Reference: Application G-15751 Permit G-15323

The Department has been reviewing the Claim of Beneficial Use (claim) report and map, received on August 26, 2013. The Department is prepared to issue a proposed certificate for this permit; however the Department has identified an issue that must be resolved before the issuance of a certificate.

The Pump Test requirement for the permit has not yet been satisfied. Oregon Administrative Rule 690-217-0020(1) requires that ground water permit holders with a priority date on or after December 20, 1988 submit the results of a pump test for each well listed in your claim of beneficial use before a water right certificate can be issued. These rules also allow the well owner to request one of two types of exemptions related to the testing of the well(s). The first type of exemption request is for an "Unreasonable Burden." This exemption can be requested if testing the well(s) would place an unreasonable burden on the well owner (OAR 690-217-0015(3) and (4)). Examples could include a) an economic hardship or b) the test would cause an interruption of services to customers or possible other necessary uses from the well (domestic, livestock, ect.). The second exemption request allows an owner with multiple wells to request that a qualifying, previously approved pump test on one of their wells be used to satisfy the requirement for additional wells under their ownership (OAR 690-217-0020(3)). No fee is required to request either type of exemption. Exemptions must be requested in writing using one of the two exemption forms before being considered. A one page description of the Pump Test Program along with the necessary forms to request either type of exemption or perform the test is attached. Should you have any additional questions concerning the Pump Test requirements, please contact Halley Barnett at 503-986-0879 or send an email to: wrd_dl_pumptestsupport@oregon.gov

If your name is not listed on the draft certificate, and you are the current landowner, and would like to have the final certificate issued in your name, you may apply through the Department to have the permit assigned to you. If you have any questions about the assignment process, please contact Mary Bjork at 503-986-0817.

Please see enclosures which include 1) a Pump Test Packet and 2) draft certificate for Application G-15751. Please contact the Department and let us know how you wish to proceed. If you have any questions please contact me at 503-986-0887.

Sincerely,

Codi Holmes

STATE OF OREGON

COUNTY OF HARNEY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DENA MOLYNEUX
31907 SUNSET VALLEY LANE
BURNS OR 97720

confirms the right to the use of water perfected under the terms of Permit G-15323. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15751

SOURCE OF WATER: A WELL IN MALHEUR LAKE BASIN

PURPOSE or USE: IRRIGATION OF 32.0 ACRES

MAXIMUM RATE: 0.4 CUBIC FOOT PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: APRIL 24, 2002

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
24 S	31 E	WM	33	SW SE	80 FEET NORTH AND 1980 FEET WEST FROM SE CORNER, SECTION 33

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
25 S	31 E	WM	4	NW NE	2	32.0

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or other suitable measuring device as approved by the Director in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued _____

SECTION 19
 TOWNSHIP 27 SOUTH, RANGE 35 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air

line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

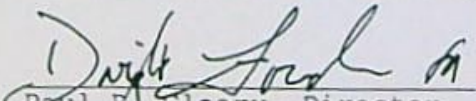

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2008. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

NOWATER USE -> BEFORE 2013

*The water year is named for the calendar year in which it ends. Example: the 2018 water year begins Oct. 1, 2017 and ends Sep. 30, 2018.

- The Water Resources Department makes reasonable efforts to screen the data for quality control; however, the Department cannot accept responsibility for errors, omissions, or accuracy of the information. Notification of any errors is appreciated. Send notifications to wateruse@wr.state.or.us or call (503) 986-0905.
- Water use is reported by point of diversion (POD), rather than by water right.
- If a POD is shared with multiple water rights, it is not feasible to separate out the amount used under the water right being queried from water used by other rights using this same POD.
- Monthly amounts indicate:
 - For diverted rights, the total amount diverted during the month;
 - For storage rights, the amount generally stored in the reservoir/pond during the month, as represented by the volume of water impounded on approximately the same day each month.
- Water use amounts have all been converted to "acre-feet" (AF), regardless of the original measurement unit reported. One AF is the volume of water that will cover an acre of ground one foot deep = 325,850 gallons.
- Zeroes indicate that a report was received stating that no water was used during those months; if a year is not listed, no report of water use was received for that year.

Pump Capacity Calculator

using Department designed formula:

$(hp)(\text{efficiency}) / (\text{lift} + \text{psi head}) = \text{capacity in cfs}$

Efficiency:

Centrifugal = 6.61

Turbine = 7.04

Data Entry (fill in underlined blanks)

HP = 125
Efficiency = 7.04
Lift = 120
PSI = 40

Results Calculated

(hp)(efficiency) = 880
Head based on psi = 101.6
Total dynamic head = 221.6
(head + lift)

Pump Capacity = **3.971** cubic feet per second

Sprinkler Capacity Calculator

Data Entry (fill in underlined blanks)

Sprinkler group 1 Nozzle size = 3/16 inch (type an apostrophe before the size)
 Pressure = 40 PSI
 Number of heads = 8

Sprinkler group 2 Nozzle size = _____ inch (type an apostrophe before the size)
(if applicable) Pressure = _____ PSI
 Number of heads = _____

Sprinkler group 3 Nozzle size = _____ inch (type an apostrophe before the size)
(if applicable) Pressure = _____ PSI
 Number of heads = _____

Results calculated

Sprinkler group 1 capacity = 51.2 gpm, or 0.114 cfs
Sprinkler group 2 capacity = 0 gpm, or 0.000 cfs
Sprinkler group 3 capacity = 0 gpm, or 0.000 cfs

Total sprinkler capacity = 51.2 gpm, or 0.114 cfs

Note: If entered values return a result of 0 gpm or "#N/A", then the sprinkler capacity chart does not contain a rate for that nozzle size and PSI.
A rough alternate calculation can be made using this formula:
 $28.93 \times (\text{orifice size in decimal, squared}) \times (\text{square root of pressure})$
(Source: rainbird.com)

**CLAIM OF
BENEFICIAL USE**
**for Permits claiming more than
0.1 cfs and All Transfers**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

No fee is required for submitting this form for a transfer.

**A fee of \$150 must accompany this form to be accepted for permits
with a priority date of July 9, 1987, or later. (ORS 536.050(1))**

A separate form shall be completed for each permit.

In cases where a permit has been amended through the permit amendment process, a separate claim for the permit amendment is not required. Incorporate the permit amendment into the claim for the permit.

This form is subject to revision. **Begin each new claim** by checking for a new version of this form at:
http://www.wrd.state.or.us/OWRD/WR/cwre_info.shtml#.

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. **Every item must have a response.** If any requested information does not apply to the claim, insert "NA." **Do not delete or alter any section of this form unless directed by the form.** The Department may require the submittal of additional information from any water user or authorized agent.

If you have questions regarding the completion of this form, please call 503-986-0900 and ask for the Certificate Section.

The Department has a program that allows it to enter into a voluntary agreement with an applicant for expedited services. Under such an agreement, the applicant pays the cost to hire additional staff that would not otherwise be available. This program means a certificate may be issued in about a month. For more information on this program see
http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml.

SECTION 2
SYSTEM DESCRIPTION

A. Points of Diversion/Appropriation

1. Point of diversion/appropriation name or number:

POINT OF DIVERSION/APPROPRIATION (POD/POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
POA	HARN 1515	Not available

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of diversion/appropriation source and, if from surface water, the tributary:

POD/POA NAME OR NUMBER	SOURCE	TRIBUTARY
POA	Malheur Lake Basin	NA

3. Developed use(s), period of use, and rate for each use:

POD/POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	RATE OR VOLUME FOR USE (CFS, GPM, OR AF)
POA	Irrigation	Alfalfa -Pasture	Mar. 1 thru Oct. 31	2.58 cfs
Total Quantity of Water Used				2.58 cfs

4. Provide a general narrative description of the distribution works. This description must trace the water system from **each** point of diversion or appropriation to the place of use:

The water is pumped from the well westerly through an above ground 10 inch steel mainline 10 feet where it becomes an 8 inch PVC buried mainline, thence westerly 1260 feet to a fork where the mainlines become above ground. Fork One continues west in an 8 inch aluminum pipe 620 feet, thence north, 796 feet. This last section serves a hand line to irrigate the 7.7 acre field in the SENE of Section 24. Fork Two runs northwest in an 8 inch buried PVC pipeline 2,377 feet to Center Pivot # 1.

From the well the water is also conveyed northerly through a 8 inch buried PVC mainline 1,600 feet to Pivot #2.

From the well water as also conveyed southeasterly through an 8 inch buried PVC mainline 576 feet to Center Pivot #3. This pivot irrigates 7.1 acres for this permit. It covers more acreage under other certificates.

RECEIVED BY OWRD

AUG 26 2013

SECTION 2

SYSTEM DESCRIPTION (B through H)

Are there multiple PODs or POAs?

