Application No. R 73610

NOTICE OF BEGINNING OF CONSTRUCTION

I, Daryl C. Robison, the holder of Permit No. R 11511

to appropriate the public waters of the state of Oregon, began the actual construction of the works described therein on the 15th day of MAY, 1995.

Remarks: Road clearing, tree and brush removal, excavation and dam
Construction has been completed on 3 of the 5 reservoirs in this permit
The appropriator must state the manner of beginning of construction, the amount of work completed and the type of equipment required for the water system up to the date of this statement, and any additional information which shows a substantial beginning of construction as authorized by your permit.

IN WITNESS WHEREOF, I have hereunto set my hand this 7th day of JUNE, 1995.

Daryl C. Robison
(Signature of Applicant)

92351 Paradise Point Rd Port Orford
(Address) OR 97465

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is begun.

confirms the right to store water perfected under the terms of Permit R-11511. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION NUMBER: R-73610

SOURCE: TWO UNNAMED STREAMS AND FIELD RUNOFF, TRIBUTARIES OF SIXES RIVER

STORAGE FACILITY: FIVE RESERVOIRS, TO BE APPROPRIATED UNDER APPLICATION S-73611, PERMIT S-51557

PURPOSE or USE: CRANBERRY USE

MAXIMUM STORAGE VOLUME: 34.8 ACRE FEET (AF); BEING 18.9 AF FROM UNNAMED STREAM #1 IN RESERVOIRS #1, #2, AND #5, 8.6 AF FROM UNNAMED STREAM #2 IN RESERVOIR #4, AND 7.3 AF FROM FIELD RUNOFF IN RESERVOIR #3.

DATE OF PRIORITY: AUGUST 31, 1993

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Reservoir
31 S	15 W	WM	33	NE SW	POD 2 - 1560 FEET NORTH AND 3150 FEET WEST FROM SE CORNER, SECTION 33	4
31 S	15 W	WM	33	NW SE	POD 1 - 1750 FEET NORTH AND 1740 FEET WEST FROM SE CORNER, SECTION 33	1, 2
31 S	15 W	WM	33	NW SE	POD 3 - 1540 FEET NORTH AND 2430 FEET WEST FROM SE CORNER, SECTION 33	3
31 S	15 W	WM	33	SW SE	POD 4 - 295 FEET NORTH AND 1540 FEET WEST FROM SE CORNER, SECTION 33	5

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The area submerged by the reservoirs is as follows:

Twp	Rng	Mer	Sec	Q-Q	Reservoir
31 S	15 W	WM	33	NE SW	4
31 S	15 W	WM	33	NW SE	1, 2 & 3
31 S	15 W	WM	33	SW SE	5

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.
- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plans.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

to construct FIVE UNNAMED RESERVOIRS and to store the waters of TWO
UNNAMED STREAMS AND FIELD RUNOFF, tributaries of SIXES RIVER, to be
appropriated under Application 73611, Permit R-51557, for CRANBERRY USE.

This permit is issued approving Reservoir Application R-73610. The date
of priority is AUGUST 31, 1993. The amount of water entitled to be
stored each year is not more than 39.0 ACRE-FEET (AF), BEING 21.0 AF
FROM UNNAMED STREAM #1 IN RESERVOIRS #1, #2 AND #5, 9.0 AF FROM UNNAMED
STREAM #2 IN RESERVOIR #4 AND 9.0 AF FROM FIELD RUNOFF IN RESERVOIR #3.

The dams will be located as follows:

RESERVOIR #1 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M. 700-
FEET SOUTH AND 200 FEET WEST. 1750' N 1575' W From SE Corner Sec 33

RESERVOIR #2 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.;
1000 FEET SOUTH AND 130 FEET WEST. 1750' N 1575' W From SE Corner Sec 33

RESERVOIR #3 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.

1530' N 2285' W From SE Corner Sec 33

RESERVOIR #4 - NE 1/4 SW 1/4, SECTION 33, T 31 S, R 15 W, W.M. 1950-
FEET SOUTH AND 1930 FEET WEST. 1610' N 3025' W From SE Corner Sec 33

RESERVOIR #5 - SW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M. 280-
FEET SOUTH AND 80 FEET WEST. 355' N 1340' W, SE Corner Sec 33

The total area proposed to be submerged by the reservoir, when full, is
RESERVOIR #1 - 1.0 ACRE; the proposed maximum depth of water in feet is
12.0 FEET; the maximum height of the dam is 7.0 FEET. The total area
proposed to be submerged by the reservoir, when full, is RESERVOIR #2 -
1.1 ACRES; the proposed maximum depth of water in feet is 12.0; the
maximum height of the dam is 9.5 FEET. The total area proposed to be
submerged by the reservoir, when full, is RESERVOIR #3 - 0.4 ACRE; the
proposed maximum depth of water in feet is 18.0; THE RESERVOIR WILL BE
EXCAVATED. The total area proposed to be submerged by the reservoir,
when full, is RESERVOIR #4 - 1.5 ACRES; the proposed maximum depth of
water in feet is 14.0; the maximum height of the dam is 9.5 FEET. The
total area proposed to be submerged by the reservoir, when full, is
RESERVOIR #5 - 1.2 ACRES; the proposed maximum depth of water in feet is
14.0; the maximum height of the dam is 9.9 FEET. 7.7 AF

The area to be submerged by the reservoirs are located within:

NE 1/4 SW 1/4

NW 1/4 SE 1/4

SW 1/4 SE 1/4

SECTION 33

shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provisions of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Actual construction work shall begin on or before DECEMBER 6, 1995 and shall be completed on or before October 1, 1996. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1997.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, December 6, 1994.

PERMIT R-11511

SECTION 33, TOWNSHIP 31 SOUTH, RANGE 15 West, W.M.

GENERAL INFORMATION

The methods used to determine the information contained in this document are as follows:

1. Examination of Permit R-11511,
2. Examination of Assessor Map 31-15-33,
3. Examination of U.S.G.S. Quadrangle Map,
4. Examination of Bryan M. Flavin's Property Line Adjustment Map,
4. On-site survey, 8 April, 1999,
5. Interview with Daryl Robison and Daniel Loshbaugh, 8 April, 1999.

DESCRIPTION OF DAMS AND RESEFVOIRS

Reservoir #1

Reservoir #1 is a 3.0 acre foot enlargement of Reservoir #1, constructed under Permit R-11243. It is a partially excavated earthfill structure, such that the maximum depth of water exceeds the dam height. An emergency overflow spillway is located around the left abutment.

The control works consists of an 18" half-round vertical riser connected to a 36" horizontal corrugated metal culvert through the dam. Boards in the half-round riser control the water level in the reservoir.

CERTIFICATION

WATER RESOURCES DEPT.
SALEM, OREGON

The Final Proof Survey and inspection of the use as found to be completed under the terms and conditions of Permit R-11511 were completed by James F. Gosson, Certified Water Right Examiner #54, on 8 april, 1999, and the facts contained in this report and accompanying Final Proof Map are correct to the best of my knowledge.

