Katherine Ratcliffe, Water Rights Section Manager, for  
Douglas E. Woodcock, Acting Director  
Oregon Water Resources Department

PLACED IN U.S. MAIL **MAY 17 2024**  
BY OREGON WATER RESOURCES DEPARTMENT

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date, the petition was filed, the petition shall be deemed denied.

**Sent:** Tuesday, April 30, 2024 1:41 PM  
**To:** jonnine.l.skaug@oregon.gov  
**Cc:** Darcy Ruef  
**Subject:** Application G-14219 Permit G-13478

Dear Jonnine,

Thank you so much for the returned call regarding cancelation of Application G-14219.

I am requesting reconsideration of the cancel order we received on permit application G-14219, permit G-13478. We are in the process of getting the claim of beneficial use done and need some time.

I am mailing a check for \$610 to the water resource department today along with a copy of this email.

I appreciate any consideration you can give us,

Please feel free to contact me or my daughter Darcy (copied on this email) 971-563-1693

Thank you,

Jack Bigej

**DATE MAILED: MAR 22 2024**  
**NOTICE**

Enclosed is an order that cancels a permit for failure to submit proof of the completion of appropriation as required by ORS 537.260.

The final order is an order in other than contested case. The order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

If you request reconsideration of the final order and reinstatement of your permit, there is a \$610.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

If you agree with the order, no response to this notice is required.

If you have any questions, please contact Tonya Miller at [Tonya.L.Miller@water.oregon.gov](mailto:Tonya.L.Miller@water.oregon.gov) or by telephone at 503-979-9983.

BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE STATE OF OREGON

IN THE MATTER OF THE CANCELLATION OF )  
CERTAIN PERMIT(S) TO APPROPRIATE WATER ) ORDER  
UNDER THE PROVISIONS OF ORS 537.260 )

**Findings of Fact**

1. The time within which the appropriations under the following water right permit(s) must have been perfected has expired. The owners of such permit(s) have failed or refused within the period of three months thereafter to submit proof of the completion of such appropriations as required by ORS 537.260. Consequently, notices have been addressed to each of the owners of said permit(s) by certified mail in accordance with the provisions of ORS 537.260 and ORS 174.160. The sixty-day time limit allowed in those notices has elapsed, and the owners of such permit(s) have failed or refused to submit proof of the completion of the appropriations under the terms and conditions of their respective permit(s).

Reference: Application G-14219, Permit G-13478

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2002.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2002. The fee for submitting a claim of beneficial use is \$230.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$780.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (January 18, 2024) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$610.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.

Should you have any questions, please contact me at [Tonya.L.Miller@water.oregon.gov](mailto:Tonya.L.Miller@water.oregon.gov), the address above or by telephone at 503-979-9983. Email is the best way to reach me.

Sincerely,

Tonya Miller

**Superseding Final Order**

*Application History*

On December 7, 1995, JACK R. BIGEJ submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on July 30, 1996. The protest period closed September 13, 1996, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest.

On October 10, 1996, the Department issued a Final Order, which requested the submission of permit recording fees. The necessary permit recording fees were received on July 8, 1998.

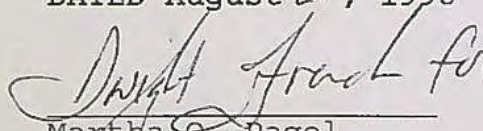

Based upon continued evaluation, the Department has determined that the findings of the Proposed Final Order and original Final Order require modification to correctly identify the date by which complete application of water to the use must be made and to remove the date which requires construction to be completed by a specific date. The following condition in the attached permit shall read as follows:

Actual construction of the well shall begin within one year from permit issuance. Complete application of water to the use shall be made on or before October 1, 2002. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

**Order**

Application G-14219 therefore is approved with the above modifications to the Proposed Final Order and original Final Order, and Permit Number G-13478 is issued as limited by the conditions set forth therein.

DATED August 21, 1998

  
Martha O. Pagel  
Director

### *Hearing and Appeal Rights*

Under the provisions of ORS 537.170 and ORS 537.622, the applicant may request a contested case hearing by submitting the information required for a protest under ORS 537.153(6) or ORS 537.621(7) to the Department within 14 days after the date of mailing of this order as shown below. If a contested case hearing is requested, the Department must schedule one. In the contested case hearing, however, only those issues based on the above modifications to the proposed final order may be addressed.

*This document was prepared by Laura Snedaker. If you have any questions about any of the statements contained in this document she is most likely the best person to answer your questions. You can reach her toll free within Oregon at 1-800-624-3199 extension 331. Outside of Oregon you can dial 1-503-378-8455.*

*If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Adam Sussman. His extension number is 262.*

*If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 499.*

MAXIMUM RATE: 0.143 CUBIC FOOT PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION AND YEAR ROUND FOR AGRICULTURAL USE

DATE OF PRIORITY: DECEMBER 7, 1995

POINT OF DIVERSION LOCATION: SW 1/4 SE 1/4, SECTION 8, T5S, R1W, W.M.; WELL #1 - 575 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T5S, R1W, W.M.; WELL #2 - 975 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T5S, R1W, W.M.

The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for NURSERY OPERATIONS may be made at anytime of the year that the use is beneficial. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW 1/4 SE 1/4 5.71 ACRES  
SECTION 8  
TOWNSHIP 5 SOUTH, RANGE 1 WEST, W.M.

## Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

## STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water

user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance. Complete application of water to the use shall be made on or before October 1, 2002. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

DATED August 21, 1998

BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE STATE OF OREGON

IN THE MATTER OF THE )  
REINSTATEMENT OF PERMIT G-13478 ) ORDER

**Findings of Fact**

1. On August 1, 2014, the Department cancelled this permit in accordance with the provisions of ORS 537.260.
2. The Permittee requested reconsideration of the August 1, 2014 order canceling the permit.
3. The petition for reconsideration was submitted within the timeline provided by the order, and necessary re-instatement fees required under ORS 536.050 were received.

PERMITS TO USE GROUNDWATER:

<u>NAME</u>	<u>BASIN #</u>	<u>WM #</u>	<u>FILE #</u>	<u>PERMIT #</u>
Jack R. Bigej	2	16	G-14219	G-13478

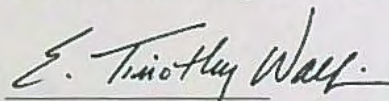

**Conclusions of Law**

1. Permit(s) may be re-instated by the Department upon reconsideration pursuant to OAR 137-004-0080.

**Order**

1. NOW, THEREFORE, it is hereby ORDERED that the permits listed above are reinstated.
2. The Department will take no action to cancel this permit until February 2, 2014 to allow the permittee to come into compliance with the terms and conditions of the permit.

Dated at Salem, Oregon on October 2, 2014.

BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE STATE OF OREGON

IN THE MATTER OF THE CANCELLATION OF )  
CERTAIN PERMIT(S) TO APPROPRIATE WATER ) ORDER  
UNDER THE PROVISIONS OF ORS 537.260 )

**Findings of Fact**

1. The time within which the appropriations under the following water right permit(s) must have been perfected has expired. The owners of such permit(s) have failed or refused within the period of three months thereafter to submit proof of the completion of such appropriations as required by ORS 537.260. Consequently, notices have been addressed to each of the owners of said permit(s) by certified mail in accordance with the provisions of ORS 537.260 and ORS 174.160. The sixty-day time limit allowed in those notices has elapsed, and the owners of such permit(s) have failed or refused to submit proof of the completion of the appropriations under the terms and conditions of their respective permit(s).

PERMIT(S) TO USE GROUNDWATER:

<u>Name</u>	<u>Basin Number</u>	<u>Watermaster District</u>	<u>Application Number</u>	<u>Permit Number</u>
Jack R. Bigej	2	16	G-14219	G-13478

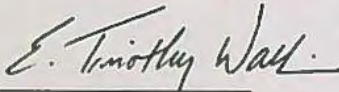

**Conclusions of Law**

1. Proof of appropriation of water under the terms and conditions of the permit(s) listed has not been made to the satisfaction of the Water Resources Director as required under ORS 537.260.

**Order**

1. NOW, THEREFORE, it is hereby ORDERED that the permit(s) are canceled in accordance with the provisions of ORS 537.260.

Dated at Salem, Oregon on August 1, 2014.

E. Timothy Wallin, Water Rights Program Manager  
for Director

Woodburn, Oregon 97071

Reference: Application G-14219, Permit G-13478

Dear Permit Holder:

This letter is in regard to your water use permit as referenced above. Your permit required you to complete the development of your water use by October 1, 2002.

In order for the Department to consider issuance of a certificate of water right, you are required by law to hire a certified water right examiner to prepare and submit a claim of beneficial use that includes a final proof survey map of the development. The map and claim of beneficial use were to have been submitted to our Department within one year of October 1, 2002. The fee for submitting a claim of beneficial use is \$150.00. Please see the enclosed 'Resource Sheet' for our current database of CWRE's.

If you are not finished with the development of your permit, you need to file an application for an extension of time to complete your development. The fee for filing an extension of time is \$500.00. Please see the enclosed 'Resource Sheet' to access the extension of time form.

In the event that you are no longer using water as allowed by this permit, you should cancel it so that we may clear our records. Please see the enclosed 'Resource Sheet' to access the cancellation form, if you are interested in this option.

**If you have not submitted either a Claim of Beneficial Use or a request for an extension of time for your permit within 60 days of the date of this letter (*July 12, 2013*) the Department may issue a Final Order to cancel your permit without further notice. If the Department issues a Final Order to cancel your permit, and you request reconsideration of the final order and reinstatement of your permit, there is a \$400.00 reinstatement fee that is charged in addition to the claim of beneficial use or extension of time fee.**

Should you have any questions, you may contact me at the address above or by telephone at 503-986-0817.

Sincerely,

Jerry Sauter  
Water Rights Program Analyst

WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Groundwater

Applicant(s) Jack R. Bigej  
(Please print or type - use dark ink)

Mailing Address: 1220 N. Pacific Highway  
Woodburn Oregon 97071 503-981-1245  
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. THE DEVELOPMENT (number of wells, tile lines, infiltration galleries, etc.): \_\_\_\_\_  
Two Wells.

If development is less than one mile from a natural stream, give the following:

Distance from development to stream: n/a  
Elevation difference between streambed and development: \_\_\_\_\_

NOTE: Wells must be constructed according to standards set by the department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well driller's log with this application, and skip to Section 2 below.  
See attached explanation.

