This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 22034.

Pursuant to your notice and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the acreage actually irrigated. After this survey, proof may be made and certificate issued covering the lands which the survey shows to have been irrigated, and any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right.