We, Daryl Robison and Daniel Loshbaugh, agree to the findings of James F. Gosson, Certified Water Right Examiner #54, and do submit this site report and map as Claim of Beneficial Use of the water as provided under the terms and conditions of Permit R-11511.

NT—This form is a notice to the Water Resources Director that permittee is ready to make final proof which the water has actually been applied to the intended use under the terms of the permit. Permittee is Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the inspection and survey which will be made in response to the filing of this Form C.
In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. R 73610

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

DARYL C. ROBISON, the holder of Permit No. R 11511

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 30th day of August, 1998

Remarks: OK

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of September, 1998

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.
- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plans.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Claim of Beneficial Use Revision (4):

1. Application R-69982, Permit R-11243
2. Application S-69983, Permit S-51053
3. Application R-73610, Permit R-11511
4. Application S-73611, Permit S-51557

Mr. Clark:

Inclosed are two maps and two report revisions for the maps, each addressing its reservoir and use location per 1/4 1/4, therefore reflecting revisions to four claims. Also there appears to be an error in the Claim of Beneficial Use (COBU) report for permit R-11511 as a source of water for reservoirs 1, 2, (3) it should have stated 5 not 3 for the un-named #1 stream.

These changes address previously submitted COBU by others that have the bogs and reservoirs incorrectly shifted up to 200 feet to the east. This error if not corrected can cause problems with future transfers and already has had negative interactions with our previously submitted claims.

If there are any questions please officially contact the client with a copy to me.

Respectfully,

Clay Jordan, P.E., S.E., Geotech, CWRE

RECONSIDERATION OF PROPOSED CERTIFICATES:

Application R-73610 Permit R-11511

Application S-73611 Permit S-51557

February 2, 2015

Mr. Jerry Clark
Oregon Water Resources Department
727 Summer Street, NE, Suite A
Salem, OR 97301-1271

Dear Mr. Clark:

We have hired Jordan Engineering to work on water right issues for property we have owned and for property we have recently purchased.

We recently purchased property from Daryl Robison for which Claims of Beneficial Use (COBU) had been submitted.. Mr. Robison had also hired Jordan Engineering to do some water right work. Unknown to us was that Jordan Engineering found some issues with the COBU mapping previously submitted..

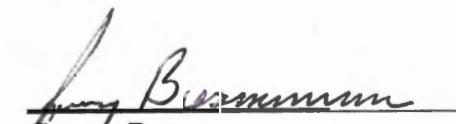

Based on property survey maps for this property, neighboring property and aerial photos, Jordan Engineering determined the bog locations shown on the previous COBU maps were shifted up to 150 feet to the east from their true location. Mr. Robison hired Jordan Engineering to prepare revised COBU maps so the "official record" would not have to be corrected later and so that current and future COBU mapping could be matched to existing water rights.

Mr. Robison did not follow through with submitting revisions to the previous COBU's even though revised mapping was prepared.

Now that this issue has come to our attention, we would like to have the record reflect the revised mapping.

Please reconsider the contents of the proposed certificates so that they reflect the revised mapping prepared by Jordan Engineering.

Thank you.

George Bussmann

Diane Bussmann

confirms the right to store water perfected under the terms of Permit R-11511. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION NUMBER: R-73610

SOURCE: TWO UNNAMED STREAMS AND FIELD RUNOFF, TRIBUTARIES OF SIXES RIVER

STORAGE FACILITY: FIVE RESERVOIRS, TO BE APPROPRIATED UNDER APPLICATION S-73611, PERMIT S-51557

PURPOSE or USE: CRANBERRY USE

MAXIMUM STORAGE VOLUME: 34.8 ACRE FEET (AF); BEING 3.0 AF FROM RESERVOIR 1, 8.2 AF FROM RESERVOIR 2, 7.3 AF FROM RESERVOIR 3, 8.6 AF FROM RESERVOIR 4 AND 7.7 AF FROM RESERVOIR 5

DATE OF PRIORITY: AUGUST 31, 1993

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	33	NW SE	UNNAMED STREAM 1 & RESERVOIRS 1 & 2 - 1750 FEET NORTH AND 1575 FEET WEST FROM SE CORNER, SECTION 33

31 S	15 W	WM	33	NE SW	UNNAMED STREAM 2 & RESERVOIR 4 - 1610 FEET NORTH AND 3025 FEET WEST FROM SE CORNER, SECTION 33
31 S	15 W	WM	33	SW SE	RESERVOIR 5 - 355 FEET NORTH AND 1340 FEET WEST FROM SE CORNER, SECTION 33

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The area submerged by the reservoirs is as follows:

TwP	Rng	Mer	Sec	Q-Q	RESERVOIR
31 S	15 W	WM	33	NE SW	4
31 S	15 W	WM	33	NW SE	1, 2 & 3
31 S	15 W	WM	33	SW SE	5

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.
- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

NOTICE

Reference: Applications R-73610, S-73611 & S-86412 Permits R-11511, S-51557 & S-54270

Enclosed is a proposed certificate of water right and map. The map and proposed certificate represent the extent water was used within the terms of the permit based upon Claims of Beneficial Use, prepared by a Certified Water Right Examiner, that either you or a previous permit holder submitted.

The certificate is the final step in the water right process. The Department encourages you to review these proposals. If you do not agree with the proposed certificate, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate, no response to this notice is required. Sometime after comment period, the recorded certificate of water right will be mailed to the permit holder of record.

If your name is not listed on the proposed certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Jerry Sauter at 503-986-0817.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French
Water Right Services Administrator

APPLICATION R-73610

PERMIT R-11511

SECTION 33, TOWNSHIP 31 SOUTH, RANGE 15 West, W.M.

GENERAL INFORMATION

The methods used to determine the information contained in this document are as follows:

1. Examination of Permit R-11511,
2. Examination of Assessor Map 31-15-33,
3. Examination of U.S.G.S. Quadrangle Map,
4. Examination of Bryan M. Flavin's Property Line Adjustment Map,
4. On-site survey, 8 April, 1999,
5. Interview with Daryl Robison and Daniel Loshbaugh, 8 April, 1999.

SOURCE OF WATER

Reservoirs 1, 2, and 3: Un-named Stream #1,
Reservoir #3: Field Runoff,
Reservoir #4: Un-named Stream #2, all sources being tributaries of Sixes River.

AMOUNT OF STORAGE

Reservoir #1: 3.0 acre feet.
Reservoir #2: 8.2 acre feet.
Reservoir #3: 7.3 acre feet.
Reservoir #4: 8.6 acre feet.
Reservoir #5: 7.7 acre feet.
Total: 34.8 acre feet.