NO

If "YES" you will need to copy and complete Sections 2B through 2H for each POD/POA.

POD/POA Name or Number this section describes (only needed if there is more than one):

NA

B. Place of Use

1. Is the right for municipal use?

NO

If "YES" the table below may be deleted.

RECEIVED BY OWRD

C. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport and apply the water from the point of diversion/appropriation to the place of use.

AUG 26 2013

SALEM, OR

1. Is a pump used?

YES

If "NO" items 2 through item 6 may be deleted.

2. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
U.S. Electric	Unknown	Unknown	Turbine	10"	8"

2. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
U.S. Electric	Unknown	Unknown	Turbine	10"	8"

3. Motor Information

MANUFACTURER	HORSEPOWER
U.S. Electric	125

4. Theoretical Pump Capacity

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *IF A WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
125	40	80 ft.	40 ft.	3.97cfs

5. Provide pump calculations:

RECEIVED BY OWRD

See attached Exhibit A

AUG 26 2013

SALEM, OR

6. Measured Pump Capacity (using meter if meter was present and system was operating)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
NA	NA	NA	NA

Reminder: For pump calculations use the reference information at the end of this document.

7. Is the distribution system piped?

YES

If "NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
10"	3,638 ft.	PVC	Buried
8"	2176 ft.	PVC	Buried
8"	1418 ft.	PVC	Above Ground

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
4"	400 ft.	Aluminum	Above Ground

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
3/16	40 psi	5.4	8	8	0.11 cfs

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
Pivot #1-Lindsay	1322.47 ft.	43 psi	940 cgpm	2.09 cfs
Pivot #2- Zimmatic	1167.43 ft.	40 psi	725 gpm	1.61 cfs
Pivot #3- Zimmatic	1002.77 ft.	40 psi	535 gpm	1.19 cfs

12. Additional notes or comments related to the system:

D. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)? YES

If "NO", items 2 through 8 relating to this section may be deleted.

2. Describe the access port (type and location) or other means to measure the water level in the well:

Access port is 1" in diameter, located 20" above ground level on the east side of wellhead.

3. If well logs are not available, provide as much of the following information as possible:

CASING DIAMETER	CASING DEPTH	TOTAL DEPTH	COMPLETION DATE OF ORIGINAL WELL	COMPLETION DATES OF ALTERATIONS	WHO THE WELL WAS DRILLED FOR	WELL DRILLED BY
12"	180 ft.	400 ft.	7/3/1977	NA	Ken Bentz	Max Holloway

4. In addition to the information requested in item "3" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

NA

5. Is the appropriation from a dug well (sump)? NO

If "NO", items 6 through 8 relating to this section may be deleted.

Reminder: Construction standards for sumps can be found in OAR 690-210-0400.

E. Storage

1. Does the distribution system include in-system storage (i.e. storage tank, bulge in system / reservoir) NO

If "NO", item 2 and 3 relating to this section may be deleted.

If "YES" is it a: Storage Tank NO

Bulge in System / Reservoir NO

Complete appropriate table(s), unused table may be deleted.

RECEIVED BY OWRD

AUG 26 2013

F. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

G. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

H. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

Reminder: Complete this section if the reservoir right has been modified through the transfer process. If the claim is for a permitted reservoir use the Claim of Beneficial Use form for reservoirs.

If "NO", items 2 through 9 relating to this section may be deleted.

SECTION 3 CONDITIONS

All conditions contained in the permit, permit amendment, transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits, transfer final orders, and any extension final orders contain any or all of the following dates: the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit, extension or transfer final order:

	DATE FROM PERMIT OR TRANSFER	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	11/25/2003		
BEGIN CONSTRUCTION (A)	Unspecified	Spring 2001	Begin Construction
COMPLETE CONSTRUCTION (B)	Unspecified	2003	Complete Construction
COMPLETE APPLICATION OF WATER (C)	10/1/2008	Spring 2004	Complete Application of Water

* MUST BE WITHIN PERIOD BETWEEN PERMIT, TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETELY APPLY WATER

2. Is there an extension final order(s)?

RECEIVED BY OWRD NO

If "NO", you may delete item 3 in this section.

AUG 26 2013

SALEM, OR

4. Initial Water Level Measurements:

a. Was the water user required to submit an initial static water level measurement? **NO**

If "NO", items 4b through 4d relating to this section may be deleted.

5. Annual Static Water Level Measurements:

a. Was the water user required to submit annual static water level measurements? **NO**

If "NO", items 5b through 5e relating to this section may be deleted.

6. Pump Test (Required for most ground water permits prior to issuance of a certificate)

a. Did the permit require the submittal of a pump test? **YES**

If "NO", items 6b through 6e relating to this section may be deleted.

b. Has the pump test been previously submitted to the Department? **NO**

c. Is the pump test attached to this claim? **YES**

d. Has the pump test been approved by the Department? **NO**

e. Has a pump test exemption been approved by the Department? **NO**

7. Measurement Conditions:

a. Does the permit, permit amendment, transfer final order, or any extension final order require the installation of a meter or approved measuring device? **YES**

If "NO", items 7b through 7f relating to this section may be deleted.

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

b. Has a meter been installed? **NO**

c. Meter Information

POD/POA NAME OR #	MANUFACTURER	SERIAL #	CONDITION (WORKING OR NOT)	CURRENT METER READING	DATE INSTALLED
NA	NA	NA	NA	NA	NA

If a meter has been installed, items 7d through 7f relating to this section may be deleted.

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? **YES**

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

NAME	TITLE	APPROXIMATE DATE
Gerry Clark - See Exhibit B	Certificate Examiner	July 31, 2012

f. Measurement Device Description

DEVICE DESCRIPTION	CONDITION (WORKING OR NOT)	DATE INSTALLED
Dedicated electric power meter	Working	2002 RECEIVED BY OWRD

8. Recording and reporting conditions

a. Is the water user required to report the water use to the Department?

YES

If "NO", item 8b relating to this section may be deleted.

b. Have the reports been submitted?

NO

METHOD OF SUBMITTING REPORT (PAPER OR ELECTRONIC)	WATER USER REPORTING ID
NA	NA

If the reports have not been submitted, attach a copy of the reports if available.

See Exhibits C1 thru C8

9. Fish Screening

a. Are any points of diversion required to be screened to prevent fish from entering the point of diversion?

NO

If "NO", items 9b through 9e relating to this section may be deleted.

Reminder: If fish screening devices were required, the COBU map must indicate their location in relation to the point of diversion.

10. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?

NO

If "NO", items 10b and 10c relating to this section may be deleted.

Reminder: If by-pass devices were required, the COBU map must indicate their location in relation to the point of diversion.

11. Other conditions required by permit, permit amendment final order, extension final order, or transfer final order:

a. Were there special well construction standards?

NO

b. Was submittal of a ground water monitoring plan required?

NO

c. Was the water user required to restore the riparian area if it was disturbed?

NO

d. Was a fishway required?

NO

e. Was submittal of a letter from an engineer required prior to storage of water?

NO

f. Was submittal of a water management and conservation plan required?

NO

g. Other conditions?

NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

Empty rectangular box for providing details of conditions.

RECEIVED BY OWRD

AUG 26 2013

**SECTION 4
VARIATIONS**

Include a description of variations from the permit, permit amendment final order, extension final order, or transfer final order. (i.e. "The permit allowed three points of diversion. The water user only developed one of the points." or "The permit allowed 40.0 acres of irrigation. The water user only developed 10.0 acres.")

The permit allowed two points of appropriation. The water user only developed one of the points. Well No. 1 as described in the permit is used for domestic purposes only.

The permit allowed 218.8 acres of irrigation. The water user only developed 206.4 acres.

**SECTION 5
ATTACHMENTS**

Provide a list of any additional documents you are attaching to this report:

ATTACHMENT NAME	DESCRIPTION
Exhibit A	Pump capacity calculations.
Exhibit B	Letter approving measuring device per page 9
Exhibit C1 thru C8	Water Use Recording and Reporting Forms
Exhibit D	Pump Test

**SECTION 6
CLAIM SUMMARY**

POD / POA NAME OR #	MAXIMUM RATE AUTHORIZED	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED	USE	# OF ACRES ALLOWED	# OF ACRES DEVELOPED
POA	2.74 cfs	3.81 cfs	NA	Irrigation	218.8	206.4

**SECTION 7
CLAIM OF BENEFICIAL USE MAP**

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Used GPS in RTK mode to locate well at POA, mainlines, pivots, irrigated fields, dedicated electric power meter and the South 1/4 corner of Sec. 19.

Map Checklist

Please be sure that the map you submit includes ALL the items listed below.
(Reminder: Incomplete maps and/or claims may be returned.)

