I (We) make application for a Limited License to use the following described surface waters or groundwater – not otherwise exempt, or to use stored water for a use of a short-term or fixed-duration:

- SOURCE(S) OF WATER:** #L154433, #L151873, #L104169 a tributary of Beaver Creek  
 4gpm from #L104169, 6gpm from #L151873, and 25gpm from #L154433 (estimated maximum rate)
- AMOUNT OF WATER** to be diverted;  
 Maximum and instantaneous rate (cubic feet or gallons per minute): Combined maximum rate of 35gpm  
 Total volume annually (gallons or acre-feet): 47,000 gallons total. If water is to be used from more than one source, give the quantity from each: Annually #L154433 NTE 47,700 gallons, #L104169 NTE 15,900 gallons, #L151873 NTE 31,800 gallons, for a total usage of 47,700 gallons.
- INTENDED USE(S) OF WATER:** (check all that apply)
  - Road construction or maintenance
  - General construction
  - Forestland and rangeland management; or
  - Other: Irrigation to establish vineyard planting
- IF THE INTENDED USE OF WATER IS FOR IRRIGATION, ONE OF THE FOLLOWING MUST APPLY:** (check one of the following)
  - Irrigation if the sole purpose of the use is to provide water necessary to establish a crop for which no further irrigation will be required after the crop is established. ORS 537.143 (6)(a).
  - Irrigation if the use of water under the limited license is for the use of stored water consistent with the purposes for which the stored water is authorized and the use of water is authorized by a contract between the user and a local, state or federal government. ORS 537.143 (9).
- DESCRIPTION OF PROPOSED PROJECT:** Include a description of the place of use as shown on the accompanying site map, the method of water diversion, the type of equipment to be used (including pump horsepower, if applicable), length and dimensions of supply ditches and pipelines: see attached
- PROJECT SCHEDULE:** (List day, month, and year)
  - Date water use will begin: March 15, 2025
  - Date water use will be completed: September 30, 2029
  - Months of the year water would be diverted and used: March-September in 2025 for new plantings, April-September in 2026-2029

**PLEASE READ CAREFULLY**

**NOTE:** A completed water availability statement from the local watermaster, Land Use Information Form completed by the local Planning Department, fees and site map meeting the requirements of OAR 690-340-030 must accompany this request. The fee for this request is \$280 for the first point of diversion plus \$30 for each additional point of diversion. Please review the Department's fee schedule to view fees required to request a limited license for Aquifer Storage and Recovery testing purposes or for Artificial Groundwater Recharge testing purposes.

**Failure to provide any of the required information will result in return of your application.** The license, if granted, will not be issued or replaced by a new license for a period of more than five consecutive years. The license, if granted, will be subordinate to all other authorized uses that rely upon the same source, or water affected by the source, and may be revoked at any time it is determined the use causes injury to any other water right or minimum perennial streamflow.

If water source is well, well logs or adequate information for the Department to determine aquifer, well depth, well seal and open interval, etc. are required. The licensee shall indicate the intended aquifer. If for multiple wells, each map location shall be clearly tied to a well log.

If a limited license is approved, the licensee shall give notice to the Department (Watermaster) at least 15 days in advance of using the water under the Limited License and shall maintain a record of use. The record of use shall include, but need not be limited to, an estimate of the amount of water used, the period of use and the categories of beneficial use to which the water is applied. During the period of the Limited License, the record of use shall be available for review by the Department upon request.

**Mapping Requirements (OAR 690-340-0030):**

(1) A request for a limited license shall be submitted on a form provided by the Water Resources Department, and shall be accompanied by the following:

- a. A site map of reproducible quality, drawn to a standard, even scale of not less than 2 inches = 1 mile, showing:
  - i. The locations of all proposed points of diversion referenced by coordinates or by bearing and distance to the nearest established or projected public land survey corner;
  - ii. The general course of the source for the proposed use, if applicable;
  - iii. Other topographical features such as roads, streams, railroads, etc., which may be helpful in locating the diversion points in the field.

5. Description of Proposed Project: Water will be pumped from existing well #L104169 at 4.0 gpm (max output per recent well test), from existing well #L151873 at 6 gpm (max output per recent well test) and from existing well #L154433 at 25 gpm (max output per recent well test). Water is pumped using 5 hp pumps in each well. Water will be applied to the use area with a drip irrigation system which will utilize (5) 2,500 gallon storage tanks as bulge. Storage tanks will have 2nd pumps to provide pressure to the drip irrigation system.

**WATER AVAILABILITY STATEMENT**

Name of Applicant: Frant Foti 3S5WSec22TL200&3000 Limited License Number: LL-1991

1. To your knowledge, has the stream or basin that is the source for this application ever been regulated for prior rights?

Yes  No

If yes, please explain:

2. Based on your observations, would there be water available in the quantity and at the times needed to supply the use proposed by this application?

Yes  No

I do not know the source is groundwater

3. Do you observe this stream system during regular fieldwork?

Yes  No

If yes, what are your observations for the stream?

NA - Source is groundwater

4. If the source is a well and if WRD were to determine that there is the potential for substantial interference with nearby surface water sources, would there still be ground water and surface water available during the time requested and in the amount requested without injury to existing water rights?

Yes  No  N/A

What would you recommend for conditions on a limited license that may be issued approving this application?

No recommendation

5. Any other recommendations you would like to make?

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Yamhill County

**NOTE:** A separate Land Use Information Form must be completed and submitted for each county and city, as applicable.

**B. Description of Proposed Use**

Type of application to be filed with the Oregon Water Resources Department:

- Permit to Use or Store Water  
  Water Right Transfer  
  Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License  
  Exchange of Water  
  Allocation of Conserved Water

Source of water:    Reservoir/Pond    Ground Water    Surface Water (name) \_\_\_\_\_

Estimated quantity of water needed: 12    cubic feet per second    gallons per minute    acre-feet

Intended use of water:    Irrigation    Commercial    Industrial    Domestic for \_\_\_\_\_ household(s)  
 Municipal    Quasi-Municipal    Instream    Other \_\_\_\_\_

Briefly describe:

Irrigation to establish vineyard plantings.

**Note to applicant:** For new water right applications only, if the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt on the bottom of page 4 and include it with the application filed with the Oregon Water Resources Department.

### For Local Government Use OWRD

OWRD

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

- Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 403 of the Yamhill Co. Zoning Ordinance.
- Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.

Name: Kenneth P. Friday Title: P.D.  
 Signature: [Signature] Date: 8/20/24  
 Governmental Entity: Yamhill County Phone: 503-434-7510

**Receipt Acknowledging Request for Land Use Information**

**Note to Local Government Representative:**  
 Please complete this form and return it to the applicant. For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete this receipt and return it to the applicant. If you sign the receipt, you will have 30 days from the date of OWRD's Public Notice of the application to submit the completed Land Use Information Form to Oregon Water Resources Department. Please note while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for all other applications.