Diameter of well: \_\_\_\_\_ Depth in feet: \_\_\_\_\_  
Type and size of well casing: \_\_\_\_\_ No. of feet: \_\_\_\_\_  
Estimated depth to water: \_\_\_\_\_  
Type of access port or measuring device: \_\_\_\_\_  
Wells to be drilled by: \_\_\_\_\_  
Address: \_\_\_\_\_

If the water well is flowing artesian, describe your water control and conservation works: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

2. TOTAL AMOUNT OF WATER to be applied to beneficial use: 5.71 /40ths cubic feet per second, OR \_\_\_\_\_ gallons per minute. If water is to be used from more than one groundwater source, give the quantity of water from each: \_\_\_\_\_  
\_\_\_\_\_

3. INTENDED USE(S) OF WATER: Agriculture/Irrigation/Nursery

If for more than one use, give the quantity of water from each source for each use; n/a

If for DOMESTIC use, state the number of households to be supplied; n/a

If for MUNICIPAL OR QUASI-MUNICIPAL use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.) n/a

If for MINING use, state the nature (gold, silver, etc.) of the mines to be served; n/a

If for IRRIGATION, or other land area use, state the TOTAL number of acres to be developed under each use;

Irrigation 5.71 acres (Agriculture/Irrigation/Nursery)  
Other (describe) \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

4. DESCRIPTION OF WATER DELIVERY SYSTEM: Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

Well#1 has a 5HP pump(submersible); Well#2 has a 3HP pump(submersible). Both pumps feed a 4 inch PVC mainline which feeds 2 inch feeder lines(PVC) to a system of overhead sprinklers, drip irrigators, and hand-watering stations.

5. PROJECT SCHEDULE: (List month and year)

Proposed date construction work will begin 1 May 1996

Proposed date construction work will be completed 1 August 1996

Proposed date water use will be completed 1 August 1996

NOTE: Prior to the issuance of a permit it will be necessary to submit a map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the property on which the water is to be used. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

Applicant     CWRE     Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

Applicant     CWRE     Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? YES. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

RECEIVED  
DEC 07 1995

NOTE: Prior to receiving a certificate of water right, the permit holder must submit to the Water Resources Department the results of a pump test meeting the department's standards. The Director will require water level or pump test results every ten years thereafter.

WATER RESOURCES DEPT  
REGION

REMARKS: Well logs may not be available for these two wells. If not available, we will attach well logs from the rest of the section. Both wells are 6 inch diameter, and are about 127 feet deep. The wells were drilled long before we acquired this property.

I/We certify that the information I have provided in this application is an accurate representation of the proposed water use and is true and correct to the best of my knowledge:

FOR WATER RESOURCES DEPARTMENT USE ONLY

Dear Applicant:

I certify that I have examined the foregoing application, together with the accompanying information, and am returning it to you for:

In order to retain its tentative priority, this application must be returned with the requested corrections or additions on or before:

\_\_\_\_\_, 19\_\_\_\_.

WITNESS my hand this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

\_\_\_\_\_  
*Water Resources Director*

By: \_\_\_\_\_

This instrument was first received in the office of the Water Resources Director at Salem, Oregon, on the 7<sup>th</sup> day of December, 1995, at 1:35 o'clock, P M.

APPLICATION NO: G-14219

Oregon Water Resources Department  
Water Rights Division

Water Rights Application  
Number G-14219

**Final Order**

*Application History*

On December 7, 1995, JACK R BIGEJ submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on July 30, 1996. The protest period closed September 13, 1996, and no protest was filed.

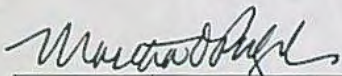

The proposed use would not impair or be detrimental to the public interest.

**Order**

Upon payment of outstanding permit recording fees, Application G-14219 shall be approved as proposed by the Proposed Final Order and as provided on the attached draft permit.

Permit recording fees are required in the amount of \$ 100.00. Said fees are due and payable no later than 60 days from the date of this Final Order. Failure to pay the required permit recording fees within 60 days from the date of this Final Order will result in the proposed rejection of Application G-14219.

DATED October 10, 1996

  
\_\_\_\_\_  
Martha O. Pagel  
Director

*Appeal Rights*

Under the provisions of ORS 183.484, the applicant may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

STATE OF OREGON

COUNTY OF MARION

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

JACK R. BIGEJ  
1220 NORTH PACIFIC HWY  
WOODBURN, OREGON 97071

(503)981-1245

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-14219

SOURCE OF WATER: TWO WELLS WITHIN THE PUDDING RIVER BASIN

PURPOSE OR USE: AGRICULTURAL USE AND IRRIGATION OF 5.71 ACRES

MAXIMUM RATE: 0.143 CUBIC FOOT PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION AND YEAR ROUND FOR AGRICULTURAL USE

DATE OF PRIORITY: DECEMBER 7, 1995

POINT OF DIVERSION LOCATION: SW 1/4 SE 1/4, SECTION 8, T 5S, R1W, W.M.; WELL #1 - 575 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T 5S, R1W, W.M.; WELL #2 - 975 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T 5S, R1W, W.M.

The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for NURSERY OPERATIONS may be made at anytime of the year that the use is beneficial. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW 1/4 SE 1/4 5.71 ACRES  
SECTION 8  
TOWNSHIP 5 SOUTH, RANGE 1 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

RE: Application File # G14219

Dear Mr. Bigej:

On October 10, 1996, the Department issued a Final Order for application G14219. The Final Order identified that additional fees must be submitted to the Department before a permit would be issued. The Department has not yet received the following:

- ▶ Permit recording fees in the amount of \$100.00.

Please submit this information by **July 27, 1998**. If we do not receive the information requested above by this date, we **may** reject your application consistent with ORS 537.153. If your application is rejected, any fees submitted in excess of the examination fee will be refunded; however, the examination fee is non-refundable and will not be returned. In addition, the priority date associated with your application will be lost.