- X Map on polyester film
- X Appropriate scale (1" = 400 feet, 1" = 1320 feet, or the original full-size scale of the county assessor map)
- X Township, Range, Section, Donation Land Claims, and Government Lots
- X If irrigation, number of acres irrigated within each projected Donation Land Claims, Government Lots, Quarter-Quarters
- NA Locations of fish screens and/or fish by-pass devices in relationship to point of diversion
- X Locations of meters and/or measuring devices in relationship to point of diversion or appropriation
- X Conveyance structures illustrated (pumps, reservoirs, pipelines, ditches, etc.)
- X Point(s) of diversion or appropriation (illustrated and coordinates)
- X Tax lot boundaries and numbers
- NA Source illustrated if surface water
- X Disclaimer ("This map is not intended to provide legal dimensions or locations of property ownership lines")
- X Application and permit number or transfer number
- X North arrow
- X Legend
- X CWRE stamp and signature

Pump Capacity Calculation Sheet

using Department designed formula:

$$(\text{hp})(\text{efficiency}) / (\text{lift} + \text{psi head}) = \text{capacity in cfs}$$

Efficiency:

Centrifugal = 6.61

Turbine = 7.04

Data Entry (fill in underlined blanks)

HP = 125
Efficiency = 7.04
Lift = 120
PSI = 40

Results Calculated

(hp)(efficiency) = 880
Head based on psi = 101.6
Total dynamic head = 221.6
(head + lift)

Pump Capacity = 3.97 feet per second

PERMIT G-15528

EXHIBIT A

RECEIVED BY OWRD

AUG 26 2013

SALEM, OR

Bob Bagett

From: "Gerry Clark" <gerald.e.clark@state.or.us>
To: <bob@johndaysurveyors.com>
Sent: Tuesday, July 31, 2012 4:33 PM
Subject: FW: G-15528 Ramsay
 Bob,

As we discussed, this permit had a requirement to install a meter or other suitable measurement device and to report their monthly water use on a yearly basis. I checked the file and with our Water Use reporting Section to see if we have any water use reports on file for this permit. We have not received any water use reports for this permit.

Since we do not have any water use reports, the water user has two options at this time:

1. Submit the CBU along with water use reports for the period between November 25, 2003 and the "C" Date of October 1, 2008; or
2. Submit an application for a Permit Extension of Time to gain more time so that they can come into compliance with the condition.

Please let me know if you have any additional questions related to this permit.

Gerry

Hi Gerry,

Your hunch was correct. I do not have any water use reporting on file for the Ramsays.

Thanks!

Water Use Recording and Reporting Form

2011 06

Consult the water right (permit, certificate, order) to determine applicable reporting conditions; the measurement, recording, and reporting conditions identified in a permitted or certified water right typically follow the place of use description. Use the columns below to document measurements for each authorized point of diversion/appropriation or reservoir. We ask that zeros be reported for any given month when water is not being used. Keep a copy of all measurement reports for your records. We encourage you to submit your water use data via our online utility when available, and to use the Monthly Water Use Forms for record keeping purposes. To lookup water rights, access the water use reporting webpage/online utility, or to obtain additional forms visit our web site: <http://www.wrd.state.or.us>

From: Gerry Clark
Sent: Wednesday, December 12, 2012 11:43 AM
To: bob@johndaysurveyors.com
Subject: Water Right Information - Permit G-15528

Bob,

Here are links to the two well logs that were referenced in the file:

http://apps.wrd.state.or.us/apps/misc/vault/vault.aspx?wl_county_code=HARN&wl_nbr=1515

http://apps.wrd.state.or.us/apps/misc/vault/vault.aspx?wl_county_code=HARN&wl_nbr=50594

FYI - It looks like in August of 2012, I had an inquiry about this file and checked to see if any water use had been reported to the Department. At that time, we did not have any water use reports submitted. In order to demonstrate compliance, the Department would need to have some report of water use for the period between permit issuance and the "C" Date (October 1, 2008).

To: Jerry Sauter
Subject: Permit G-15528

App. G-1592

Hi Jerry,

Donald and Susan Ramsay are the owner/operators of property as shown on Application Map - Permit G-15528. The permit allows for irrigation of 218.8 acres from two wells in the Malheur Lake Basin. Complete application of the water was to be on or before October 1, 2008 with one year from that date to submit a Claim of Beneficial Use.

The October 1, 2009 deadline slipped by the Ramsay's. Mr. and Mrs. Ramsay have contacted me and want to me complete their COBU. I am busy with other water rights and would like a year from today's date to complete their COBU.

So, in behalf of the Ramsay's I am asking that you grant a new deadline of August 2, 2013 for this COBU and Final Proof Map.

Thanks Jerry,

Best regards,

Bob Bagett, CWRE

Hi Gerry,

Your hunch was correct. I do not have any water use reporting on file for the Ramsays.

Thanks!

Final Order

Application History

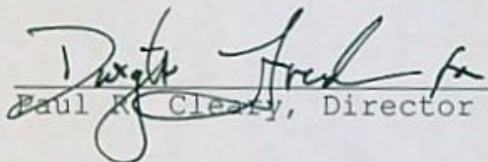

On February 20, 2003, DONALD AND SUSAN RAMSAY submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on August 19, 2003. The protest period closed October 3, 2003, and no protest was filed.

The proposed use would not impair or be detrimental to the public interest.

Order

Application G-15929 therefore is approved as proposed by the Proposed Final Order, and Permit G-15528 is issued as limited by the conditions proposed by the Proposed Final Order.

DATED November 25, 2003

Paul R. Cleary, Director

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of this order must be filed within the 60 day time period specified by ORS 183.484(2).

This statement of judicial review rights does not create a right to judicial review of this order, if judicial review is otherwise precluded by law. Where no changes have been made to a Proposed Final Order on a water right application and no protests have been filed during the protest period, the final order is not subject to judicial review.

This document was prepared by Anita Huffman. If you have any questions about any of the statements contained in this document I am the most likely the best person to answer your questions. You can reach me at (503) 986-0815.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun at 503-986-0824.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at 503-986-0801.

*Address all other correspondence to: Water Rights Section, Oregon Water Resources Department,

COUNTY OF HARNEY

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

DONALD AND SUSAN RAMSAY
48680 HWY 78
PRINCETON, OR 97721

(541) 493-2076

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-15929

SOURCE OF WATER: TWO WELLS IN THE MALHEUR LAKE BASIN

PURPOSE OR USE: IRRIGATION USE ON 218.8 ACRES

MAXIMUM RATE: 2.74 CUBIC FEET PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: February 20, 2003

WELL LOCATIONS:

WELL #1 NW $\frac{1}{4}$ SW $\frac{1}{4}$ SECTION 19, T27S, R35E, W.M.; 2075 FEET NORTH & 2277 FEET WEST FROM S1/4 CORNER, SECTION 19

WELL #2 NE $\frac{1}{4}$ SW $\frac{1}{4}$ SECTION 19, T27S, R35E, W.M.; 2511 FEET NORTH & 1191 FEET WEST FROM S1/4 CORNER, SECTION 19

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW $\frac{1}{4}$ SE $\frac{1}{4}$ 15.4 ACRES
SE $\frac{1}{4}$ SE $\frac{1}{4}$ 15.3 ACRES
SECTION 13

NE $\frac{1}{4}$ NE $\frac{1}{4}$ 38.2 ACRES
NW $\frac{1}{4}$ NE $\frac{1}{4}$ 38.4 ACRES
SW $\frac{1}{4}$ NE $\frac{1}{4}$ 10.1 ACRES

SE ¼ NE ¼ 21.7 ACRES
 SECTION 24
 TOWNSHIP 27 SOUTH, RANGE 34 EAST, W.M.

GOVT LOT: 2	SW ¼ NW ¼ 1.1 ACRES
	SE ¼ NW ¼ 12.8 ACRES
	NE ¼ SW ¼ 3.4 ACRES
GOVT LOT: 3	NW ¼ SW ¼ 2.4 ACRES
GOVT LOT: 4	SW ¼ SW ¼ 1.7 ACRES
	SE ¼ SW ¼ 0.5 ACRES

SECTION 19
 TOWNSHIP 27 SOUTH, RANGE 35 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air

line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

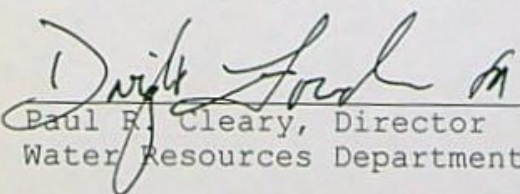

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2008. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Water Rights Application
Number G-15929

Proposed Final Order

Summary of Recommendation: The Department recommends that the attached draft permit be issued with conditions.

