NOTES:

STATE OF OREGON

COUNTY OF KLAMATH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

LAWRENCE AND MARJORIE IVERSON
SILVER LAKE OR 97638

confirms the right to use the waters of JACK CREEK for IRRIGATION of 218.4 ACRES.

This right was perfected under Permit S-40380. The date of priority is NOVEMBER 24, 1975. The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.46 CUBIC FEET PER SECOND measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Measured Distances
27 S	9 E	WM	2				
27 S	9 E	WM	13				
27 S	9 E	WM	24	NE NE			
27 S	10 E	WM	19				

The amount of water used for irrigation, shall be limited to ONE-FORTIETH of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
27 S	9 E	WM	2	NE NE	1	10.0
27 S	9 E	WM	2	NW NE	2	24.0
27 S	9 E	WM	2	SW NE		0.4
27 S	9 E	WM	2	SE NE		11.0
27 S	9 E	WM	2	NE NW	3	17.0
27 S	9 E	WM	2	NW NW	4	3.0
27 S	9 E	WM	2	NE SE		4.0
27 S	9 E	WM	13	SW NW		8.0
27 S	9 E	WM	13	NW SW		14.0
27 S	9 E	WM	13	SW SW		4.0
27 S	9 E	WM	13	SE SW		23.0
27 S	9 E	WM	13	SW SE		6.0
27 S	9 E	WM	24	NE NE		14.0

Permit No. 40380

WATER RESOURCES DEPT.
SALEM, OREGON APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Lawrence & Marjorie Iverson

(Name of applicant)

of Silver Lake

(Mailing address)

State of Oregon 97638, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Jack Creek

(Name of stream)

a tributary of Klamath Marsh2. The amount of water which the applicant intends to apply to beneficial use is 5.46 CFS (1/40

cubic feet per second, / Acre)

(If water is to be used from more than one source, give quantity from each)

**3. The use to which the water is to be applied is Irrigation

(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located _____ ft. _____ and _____ ft. _____ from the _____

(N. or S.)

(E. or W.)

corner of Various points as shown on accompanying map. Irrigation to be by spreader

(Section or subdivision)

dam at various intervals and from natural overflow making it impossible to specify

*See Attachment

points of diversion.

(If preferable, give distance and bearing to section corner)

(If there is more than one point of diversion, each must be described. Use separate sheet if necessary)

being within the _____ of Sec. _____, Tp. 27 S.

(Give smallest legal subdivision)

(N. or S.)

R. 95 10 E., W. M., in the county of Klamath

5. The _____ to be _____

(Main ditch, canal or pipe line)

(Miles or feet)

in length, terminating in the _____ of Sec. _____, Tp. _____

(Smallest legal subdivision)

(N. or S.)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

(E. or W.)

DESCRIPTION OF WORKS

Diversion Works—

6. (a) Height of dam _____ feet, length on top _____ feet, length at bottom

_____ feet; material to be used and character of construction _____

(Loose rock, concrete, masonry,

rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____

(Timber, concrete, etc., number and size of openings)

(c) If water is to be pumped give general description _____

(Size and type of pump)

(Size and type of engine or motor to be used, total head water is to be lifted, etc.)

*A different form of application is provided where storage works are contemplated.

**Application for permits to appropriate water for the generation of electricity, with the exception of municipalities, must be made to the Oregon Electric Commission. Either of the above forms may be secured, without cost, together with instructions by addressing the State Engineer, Salem.

COPY

4284

Canal System or Pipe Line—

7. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

8. Location of area to be irrigated, or place of use

WATER RESOURCES DEPT.
SALEM, OREGON

PERMIT

STATE OF OREGON,

County of Marion,

Klamath

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.46 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Jack Creek

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 24, 1975

Actual construction work shall begin on or before May 17, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978.

Complete application of the water to the proposed use shall be made on or before October 1, 1979.

WITNESS my hand this 17th day of May, 1976

Township No. 27 South Range No. 10 East Willamette Meridian, Oregon.

2628

Survey May 13 1871
FOR THE REG. COMMISSIONER G. L. C.

