RE: Reclaimed Municipal Water Use **Registration RM-241**, related to NPDES Permit 101993

Dear Scott:

The Oregon Water Resources Department (OWRD) received your revised maps for your Registration of Reclaimed Municipal Water Use from GSI. The maps meet all requirements, and the Registration form is complete, signed by all the appropriate parties, and meets the requirements of ORS 537.131 and 537.132. OWRD assigned record **RM-241** to your Registration, which will be managed as a physical file in Salem and viewable online at: <https://apps.wrd.state.or.us/apps/wr/wrinfo/> as an "RM" type Application.

This Registration allows the use of reclaimed municipal water under an exemption provided by ORS 537.132 rather than completing the process to obtain a formal water use permit. The registered exempt use is allowed only while the corresponding ODEQ facility discharge permit is in effect. This Registration must be renewed with OWRD when the DEQ facility discharge permit is renewed again in the future for the exempt use to continue.

If reclaimed municipal water use occurs instead of exercising existing water rights at the same location, ORS 540.610(2)(h) provides protection of those existing water rights from potential forfeiture due to extended non-use. It is prudent to document and maintain a record of your annual use of reclaimed municipal water.

Oregon's *Integrated Water Resources Strategy* encourages additional use of reclaimed municipal water to help keep our streams clean and reduce the demand on limited water supplies. Thank you for putting the strategy into action and using water wisely.

If you have questions regarding this Registration letter, please contact me directly at 503-979-9544 or via email at [Kerri.H.Cope@water.oregon.gov](mailto:Kerri.H.Cope@water.oregon.gov).

Sincerely,

A handwritten signature in dark ink, reading "Kerri H. Cope". The signature is fluid and cursive, with the first name "Kerri" and last name "Cope" clearly legible. The middle initial "H." is smaller and less distinct.