Application History

On February 20, 2003, DONALD AND SUSAN RAMSAY submitted an application to the Department for the following water use permit:

- Amount of Water: 4.902 CUBIC FEET PER SECOND (CFS)
- Use of Water: IRRIGATION USE ON 218.8 ACRES
- Source of Water: TWO WELLS IN THE MALHEUR LAKE BASIN
- Area of Proposed Use: Harney County within SECTIONS 13 and 24, TOWNSHIP 27 SOUTH, RANGE 34 EAST, W.M.; AND SECTION 19, TOWNSHIP 27 SOUTH, RANGE 35 EAST, W.M.

On June 27, 2003, the Department mailed the applicant notice of its Initial Review, determining that "The use of 2.73 CUBIC FEET PER SECOND from TWO WELLS IN THE MALHEUR LAKE BASIN for IRRIGATION USE ON 218.8 ACRES is allowable from March 1 through October 31 of each year." The applicant did not notify the Department to stop processing the application within 14 days of that date.

On July 1, 2003, the Department gave public notice of the application in its weekly notice. The public notice included a request for comments, and information for interested persons about both obtaining future notices and a copy of the proposed final order.

No written comments were received within 30 days.

In reviewing applications, the Department may consider any relevant sources of information, including the following:

- comments by or consultation with another state agency
- any applicable basin program
- any applicable comprehensive plan or zoning ordinance
- the amount of water available
- the rate and duty for the proposed use
- pending senior applications and existing water rights of record
- designations of any critical groundwater areas

- the Scenic Waterway requirements of ORS 390.835
- applicable statutes, administrative rules, and case law
- any general basin-wide standard for flow rate and duty of water allowed
- the need for a flow rate and duty higher than the general standard
- any comments received

Findings of Fact

The Malheur Basin Program allows IRRIGATION USE.

TWO WELLS IN THE MALHEUR LAKE BASIN are not within or above a State Scenic Waterway.

The Groundwater Section finds, per OAR 390.835(9), there is not a preponderance of evidence that the proposed use of groundwater will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

The Department determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.

An assessment of groundwater availability has been completed by the Department's Groundwater/Hydrology section. A copy of this assessment is in the file. The proposed use of groundwater will, if properly conditioned, avoid injury to existing rights and the resource.

The Department finds that no more than 2.74 CFS would be necessary for the proposed use. The amount of water allowed shall be restricted to 2.74 CFS.

The proposed well is not within a designated critical ground water area.

Conclusions of Law

Under the provisions of ORS 537.621, the Department must presume that a proposed use will ensure the preservation of the public welfare, safety and health if the proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under ORS 536.310(12), if water is available, if the proposed use will not injure other water rights and if the proposed use complies with rules of the Water Resources Commission.

The proposed use requested in this application is allowed in the Malheur Basin Plan, or a preference for this use is granted under the provisions of ORS 536.310(12).

Water is available for the proposed use.

The proposed use will not injure other water rights.

The proposed use complies with other rules of the Water Resources Commission not otherwise described above.

The proposed use complies with the State Agency Agreement for land use.

No proposed flow rate and duty of water higher than the general basin-wide standard is needed.

For these reasons, the required presumption has been established.

Under the provisions of ORS 537.621, once the presumption has been established, it may be overcome by a preponderance of evidence that either:

- (a) One or more of the criteria for establishing the presumption are not satisfied; or
- (b) The proposed use would not ensure the preservation of the public welfare, safety and health as demonstrated in comments, in a protest . . . or in a finding of the department that shows:
 - (A) The specific aspect of the public welfare, safety and health under ORS 537.525 that would be impaired or detrimentally affected; and
 - (B) Specifically how the identified aspect of the public welfare, safety and health under ORS 537.525 would be impaired or be adversely affected.

In this application, all criteria for establishing the presumption have been satisfied, as noted above. The presumption has not been overcome by a preponderance of evidence that the proposed use would impair or be detrimental to the public interest.

The Department therefore concludes that water is available in the amount necessary for the proposed use; the proposed use will not result in injury to existing water rights; and the proposed use would ensure the preservation of the public welfare, safety and health as described in ORS 537.525.

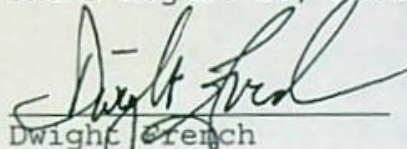

When issuing permits, ORS 537.628(1) authorizes the Department to include limitations and conditions which have been determined necessary to

protect the public welfare, safety, and health. The attached draft permit is conditioned accordingly.

Recommendation

The Department recommends that the attached draft permit be issued with conditions.

DATED August 19, 2003

Dwight French
Water Rights Section Manager

*If you have any questions,
please check the information
box on the last page for the
appropriate names and
phone numbers.*

Protest Rights and Standing

Under the provisions of 537.621(7), you have the right to protest this proposed final order. Your protest must be in writing, and must include the following:

- Your name, address, and telephone number;
- A description of your interest in the proposed final order, and, if you claim to represent the public interest, a precise statement of the public interest represented;
- A detailed description of how the action proposed in this proposed final order would impair or be detrimental to your interest;
- A detailed description of how the proposed final order is in error or deficient, and how to correct the alleged error or deficiency;
- Any citation of legal authority to support your protest, if known; and
- If you are not the applicant, the protest fee required by ORS 536.050 (\$200 before October 1, 2003; \$250 on or after October 1, 2003) and proof of service of the protest upon the applicant.
- If you are the applicant, a statement of whether or not you are requesting a contested case hearing. If you do not request a hearing, the Department will presume that you do not wish to contest the findings of the proposed final order.
- If you do not protest this Proposed Final Order and if no substantive changes are made in the final order, you will not have an opportunity for judicial review, protest or appeal of the final order when it is issued.

Requests for Standing

Under the provisions of 537.621(6), persons other than the applicant who support a proposed final order may request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order. A request for standing shall be in writing, include a statement that the requester supports the proposed final order, and a statement of how the requester would be harmed if the proposed final order is modified. The fee required at the time of submitting this request is \$50.00. If a hearing is scheduled, an additional fee of \$150.00 must be submitted along with a request for intervention. Forms to request standing are available from the Department.

Your protest or request for standing must be received in the Water Resources Department no later than October 3, 2003.

After the protest period has ended, the Director will either issue a final order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been submitted and if

- upon review of the issues, the director finds that there are significant disputes related to the proposed use of water, or
- the applicant requests a contested case hearing within 30 days after the close of the protest period.

This document was prepared by Anita Huffman. If you have any questions about any of the statements contained in this document I am most likely the best person to answer your questions. You can reach me at 1-503-378-8455 extension 229.

If you have questions about how to file a protest or if you have previously filed a protest and want to know the status, please contact Renee Moulun. Her extension number is 239.

If you have other questions about the Department or any of its programs please contact our Water Rights Information Group at extension 201.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2008. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

SEE NEXT PAGE

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued _____, 2003

DRAFT - THIS IS NOT A PERMIT

Paul R. Cleary, Director
Water Resources Department

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

Dear Applicants:

THIS IS NOT A PERMIT AND IS SUBJECT TO CHANGE AT THE NEXT PHASE OF PROCESSING.

This letter is to inform you of the preliminary analysis of your water use permit application and to describe your options. In determining whether a water use permit application may be approved, the Department must consider the factors listed below, all of which must be favorable to the proposed use if it is to be allowed. Based on the information you have supplied, the Water Resources Department has made the following preliminary determinations:

Initial Review Determinations:

1. The proposed use is not prohibited by law or rule except as otherwise noted below.
2. The use of water from TWO WELLS IN THE MALHEUR LAKE BASIN for IRRIGATION USE ON 218.8 ACRES is **allowable** under OAR 690-510-010(1), the Malheur Basin Program.
3. The Department has determined, based upon OAR 690-09, that the proposed groundwater use will, if properly conditioned, adequately protect the surface water from interference.
4. The Department has also determined, based upon available data, that the use of groundwater in the amount of 4.9 CUBIC FEET PER SECOND (CFS) for IRRIGATION USE ON 218.8 ACRES is **available**, and if properly conditioned, will not injure existing rights or the groundwater resource.
5. The Department has determined that the standard allowable rate of water necessary for irrigation use of groundwater in your area is 1/80 cubic foot per second (CFS) per acre. Your application requested 4.9 CFS. If the application is approved, the rate allowed will be limited to 2.73 CFS (1228.0 GALLONS PER MINUTE)

Summary of Initial Determinations

The use of 2.73 CUBIC FEET PER SECOND from TWO WELLS IN THE MALHEUR LAKE BASIN for IRRIGATION USE ON 218.8 ACRES is allowable from March 1 through October 31 of each year.

