT. OF W.R. RECORDED ON PAGE 21448, Vol. 15, SRWRE SO AS TO CORRECTLY DESCRIBE THE P.O.D.

STATE OF OREGON

VERIFICATION OF SIGNATURE

January 12, 1966

Kelley, Garrison & Lasswell
P. O. Box 266
Roseburg, Oregon 97470

Attention Thomas Garrison

Gentlemen:

Permit No. 17946 was confirmed by certificate recorded at page 21448, issued to Henry M. Von Clasen and Richard P. Smith, and locates a diversion point in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 4. This is a typographical error and should have located the diversion point in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4. Apparently the abstract of the permit is also in error as it locates the diversion point in the NE $\frac{1}{4}$ SE $\frac{1}{2}$. I will check into this as soon as we have a new watermaster in Roseburg.

The diversion point for this right and for the right described in certificate recorded at page 17821, issued to Associated Plywood Mills, Inc., is identical. At the time of proof Mr. Von Clasen and Mr. Smith had a 1 $\frac{1}{4}$ " pipeline tapped into Associated Plywood Mills' 6" line.

I am enclosing a final proof survey map made in connection with both permits. The one also shows the diversion and use under application No. 20719, which has no bearing on this.

Neither of the two rights describe Little River at the source, but rather an unnamed creek which is a tributary of Little River. If either group has changed the location of the diversion point, they should obtain approval of the State Engineer for the change in point of diversion by making proper application to this office.

I see no particular reason for the hearing concerning the determination of the relative rights to the use of water. Assuming both rights are valid and presently used for the purposes described, the distribution would be on the basis of priority date. Certificate 17281 bears a priority date of April 14, 1944 and certificate 21448 bears a priority date of August 26, 1947.

If there is not sufficient water in the stream to satisfy the demand under and within the terms of certificate 17281, then Mr. Von Clasen and Mr. Smith or their successors would have to curtail their use. Little River Christian Camp could not demand water for any greater use than was made by Associated Plywood Mills by October 1, 1947.

January 12, 1966

If there was sufficient water in the stream and the various users were sharing a common pipeline, the jurisdiction for distribution of water by the State Engineer would end when the diversion was made from the natural water course. A dispute over a division of water after entering the pipe at the diversion point would be up to the parties involved to solve.

There is no statutory provision for reissuing a certificate to show subsequent owners of a property or an assignment of an evidenced right, as a completed right is appurtenant to the land described and travels with that land at time of sale.

Yours very truly,

CHRIS L. WHEELER
State Engineer

Mr. Richard P. Smith
1408 Siskiyou
Medford, Oregon

Dear Mr. Smith:

In reply to your letter of August 17, our records show that the right established under permit No. 17946 is a completed and perfected water right evidenced by the certificate recorded at page 21448, State Record of Water Rights Certificates.

A completed and perfected right is appurtenant to the property upon which it was established and travels with the property with change of ownership unless reserved by deed. The law does not provide for making the change of ownership of such a right a matter of record in this office.

Very truly yours,

LEWIS A. STANLEY
State Engineer

Henry M. Von Clasen
& Richard P. Smith
Glide, Oregon

Gentlemen:

We are enclosing herewith for completion, final proof in connection with the incomplete water right represented by your Permit No. 17946 granting a right to the use of 0.02 c.f.s. of the waters of an unnamed creek

The data contained in the proof, which is based on an inspection and survey of your project made by a representative of this department, defines the extent to which your water right has been completed within the terms of your Permit. The proof should be dated and signed by you on the second sheet under the Affidavit of Appropriator and returned to this office.

Upon receipt of the proof, properly executed and accompanied by the statutory fee of \$1, a Certificate of Water Right will be issued confirming the rights thereunder and, after being recorded in the records of Douglas County, will be forwarded to you.

In the interest of economy and due to the fact that your completed project was examined by a representative of this department, it is not necessary that your signature be made before a Notary Public, nor that the signatures of witnesses be affixed to the proof.

Yours very truly,

Lewis A. Stanley

Dear Mr. Smith:

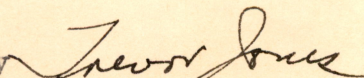

According to the report of our field engineer, you are the owner of 1 of 2 houses to be furnished with water under the terms of Permit No. 17946, which was issued to Julius B. Schaffer.