Should you have any questions regarding your application or the required materials listed above, or if you need to request an extension of time, please call me at (503) 378-8455, extension 264, or toll free within Oregon at 1-800-624-3199.

Sincerely,

Jarred Gaaney

Reviewer's Name

SUBJECT: Application G- 14219

GROUNDWATER/SURFACE WATER CONSIDERATIONS

1. PER THE \_\_\_\_\_ Basin rules, one or more of the proposed POA's is/is not within \_\_\_\_\_ feet/mile of a surface water source (\_\_\_\_\_) and taps a groundwater source hydraulically connected to the surface water.
  
2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed groundwater use  
a. \_\_\_ will, or \_\_\_\_\_ have the potential for substantial interference with the nearest  
b.  will not \_\_\_\_\_ surface water source, namely \_\_\_\_\_; or  
c. \_\_\_ will if properly conditioned, adequately protect the surface water from interference:  
i. \_\_\_ The permit should contain condition #(s) \_\_\_\_\_;  
ii. \_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;  
iii. \_\_\_ The permit should be conditioned as indicated in item 4 below; or  
d. \_\_\_ will, with well reconstruction, adequately protect the surface from substantial interference.

GROUNDWATER AVAILABILITY CONSIDERATIONS

3. BASED UPON available data, I have determined that groundwater for the proposed use  
a. \_\_\_ will, or \_\_\_\_\_ likely be available in the amounts requested without injury to prior rights  
b. \_\_\_ will not \_\_\_\_\_ and/or within the capacity of the resource; or  
c.  will if properly conditioned, avoid injury to existing rights or to the groundwater resource:  
i. \_\_\_ The permit should contain condition #(s) 7B \_\_\_\_\_;  
ii. \_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;  
iii. \_\_\_ The permit should be conditioned as indicated in item 4 below; or
  
4. a. \_\_\_ THE PERMIT should allow groundwater production from no deeper than \_\_\_\_\_ ft. below land surface;  
b. \_\_\_ The permit should allow groundwater production from no shallower than \_\_\_\_\_ ft. below land surface;  
c. \_\_\_ The permit should allow groundwater production only from the \_\_\_\_\_ groundwater reservoir between approximately \_\_\_\_\_ ft. and \_\_\_\_\_ ft. below land surface;  
d. \_\_\_ Well reconstruction is necessary to accomplish one or more of the above conditions.  
e. \_\_\_ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

REMARKS: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(Well Construction Considerations on Reverse Side)

WELL CONSTRUCTION (If more than one well doesn't meet standards, attach an additional sheet.)

5. THE WELL which is the point of appropriation for this application does not meet current well construction standards based upon:
- a. \_\_\_ review of the well log;
  - b. \_\_\_ field inspection by \_\_\_\_\_;
  - c. \_\_\_ report of CWRE \_\_\_\_\_;
  - d. \_\_\_ other: (specify) \_\_\_\_\_

6. THE WELL construction deficiency:
- a. \_\_\_ constitutes a health threat under Division 200 rules;
  - b. \_\_\_ commingles water from more than one groundwater reservoir;
  - c. \_\_\_ permits the loss of artesian head;
  - d. \_\_\_ permits the de-watering of one or more groundwater reservoirs;
  - e. \_\_\_ other: (specify) \_\_\_\_\_

7. THE WELL construction deficiency is described as follows: \_\_\_\_\_

8. THE WELL
- a. \_\_\_ was, or constructed according to the standards in effect at the time of
  - b. \_\_\_ was not original construction or most recent modification.
  - c. \_\_\_ I don't know if it met standards at the time of construction.

RECOMMENDATION:

- A. \_\_\_ I recommend including the following condition in the permit:  
"No water may be appropriated under terms of this permit until the well(s) has been repaired to conform to current well construction standards and proof of such repair is filed with the Enforcement Section of the Water Resources Department."
- B. \_\_\_ I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Enforcement Section of the Water Resources Department.
- C. \_\_\_ REFER this review to Enforcement Section for concurrence.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

I concur in G/H's recommendation A or B above relating to conditioning or withholding the permit  
\_\_\_\_\_, 199\_\_.  
(Signature)

I do not concur in G/H's recommendation A or B above relating to conditioning or withholding the permit for the following reasons: \_\_\_\_\_  
\_\_\_\_\_

Water Rights Application  
Number G-14219

Proposed Final Order

*Summary of Recommendation:* The Department recommends that the attached draft permit be issued with conditions.

*Application History*

On December 7, 1995, JACK R. BIGEJ submitted an application to the Department for the following water use permit:

- Amount of Water: 0.143 CUBIC FOOT PER SECOND (CFS)
- Use of Water: IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES
- Source of Water: TWO WELLS WITHIN THE PUDDING RIVER BASIN
- Area of Proposed Use: MARION COUNTY WITHIN SECTION 8, TOWNSHIP 5 SOUTH, RANGE 1 WEST, W.M.

On MAY 6, 1996, the Department mailed the applicant notice of its Initial Review, determining that THE USE OF 0.143 CFS FROM TWO WELLS WITHIN THE PUDDING RIVER BASIN MAY BE ALLOWED MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION OF 5.71 ACRES AND YEAR ROUND FOR AGRICULTURAL USE ON 5.71 ACRES. The applicant did not notify the Department to stop processing the application within 14 days of that date.