Because of these favorable determinations, the Department can now move your application to the next phase of the water rights application review process. This phase is where public interest factors will be evaluated.

Please reference the application number when sending any correspondence regarding the conclusions of this initial review. Comments received within the comment period will be evaluated at the next phase of the process.

To Proceed With Your Application:

If you choose to proceed with your application, you do not have to notify the Department. Your application will automatically be placed on the Department's Public Notice to allow others the opportunity to comment. After the comment period the Department will complete a public interest review and issue a proposed final order.

Withdrawal Refunds:

If you choose not to proceed, you may withdraw your application and receive a refund (minus a \$50 processing charge per application.) To accomplish this you must notify the Department in writing by **Friday, July 11, 2003**. For your convenience you may use the enclosed "STOP PROCESSING" form.

If A Permit Is Issued It Will Likely Include The Following Conditions:

1. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
2. The priority date for this application is February 20, 2003.

The water source identified in your application is in an area that has an approved Agricultural Water Quality Management Area Plan. These plans have been developed by the Oregon Department of Agriculture (ODA) with the cooperation of local landowners and other interested stakeholders. These plans help make sure that current and new appropriations of water are done in a way that does not adversely harm the environment. You are encouraged to contact Paul Measeles, (503) 986-4778 at the ODA to learn more about the plan and how it may affect your proposed water use.

If you have any questions:

Questions about the status of your application, processing timelines, or your upcoming Proposed Final Order should be directed to our Water Right Information Group at 503-378-8455 extension 201. Feel free to call me at 503-378-8455 extension 229 if you have any questions regarding the contents of this letter. Please have your application number available if you call. Address all other correspondence to: Water Rights Section, Oregon Water Resources Department, 158 12th ST. NE Salem, OR 97301-4172, Fax: 503-378-6203.

Sincerely,

Arnta M. Huffman

Date of Review(s)

PUBLIC INTEREST PRESUMPTION: GROUNDWATER

OAR 690-310-130 (1) The Department shall presume that a proposed groundwater use will ensure the preservation of the public welfare, safety and health as described in ORS 537.525. Department staff review ground water applications under OAR 690-310-140 to determine whether the presumption is established. OAR 690-310-140 allows the proposed use be modified or conditioned to meet the presumption criteria. This review is based upon available information and agency policies in place at the time of evaluation.

A. GENERAL INFORMATION: Applicant's Name: Donald R + Susan M. Ramsay

A1. Applicant(s) seek(s) 4.90 cfs from 2 well(s) in the Malheur Basin,
South Fork Malheur subbasin Quad Map: Sand Gap

A2. Proposed use: Irrig., primary 218.8 acres Seasonality: March 1 to October 31

A3. Well and aquifer data (attach and number logs for existing wells; mark proposed wells as such under logid):

Well	Logid	Proposed Aquifer*	Proposed Rate(cfs)	Location (T/R-S QQ-Q)	Location, metes and bounds, example: 2250' N, 1200' E fr NW cor S 36

B. GROUND WATER AVAILABILITY CONSIDERATIONS, OAR 690-310-130 (b) (c)

B1. Based upon available data, I have determined that ground water for the proposed use:

- a. is over appropriated, is not over appropriated, or cannot be determined to be over-appropriated during any period of the proposed use;
- b. will not or will likely be available in the amounts requested without injury to prior ground water rights;
- c. will not or will likely to be available within the capacity of the ground water resource; or
- d. will, if properly conditioned, avoid injury to existing ground water rights or to the ground water resource:
 - i. The permit should contain condition #(s) 7B;
 - ii. The permit should be conditioned as indicated in item 2 below.
 - iii. The permit should contain special condition(s) as indicated in item 3 below;

- B2. a. Condition to allow ground water production from no deeper than _____ ft. below land surface;
- b. Condition to allow ground water production from no shallower than _____ ft. below land surface;
- c. Condition to allow ground water production only from the _____ ground water reservoir between approximately _____ ft. and _____ ft. below land surface;
- d. Well reconstruction is necessary to accomplish one or more of the above conditions. The problems that are likely to occur with this use and without reconstructing are cited below. Without reconstruction, I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Department and approved by the Ground Water Section.

Describe injury –as related to water availability– that is likely to occur without well reconstruction (interference w/ senior water rights, not within the capacity of the resource, etc): _____

B3. Ground water availability remarks: _____

C. GROUND WATER/SURFACE WATER CONSIDERATIONS. OAR 690-09-040

C1. 690-09-040 (1): Evaluation of aquifer confinement:

Well	Aquifer or Proposed Aquifer	Confined	Unconfined
1	Quaternary to Tertiary volcanic flows	<input checked="" type="checkbox"/> *	<input type="checkbox"/> can't determine
2	" " " "	<input checked="" type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>

Basis for aquifer confinement evaluation: Lack of well construction info for #1 well makes this evaluation impossible for this well. For well #2, the static water level is similar to depth water first found, but the well is cased + sealed to a hard basalt. I conclude the aquifer here is poorly confined and may locally be unconfined. *I will presume well #1 is also penetrating this poorly confined aquifer.

C2. 690-09-040 (2) (3): Evaluation of distance to, and hydraulic connection with, surface water sources. All wells located a horizontal distance less than 1/4 mile from a surface water source that produce water from an unconfined aquifer shall be assumed to be hydraulically connected to the surface water source.

Well	SW #	Surface Water Name	GW Elev ft msl	SW Elev ft msl	Distance (ft)	Hydraulically Connected?			Potential for Subst. Interfer. Assumed?	
						YES	NO	ASSUMED	YES	NO
1	1	unnamed intermittent stream	4105	4140	1150	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2	1	" " "	4088	4120	606	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
1	2	S. Fork Malheur River	4105	4115	9000	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2	2	" " "	4088	4115	9000	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Basis for aquifer hydraulic connection evaluation: Estimated difference between g.w. elevation and surface water elevation (32-35 feet) is significant. Cannot presume hydraulic connection in this case.

C3a. 690-09-040 (4): Evaluation of stream impacts for each well that has been determined or assumed to be hydraulically connected and less than 1 mile from a surface water source. Limit evaluation to instream rights and minimum stream flows that are pertinent to that surface water source, and not lower SW sources to which the stream under evaluation is tributary. If Q is not distributed by well, use full rate for each well. If modeled, include description and model parameters in Comments (C3b). Any checked box indicates the well is assumed to have the potential to cause substantial interference with surface water.

Well	SW #	Well < 1/4 mile?	Qw > 5 cfs?	Instream Water Right ID	Instream Water Right Q (cfs)	Qw > 1% ISWR?	80% Natural Flow (cfs)	Qw > 1% of 80% Natural Flow?	Interference @ 30 days (%)	Potential for Subst. Interfer. Assumed?
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>

C3b. 690-09-040 (4): Evaluation of stream impacts by total appropriation for all wells determined or assumed to be hydraulically connected and less than 1 mile from a surface water source. Complete only if Q is distributed among wells. Otherwise same evaluation and limitations apply as in C3a above.

SW #	Qw > 5 cfs?	Instream Water Right ID	Instream Water Right Q (cfs)	Qw > 1% ISWR?	80% Natural Flow (cfs)	Qw > 1% of 80% Natural Flow?	Interference @ 30 days (%)	Potential for Subst. Interfer. Assumed?
	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>
	<input type="checkbox"/>			<input type="checkbox"/>		<input type="checkbox"/>		<input type="checkbox"/>

Comments: This section does not apply.

C4a. 690-09-040 (5): Estimated impacts on surface water sources as percent or qualitative fraction* of proposed pumping rate. Limit evaluation to one year of pumping.

Well	SW#	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
1	1	VL											VL
2	1	VL											VL
1	2	VL											VL
2	2	VL											VL

*VL = Very Low (<5%), L = Low (5-25%), I = Intermediate (25-75%), H = High (>75%).

Basis for impact evaluation: Lack of direct hydraulic connection + head difference between GW + SW will result in very low impacts on surface water sources.

C4b. 690-09-040 (5): Evaluation of paragraphs under subsection 5. A determination of Low denotes no connection or a very indirect connection between surface water and ground water; High denotes hydraulic connection that would likely reduce surface water availability in the first year of pumping. Do not equate "Low" and "High" between C4a and C4b.

- (a) The potential to reduce surface water availability in unnamed intermittent creek is Low or High
- The potential to reduce surface water availability in Si. Fork Malheur River is Low or High
- The potential to reduce surface water availability in _____ is Low or High
- The potential to reduce surface water availability in _____ is Low or High

Basis: _____

(b) The potential to impair or detrimentally affect the public interest is to be determined by the Water Rights Section.

C4b. 690-09-040 (5):. Evaluation of paragraphs under subsection 5 continued.

