CLAIM OF BENEFICIAL USE for Reservoir Permits by **CWRE's (not self-certified)**

OREGON Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

A fee of \$230 must accompany this form for permits with priority dates of July 9, 1987, or later. Claims received without the correct fee of \$200 will be returned.

A separate form shall be completed for each permit.

In cases where a permit has been amended through the permit amendment process, a separate claim for the permit amendment is not required. Incorporate the permit amendment into the claim for the permit.

This form is subject to revision. Begin each new claim by checking for a new version of this form at: https://www.oregon.gov/OWRD/Forms/Pages/default.aspx The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. Every item must have a response. If any requested information does not apply to the claim, insert "NA." Do not delete or alter any section of this form unless directed by the form. The Department may require the submittal of additional information from any water user or authorized agent.

"Section 8" of this form is intended to aid in the completion of this form and should not be submitted.

If you have questions regarding the completion of this form, please call 503-979-9103.

The Department has a program that allows it to enter into a voluntary agreement with an applicant for expedited services. Under such an agreement, the applicant pays the cost to hire additional staff that would not otherwise be available. This program means a certificate may be issued in about a month. For more information on this program see:

https://www.oregon.gov/OWRD/programs/WaterRights/RA/Pages/default.aspx

Received by OWRD NOV 04 2024

CLAIM DESCRIPTION

1. Reservoir source and, if from surface water, the tributary:

RESERVOIR NAME OR NUMBER	Source	TRIBUTARY
South Airport Pond 2 (-123.14138637, 45.182641819)	Runoff	South Yamhill River

2. Developed use(s), period of use, and acre foot (af) for each use:

Reservoir Name or Number	Uses	SEASON OR MONTHS WHEN WATER WAS APPROPRIATED FOR STORAGE	VOLUME STORED (AF)
South Airport Pond 2	Multiple Purpose	November 1- June 30	10.0 AF
Total Quantity of Water Stor	ed		10.0 AF

3. Provide a general narrative description of the distribution works. This description must trace the water system from each point of diversion to the reservoir:

South Airport Pond 2 is filled with runoff that drains from the surrounding area.

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

4. Variations:

Was the use developed differently from what was authorized by the permit,

YES NO

permit amendment final order, or extension final order? If yes, describe below.

(e.g. "The permit allowed the development of three reservoirs. The permit holder only developed one of the reservoirs." or "The permit allowed for the storage of 9 acre feet of water. The reservoir was developed to hold 5.2 acre feet.")

This claim of beneficial use report more accurately describes the location of the Dam.

5. Claim Summary:

RESERVOIR NAME OR #	MAXIMUM STORAGE AUTHORIZED BY PERMIT (AF)	MAXIMUM STORAGE DEVELOPED (AF)
South Airport Pond 2	10.0 AF	10.0 AF

Received b	V OWRD
------------	--------

NOV 04 2024

SYSTEM DESCRIPTION

Are there multiple reservoirs?

If "YES" you will need to copy and complete Sections A through E for each reservoir.

Reservoir Name or Number this section describes (only needed if there is more than one):

South Airport Pond 2

A. Reservoir Location

1. Is the reservoir on-channel?

2. Provide dam outlet location and/or point of diversion(s).

TWP	RNG	MER	SEC	QQ	GLOT	DLC	MEASURED DISTANCES
4S	4W	WM	35	NWNE	-	67	1,150 feet South and 1,570 feet West from
			_				the NE corner of Section 35

Reminder: The map associated with this claim must identify Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

B. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport the water from the point(s) of diversion to the reservoir.

1. Is a pump used?

If "NO" items 2 through item 5 may be deleted. Items 2 through 5 were deleted.

6. Additional notes or comments related to the system:	Received by OWRD
None.	NOV 04 2024
	Salem, OR

C. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

If "NO", items 2 through 4 relating to this section may be deleted. Items 2 through 4 were deleted.

D. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the		
distribution system?	YES	NO
If "NO", items 2 through 4 relating to this section may be deleted. Items 2 through 4 we	re delet	ted.

YES NO

YES

NO

YES NO

YES NO

E. Reservoir

1. Does the reservoir require the submittal of as-built plans and specifications? YES NO

If "YES", answer item 2; items 3 through 8 relating to this section may be deleted. If "NO", skip items 2; answer items 3 through 8.

2. Complete the table: HAVE THE DOCUMENTS BEEN SUBMITTED? YES OR NO	WHEN WERE THE DOCUMENTS SUBMITTED?	HAVE THEY BEEN APPROVED BY THE DEPARTMENT?	NUMBER OF ACRE FEET STORED
N/A			

3. If the reservoir stores less than 9.2 acre-feet of water or if the dam is less than 10 feet in height, and asbuilt plans and specifications are not required, complete the table and items 4 through 8.

MAXIMUM DEPTH	AVERAGE DEPTH	SURFACE AREA (IN ACRES)	VOLUME (IN ACRE FEET)
5.9 ft	5.9 ft	1.7 ac	10

4. Provide reservoir volume calculations:

5.9 feet (depth)	* 1.7 acres (surface area) = 10.0 acre-feet (volume)	
------------------	--	--

5. Provide the following information concerning the physical characteristics of the dam:

CREST WIDTH (W)	DAM HEIGHT AT CENTERLINE (H)	DISTANCE FROM DOWNSTREAM TOP OF DAM TO DOWNSTREAM TOE (L)	DISTANCE FROM UPSTREAM TOP OF DAM TO UPSTREAM TOE (U)	WATER LEVEL AT INSPECTION	Down-stream Slope	UP-STREAM SLOPE
15ft	9.5ft	7.5ft	7.5ft	0 ft*	1.26	1.26

*Reservoir was at deadpool during site inspection.

