Dear Mr. Wilcox:

Your final proof of appropriation of water under Permit No. 16463 has been received in this office and found acceptable. Receipt is also acknowledged of the certificate recording fee of \$1.00, for which Receipt No. 8213\* is enclosed.

The matter of final confirmation of your right by issuance of a water right certificate will be given consideration with the next group which will be issued at a later date. When the certificate is issued, it will be mailed to your county clerk for recording and then delivered by him to you.

Very truly yours,

*Chas. E. Stricklin*

Form 103

\* Receipt No. 8213 is for \$2.00, covering also your Permit No. R-820.

21 November 1949

Mr. F. T. Wilcox  
Newberg, Oregon

Dear Mr. Wilcox:

If you will sign and date the enclosed final proof on its second sheet and return the proof to this office, together with the statutory certificate recording fee of \$1.00, a certificate confirming the right under your Permit No. 16463 will be issued, granting the right to the use of 1.34 second-feet of water from Mission Creek and reservoir to be constructed under Application No. R-20874, Permit No. R-820, for irrigation of 107 acres of land.

These figures indicate the extent and limit of your water right as provided by law, and mark the completed right.

In the interest of economy and due to the fact that your completed project was examined by a representative of this office, it is not considered necessary that your signature be made before a notary public, nor that the signatures of witnesses be affixed to the proof.

Very truly yours,

*Chas. E. Stricklin*

Dear Mr. Wilcox:

This acknowledges receipt of your letter of October 21, with which you enclosed Form G, being notice of complete application of water under your Permit No. 16463.

Pursuant to your report and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the acreage actually irrigated. After this survey, proof may be made by you and certificate issued covering the lands which the survey shows to have been irrigated, and any lands described in your permit that have not been irrigated will be automatically eliminated from your water right.

In the meantime, the permit which you hold will be valid evidence of your water right.

Yours very truly,

Dear Mr. Humphrey:

Mr. Harold McKay made the application for building the dams. I think he asked permission to do so because of ignorance on his part as to what was necessary. He thought that it would be necessary to build a dam in order to have ample water. This is not the case, as there is ample water in the creek regardless of the dams, therefore I do not wish to build the dams.

I am filling out form "C" as mentioned in your letter of October 15 and am sending it to you.

Dear Doctor Wilcox:

Pursuant to your letter of October 4, relative to progress under your Permits No. R-820 for a reservoir and Permit No. 16463 to appropriate water for the irrigation of 107 acres of land.

If all of the reservoirs necessary to store water have been completed, regardless of whether or not it is the number specified in your permit, the inclosed Form B should be filled out and submitted.

If you have irrigated all of the acreage described in your Permit No. 16463, that you intend to irrigate at any time under the permit, you should fill out and submit the inclosed Form C.

After receipt of reports as described above, the matter of final proof under your permits will be given consideration.

Dear Mr. Stricklin:

This is in regard to the irrigation right of Dr. F. T. Wilcox, Newberg, Oregon, for his ranch located in Marion County near Champoeg, permit No. 16463 and permit No. R-820.

I have used water to irrigate the number of acres permitted in the permit, and I have constructed two dams on Mission Creek. What further work must I do to secure my irrigation rights? The application states that four dams are to be built. I do not believe that four dams are necessary, but if so I would like an extension of time.