(c) The percentage of appropriation in the first year of use that will be at the expense of surface water unknown, but very low

Basis: _____

(d) The timing of interference will be immediate (within one year), or delayed;

Basis: _____

(e) The potential for cumulative adverse impacts: A graphical distribution of POAs and summary of permitted rights
 are or are not available at this time of review.

Impacted stream	Impacted basin or sub-basin	Existing Ground Water Rights (cfs)

Comments: _____

C5. If properly conditioned, the surface water source(s) can be adequately protected from interference, and/or ground water use under this permit can be regulated if it is found to substantially interfere with surface water:

- i. The permit should contain condition #(s) 7B;
- ii. The permit should contain special condition(s) as indicated in "Remarks" below;
- iii. The permit should be conditioned as indicated in item 6 below;

C6. If the well is not reconstructed, it will interfere with surface water. Well reconstruction, as follows, will adequately protect surface water from interference. If the ground water use under this permit is found to have the potential for substantial interference with surface water, I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Department and approved by the Ground Water Section.:

The well should be reconstructed as follows: _____

C7. SW / GW Remarks _____

D. WELL CONSTRUCTION, OAR 690-200

D1. Well #: 1 Logid: HARN 50594

D2. THE WELL does not meet current well construction standards based upon:

- a. review of the well log;
- b. field inspection by _____;
- c. report of CWRE _____;
- d. other: (specify) _____

D3. THE WELL construction deficiency:

- a. constitutes a health threat under Division 200 rules;
- b. commingles water from more than one ground water reservoir;
- c. permits the loss of artesian head;
- d. permits the de-watering of one or more ground water reservoirs;
- e. other: (specify) _____

D4. THE WELL construction deficiency is described as follows: _____

D5. THE WELL a. was, or was not constructed according to the standards in effect at the time of original construction or most recent modification.

b. I don't know if it met standards at the time of construction.

D6. Route to the Enforcement Section. I recommend withholding issuance of the permit until evidence of well reconstruction is filed with the Department and approved by the Enforcement Section and the Ground Water Section.

THIS SECTION TO BE COMPLETED BY ENFORCEMENT PERSONNEL

D7. Well construction deficiency has been corrected by the following actions: _____

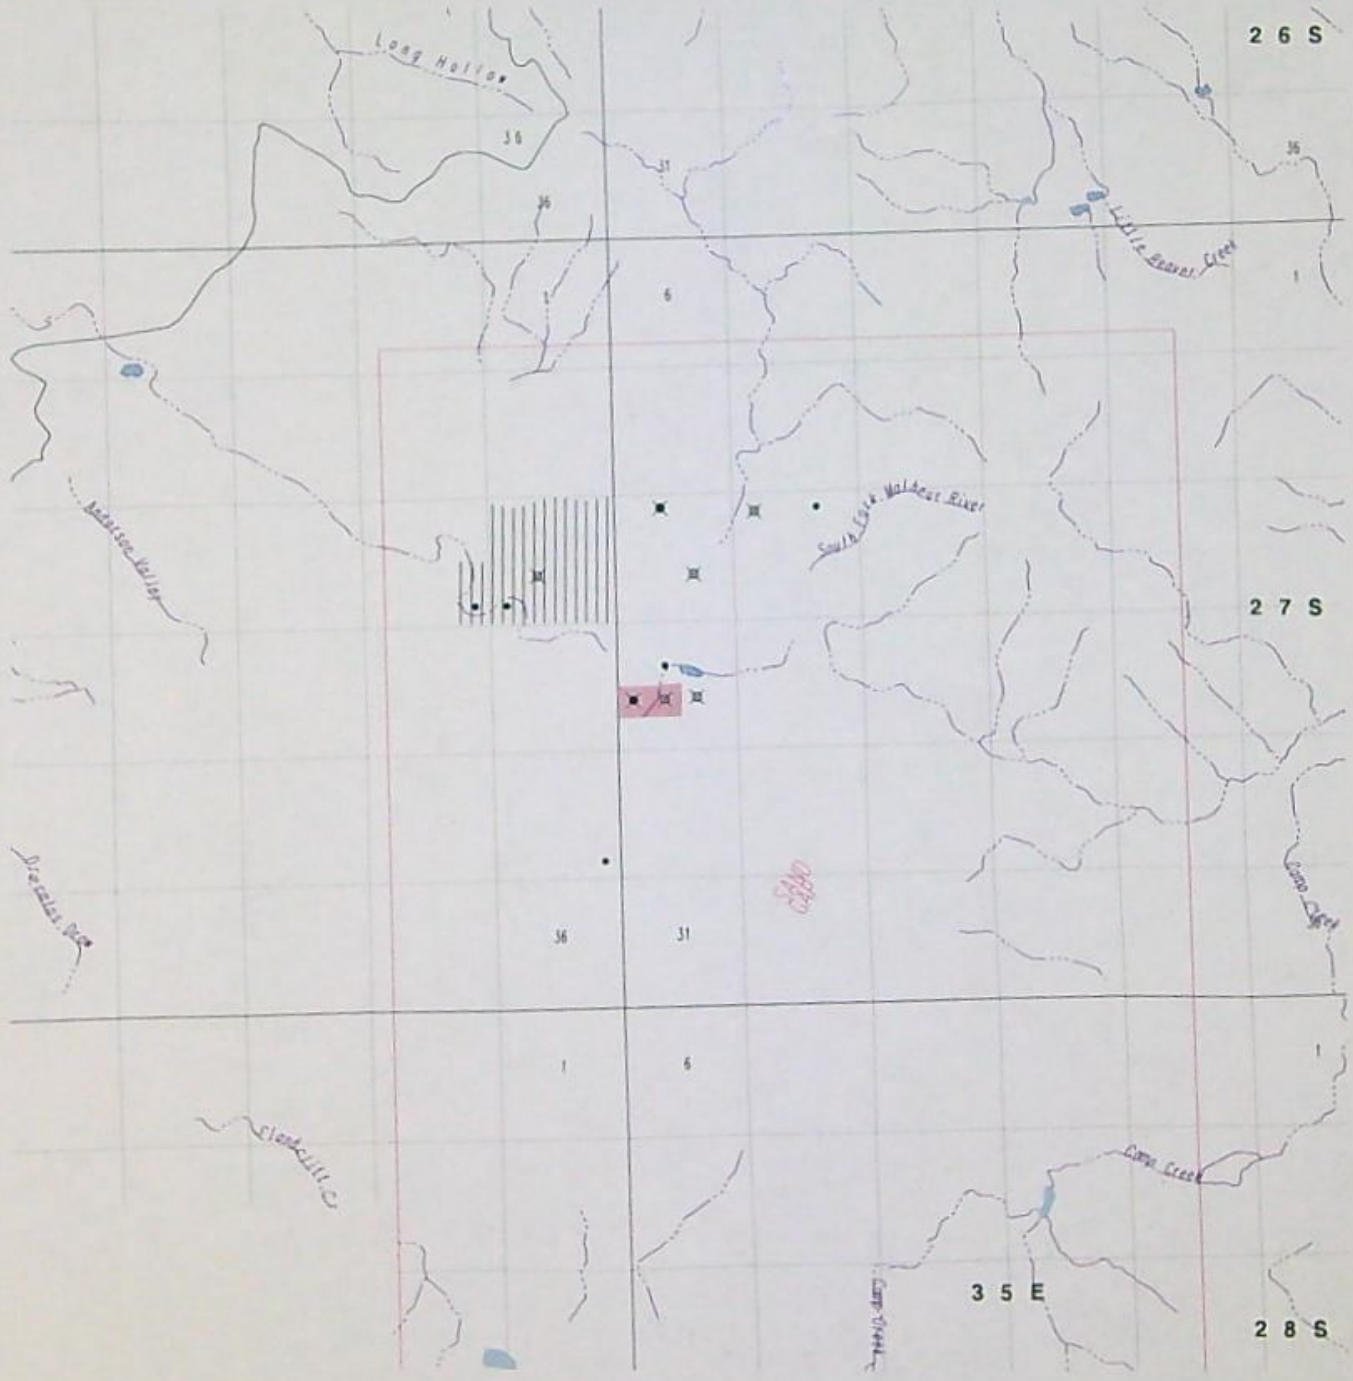

(Enforcement Section Signature)

_____, 200____

D8. Route to Water Rights Section (attach well reconstruction logs to this page).