DESCRIPTION OF DAMS AND RESEFVOIRS

Reservoir #1

Reservoir #1 is a 3.0 acre foot enlargement of Reservoir #1, constructed under Permit R-11243. It is a partially excavated earthfill structure, such that the maximum depth of water exceeds the dam height. An emergency overflow spillway is located around the left abutment.

The control works consists of an 18" half-round vertical riser connected to a 36" horizontal corrugated metal culvert through the dam. Boards in the half-round riser control the water level in the reservoir.

AUG 17 1999

WATER RESOURCES DEPT.
SALEM, OREGON

CLAIM OF BENEFICIAL USE - ROBISON/LOSHBAUGH - PERMIT R-11511

Maximum Dam Height: 8 feet.
Maximum Water Depth: 14 feet.
Freeboard: 18 inches.
Top Width: 8 feet.
Upstream slope: 2 1/2:1.
Downstream slope: 1 1/2:1.
Reservoir Surface Area: 1.4 acres.
Reservoir Capacity: 9.0 acre feet

Reservoir #2

Reservoir #2 is a partially excavated earthfill structure with an average water depth of 10 feet. The control works consists of an 18" half-round vertical riser connected to a 24" corrugated metal culvert through the dam. Boards in the half-round riser control the water level in the reservoir. The control works also functions as the emergency overflow spillway.

Maximum Dam Height: 11.5 feet.
Maximum Water Depth: 12 feet.
Freeboard: 18 inches.
Top Width: 10 feet.
Upstream Slope: 1 1/2:1.
Downstream slope: 1:1.
Reservoir Surface Area: 1.0 Acre.
Reservoir Capacity: 8.2 acre feet.

Reservoir #3

Reservoir #3 is an off-channel excavated reservoir with 1:1 side slopes and an average water depth of 16 feet.
Reservoir Surface Area: 0.6 acre.
Reservoir Capacity: 7.3 acre feet.

Reservoir #4

Reservoir #4 is a partially excavated earthfill structure having a maximum water depth of 15 feet. The control works consists of an 18" half-round vertical riser connected to a 36" corrugated metal culvert through the dam. Boards in the half-round riser control the water level in the reservoir. A 24" double wall plastic culvert at the right abutment functions as the emergency overflow spillway.

Maximum Dam Height: 13 feet.
Freeboard: 24 inches.
Top Width: 10 feet.
Upstream Slope: 1 1/4:1.
Downstream Slope: 1 1/2:1.
Reservoir Surface Area: 1.0 acre.
Reservoir Capacity: 8.6 acre feet.

CLAIM OF BENEFICIAL USE - ROBISON/LOSHBAUGH - PERMIT R-11511

Reservoir #5

Reservoir #5 is an off-channel excavated reservoir with 1:1 side slopes, having an average water depth of 10 feet and a maximum depth of 14 feet. The emergency overflow spillway consists of an 18" culvert through the dike.

Reservoir Surface Area: 0.8 acre.
Reservoir Capacity: 7.7 acre feet.

CERTIFICATION

WATER RESOURCES DEPT.
SALEM, OREGON

The Final Proof Survey and inspection of the use as found to be completed under the terms and conditions of Permit R-11511 were completed by James F. Gosson, Certified Water Right Examiner #54, on 8 april, 1999, and the facts contained in this report and accompanying Final Proof Map are correct to the best of my knowledge.

We, Daryl Robison and Daniel Loshbaugh, agree to the findings of James F. Gosson, Certified Water Right Examiner #54, and do submit this site report and map as Claim of Beneficial Use of the water as provided under the terms and conditions of Permit R-11511.

STATE OF OREGON

COUNTY OF CURRY

PERMIT TO CONSTRUCT A RESERVOIR AND TO
STORE FOR BENEFICIAL USE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

DARYL ROBISON
92381 PARADISE POINT ROAD
PORT ORFORD, OREGON 97465

503-332-7155

to construct FIVE UNNAMED RESERVOIRS and to store the waters of TWO UNNAMED STREAMS AND FIELD RUNOFF, tributaries of SIXES RIVER, to be appropriated under Application 73611, Permit R-51557, for CRANBERRY USE.

This permit is issued approving Reservoir Application R-73610. The date of priority is AUGUST 31, 1993. The amount of water entitled to be stored each year is not more than 39.0 ACRE-FEET (AF); BEING 21.0 AF FROM UNNAMED STREAM #1 IN RESERVOIRS #1, #2 AND #5, 9.0 AF FROM UNNAMED STREAM #2 IN RESERVOIR #4 AND 9.0 AF FROM FIELD RUNOFF IN RESERVOIR #3.

The dams will be located as follows:

RESERVOIR #1 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M. 700 FEET SOUTH AND 200 FEET WEST.

RESERVOIR #2 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 1000 FEET SOUTH AND 130 FEET WEST.

RESERVOIR #3 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.

RESERVOIR #4 - NE 1/4 SW 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 950 FEET SOUTH AND 1930 FEET WEST.

RESERVOIR #5 - SW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 280 FEET SOUTH AND 80 FEET WEST.

The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #1 - 1.0 ACRE; the proposed maximum depth of water in feet is 12.0 FEET; the maximum height of the dam is 7.0 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #2 - 1.1 ACRES; the proposed maximum depth of water in feet is 12.0; the maximum height of the dam is 9.5 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #3 - 0.4 ACRE; the proposed maximum depth of water in feet is 18.0; THE RESERVOIR WILL BE EXCAVATED. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #4 - 1.5 ACRES; the proposed maximum depth of water in feet is 14.0; the maximum height of the dam is 9.5 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #5 - 1.2 ACRES; the proposed maximum depth of water in feet is 14.0; the maximum height of the dam is 9.5 FEET.

The area to be submerged by the reservoirs are located within:

NE 1/4 SW 1/4	Reservoir #4
NW 1/4 SE 1/4	Reservoirs #1, #2 and #3
SW 1/4 SE 1/4	Reservoir #5
SECTION 33	
T. 31 S, R 15 W, W.M.	

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee

shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provisions of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Actual construction work shall begin on or before DECEMBER 6, 1995 and shall be completed on or before October 1, 1996. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1997.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, December 6, 1994.

Application S-69983, Permit S-51053 – Application R-73610, Permit R-11511
Application S-73611, Permit S-51557

Regarding Application S-86412, Permit S-54270 – Application R-69982, Permit R-11243
Application S-69983, Permit S-51053, the assignment from Diane G. Bussmann, George P.
Bussmann and Northwest Farm Credit Services, PCA to Diane G. Bussmann, George P.
Bussmann and Northwest Farm Credit Services, PCA, and Northwest Farm Credit Services,
FLCA has been recorded in the records of the Water Resources Department.

The Departments records will now show Diane G. Bussmann, George P. Bussmann and
Northwest Farm Credit Services, PCA, and Northwest Farm Credit Services, FLCA as the permit
holders of record.