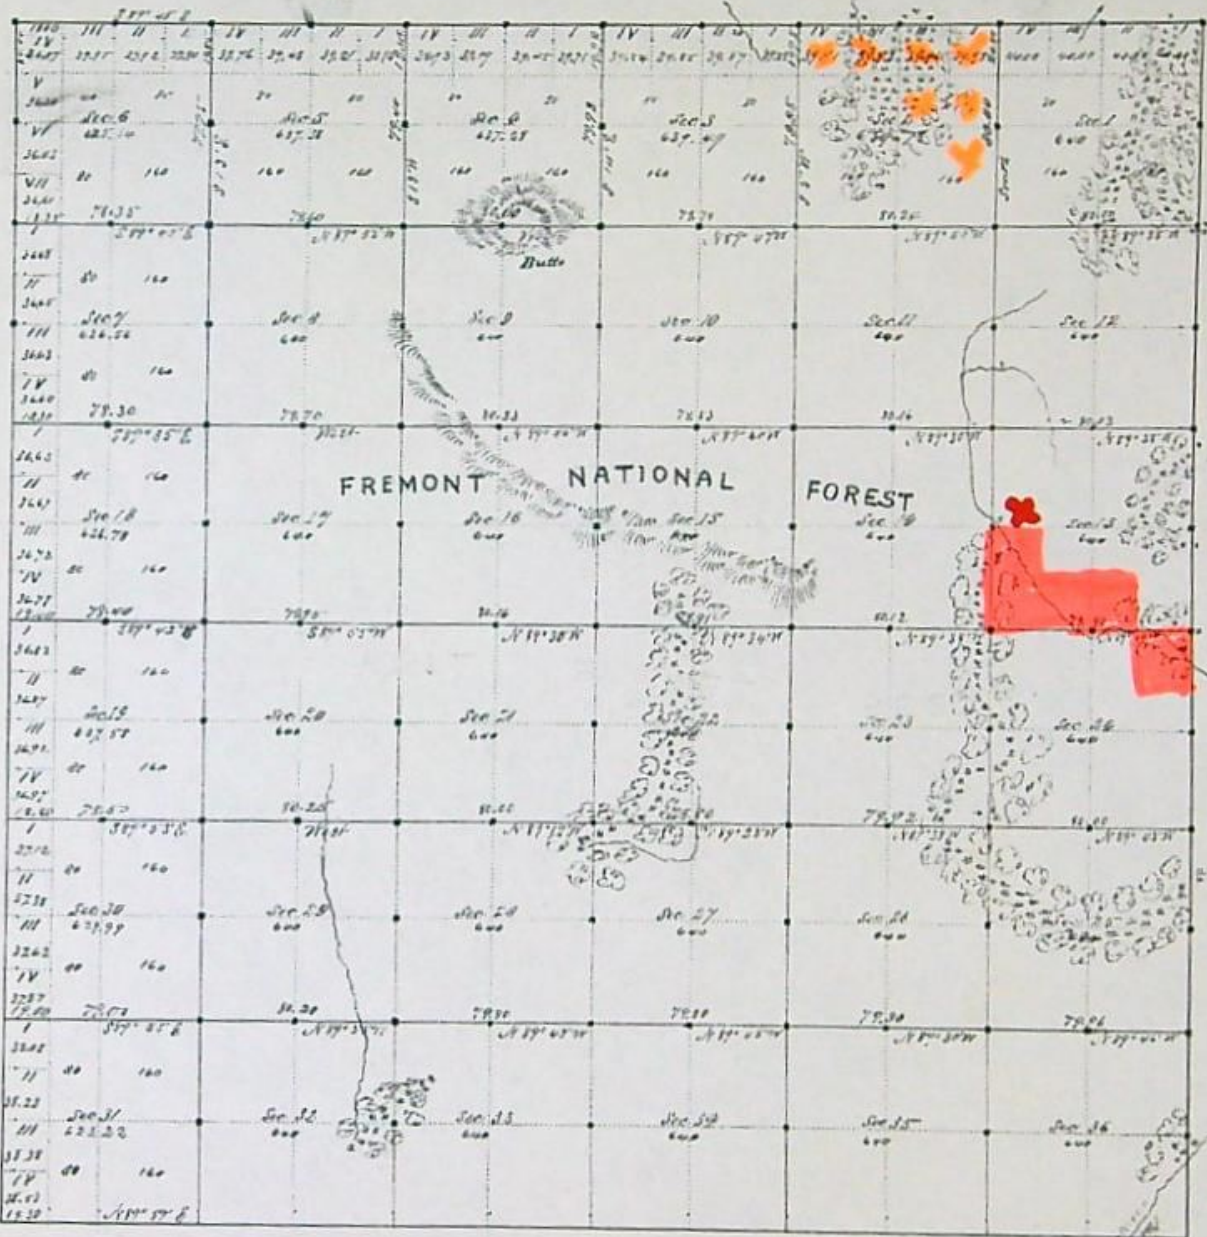

General Description.
With the exception of the little
southern & western tracts
of the top, the land is gen-
erally rolling or level and
watered by numerous sp.
creeks. The soil is gener-
ally of 2nd quality. The hills
are covered with heavy fir
with generally a clattering
of hazelnut & quince trees.
The land is generally covered with
dense growth of young fir.