Before a confirming certificate can be issued it is necessary for us to obtain the signature of the record holder of the permit on an Affidavit of Appropriator, and collect a certificate recording fee of \$1. A registered letter to Mr. Julius B. Schaffer has been returned to us marked, "Moved, Left no address".

If we are to be able to issue the certificate we must receive an assignment of the right from Mr. Schaffer to you or to the other owner of the property supplied with water under this permit, or to both, and then your signatures would be acceptable on the Affidavit of Appropriator. If this assignment is not received, we will be required to follow the statutory procedure which will probably result in the cancellation of the permit.

EKH:fw

JAN 9 1952

January 7, 1952

Mr. Julius B. Schaffer
Glide, Oregon

Dear Mr. Schaffer:

According to the terms of your Application No. 22787, Permit No. 17916, which is for the appropriation of 0.02 second-feet of water from an unnamed creek complete application of water was to have been made on or before October 1, 1951. It appears from our records that you have failed to submit the notice of complete application, although a postal card, calling this matter to your attention, was mailed to you on October 1, 1951.

Section 116-435, O. C. L. A., provides: "whenever the time within which any appropriation under a permit should have been perfected shall have expired and the owner of such permit shall fail or refuse within the period of three months thereafter to submit to the State Engineer proof of the completion of such appropriation as required by Section 116-426, O. C. L. A., the State Engineer may, after 60 days' notice by registered mail, order the cancellation of such permit, * * *."

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

Complete application of water under an irrigation permit means the irrigation of ALL of the land described in the permit, which it is intended to irrigate.

In accordance with the provisions of Section 116-435, Oregon Compiled Laws Annotated, a part of which is quoted above, you are hereby notified that unless we hear from you within 60 days from the date of this letter, your permit will be cancelled without further notice.

Very truly yours,

Chas. E. Stricklin

Dear Mr. Schaffer:

This acknowledges receipt of Form A, being notice of the beginning of construction under Permit No. 17946 in the name of **Julius B. Schaffer.**

This report has been filed with other matter pertaining to the water right, and the permit is in good standing until October 1, 19⁵⁰, when under its terms, construction should be completed.

Very truly yours,

Chas. E. Stricklin

Dear Mr. Schaffer:

Herewith you will find Application No. 22787, Permit
No. 17946, together with blueprint.

September 4, 1947

Mr. Julius B. Schaffer
Glide, Oregon

Dear Mr. Schaffer:

This will acknowledge receipt of your application for a permit to appropriate 0.02 cubic foot of water per second from an unnamed creek for domestic use, together with the statutory examination fee of \$10.00 for which our Receipt No. 3408 is enclosed.

The application has been filed and given No. 22787. It has been checked over and some discrepancies are noted.

The name heading the application and the signature do not agree.

A description of the place of use as to forty-acre tract, section, township and range, should be noted under Item 8 and the description of the property figuring in your proposed appropriation as such description appears on your deed, abstract or contract, should also be copied word for word under Item 8.

For your convenience in completing your application as suggested, I am enclosing it herewith, indorsed so that to retain its priority, it must be returned to this office on or before October 6, 1947.

On receipt of your completed application accompanied by the balance due in permit recording fees in the amount of \$10.00 as provided by Chapter 88, Oregon Laws of 1947, the application will be placed in line for approval and issuance of a permit.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

FILE NO. 22787

January 7, 1952

Mr. Julius B. Schaffer
Glide, Oregon

Dear Mr. Schaffer:

According to the terms of your Application No. 22787, Permit No. 17946, which is for the appropriation of 0.02 second-feet of water from an unnamed creek complete application of water was to have been made on or before October 1, 1951. It appears from our records that you have failed to submit the notice of complete application, although a postal card, calling this matter to your attention, was mailed to you on October 1, 1951.

Section 116-435, O. C. L. A., provides: "whenever the time within which any appropriation under a permit should have been perfected shall have expired and the owner of such permit shall fail or refuse within the period of three months thereafter to submit to the State Engineer proof of the completion of such appropriation as required by Section 116-426, O. C. L. A., the State Engineer may, after 60 days' notice by registered mail, order the cancellation of such permit, * * *."

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

Complete application of water under an irrigation permit means the irrigation of ALL of the land described in the permit, which it is intended to irrigate.

In accordance with the provisions of Section 116-435, Oregon Compiled Laws Annotated, a part of which is quoted above, you are hereby notified that unless we hear from you within 60 days from the date of this letter, your permit will be cancelled without further notice.

Very truly yours,

Chas. E. Stricklin