Regarding Application R-73610, Permit R-11511- Application S-73611, Permit S-51557 the
partial assignment from Diane G. Bussmann, George P. Bussmann and Northwest Farm Credit
Services, PCA to Diane G. Bussmann, George P. Bussmann and Northwest Farm Credit
Services, PCA, and Northwest Farm Credit Services, FLCA has been recorded in the records of
the Water Resources Department.

The Departments records will now show Daniel Loshbaugh, Diane G. Bussmann, George P.
Bussmann and Northwest Farm Credit Services, PCA, and Northwest Farm Credit Services,
FLCA as the permit holders of record.

Our records have been changed accordingly and the original request is enclosed. Receipt number
109108 covering the recording fee is also enclosed.

Please review the permit to be familiar with the conditions and timelines contained in the
permits. These conditions and timelines will have to be met before a Certificates of Water Right
can be issued.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Sauter", written over the word "Sincerely,".

EXTENSION CHECKLIST

FILE DOCUMENT - FOR OFFICE USE ONLY

APPLICATION NO: R 73610

PERMIT NO: R 11511

DATE: November 18, 1996

1. Has the applicant requested any previous extensions? How many?
NO. This is the FIRST request.
2. What water right development steps has the permittee completed within the past year?
Built most of 3rd reservoir, irrigating 5 acres.
3. What water right development steps has the permittee completed prior to this past year?
Complete construction of 2 reservoirs, cleared land for 3rd reservoir, in some irrigation equipment.
4. Is the permittee currently meeting all conditions of the permit?
YES. Will check on final proof.
5. What is the current use of water under the permit?
Storage for irrigation.
6. What percent of the total allowable use under the permit does the current use represent?
20%
7. Have there been any unforeseen events (over which the permittee has no control) which could reasonably have delayed development under the permit?
NO.
8. Has there been any change in the market for either water or power since the permit was granted which could have affected the development program under the permit?
NO.
9. Has there been any change in demand for water or power since the permit was granted?
NO.
10. If the extension request is denied, is the current level of water use under the permit economically feasible?
NO.
11. Is there an alternate source of water available at this time?
NO.
12. Has use of water under the permit caused an adverse impact on the surface/groundwater resource in the area?
NO.
13. Have there been claims of injury to other water right holders or water users in the area?
NO.
14. Any conditions on previous orders?
NO.

REMARKS:

Request extend B date from 10/1/96 to 10/1/97. Most of reservoirs built, water used to irrigate 5 acres. Recommend extend B date to 10/1/97.

REFERENCE: File R 73610, 73611

We have received your application for extension of the time limits to complete construction and make complete application of water under Permits R 11511 and 51557. We also have your check in the amount of \$ 200.

We are returning your applications for extension because the date for construction completion is 10/1/96. We don't accept applications for extension until around the time completion is to be accomplished. It is too soon to say that date cannot be met and you may have more progress to report at that time.

If at that time you are not done with construction you may resubmit the applications for extension. We are refunding the \$200 fees you submitted.

If you have any questions, please contact the Water Rights Section at 378-3739.

Sincerely,

DALLAS S. MILLER

Dear Mr. Miller;

Enclosed for your review is an application for Extension of Time to finish construction and accomplish beneficial use of water for my permits No.R11511 & 51557. There has been a substantial amount of construction accomplished as you can see by the application, but because of harvesting obligations I will be unable to complete construction and application of water as specified in my permit.

For the reason stated above , I respectfully request that the enclosed application for Extension of Time be granted. Also enclosed is a check for \$200.00. Thank you for your consideration in this matter.

Sincerely,

Daryl C. Robison

Form C (690—9-77)

IMPORTANT—This form is a notice to the Water Resources Director that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

Application No. R 73610

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

DARYL C. ROBISON, the holder of Permit No. R 11511

to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 30th day of August, 19 98

Remarks: OK

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of September, 19 98.

This letter is in regard to your water use Permit R-11511 and 51557. As we pointed out to you in our letter of October 21, 1998 your claim of beneficial use must be received in this office by **September 4, 1999**.

Oregon Administrative Rule 690-14-190 states: "The claim of beneficial use shall be submitted to the Department within one year after the use was reported..as being complete...Failure to comply with this section shall cause the Director to initiate permit cancellation proceedings as provided by ORS 537.260."

The "claim" consists of a site report and map of the developed use prepared by a Certified Water Rights Examiner, which accompany a request from the permittee for issuance of a certificate of water right.

You are hereby notified that unless your claim is received on or before **September 4, 1999**, your permit will be canceled without further notice.

If you have any questions, please contact the Water Rights Section.

Sincerely,

DALLAS MILLER
Water Rights Specialist

October 21, 1998

DARYL ROBISON
93290 AIRPORT RD
SIXES OR 97476

REFERENCE: Files R-73610 & 73611

We have received your notices that complete application of water has been made under Permits R-11511 and 51557.

In order to obtain a certificate of water right, you are required by law to hire a Certified Water Right Examiner (CWRE) to conduct the final proof survey of the completed use. This must be done within one year after the use is reported as being complete or within one year after the beneficial use date allowed in the permit, whichever occurs first. Accordingly, the map and claim of beneficial use must be received in this office on or before **September 4, 1999**. A list of Certified Examiners is enclosed for your information.

The Department requires that the CWRE has a copy of the permit or transfer order to compile the claim of beneficial use. All permit conditions need to be addressed in the claim and map you submit.

Upon receipt of the map and claim of beneficial use, the information will be reviewed and a brief field inspection may be conducted by a representative of this office. Following that, a proposed certificate of water right will be mailed to you for review.

In the meantime, the permit you hold is valid evidence of your right to use the water.

If you have any questions, please contact the Water Rights Section at 378-3739, or toll-free within Oregon 1-800-624-3199.

Sincerely,

DALLAS MILLER

Application R-73610, Permit R-11511 – Application S-73611, Permit S-51557
Application S-86412, Permit S-54270

The assignment from Daryl Robison to George P. Bussmann and Diane G. Bussman has been recorded in the records of the Water Resources Department.

Regarding Application R-69982, Permit R-11243 – Application S-69983, Permit S-51053 and Application S-86412, Permit S-54270 the Departments records will now show George P. Bussman and Diane G. Bussman as the permit holders of record.

Regarding Application R-73610, Permit R-11511 – Application S-73611, Permit S-51557 the Departments records will now show Daniel Loshbaugh, George P. Bussman and Diane G. Bussman as the permit holders of record.

Our records have been changed accordingly and the original requests are enclosed. Receipt number 107753 covering the recording fees is also enclosed.

Please review the permit to be familiar with the conditions and timelines contained in the permits. These conditions and timelines will have to be met before Certificates of Water Right can be issued.