On MAY 21, 1996, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- designations of any critical groundwater areas
- the Scenic Waterway requirements of ORS 390.835

- applicable statutes, administrative rules, and case law
- any general basin-wide standard for flow rate and duty of water allowed
- the need for a flow rate and duty higher than the general standard
- any comments received

*Findings of Fact*

The Willamette Basin Program allows the following uses: IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES.

Senior water rights exist on TWO WELLS WITHIN THE PUDDING RIVER BASIN or on downstream waters.

TWO WELLS WITHIN THE PUDDING RIVER BASIN are not within or above a State Scenic Waterway.

Water is likely available for further appropriation (at an 80 percent exceedance probability) during the period MARCH 1 THROUGH OCTOBER 31 for IRRIGATION OF 5.71 ACRES and YEAR ROUND for AGRICULTURAL USE ON 5.71 ACRES.

The Department finds that no more than 0.86 CFS would be necessary for the proposed use. The amount of water requested, 0.143 CFS, is allowable.

The wells are NOT within a designated critical ground water area.

The Department determined, based upon OAR 690-09, that the proposed groundwater use will not have the potential for substantial interference with the nearest surface water source.

The Groundwater Section finds that there is NOT a preponderance of evidence that the proposed use of groundwater will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

*Conclusions of Law*

Under the provisions of ORS 537.621, the Department must presume that a proposed use will ensure the preservation of the public welfare, safety and health if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Willamette Basin Plan.

No preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with rules of the Water Resources Commission.

The proposed use complies with the State Agency Agreement for land use.

No proposed flow rate and duty of water higher than the general basin-wide standard is needed.

For these reasons, the required presumption has been established.

Under the provisions of ORS 537.621, once the presumption has been established, it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use would not ensure the preservation of the public welfare, safety and health as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
  - (A) The specific aspect of the public welfare, safety and health under ORS 537.525 that would be impaired or detrimentally affected; and
  - (B) Specifically how the identified aspect of the public welfare, safety and health under ORS 537.525 would be impaired or be adversely affected.

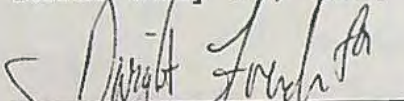

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use would impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use would ensure the preservation of the public welfare, safety and health as described in ORS 537.525.

#### Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED July 30, 1996

  
Steven P. Applegate  
Administrator

Water Rights and Adjudications Division

## Protest Rights

Under the provisions of ORS 537.621(7), you have the right to submit a protest against this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the \$200 protest fee required by ORS 536.050.
- If you are the applicant, a statement of whether or not you are requesting that a contested case hearing be held. If you do not request a hearing, the Department will presume that you do not wish for a hearing to be held.

Your protest must be received in the Water Resources Department no later than September 13, 1996.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

DRAFT

This is not a permit!!!

DRAFT

STATE OF OREGON

COUNTY OF MARION

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

JACK R. BIGEJ  
1220 NORTH PACIFIC HWY  
WOODBURN, OREGON 97071

(503) 981-1245

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-14219

SOURCE OF WATER: TWO WELLS WITHIN THE PUDDING RIVER BASIN

PURPOSE OR USE: IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES

MAXIMUM RATE: 0.143 CUBIC FOOT PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31 FOR IRRIGATION AND YEAR ROUND FOR AGRICULTURAL USE

DATE OF PRIORITY: DECEMBER 7, 1995

POINT OF DIVERSION LOCATION: SW 1/4 SE 1/4, SECTION 8, T 5S, R1W, W.M.; WELL #1 - 575 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T 5S, R1W, W.M.; WELL #2 - 975 FEET EAST AND 1025 FEET NORTH OF THE SOUTH 1/4 CORNER OF SECTION 8, T 5S, R1W, W.M.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW 1/4 SE 1/4 5.71 ACRES  
SECTION 8  
TOWNSHIP 5 SOUTH, RANGE 1 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.

- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for NURSERY OPERATIONS may be made at anytime of the year that the use is beneficial. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Dear Applicant:

**THIS IS NOT A PERMIT AND IS  
SUBJECT TO CHANGE AT NEXT PHASE OF PROCESS**

This letter is to inform you of the potential limitations to your proposed use of water and to describe some of your options. Based on the information you have supplied, the Water Resources Department has reached the following conclusions:

Initial Review Determinations:

1. Your application is complete and not defective.
2. The proposed use is not prohibited by law or rule.
3. The use of water for IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES is allowed under OAR 502, the Willamette Basin Program (OAR 690-502-160(2)).
4. Based on a groundwater review, the Department has determined that the two wells will not have the potential for substantial interference with surface water.
5. The use of 0.143 cubic foot per second (cfs), from two wells within the Pudding River basin, for IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES is likely available year round.
6. The irrigation season is limited to March 1 through October 31 by Rule OAR 690-502-040(6).

Commerce Building  
158 12th Street NE  
Salem, OR 97310-0210  
(503) 378-3739  
FAX (503) 378-8130

Page 2

Summary of Initial Determinations

The use of 0.143 cfs, from two wells within the Pudding River basin, for IRRIGATION AND AGRICULTURAL USE (NURSERY OPERATIONS) ON 5.71 ACRES, may be allowed for IRRIGATION OF 5.71 ACRES from March 1 through October 31 and for AGRICULTURAL USE ON 5.71 ACRES year round.

Because of the Departments determination, your application can be moved to the next phase of the water rights application review process. However, due to #6 above your application will likely be limited as summarized above.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period, will be evaluated at the next phase of the process.

At this time, you must decide whether to proceed or to withdraw your application as described below.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by May 20, 1996. For your convenience you may use the enclosed "STOP PROCESSING" form.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. You may be required to measure the amount of water used and report that use annually.