KLAMATH BASIN GENERAL STREAM ADJUDICATION

In the Matter of the Claim of)	PARTIAL ORDER OF
LAWRENCE AND MARJORIE IVERSON)	DETERMINATION
)	
_____)	Water Right Claim 1

The GENERAL FINDINGS OF FACT of the FINAL ORDER OF DETERMINATION is incorporated as if set forth fully herein.

A. FINDINGS OF FACT

1. On November 16, 1990, LAWRENCE AND MARJORIE IVERSON (Claimants) (PO BOX 97, SILVER LAKE, OR 97601) timely submitted a Statement and Proof of Claim (Claim 1) to the Oregon Water Resources Department (OWRD) pursuant to ORS Chapter 539 in the Klamath Basin Adjudication based upon use of water beginning prior to February 24, 1909 (pre-1909 claim).
2. Claim 1 was submitted for irrigation of 157.2 acres by "natural flood irrigation" for an unspecified quantity of water from Jack Creek, tributary to Klamath Marsh, with a season of use March 1 to Nov 1. The claimed priority date is "prior to 1909."
3. LAWRENCE IVERSON AND MARJORIE IVERSON Statement and Proof of Claim for Claim 1 attesting that the information contained in the claim is true.
4. A copy of a letter dated May 20, 1977 from Lawrence and Marjorie Everson to OWRD states in pertinent part: "... the water had been applied to a beneficial use on this land since before 1900 (naturally)." (Claim 1, WIP Page 00026).
5. In 1979, an OWRD field inspection report was prepared, describing the present use of water on the property substantially as stated in Claim 1. The report also includes the statement: "The Iverson meadow lands in section 2, 13, 24, T 27 S, R 9 E and in section 19, T 27 S, R10 E appear to be kept moist by natural flooding and a high ground water table. . . . The source of this "Natural Irrigation" is from Jack Creek and several of it's unnamed tributaries . . ." (Claim 1, WIP Page 00027).
6. On October 4, 1999, following investigation of the evidence submitted, the Adjudicator issued a Summary and Preliminary Evaluation of Claims (Preliminary Evaluation) stating

the claim was approved but for fewer acres than claimed and for a shorter season of use than claimed.

7. On May 8, 2000, the following parties, hereinafter collectively referred to as the "Klamath Project Water Users," filed Contest 3379: Klamath Irrigation District, Klamath Drainage District, Tulelake Irrigation District, Klamath Basin Improvement District, Ady District Improvement Company, Enterprise Irrigation District, Klamath Hills District Improvement Co., Malin Irrigation District, Midland District Improvement Company, Pine Grove Irrigation District, Pioneer District Improvement Company, Poe Valley Improvement District, Shasta View Irrigation District, Sunnyside Irrigation District, Don Johnston & Son, Bradley S. Luscombe, Berlva Pritchard, Don Vincent, Randy Walthall, Inter-County Title Co., Winema Hunting Lodge, Inc., Reames Golf and Country Club, Van Brimmer Ditch Co., Plevna District Improvement Co., and Collins Products, LLC.
8. On May 8, 2000, the United States of America timely filed Contest 3708 to the Claim and/or Preliminary Evaluation of Claim 1.
9. On May 8, 2000, the Klamath Tribes timely filed Contest 4064 to the Claim and/or Preliminary Evaluation of Claim 1.
10. These matters were referred to the Office of Administrative Hearings for a contested case hearing which were designated as Case 100.
11. On March 18, 2002, the Klamath Project Water Users with the exception of Shasta View Irrigation District withdrew from Contest 3379. *See* NOTICE OF WITHDRAWAL OF CERTAIN CONTESTS (Mar. 18, 2002).
12. On March 19, 2002, Shasta View Irrigation District withdrew Contest 3379. *See* NOTICE OF WITHDRAWAL OF CERTAIN CONTEST (Mar. 19, 2002).
13. On January 16, 2003, OWRD, the Claimants, the United States of America, and the Klamath Tribes executed a STIPULATION TO RESOLVE CONTESTS (Settlement Agreement) thereby resolving all remaining contests to Claim 1.
14. In the Settlement Agreement, the Claimants voluntarily agreed to limit their claim from natural flood-irrigation and subirrigation to natural subirrigation only. The parties stipulated to the following facts: the source of water is Jack Creek, a tributary to Klamath Marsh; the use is for irrigation of 138.7 acres; the amount beneficially used is 3.47 cfs; and the period of use is March 1 to October 31.
15. On January 21, 2003, the Adjudicator withdrew Case 100 from the Office of Administrative Hearings.