Sincerely,

Jerry Sauter

STATE OF OREGON

COUNTY OF CURRY

PERMIT TO CONSTRUCT A RESERVOIR AND TO
STORE FOR BENEFICIAL USE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

DARYL ROBISON
92381 PARADISE POINT ROAD
PORT ORFORD, OREGON 97465

503-332-7155

to construct FIVE UNNAMED RESERVOIRS and to store the waters of TWO UNNAMED STREAMS AND FIELD RUNOFF, tributaries of SIXES RIVER, to be appropriated under Application 73611, Permit R-51557, for CRANBERRY USE.

This permit is issued approving Reservoir Application R-73610. The date of priority is AUGUST 31, 1993. The amount of water entitled to be stored each year is not more than 39.0 ACRE-FEET (AF); BEING 21.0 AF FROM UNNAMED STREAM #1 IN RESERVOIRS #1, #2 AND #5, 9.0 AF FROM UNNAMED STREAM #2 IN RESERVOIR #4 AND 9.0 AF FROM FIELD RUNOFF IN RESERVOIR #3.

The dams will be located as follows:

RESERVOIR #1 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M. 700 FEET SOUTH AND 200 FEET WEST.

RESERVOIR #2 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 1000 FEET SOUTH AND 130 FEET WEST.

RESERVOIR #3 - NW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.

RESERVOIR #4 - NE 1/4 SW 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 950 FEET SOUTH AND 1930 FEET WEST.

RESERVOIR #5 - SW 1/4 SE 1/4, SECTION 33, T 31 S, R 15 W, W.M.; 280 FEET SOUTH AND 80 FEET WEST.

The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #1 - 1.0 ACRE; the proposed maximum depth of water in feet is 12.0 FEET; the maximum height of the dam is 7.0 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #2 - 1.1 ACRES; the proposed maximum depth of water in feet is 12.0; the maximum height of the dam is 9.5 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #3 - 0.4 ACRE; the proposed maximum depth of water in feet is 18.0; THE RESERVOIR WILL BE EXCAVATED. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #4 - 1.5 ACRES; the proposed maximum depth of water in feet is 14.0; the maximum height of the dam is 9.5 FEET. The total area proposed to be submerged by the reservoir, when full, is RESERVOIR #5 - 1.2 ACRES; the proposed maximum depth of water in feet is 14.0; the maximum height of the dam is 9.5 FEET.

The area to be submerged by the reservoirs are located within:

NE 1/4 SW 1/4	Reservoir #4
NW 1/4 SE 1/4	Reservoirs #1, #2 and #3
SW 1/4 SE 1/4	Reservoir #5

SECTION 33

T. 31 S, R 15 W, W.M.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee

shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe, or the provisions of other means to evacuate water when determined necessary by the Water Resources Director to satisfy prior downstream rights.

Actual construction work shall begin on or before DECEMBER 6, 1995 and shall be completed on or before October 1, 1996. The reservoir shall be filled and complete application of the stored water to the use shall be made on or before October 1, 1997.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The storage of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director of the Water Resources Department has found that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Issued this date, December 6, 1994.

RE: Permit S-54270, Application File S-86412
Permit R-11243, Application File R-69982
Permit S-51557, Application File S-73611
Permit R-11511, Application File R-73610
Permit S-51053, Application File S-69983

Dear Carol,

On December 27, 2012, the Department received Requests for Assignments for the above five referenced permits.

It appears that the intention of the Assignments is as follows:

The initial sets of Assignments appear to be assigning the interest from Daryl Robison to George P. Bussmann and Diane G. Bussmann for the five permits listed above.

The second sets of Assignments appear to then be assigning the above permits from the Bussmanns to George P. Bussmann and Diane G. Bussmann and Northwest Farm Credit Services, PCA.

We are unable to accept and process the Assignments as submitted for the following reason:

1. The Assignments were not accompanied with the appropriate fees. A fee is required for each permit being assigned. As described above, your request is for a total of 10 Assignments. The total fees required to complete the Assignments as you have requested is \$750.00 (10 X \$75.00).

We are returning the Requests for Assignment along with your check in the amount of \$300.00. The Request for Assignment form indicates that only one permit be included per form. The Department is willing to accept the forms as completed rather than require that the forms be updated.

Upon submittal of the Assignment forms and the appropriate fees, the Department will process the Assignments.

If you have any questions, please feel free to call Jerry Sauter at 503-986-0817.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerry Clark", with a long horizontal flourish extending to the right.

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

CURRY COUNTY

IN THE MATTER OF APPLICATION FOR)
EXTENSION OF TIME IN WHICH TO)
COMPLETE CONSTRUCTION WORK) ORDER
AND MAKE COMPLETE APPLICATION)
OF WATER UNDER CERTAIN PERMITS)

The owner of the following water permits issued by the Water Resources Director has submitted application for extensions of the time limits within which to complete the construction work and make complete application of water to beneficial use under their permits.

The Water Resources Director is authorized under the provisions of ORS 537.230 to grant extensions of time for good cause shown, within which to complete work to perfect a water right under a permit;

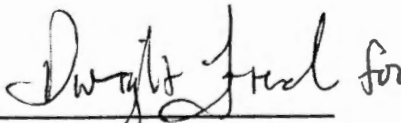

The statement in the application for extensions filed regarding completion of the projects indicates that the permittee has shown such reasonable diligence as entitles them to an extension of time; and

No protest or objections to the granting of an extension under either of the following permits have been filed by any subsequent permit holders;

NOW, THEREFORE, it is hereby ORDERED that extensions of time are granted as follows:

<u>PERMITTEE</u>	<u>APPL.</u> <u>NUMBER</u>	<u>PERMIT</u> <u>NUMBER</u>	<u>BASIN</u> <u>NUMBER</u>	<u>NEW TIME LIMITS TO:</u>	
				<u>COMPL</u> <u>CONST.</u>	<u>APPLY</u> <u>WATER</u>

Re: File 73610, 73611 Permits R 11511, 51557 Your ltr dtd 9/15/97

Dear Mr. Miller;

Please process my Sept 1, 1997 request for an extension of time to complete construction and complete application of water to a beneficial use until October 1, 1998. I feel confident that construction and complete application of water to a beneficial use will be completed by October 1, 1998.

Thank you for your attention to this matter.

Sincerely

Daryl C. Robison

Dear Extension Applicant:

We have received your request for extension of time limits under your permit.

Because of action taken by the Oregon Attorney Generals Office the Water Resources Department is working on new administrative rules affecting the extension process. Anticipating this change in the rules, we will hold your application until the new rules are in effect. We feel that processing your request under the new rules may be to your advantage. We anticipate that the rules will be adopted in March 1998.

If you must have an extension of time before that date, we may be able to process it if you can provide a statement that you can complete the project within one year.

Your patience is appreciated and we will process your request as soon as possible.

If you have questions please contact me at the address below or phone (503)378-3739 ext. 272.