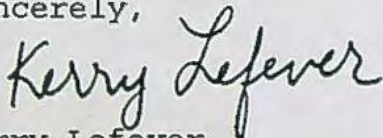

Jack R. Bigej  
File G-14219  
May 6, 1996  
Page 3

2. If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.
3. The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of **containerized nursery plants**, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of **in ground nursery plants** the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for NURSERY OPERATIONS may be made at anytime of the year that the use is beneficial. For the irrigation of **any other crop**, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.
4. The priority date for this application is December 7, 1995.

If you have any questions:

Feel free to call me at (503) 378-8455 ext. 455 or 1 (800) 624-3199 if you have any questions. Please have your application number available if you call.

Sincerely,

Kerry Lefever

fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses.

(3) Multnomah Channel and drainage waters originating within drainage districts are classified for domestic, livestock, municipal, industrial, irrigation, commercial, agricultural, mining, power, fish life, wildlife, recreation, pollution abatement, wetland enhancement and public instream uses.

(4) Except as specified in subsections (1)(a), (b) and (c) of this rule, all stream systems in the Columbia Subbasin and Columbia Slough are classified year-round only for domestic, commercial use for customarily domestic purposes not to exceed 0.01 cfs, livestock and public instream uses.

### Groundwater Classifications and Conditions

690-502-160 (1) Use of groundwater from the basalt aquifer within the Cooper-Bull Mountain Critical Groundwater Area shall be as described in the State Engineer's order designating the Cooper-Bull Mountain Critical Groundwater Area dated May 17, 1974.

(2) Groundwater Classification: The ground-water resources of the Willamette Basin are classified for domestic, livestock, irrigation, municipal, industrial, agricultural, commercial, power, mining, recreation, fish life, wildlife, pollution abatement, wetland enhancement and statutorily exempt groundwater uses with the following exceptions:

(a) Groundwater from the *shallow* Troutdale aquifer and the specially designated portion of the *deep* Troutdale aquifer in the Sandy-Boring area is classified for exempt uses only. The Sandy-Boring Groundwater Limited Area is as described and shown in Exhibit 1. Groundwater applications pending on October 4, 1991 shall be processed according to the classifications in effect on the date the application was filed and shall contain the Special Permit Conditions specified in section (4) of this rule. Applications may be rejected if the aquifer displays any of the adverse impacts defined in OAR 690-08. Applications submitted after October 4, 1991 shall be processed according to the requirements of these rules and classifications;

(b) Groundwater from the basalt aquifers in the Damascus, Glad Tidings, Kingston, Mt. Angel, Parrett Mountain, and Stayton-Sublimity areas, and the Troutdale aquifer in the Damascus area is classified for exempt uses only:

(A) The Damascus Groundwater Limited Area is as described and shown in Exhibit 2. The Glad Tidings Groundwater Limited Area is as described and shown in Exhibit 3. The Kingston Groundwater Limited Area is as described and shown in Exhibit 4. The Mt. Angel Groundwater Limited Area is as described and shown in Exhibit 5. The Parrett Mountain Groundwater Limited Area is as described and shown in Exhibit 9. The Stayton-Sublimity Groundwater Limited Area is as described and shown in Exhibit 7;

(B) Groundwater applications pending on October 4, 1991 shall be processed according to the classifications in effect on the date the application was filed. Permits may be issued for a period not to exceed five years and shall contain the Special Permit Conditions specified in section (3) of this rule. Permits may be extended for additional five-year periods if the Director finds that the groundwater resource can probably support the extended use. Applications may be rejected or permit or certificate extensions may be denied if the aquifer displays any of the adverse impacts defined in OAR 690-08. Applications submitted after October 4, 1991 shall be processed according to the requirements of these rules and classifications. Within two years of permit issuance, the applicant shall prepare a plan for the Water

Resources Commission which shall indicate the steps for obtaining an alternate long-term water supply.

(c)(A) Except as provided in paragraph (B) of this subsection, groundwater from the basalt aquifers in the Sherwood-Dammasch-Wilsonville Groundwater Limited Area as described and shown in Exhibit 6 is classified for exempt uses only;

(B) Groundwater applications G-12155 (City of Sherwood) and G-13353 (Manke Lumber Co.) shall be processed according to the classifications in effect on the date the application was filed. Permits shall contain the Special Permit Conditions specified in Section (3) of this rule.

(d) Groundwater in the basalt aquifers in the Chehalem Mountain, Eola Hills and South Salem Hills Groundwater Limited Areas is classified for exempt uses, irrigation and rural residential fire protection systems only. Permits may be issued, for a period not to exceed five years, for fire protection and for drip or equally efficient irrigation provided the Director finds the proposed use and amount do not pose a threat to the groundwater resource or existing permit holders. The amount of water used for irrigation shall be further limited to one acre-foot per acre per year. Permits may be extended for additional five-year periods if the Director finds that the groundwater resource can probably support the extended use. Applications may be rejected or permit or certificate extensions may be denied if the aquifer displays any of the adverse impacts defined in OAR 690-08:

(A) The Chehalem Mountain Groundwater Limited Area is as described and shown in Exhibit 8. The Eola Hills Groundwater Limited Area is as described and shown in Exhibit 10. The South Salem Hills Groundwater Limited Area is as described and shown in Exhibit 11;