Wells in the vicinity of application G 15929

February 28, 1997

OREGON WATER RESOURCES DEPARTMENT
ADMINISTRATIVE RULES
CHAPTER 690
DIVISION 510
MALHEUR BASIN PROGRAM

Classifications

690-510-010 (1) The maximum economic development of this state, the attainment of the highest and best use of the waters of the Malheur Basin, and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, municipal, irrigation, power development, industrial, mining, recreation, wildlife, and fish life uses, and the waters of the Malheur Basin are hereby so classified with the following exceptions:

(a) The maximum economic development of this state, the attainment of the highest and best use of the waters of the natural lakes of the Malheur Basin, and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, irrigation of lawn or noncommercial garden not to exceed one-half acre in area, power development not to exceed 7 1/2 theoretical horsepower, recreation, wildlife, and fish life uses, and the waters of the natural lakes of the Malheur Basin are hereby so classified.

(b) Stored water may be used for any beneficial purpose.

(c) Storage, of up to 1000 acre-feet of water in the Malheur Basin, for domestic or livestock purposes authorized under water rights with priority dates after November 6, 1992, shall be exempt from regulation for storage of water reserved under OAR 690-510-110 through 120.

(d) Storage of water is a beneficial use in the Malheur Basin.

(2) The maximum economic development of this state, the attainment of the highest and best use of 1,454,000 acre-feet annually of natural flows of the Snake River, and the attainment of an integrated and coordinated program for the benefit of the state as a whole will be furthered through utilization of the aforementioned waters only for domestic, livestock, municipal, and irrigation uses, and the 1,454,000 acre-feet annually of natural flows of the Snake River are hereby so classified.

(3) Structures or works for the utilization of the waters in accordance with the aforementioned classifications are also declared to be prejudicial to the public interest unless planned, constructed, and operated in conformity with applicable provisions of ORS 536.310 and any such structures or works are further declared to be prejudicial to the public interest which do not give cognizance to the multiple-purpose concept.

Note: These rules were filed with the Office of the Secretary of State and took effect on February 28, 1997. The rules are subject to non-substantive modifications such as renumbering and correction of typographical errors pursuant to ORS 183.360 (2)(a) when published by the Secretary of State.

Statutory Authority: ORS Ch. 537
Stats. Implemented: ORS 537.249 and 537.356

Water Quality

690-510-020 Rights to use of water for industrial or mining purposes granted by any state agency shall be issued only on condition that any effluents or return flows from such uses shall not interfere with other beneficial uses of water.

Statutory Authority: ORS Ch. 537
Stats. Implemented: ORS 537.249 and 537.356

Reservations

690-510-100 (1) Reservations of water for economic development are established pursuant to ORS 537.249 and 537.356 to ensure sufficient surface water will be available in the future to meet expected needs. Economic development includes, but is not limited to, the production of goods and services and management of natural resources which contribute economic benefits through both instream and out-of-stream uses of water.

(2) "Multipurpose reservoir", as used in OAR 690-510-100 and 110, means a reservoir storing water to serve multiple potential beneficial uses such as irrigation, power generation, municipal water supply, recreation and flow augmentation for instream purposes.

(3) Reservations of water for future economic development in OAR 690-511-110 allocate surface water for storage in multipurpose reservoirs.

(4) In addition to the requirements of OAR Chapter 690, Division 310, an application for a permit to store reserved water shall include:

(a) An assessment of the effect of the proposed reservoir on fish and wildlife developed after consultation with the Oregon Department of Fish and Wildlife;

(b) An assessment of the effect of the proposed reservoir on water quality developed after consultation with the Oregon Department of Environmental Quality ;

(c) An analysis of water supply alternatives to the proposed reservoir, such as off-stream storage, water right transfers and implementation of conservation measures; and

(d) An analysis summarizing and describing how the proposed project will enhance instream values, including but not limited to instream flows.

(5) For the purposes of review of applications to store reserved water under OAR Chapter 690, Division 310, and subject to the provisions of section (7), the reserved quantities of water listed in OAR 690-510-110 are available for appropriation.

(6) The determination of water availability under section (5) shall not substitute for consideration during the public interest review of site-specific information related to the capacity of the resource to support the proposed project, as required under OAR Chapter 690, Division 310.

(7) In addition to any other findings required for issuance of a reservoir permit under OAR 690, Division 310, and prior to issuance of a permit for a proposed project storing water reserved under 690-510-110, the Department shall also find:

(a) The proposed reservoir is consistent with the purpose of the reservation following consultation with the Department of Agriculture and other state agencies;

(b) The proposed reservoir will enhance instream values, including but not limited to instream flows; and

(c) What storage season is appropriate and whether minimum bypass flows or other conditions should be included in the permit to insure no harm to senior water rights and to protect instream values.

(8) Permits to store reserved water shall receive the priority date of the reservation.

(9) If the Department has not received applications for multipurpose reservoir permits for the full quantity of reserved water by January 7, 2002, the Department of Agriculture shall provide the Commission with a progress report on development of the reservations. The report shall include information on the continued need for the reservations and the quantities of water reserved. The Department of Agriculture shall continue to provide progress reports at five year intervals while these rules are in effect unless the Department receives applications for multipurpose reservoir permits for the full quantity of reserved water.

(10) If the Department has not received applications for multipurpose reservoir permits for the full quantity of water reserved by January 7, 2017, OAR 690-510-110 shall automatically be repealed on January 7, 2017, unless extended by further rulemaking of the Water Resources Commission.

Statutory Authority: ORS Ch. 536 and 537

Stats. Implemented: ORS 536.310, 537.249, 537.356 and 537.358

Malheur Reservations

690-510-110 Unappropriated water is reserved for storage in multipurpose reservoirs to be constructed in the future. The priority date of the reservations is November 6, 1992. The quantity and source of reserved water is as follows:

(1) Thirty five thousand (35,000) acre-feet of the Malheur River and tributaries, excluding the North Fork and South Fork Malheur Rivers and tributaries, are reserved;

(2) Thirteen thousand two hundred (13,200) acre-feet of the South Fork Malheur River and tributaries are reserved.

Statutory Authority: ORS Ch. 537

Stats. Implemented: ORS 537.249 and 537.356

Note: The Malheur Basin is delineated on State Water Resources Board Map 10.6, available from the Water Resources Department.

*Optional information

For Department Use		
App. No. <u>G. 15929</u>	Permit No. _____	Date _____

2. PROPERTY OWNERSHIP

Do you own all the land where you propose to divert, transport, and use water?

- Yes (Skip to section 3 "Ground water Development.")
- No Please check the appropriate box below.
 - I have a recorded easement or written authorization permitting access.
 - I do not currently have written authorization or easement permitting access.

List the names and mailing addresses of all affected landowners.*

*If more than 25 landowners are involved, a list is not required. See instructions.

3. GROUND WATER DEVELOPMENT

- A. Number of well(s): 2 B. Name of nearest surface water body: MALHUEC LAKE
- C. Distance from well(s) to nearest stream or lake: 1) 15 miles east of Malhuec Lake
 2) same 3) _____ 4) _____
- D. If distance from surface water is less than one mile, indicate elevation difference between nearest surface water and well head. 1) N/A
 2) N/A 3) _____ 4) _____

E. Well Characteristics

Wells must be constructed according to standards set by the Department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well constructor's log and the well ID number, if available, for each well with this application. Identify each well with a number corresponding to the wells designated on the map and proceed to question F in this section of the form. If the well has not been constructed, or if you do not have a well log, please complete the following:

Well(s) will be constructed by: Holloway Skilling Co

Address: _____
Ontario, OR

Completion date: 1977

2. Please provide a description of your well development. (Attach additional sheets if needed.)

Well No.	Diameter	Type and size of casing	No. of feet of casing	Intervals casing is perforated (in feet)	Seal depth	Est. depth to water	Est. depth to water bearing stratum	Type of access port or measuring device	Total well depth
1	8"								154'
2	12"								400'

F. Artesian Flows

If your water well is flowing artesian, describe your water control and conservation works:

N/A

4. WATER USE

Please read the instruction booklet for more details on "type of use" definitions, how to express how much water you need and how to identify the water source you propose to use. You must fill out a supplemental form for some uses as they require specific information for that type of use.

A. Type(s) of Use(s)

See list of beneficial uses provided in the instructions.

- If your proposed use is **domestic**, indicate the number of households to be supplied with water: _____
- If your proposed use is **irrigation**, please attach Form I
- If your proposed use is **mining**, attach Form R
- If your proposed use is **municipal or quasi-municipal**, attach Form M
- If your proposed use is **commercial/industrial**, attach Form Q

B. Amount of Water

Provide the production rate in gallons per minute (gpm) and the total annual amount of water you need from each well, from each source or aquifer, for each use. You do not need to provide source information if you are submitting a well log with your application.

Well No.	Source or aquifer	Type of use	Total rate of water requested (in gpm)	Total annual quantity (in gallons)	Production rate of well (in gpm)
1	ground water	irrigation	} 2200	381,245,670.	2600.
2	ground water	irrigation			

C. Maximum Rate of Use Requested

What is the maximum, instantaneous rate of water that will be used? 2200
(The fees for your application will be based on this amount.)