Sincerely,

Dallas Miller

Dear Mr. Miller;

Enclosed for your review is an application for Extension of Time to finish construction and accomplish beneficial use of water for my permits No. R11511 & 51557. I have made significant progress toward the completion of the permits as you can see by the application for extension, but will not be able to complete construction by October 1.

Your approval of this application would be greatly appreciated. Also enclosed is an application fee of \$200. Thank you for your consideration in this matter.

Dear Mr. Shook;

Please send me an application for an extension of time to complete construction and make complete application of water. I have recently submitted form A, but because of the wet fall, it is doubtful that I will be able to complete construction by October 1996.

Also, please note that I have a new mailing address and would appreciate having all future correspondence mailed accordingly.

Sincerely,

Daryl C. Robison

PUBLIC INTEREST REVIEW

The proposed water use described in Application #R-73610 has been evaluated according to the public interest standards set out in ORS 537.170 and OAR 690-11-195.

The Application requested the use of 39.0 AC-FT from TWO UNNAMED STREAMS AND SURFACE RUNOFF tributary to the SIXES RIVER for the purpose(s) of STORAGE FOR AGRICULTURAL USE AND IRRIGATION. The Technical Review Report limits the proposed use to STORAGE DURING 12/1 THROUGH 4/30 AS FOLLOWS: RESERVOIR 1 - 3.0 AF, RESERVOIR 2 - 9.0 AF, RESERVOIR 3 - 9.0 AF, RESERVOIR 4 - 9.0 AF, RESERVOIR 5 - 9.0 AF.

The proposed use described in Application #R-73610 is not within a category required to be submitted to the Commission.

The Director of the Water Resources Department has evaluated the Application for the proposed water use and made the following public interest determination.

TECHNICAL REVIEW

Water use Application #R-73610 received a Satisfactory Report of Technical Review.

The Technical Review revealed that the proposed water use:

- a)-is not prohibited by statute or scenic waterway criteria;
- b)-is a classified use under the applicable basin program or an application for the use has been filed under ORS 536.295 and OAR 690 Division 82;
- c)-is consistent with conditions previously imposed by the Commission on appropriations from the same source;
- d)-will not conflict with (an) existing water right(s);
- e)-is supported by an available source of water.

PUBLIC INTEREST REVIEW
CHECKLIST

The Director of the Water Resources Department has evaluated the proposed water use, as described in Application #R-73610, in light of current and planned uses and reasonably anticipated future demands for water from the water source as established in the record.

The evaluation has recognized known beneficial uses of water, including but not limited to the categories described in OAR 690-11-195(3)(a)-(d).

The Director has reviewed the elements of the proposed water use and has based the public interest determination on evidence in the record which included the following:

I. Existing claims to water from the same source.

There are no conflicts with existing claims to water from the same source as is documented in the Report of Technical Review.

Comment: PERMIT CONDITIONED TO AVOID CONFLICT.

II. Land use matters.

The local government where the proposed water use is located has acknowledged receipt of the Land Use Information Form and has filed no objections to the proposed appropriation.

Public notice of the proposed water use was sent to all local governments which have requested such notice and none of those local governments have filed objections to the proposed water use.

There is nothing in the record to indicate the proposed water use is incompatible with Statewide Planning Goals or

local comprehensive plans.

If local government approval has not been granted, there is nothing in the record to indicate conditions cannot be placed on the proposed water use to require local land use approval prior to initiation of the use.

An applicant for municipal water use has submitted information showing the proposed water use is compatible with comprehensive plan policies concerning urban services, urban growth boundaries, and Public Facilities Plans.

III. Identified environmental concerns.

The proposed water use does not appropriate water from any water body listed to receive Total Maximum Daily Loads and therefore, the water body has not been defined as water quality limited according to Section 303(d)(1) of the federal Clean Water Act according to the information supplied by the Oregon Department of Environmental Quality.

IV. The character and extent of other natural resources which are present in the water source basin.

The Oregon Department of Fish and Wildlife (ODFW) has been notified of the proposed water use and has made no objections regarding fish and other aquatic and wildlife species and populations.

There are no listed threatened or endangered species in the water source according to the information supplied by the Oregon Department of Fish and Wildlife.

V. Riparian characteristics.

There is nothing in the record to indicate the proposed use is likely to be detrimental to the riparian characteristics of the water source. This riparian

review is not applicable to groundwater sources.

PUBLIC INTEREST REVIEW

APPLICATION #R-73610

PAGE 4

VI. Recreational use and potential of the water source and its basin area.

There is nothing in the record to indicate a conflict with known or reasonably anticipated recreational use.

VII. Agricultural potential of the area.

There is nothing in the record to indicate the proposed water use will conflict with known or reasonably anticipated agricultural practices.

VIII. Designated historic, cultural, or natural resource protection areas.

There is nothing in the record to indicate any conflict with any known or reasonably anticipated historic, cultural, or natural resource designations.

IX. Identified health or safety requirements.

There nothing in the record to indicate any identified health and safety requirements.

**PUBLIC INTEREST REVIEW
FINDINGS AND CONCLUSIONS**

This public interest determination has considered the following standards as set out in ORS 537.170(5):

- a) The conservation of the highest use of the water for all purposes, including irrigation, domestic use, municipal water supply, power development, public recreation, protection of commercial and game fishing and wildlife, fire protection, mining, industrial purposes, navigation, scenic attraction or any other beneficial use to which the water may be applied for which it may have a special value to the public.
- b) The maximum economic development of the waters involved.
- c) The control of the waters of this state for all beneficial purposes, including drainage, sanitation and flood control.
- d) The amount of waters available for appropriation for beneficial use.
- e) The prevention of wasteful, uneconomic, impracticable or unreasonable use of the waters involved.
- f) All vested and inchoate rights to the waters of this state or to the use of the waters of this state, and the means necessary to protect such rights.
- g) The state water resources policy formulated under ORS 536.295 to 536.350 and 537.505 to 537.525.

The Director of the Water Resources Department, pursuant to OAR 690-11-185(4), has considered the facts set forth in the Application and its supporting data, the Director's Report of Technical Review and any objections which met the requirements of OAR 690-11-170(1).

The Director of the Water Resources Department has evaluated the proposed water use with respect to the information in the record of the Department and has made the following public interest determination.

The Director has determined that the proposed water use described in Application #R-73610:

_____ WILL IMPAIR OR BE DETRIMENTAL TO THE PUBLIC INTEREST and therefore, the Director hereby proposes rejection of the application and shall schedule a contested case hearing.

✓ WILL NOT IMPAIR OR BE DETRIMENTAL TO THE PUBLIC INTEREST and therefore, the Director shall issue a water use permit with appropriate conditions.

PORT ORFORD, OR 97465

Reference: File R 73610

Hello:

This letter informs you of the current status of your application for a water use permit and accompanies the Satisfactory Report of Technical Review For Water Use Permit(s). We apologize for the delay in transmitting this information and Report to you and for any inconvenience the wait may have caused you.