(B) Groundwater applications pending on October 4, 1991 shall be processed according to the classifications in effect on the date the application was filed. Permits may be issued for a period not to exceed five years and shall contain the Special Permit Conditions specified in section (3) of this rule. Permits may be extended for additional five-year periods if the Director finds that the groundwater resource can probably support the extended use. Applications submitted after October 4, 1991 shall be processed according to the requirements of these rules and classifications. Within two years of permit issuance, the applicant shall prepare a plan for the Water Resources Commission which shall indicate the steps for obtaining an alternate long-term water supply;

(e) Groundwater — Surface water hydraulic connection: These rules are in addition to the requirements of OAR 690-09. Groundwater in unconfined alluvium within 1/4 mile of the banks of a stream or surface water source is presumed to be in hydraulic connection with the surface water source, unless the applicant or appropriator provides satisfactory information or demonstration to the contrary. This hydraulically connected groundwater shall be classified the same as the surface source. This section shall not apply to those groundwater uses exempted by ORS 537.545. Notwithstanding such classification, permits may be issued for the use of water from a well in an unconfined aquifer that is hydraulically connected to groundwater, within a quarter mile of a stream, provided that surface water impacts are mitigated through storage releases.

(3) Special Columbia River Basalt Group Aquifer Permit Conditions: New permits issued to appropriate groundwater from Columbia River Basalt Group aquifers shall be specially conditioned. The conditions shall specify:

(a) A static water level measurement be made and submitted before any use of water may commence at the well;

(b) The permittee/appropriator install a meter or other suitable measuring device approved by the Director and submit an annual report of water used to the Department;

(c) Limits on acceptable amounts of depletion and interference with other users;

(d) Use of water from the well be controlled or shut off if limits specified in the permit to protect the resource from depletion, and prior appropriators from interference, are exceeded;

(e) The Department shall determine, from measurements submitted by the permittee/ appropriator, or other data on file in the department, the initial and subsequent water levels from which the previously cited declines are referenced;

(f) Following the issuance of a permit, the permittee/appropriator shall measure the water levels in the permitted well each year between March 1 and March 31 (spring high-water level) and submit the data to the Department within 90 days of measurement. Water level measurements shall be made by a certified water rights examiner, licensed water well driller, licensed pump installer, registered geologist, licensed land surveyor, registered professional engineer or the permittee/ appropriator;

(g) Any other conditions derived from OAR 690-08 as deemed necessary to protect the groundwater resource.

(4) Special Permit Conditions: New permits issued to appropriate groundwater from aquifers within the Sandy-Boring Groundwater Limited Area and the Troutdale aquifer in the Damascus Groundwater Limited Area shall be specially conditioned. The conditions shall specify:

(a) A static water level measurement be made and submitted before any use of water may commence at the well;

(b) Limits on acceptable amounts of depletion and interference with other users;

(c) Use of water from the well be controlled or shut off if limits specified in the permit to protect the resource from depletion, and prior appropriators from interference, are exceeded;

(d) The Department shall determine, from measurements submitted by the permittee/ appropriator, or other data on file in the department, the initial and subsequent water levels from which the previously cited declines are referenced;

(e) Following the issuance of a permit, the permittee/appropriator shall measure the water levels in the permitted well each year between March 1 and March 31 (spring high-water level) and submit the data to the Department within 90 days of measurement. Water level measurements shall be made by a certified water rights examiner, licensed water well driller, licensed pump installer, registered geologist, licensed land surveyor, registered professional engineer or the permittee/ appropriator;