B. DETERMINATION

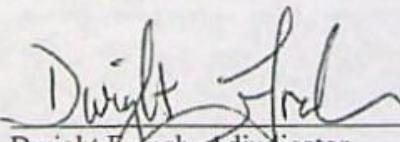

1. The Settlement Agreement executed between OWRD, the Claimants, the United States of America, and the Klamath Tribes is adopted and incorporated as if set forth fully herein.
2. Portions of the claimed place of use are subject to natural subirrigation from Jack Creek. The use of water by natural subirrigation is a privilege only, and does not constitute a water right. This privilege cannot be insisted upon if it interferes with the appropriation of the waters for beneficial use by others, and no priority date, season of use, rate or duty shall attach to such privilege. This privilege may not be transferred to any other property, and may not be altered by the use of any physical means to modify the manner in which natural subirrigation occurs, to contain or further distribute water or to increase in any other way the consumption which takes place from natural subirrigation. Any such alteration shall require the filing with OWRD of an application for a permit to appropriate water under ORS 537.150. The stipulated place of use for acceptance of natural subirrigation is located as follows:

NATURAL SUBIRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
27 S	9 E	WM	13	NW SW	10.6
27 S	9 E	WM	13	SW SW	4.2
27 S	9 E	WM	13	SE SW	21.3
27 S	9 E	WM	13	SW SE	9.0
27 S	9 E	WM	24	NE NE	13.8
27 S	10 E	WM	19	NE NW	27.9
27 S	10 E	WM	19	NW NW	35.5
27 S	10 E	WM	19	SE NW	16.4

See OWRD INVESTIGATION MAP - T 27 S, R 9 E, W.M.

3. This privilege to use water under Claim 1 does not constitute a water right; as such, OWRD will not issue a certificate for Claim 1.
4. Based on the file and record herein, IT IS ORDERED that Claim 1 is acknowledged only as a privilege.

Dated at Salem, Oregon on March 7, 2013

June 2, 1977

Lawrence & Marjorie Iverson
Silver Lake, OR 97638

Dear Mr. & Mrs. Iverson,

Thank you for your letter of May 20, 1977 requesting additional time to complete the project described in permit 40380.

As you are aware, under the terms of your permit, a substantial beginning of construction of the project was to have been made on or before May 17, 1977. This time limit is set by law and cannot be extended under any circumstances whatsoever.

You pointed out in the letter that the lands have already been irrigated, so if ditches have been constructed to convey the water and will be used continuously, the date of construction of the ditches should be sent to us as this would constitute construction of the water system. In the event no work had been done prior to May 17, 1977, your permit is no longer valid and will have to be canceled. You could submit an application along with the appropriate fees for a new permit.

Further action will be held on your file for a reasonable length of time pending your reply.

Sincerely,

Thomas E. Shook
Water Rights Engineer

TES:jt

Dear Mr Shook,

This place is all ditched and water spreads all over besides subs, all lands in map are irrigated - and have been (over)

for years - before 1900 - all we want
is right to water - Come inspect
it - Work was done on it again
in 1930's by my ^{father} Sincerely

Lawrence & Marjorie Gueson

PERMIT

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.46 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Jack Creek

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 24, 1975

Actual construction work shall begin on or before May 17, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978.

Complete application of the water to the proposed use shall be made on or before October 1, 1979.

WITNESS my hand this 17th day of May, 1976

State Water Resources Control Board
Room 1140, 1416 Ninth Street
Sacramento, California 95814

Dear Mr. Woodward:

An application has been submitted by Helen Hill for a permit to appropriate 0.05 cubic foot per second of water from a spring for irrigation of 3 acres and domestic use. The proposed point of diversion on the spring is located within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, Township 40 South, Range 3 East, W.M.