The enclosed Report of Technical Review is the Department's summary of a specialized analysis of various legal and scientific aspects of your application and proposed water use. We are required by the state of Oregon's administrative rules (in OAR 690-11-160) to conduct this official technical review of each application submitted to the Oregon Water Resources Department for a water use permit. This process was designed to insure that your application receives a fair evaluation and to secure protection of existing water rights and of the public at large.

AS THE RESULT OF OUR TECHNICAL EVALUATION, WE HAVE DETERMINED THAT YOUR APPLICATION SATISFIES THE REQUIREMENTS OF THE TECHNICAL REVIEW.

The Department will now move your application to the next phase of processing. This phase includes a public interest review of your proposed water use. No final action may be taken on your application until the public interest review is completed.

You should also note that the Report of Technical Review describes conditions currently anticipated which may limit the water use proposed in your application.

If you wish to object to any of the analyses contained in the Report, you must submit your objection to the Department in writing within 60 days of the date of mailing of this Report or by the date specified below. Your objection must allege that the technical review is defective and you may also submit evidence which demonstrates that your proposed water use will not impair or be detrimental to the public interest.

Copies of the Report of Technical Review will be distributed to all persons who have filed comments or otherwise expressed an interest in the water use proposed in your application. Interested parties must also submit their objections within the prescribed objection period. Those objections must allege that the technical review is defective and/or that the proposed water use may impair or be detrimental to the public interest.

If an objection contains allegations that the technical review is defective, it must be accompanied by facts which support such allegations. If an objection contains allegations that the proposed water use may impair or be detrimental to the public interest, the objection must specify the particular public interest standards which apply as set out in Oregon Revised Statutes (ORS 537.170(5)) and Oregon Administrative Rules (OAR 690-11-195) and state facts showing how such standards would be violated.

All evidence and objections must be received by our Salem office no later than 5:00 p.m. on or before March 11, 1994 or the Department may presume there is no opposition to any of the analyses set out in the technical review report. Evidence and objections must be addressed and delivered to: Oregon Water Resources Department, Water Rights Section, 3850 Portland Road, Northeast, Salem, Oregon 97310.

If objections and evidence are submitted on or before the above time and date, the Director of the Water Resources Department will evaluate each issue raised in the objections and either accept or deny them. Objectors are encouraged to indicate whether they would be interested in resolving their concerns through alternative dispute resolution.

If any of the objections are denied, the objector will be allowed thirty days to submit a protest to the denial. The protest must meet the standards set forth in OAR 690-02-030 through 080.

If you have any questions, please feel free to telephone me or any of the Department's Water Rights Section staff. My telephone number is 378-3739, in Salem, or you may call toll free from within the state to 1-800-624-3199.

Sincerely,

STEVE BROWN

SURFACE WATER AVAILABILITY

Water is likely available in excess of needs for all existing rights 80% of the time during each monthly period proposed by the technical review.

Water availability tables are available in the application file and may be reviewed in the office of the Water Resources Department in Salem.

CONFLICTS WITH OTHER WATER RIGHTS:

There are existing rights from this point of diversion.
See proposed permit conditions.

There are existing water rights appurtenant to the lands described in the application. See proposed permit conditions.

REPORT CONCLUSIONS:

Based on the Department's review of water availability and Oregon Administrative Rules, water in the amount of 39.0 acre-feet is likely available for 5 months. Therefore, the Director finds that water is available in sufficient amount and during periods which will reasonably support the proposed use.

THE PROPOSED WATER USE, AS CONDITIONED, SATISFIES THE REQUIREMENTS OF THIS TECHNICAL REVIEW.

This Report of Technical Review sets out the Director's technical analysis of the application. In addition to this technical analysis, the Director will evaluate this application to determine whether the proposed water use might impair or be detrimental to the public interest under the standards set out in ORS 537.170(5) and OAR 690-11-195. Matters relating to public interest in the proposed water use which are raised in objections will be evaluated following the 60-day objection period.

PROPOSED PERMIT CONDITIONS

Application: R 73610

The following conditions will apply to water use under the permit, and will appear in the permit, if issued.

1. Use of water under this permit is subject to all prior rights.
2. Water may be appropriated for storage during the period: December 1 through April 30 of each year
3. Rate of use: Reservoir 1 - 3.0 acre-feet, reservoir 2 - 9.0 acre-feet, Reservoir 3 - 9.0 acre-feet, Reservoir 4 - 9.0 acre-feet, Reservoir 5 - 9.0 acre-feet
4. Water use development requirements:
 - A. Begin construction by (one year from issuance of permit).
 - B. Complete construction by October 1, 1996.
 - C. Completely apply the water to beneficial use by October 1, 1997.
5. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided, however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

6. Failure to comply with any of the provisions of the permit may result in action including, but not limited to, restrictions on the use, penalties, or cancellation of the permit.
7. The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
8. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.
9. The total area proposed to be submerged by Reservoir 1, when full is 1.0 acre; the proposed maximum depth of water in feet is 12.0; the maximum height of the dam is 7.0 feet. The total area proposed to be submerged by Reservoir 2, when full is 1.1 acres; the proposed maximum depth of water in feet is 12; the maximum height of the dam is 9.5 feet. The total area proposed to be submerged by Reservoir 3, when full is 0.4 acres; the proposed maximum depth of water in feet is 18; the reservoir will be excavated. The total area proposed to be submerged by Reservoir 4, when full is 1.5 acres; the proposed maximum depth of water in feet is 14; the maximum height of the dam is 9.5 feet. The total area proposed to be submerged by Reservoir 5, when full is 1.2 acres; the proposed maximum depth of water in feet is 14; the maximum height of the dam is 9.5 feet.
10. The storage of water allowed herein is subject to the installation and maintenance of an fully functional conduit/gate assembly having a minimum diameter of 8 inches.
11. Use under this permit is limited to the reservoir area. This permit does not provide for the appropriation of water for maintaining the water level or maintaining a suitable fresh water condition.
12. In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.
13. This right is limited to any deficiency in the available supply of any prior right existing for the same land.
14. Regulating devices shall be installed pursuant to ORS 540.310. Plans and specifications shall be approved by

the watermaster before installation. Work shall be done under the general supervision of the watermaster. Weirs will be required both upstream and downstream of the reservoirs.

State of Oregon
WATER RESOURCES DEPARTMENT

Application for a Permit to Construct a Reservoir

Applicant(s) Daryl Robinson

(Please print or type - use dark ink)

Mailing Address: 92381 Paradise Point Road

Port Orford,
City

Oregon
State

97465
Zip

(503) 332-7155
Daytime Phone No.

I (We) make application for a permit to construct 5 reservoirs reservoir and store the following described waters of the State of Oregon:

1. **SOURCE OF WATER** for the proposed use: Two Unnamed Streams and field runoff
a tributary of Sixes River

If not in channel of a stream, state how it is to be filled: #3 from nearby fields
(See Supplemental Sheet)

2. **THE DAM:** The maximum height of the structure will be _____ feet above stream bed or ground surface at the centerline.