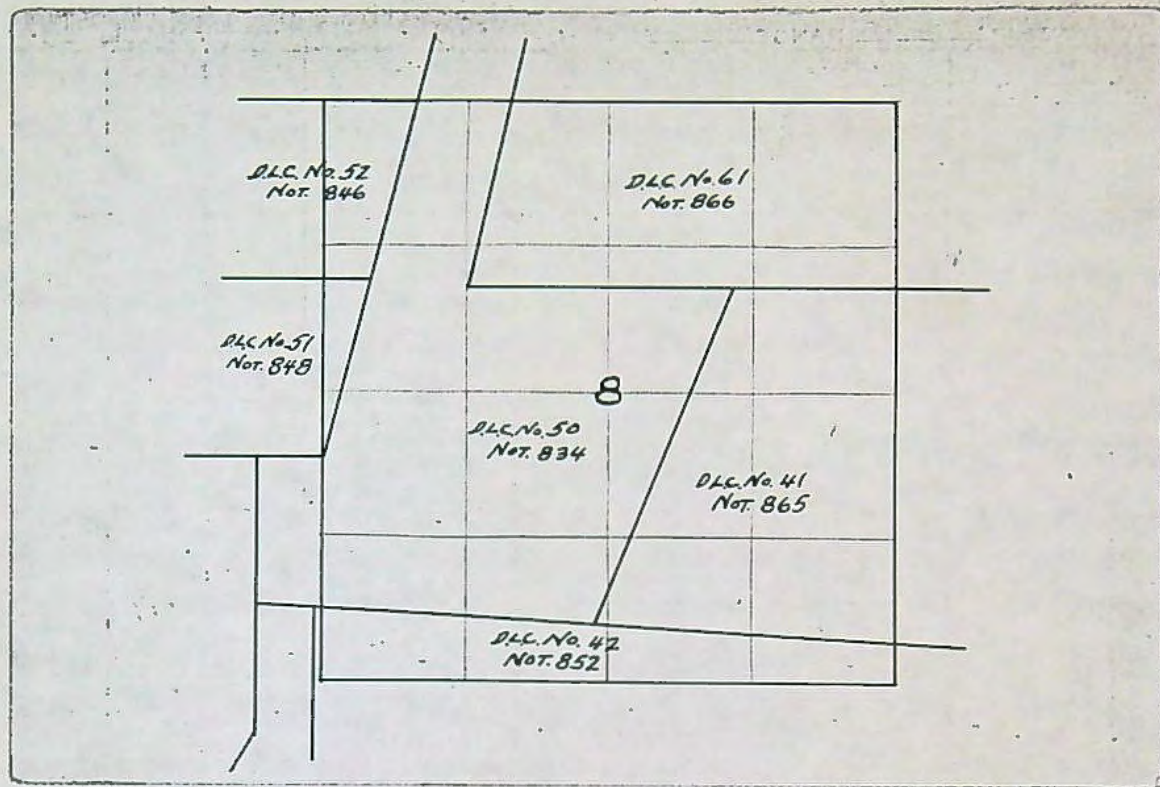

(f) Any other conditions as specified in OAR 690-08 as deemed necessary to protect the groundwater resource.

[ED. NOTE: The Exhibit(s) referenced in this rule is not printed in the OAR Compilation. Copies are available from the Water Resources Department.]

## NOTE TO LOCAL GOVERNMENTS

RECEIVED

DEC 07 1995

WATER RESOURCES DEPT  
SALEM, OREGON

WATER  
RESOURCES  
DEPARTMENT

The person presenting the attached request for land use information is applying for a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure water rights do not result in land uses that would violate your comprehensive plan.

WRD will not accept applications which are not accompanied by this completed land use form or the signed, dated receipt stub detached from the bottom of the land use information form.

You will receive notice once the applicant formally submits his or her request to WRD. The notice will give more detailed information about WRD's water rights process and comment opportunities. If you give the applicant the receipt stub in lieu of completing the form, you will have 30 days from the date of the notice mentioned above to complete the form and return it to WRD. If no land use information is received from you within that 30 day period, WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

Your attention to this request for information is greatly appreciated by both the applicant and WRD. If you have questions concerning the form, please contact WRD at 378-3739.

Commerce Building  
158 12th Street NE  
Salem, OR 97310-0210  
(503) 378-3739  
FAX (503) 378-8130

### Description of Water Use

**Note to Applicant:** This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

**Note to Local Planning Officials:** Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

Applicant Name: Jack R. Bigej  
 Address: 1220 N. Pacific Highway  
Woodburn, OR 97071  
 Phone: 503-981-1245

Please indicate what you will use the water for. Check all boxes that apply and fill in the blanks with key characteristics of the project

- Irrigation (crop type, golf course, nursery or greenhouse): Container nursery
- Livestock (type of livestock, feedlot, slaughterhouse): \_\_\_\_\_
- Residential (# units, single or multi-family, # lots if partition or subdivision): \_\_\_\_\_
- Commercial (i.e., retail, office, restaurant, gas station, hotel, service, etc.): \_\_\_\_\_
- Industrial (i.e., factory, pulp mill, research and development, processing, etc.): \_\_\_\_\_
- Institutional (i.e., school, library, etc.): \_\_\_\_\_
- Mining (aggregate, metal, open pit, placer, etc.): \_\_\_\_\_
- Recreation (park, campsite, pond, etc.): \_\_\_\_\_
- Fish and Wildlife (pond, hatchery, etc.): \_\_\_\_\_
- Hydropower (dam, reservoir, power generating or transmitting facilities): \_\_\_\_\_
- Other (Name and list key characteristics): \_\_\_\_\_

Indicate sources for the proposed water use below:	Indicate the estimated quantity of water the use will require.
<input type="checkbox"/> Surface Water Name sources _____ _____	5.71 / 40th _____ Cubic feet per second. _____ Gallons per minute. _____ Acre-Feet
<input type="checkbox"/> Reservoir or pond	
<input checked="" type="checkbox"/> Ground Water	

**Land Use Information Form: Permits, Hydroelectric Licenses,  
Water Uses in Addition to Classified Uses**

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. **DO NOT FILL OUT THIS FORM IF water is to be diverted, conveyed, and/or used only on federal lands.**

DEC 07 1995

Applicant's Name: Jack R. Bigej  
 Address: 1220 N. Pacific Highway  
 City: Woodburn State: OR Zip: 97071 Day Phone: 503-981-1245

WATER RESOURCES DEPT  
LEWIS & CLARK, OREGON

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

(CHECK ALL THAT APPLY)

TAX LOT LOCAL ID #	PLAN DESIGNATION/ZONING (e.g. Rural Residential/RR-5)	WATER DIVERTED	WATER CONVEYED	WATER USE
200, 300, 1100		yes	yes	yes

SW 1/4 SE 1/4  
T5S R1W  
SAC. OF

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used.

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed.

=====  
 For Local Government Use Only **Application No. 376219**  
**Permit No.**

Local planning officials are to complete the remainder of this form. If it cannot be completed while the applicant waits, sign and detach the receipt as instructed below. You will receive notice when the applicant's water right request is filed with the Water Resources Department (WRD). You will have 30 days from the notice date to return this completed land use form to WRD. If no land use information is received from you within that period, WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

a) Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan.  
Cite applicable ordinance section(s); \_\_\_\_\_ Go to section b) on reverse side.
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table on the reverse of this form. **Note:** Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

Signature: 

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Additional Comments:

The city has concerns regarding wells and their potential pollution  
effect on groundwater, the city's sole source of drinking water.  
The city would like to be advised of any hearings held on this  
application.