D. Period of Use

Indicate the time of year you propose to use the water: 3-1 / 10-31
(For seasonal uses like irrigation give dates when water use would begin and end, e.g. March 1–October 31.)

E. Acreage

If you will be applying water to land, please give the total number of acres where water will be applied or used: 218.8
(This number should be consistent with you application map.)

5. WATER MANAGEMENT

A. Diversion

What equipment will you use to pump water from your well(s)?

- Pump (give horsepower and pump type) 125 hp
 Other means (describe) _____

B. Transport

How will you transport water to your place of use?

- Ditch or canal (give average width and depth)
Width _____ Depth _____
Is the ditch or canal to be lined? Yes No
- Pipe (give diameter and total length)
Diameter 10" Length 4500 LF
- Other (describe) _____

RECEIVED

FEB 20 2003

WATER RESOURCES DEPT.
SALEM, OREGON

RECEIVED

JAN 24 2003

WATER RESOURCES DEPT.
SALEM, OREGON

C. Application/Distribution Method

What equipment will you use to apply water to your place of use? Zimmatic Pivots (3)
WHEEL LINES (4)

Irrigation or land application method (check all that apply):

- Flood
- High-pressure sprinkler
- Low pressure sprinkler
- Drip
- Water cannons
- Center pivot system
- Hand lines
- Wheel lines
- Siphon tubes or gated pipe with furrows
- Other, describe _____

Distribution method

- Direct pipe from source
- In-line storage (tank or pond)
- Open canal

D. Conservation

What methods will you use to conserve water? Why did you choose this distribution or application method? For example, if you are using sprinkler irrigation rather than drip irrigation, explain. If you need additional space, attach a separate sheet.

PIVOT NOZZLES ARE WATER USE EFFICIENT. VARIABLE SPEED PUMP ONLY PUMPS FOR PRESSURE IT IS SET FOR. REDUCES PUMPING CAPACITY AS PIVOTS ARE TURNED OFF. BOTH WATER & ELECTRICALLY EFFICIENT. REDUCES NEED FOR ORIGINAL NUMBER OF WHEEL LINES TO ONLY THOSE NEED FOR PARCELS NOT REACHABLE BY PIVOTS.

Indicate the anticipated dates that the following construction tasks should begin. If construction has already begun, or is completed, please indicate that date.

Proposed date construction will begin 2-15-02

Proposed date construction will be completed 5-20-02

Proposed date beneficial water use will begin 10-1-07

7. REMARKS

If you would like to clarify any information you have provided in the application, please do so here and reference the specific application question you are addressing.

8. MAP REQUIREMENTS

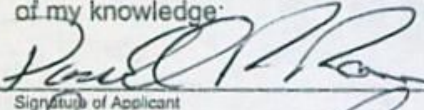

The Department cannot process your application without accurate information showing the source of water and location of water use. You must include a map with this application form that clearly indicates the township, range, section, and quarter/quarter section of the proposed well location and place of use. The map must provide tax lot numbers. See the map guidelines sheet for detailed map specifications.

9. SIGNATURE

By my signature below I confirm that I understand:

- I am asking to use water specifically as described in this application.
- Evaluation of this application will be based on information provided in the application packet.
- I cannot legally use water until the Water Resources Department issues a permit to me.
- If I get a permit, I must not waste water.
- If development of the water use is not according to the terms of the permit, the permit can be canceled.
- The water use must be compatible with local comprehensive land use plans.
- Even if the Department issues a permit to me, I may have to stop using water to allow senior water right holders to get water they are entitled to, and

I swear that all information provided in this application is true and correct to the best of my knowledge:

 Signature of Applicant	<u>12/6/02</u> Date
 Signature of Co-applicant	<u>12/6/02</u> Date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included a Land Use Information Form or receipt stub signed by a local official.
- Included the legal description of all the property involved with this application. You may supply a copy of the deed, land sales contract, or title insurance policy, to meet this requirement.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

OREGON WATER RESOURCES DEPARTMENT

FORM I

FOR IRRIGATION WATER USE

1. Please indicate whether you are requesting a primary or supplemental irrigation water right.

Primary

Supplemental

If supplemental, please indicate the number of acres that will be irrigated for each type of use.

Primary 218.8
390 Acres

Secondary _____ Acres

List the permit or certificate number of primary water right: No. _____

2. Please list the anticipated crops you will grow and whether you will be irrigating them for a full or partial season.

1. alfalfa/grass Full Season Partial Season (from: 3-1 to 10-31)

2. alfalfa/grass Full Season Partial Season (from: 3-1 to 10-31)

3. alfalfa/grass Full Season Partial Season (from: 3-1 to 10-31)

4. _____ Full Season Partial Season (from: _____ to _____)

3. Indicate the maximum total number of acre-feet you expect to use in a irrigation season.

1170 Acre-Feet

(1 acre-foot equals 12 inches of water spread over one acre, or 43,560 cubic feet, or 325,851 gallons.)

4. How will you schedule your application of water? Will you be applying water in the evenings, twice a week, daily?

Daily during daytime hours

Daily during nighttime hours

Two or three time weekly during daytime hours

Two or three times weekly during nighttime hours

Weekly, during daytime hours

Weekly, during nighttime hours

Other, explain: _____

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. Applicant

Name: Donald R & Susan M Ramsay
 Address: 48680 Hwy 78
 City: Princeton State: Or Zip: 97724 Day Phone: (541) 493-2016 (H)
(541) 573-7341 (W)

B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
	<u>EPRV-1</u>	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
		<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Harvey County

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): Irrigation (B)
 Briefly describe: Convert from all wheel lines to 3 pivots with supplemental wheel lines. Improve productivity, enhance wild life habitat, reduce erosion, save water

D. Source

Indicate the source for the proposed water use:

Reservoir/Pond Ground Water Surface Water _____ (source)

E. Quantity

Indicate the estimated quantity of water the use will require:

390 CFS GPM Acre-Feet

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 3.010. Go to section B "Approval" below
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: Susan M Ramsay Date: 12/6/2002
 Title: CO-OWNER Phone: 541-493-2076
 Signature: Susan M Ramsay 541-573-7341

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Harney County Planning 541-573-6655
Richard H. Jennings, Director 1/21/03
Richard H. Jennings

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: _____

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.

WATER RESOURCES DEPT.
SALEM, OREGON

Dear Applicant:

The Water Resources Department has received your application to use or store water. At this time, however, we are unable to accept your application because it does not meet minimum filing requirements.

In order to complete your "Application for a Permit to Use Surface Water," please provide the following information:

- Please provide a written metes and bounds legal description of the property where you plan to use the water. *You may use a copy of your deed, land sales contract or title insurance policy.* Do not send a copy of the tax assessor bill.
- About your fees. On your application for a permit to use ground water, you indicated that you intend to use 2200 gallons per minute. The examination fees for 2200 gallons per minute would be \$700.00 for 4.9 C.F.S. (cubic feet per second). Gallons per minute is how the Department basis their examination fees. The formula for basis is requested gallons divided by 448.83 gallons per minute; 448.83 gallons per minute being 1 cubic foot per second. According to your fee calculation sheet, you are requesting only two C.F.S. If, this is your intention, (only to use 2 C.F.S.) please clarify on page 4, item C. Maximum Rate of Use Requested. Other wise, total examination fee would be \$700.00 and total recording fee (if you are wanting to pay the recording fee ahead of your permit issuance) would be \$175.00. For total examination and recording fee, the cost would be \$875.00, based on your maximum rate of use requested on page 4, item C. of your Application for a Permit to Use Ground Water.

*duplicate
check for
\$150 w/
attached*

app # G-15929

Please provide the following information with regard to your application map:

- We need only one map showing all acreage that you are proposing to irrigate. On your application, you indicate that you propose to irrigate 390 acres. Your application map only shows 218.8 acres versus your requested 390 acres on your application, page 4, item E. Acreage. Please clarify on your application the correct, total number of acreage, or show the additional acreage on your map if your intention of proposed irrigation is, indeed, 390 acres.

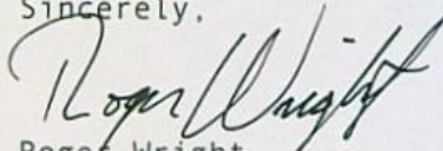

* map is 218.8, 390 is approx total of all water rights attached to this property.

Note: Please return any correspondence received from us so that we may accelerate the processing of your application.

The Department is returning your application, supporting data and your check for \$725.00. We can begin processing your application when the information noted above is received.

If there are any questions concerning your application, you may contact me at (503) 378-8455, extension 273.

Sincerely,

Roger Wright
Public Service Rep.