The dam will be (check one) ☒ earthfill, _____ concrete, _____ flashboard, _____ other.

If "other" give description: _____

See Supplemental sheet for each Reservoir

Give the location, description, and dimensions of the outlet conduit: _____

NOTE: All dams across natural stream channels must be provided with an outlet conduit, minimum diameter of 8", or be of such capacity and location as to pass the normal flow of the stream at any time.

3. **THE USE(s)** of the impounded water will be: Cranberry Use and supplemental
Cranberry use.

4. **THE AMOUNT OF WATER** to be stored is: up to 39 acre-feet acre-feet.
The area submerged by the reservoir, when filled, will be See supplemental sheet acres,
and the maximum depth of water will be See supplemental sheet for feet.
reservoir details

5. **SPILLWAY DESCRIPTION** (location and dimensions). State whether over or around the dam. _____

With the exception of Reservoir #3, all reservoirs will have
an emergency spillway on original ground around the dam.

See supplemental sheet.

6. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin October, 1994

Proposed date construction work will be completed October, 1998

Proposed date water use will be completed October, 1999

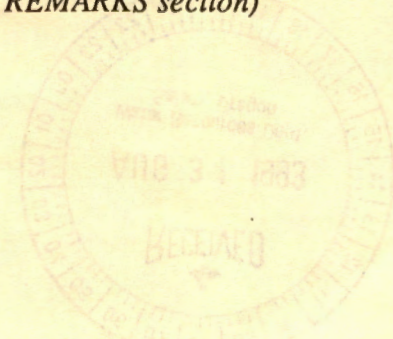

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

7. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

Applicant XX CWRE Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

Applicant XX CWRE Other (Identify in REMARKS section)

8. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? Yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

REMARKS: Reservoir Number 1 will be enlarged from 6 acre feet
to 9 acre feet of storage. Most of the additional storage will
be excavated.

I/We certify that the information I have provided in this application is an accurate representation of the proposed water use and is true and correct to the best of my knowledge.

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

RE: Water Right Application #73610; Report of Technical Review

Because one or more species of game fish are present at the described POD, ODFW will require the applicant to provide fish screening pursuant to ORS 498.248. Therefore, ODFW requests WRD add the following condition to those already proposed:

The permittee shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. The required screens and by-pass devices are to be in place, functional, inspected and approved by an ODFW representative prior to diversion of any water.

Thank you for the opportunity to comment.

Sincerely,

A handwritten signature in dark ink, appearing to read "A. Mirati Jr.", written over the typed name.

RE: Application for Permit #R73610, 73611, Daryl Robison
Sixes R. Tribs, Curry Co., Cranberry Use

WaterWatch has reviewed the limited amount of information contained in the public notice of this water right application. Based upon that information, WaterWatch raises the following issues, questions, and concerns:

Is there unappropriated water available for this proposed use? Does the Department have adequate data to accurately determine the 50% and 80% exceedence levels?

What effect will this proposed use have on instream flows necessary to protect the public's interest in fish, wildlife, recreation, and a healthy aquatic system?

This water source may suffer from water quality problems. Has the Department consulted with the Department of Environmental Quality to determine the effect this proposed withdrawal will have on water quality?

If this water source provides habitat to native fish during any phase of their life cycle, WaterWatch requests that the Department include conditions requiring the installation and maintenance of fish screening and bypass devices prior to any diversion of water.

Will this proposed diversion require a dredge & fill permit from the U. S. Army Corps. of Engineers or a fill and removal permit from the Division of State Lands?

Given the importance of surface water sources, and the Department's limited enforcement staff, it only makes sense to require this applicant to measure and report water use. Measurement not only helps the Department carry out its statutory mandate to promote the control of water resources for all beneficial uses, it helps the Department protect the public's interest in assuring the use is within the bounds of the permit. ORS 536.220(1)(a), 537.170(5).

Will this proposed use be compatible with Goal 5 elements of the local comprehensive plan?

It is a high priority of the state to eliminate waste and improve the efficiency of water use. Statewide policy also calls upon water users to use and maintain their water systems in a manner consistent with the state's priority. What conditions are proposed for this permit that will carry out and encourage compliance with state policy?

Is this an existing illegal use of water? If so, will the continued use without a permit cause harm to existing water rights and the public interest?

Please send WaterWatch a copy of the Department's technical review of this application.

Sincerely,

WaterWatch of Oregon, Inc. 921 S.W. Morrison, Suite 438
Portland, Oregon 97205 (503) 295-4039

Land Use Information Form: Permits, Hydroelectric Licenses, Water Uses In Addition to Classified Uses

September 7, 1993

DARYL ROBISON

92381 PARADISE POINT RD
PORT ORFORD, OR 97465

REFERENCE: File(s) R-73610, S-73611

We have received your application(s) for a water use permit along with your supporting data, documentation, and fees. A receipt is enclosed here unless you were previously issued one. Your application has been assigned the above referenced file number. Please refer to this number whenever you contact us about your application.

Even though your application has been received, filed and assigned an application reference number, no authorization has been granted to develop your water use. The filing of an application does not create a water right. Water may not be used without a water right permit.

After an application has been accepted for filing, public notification of the application is made, followed by the mandatory 30-day comment period. Thereafter, applications can be considered for processing as time allows.

At present the Water Resources Department has a backlog of several thousand applications for water use permits which has delayed our application processing time. Applications are processed in the order in which they are received.

The processing of an application does not guarantee that a water right permit will be issued. Each application must undergo a specialized analysis called a technical review and a public interest review. There is no way to determine at this time whether your particular proposed water use will be recommended for a permit.

REFERENCE: File(s) - R-73610, S-73611

When the report on the technical review is completed and sent to you, a 60-day objection period begins during which you, the applicant, or anyone who has expressed an interest in your proposed water use may communicate to us their disagreement with what we have said in our report on your application. After the 60-day objection period, the Department conducts the public interest review and considers any objections which have been made.

After any objections have been considered, there may follow time to allow parties to resolve conflicts over the proposed water use. In addition, a 30-day protest period may be required. Lastly, it may be necessary to schedule a hearing or send the application to the Water Resources Commission for their review. In most cases no objections are received and the application processing can proceed without further conflict resolution, protest, or hearing.

If your application is recommended for approval and a permit is issued, the use allowed by the permit will be subject to the Basin Program Rules of the Water Resources Commission, instream flow requirements, and the demands of prior right holders, and other conditions to conform the water use to particular standards.

Please contact the Water Rights Section of the Water Resources Department if you have any questions. You may write to us at 3850 Portland Road, Northeast, Salem, Oregon 97310 or you may call 378-3739 in Salem or toll free from within the state 1-800-624-3199.

Sincerely,

Steve Brown
Manager
Water Rights Division