Also, an application has been submitted by Lawrence and Marjorie Iverson for a permit to appropriate 5.46 cubic feet per second of water from Jack Creek for the irrigation of 218.4 acres. The proposed points of diversion on Jack Creek are located at various points along Jack Creek in Sections 2, 13, and 24, Township 27 South, Range 9 East and Section 19, Township 27 South, Range 10 East, W.M.

Also an application has been submitted in the name of Mathis Trust c/o Glenn Mathis for a permit to appropriate 8.82 cubic feet per second of water from an unnamed stream for supplemental irrigation of 706 acres. The proposed point of diversion is located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15, Township 30 South, Range 8 East, W.M.

Sincerely,

Vestal R. Garner
Water Rights Engineer

Dear Gentlemen:

An application has been submitted by Helen Hill for a permit to appropriate 0.05 cubic foot per second of water from a spring for irrigation of 3 acres and domestic use. The proposed point of diversion on the spring is located within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, Township 40 South, Range 3 East, W.M.

Also, an application has been submitted by Lawrence and Marjorie Iverson for a permit to appropriate 5.46 cubic feet per second of water from Jack Creek for the irrigation of 218.4 acres. The proposed points of diversion on Jack Creek are located at various points along Jack Creek in Sections 2, 13, and 24, Township 27 South, Range 9 East and Section 19, Township 27 South, Range 10 East, W.M.

Also an application has been submitted in the name of Mathis Trust c/o Glenn Mathis for a permit to appropriate 8.82 cubic feet per second of water from an unnamed stream for supplemental irrigation of 706 acres. The proposed point of diversion is located within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 15, Township 30 South, Range 8 East, W.M.

Sincerely,

Vestal R. Garner
Water Rights Engineer

June 2, 1977

Lawrence & Marjorie Iverson
Silver Lake, OR 97638

Dear Mr. & Mrs. Iverson,

Thank you for your letter of May 20, 1977 requesting additional time to complete the project described in permit 40380.

As you are aware, under the terms of your permit, a substantial beginning of construction of the project was to have been made on or before May 17, 1977. This time limit is set by law and cannot be extended under any circumstances whatsoever.

You pointed out in the letter that the lands have already been irrigated, so if ditches have been constructed to convey the water and will be used continuously, the date of construction of the ditches should be sent to us as this would constitute construction of the water system. In the event no work had been done prior to May 17, 1977, your permit is no longer valid and will have to be canceled. You could submit an application along with the appropriate fees for a new permit.

Further action will be held on your file for a reasonable length of time pending your reply.

Sincerely,

Thomas E. Shook
Water Rights Engineer

Dear Sir:

We would like an extension on
permit 40380 - File No 53772 - Reason
we don't have the spreader dams
done - it is marsh, soft and hard
to get on the meadow and they would
be hard to hold, the water had
been applied to a beneficial use on
this land since before 1900 (naturally).
Sincerely

Lawrence & Marjorie Iverson

Dear Mr. & Mrs. Iverson:

We have received your returned map and application
No. 53772.

The application is now in satisfactory form for approval by the issuance of a permit, with the understanding that water may not be available at all times.

Sincerely,

lcm

Dear Mr & Mrs Iverson:

This will acknowledge your map, fees of \$86.70, and application for a permit to appropriate 5.46 cubic feet per second of water from Jack Creek for irrigation of 218.4 acres. The application has been filed as No. 53772.

I realize that because of the nature of your irrigation project, it is difficult, if not impossible, to locate each specific point of diversion from Jack Creek. However, I do believe that it would be possible to show on your application map the location of Jack Creek in reference to your property and as it flows through the land intended to be irrigated.

Since it is impossible to locate each specific point of diversion, we will require that your application describe each 40-acre tract from which water will be diverted from Jack Creek. In essence this would be each 40-acre tract through which Jack Creek flows in the area to be irrigated. This information should go in Item No. 4 of the application and if additional space is necessary, you could continue on the remarks section of the application form.

In reviewing the information given in Item No. 8 of the application, I believe there are two errors on your supplemental sheet. You list use of water in Section 13, however, the application map indicates this land is actually in Section 24. Also, I believe, the listing indicating the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 19 should be the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 19. If the application map is correct, Item No. 8 of the application should be corrected to be in agreement.

Iverson

53772

- 2 -

I am returning your application and map for the inclusion of the requested information and for correction. The application is endorsed so that in order to retain its priority date, it must be received in this office on or before February 5, 1976.

Sincerely,

Vestal R. Garner
Water Rights Engineer