6. Provide a drawing showing the cross section of the dam at the maximum section indicating details and dimensions. The drawing should be drawn at a standard even scale.

See Attachment B – Reservoir Cross Section

Received by OWRD

NOV 04 2024

Salem, OR

7. Describe the outlet works (size and type of the outlet conduit and location):

A 36 inch galvanized steel outlet pipe is installed through the berm to allow draining of the reservoir when needed.

8. Describe the emergency spillway (dimensions and location):

BOTTOM WIDTH (W)	TOP WIDTH (L)	SPILLWAY DEPTH (H)
N/A		

Received by OWRD NOV 04 2024

NOV 04 2024

CONDITIONS

All conditions contained in the permit, permit amendment, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits and any extension final orders contain any or all of the following dates; the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or extension final order:

	DATE FROM PERMIT	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	11/21/17		
BEGIN CONSTRUCTION (A)	11/21/22	Summer 2018	Began construction of pond.
COMPLETE CONSTRUCTION (B)	Not listed in permit.	Summer 2018	Complete construction of pond.
COMPLETE APPLICATION OF WATER (C)	11/21/22	June 2019	Pond was filled.

* must be within period between permit or any extension final order issuance and the date to completely apply water

2. Is there an extension final order(s)?

3. Measurement Conditions:

a. Does the permit, permit amendment, or any extension final order require the installation of a meter or approved measuring device? YES NO

If "NO", items b through f relating to this section may be deleted.

b. Has a meter been installed?

c. Meter Information

	(WORKING OR NOT)	READING	
		(WORKING OR NOT)	(WORKING OR NOT) KEADING

If a meter has been installed, items d through f relating to this section may be deleted.

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? <u>YES*</u> NO

*A staff gage capable of measuring the entire range of stage for South Airport Pond 2 is required and has been installed. It is not required that the gage be approved by the Department.

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

NAME	TITLE	APPROXIMATE DATE
N/A		

YES <u>NO</u>

YES

NO

4. Recording and reporting conditions		
a. Is the water user required to report the water use to the Department?	YES	NO
If "NO", item b relating to this section may be deleted. Item b was deleted.		
5. Outlet Pipe		
a. Is the water user required to install a minimum 8"outlet pipe/conduit?	YES	NO
If "NO", items b through c relating to this section may be deleted.		
b. Has the outlet pipe been installed?	YES	NO
If "YES", items c relating to this section may be deleted. Item c was deleted.		
6. Fish Screening		

a. Are any points of diversion required to be screened to prevent fish from entering the point of diversion?
If "NO", items b through e relating to this section may be deleted. Items b through e were deleted.
7. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?
YES NO
If "NO", items b and c relating to this section may be deleted. Items b and c were deleted.

See Attachment C – Fish Passage Letter

8. Other conditions required by permit, permit amendment final order, or extension final order

a.	Was the water user required to restore the riparian area if it was disturbed?	YES	NO
b.	Was a fishway required?	YES	NO
c.	Was submittal of a letter from an engineer required prior to storage of water?	YES	NO
d.	Was submittal of a water management and conservation plan required?	YES	NO
e.	Other conditions?	YES	NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

8a: No riparian areas were disturbed during pond construction, so no restoration was required. 8e: Live flow is passed outside of the storage season.

CLAIM OF BENEFICIAL USE MAP

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1'' = 1320 feet, 1'' = 400 feet, or the original full-size scale of the county assessor map for the location.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

The reservoir was visited during the site inspection. The extent of the system was located using aerial imagery (Google Earth, April 2023), a handheld GPS, and a field survey completed during the site inspection. The map was created using Geographic Information System (GIS) software and spatial datasets obtained from Bureau of Land Management (BLM), Environmental Systems Research Institute (ESRI), Oregon Water Resources Department (OWRD), and United States Geological Survey (USGS). Additional data and information specific to the use of water under the water right described in this Claim of Beneficial Use report were obtained from the water right holder.

Map Checklist

Please be sure that the map you submit includes ALL the items listed below. (Reminder: Incomplete maps and/or claims may be returned.)

- Map on polyester film.
- Appropriate scale (1" = 400 feet, 1" = 1320 feet, or the original full-size scale of the county assessor map)
- Township, Range, Section, Donation Land Claims, and Government Lots
- N/A If irrigation, number of acres irrigated within each projected Donation Land Claims, Government Lots, Quarter-Quarters
- N/A Locations of fish screens and/or fish by-pass devices in relationship to point of diversion
- Locations of meters and/or measuring devices in relationship to point of diversion **Received** by OWRD
- N/A Conveyance structures illustrated (pumps, reservoirs, pipelines, ditches, etc.)
- Point(s) of diversion or appropriation (illustrated and coordinates)
- Tax lot boundaries and numbers
- Source illustrated if surface water
- Disclaimer ("This map is not intended to provide legal dimensions or locations of property ownership lines")
- Application and permit number or transfer number
- North arrow
- Legend
- CWRE stamp and signature

Received by OWRD

NOV 04 2024

Salem, OR

Measurement Devices, and Recording/Reporting of Annual-Water Storage Conditions:

- A. Before water use may begin under this permit, a staff gage that measures the entire range and stage between full reservoir level and dead-pool storage must be installed in the reservoir. If no dead-pool, the gage must measure the full depth of the reservoir. The permittee shall maintain the device in good working order.
- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.

Application R-88418.eag

Page 1 of 3

Permit R-15272

- C. The Director may require the permittee to keep and maintain a record of the volume of water stored, and may require the permittee to report water-storage on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The permittee shall pass all live flow outside the storage season described above.

The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implementation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually or more frequently.

The permittee shall not construct, operate, or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish (ODFW) Passage Coordinator, before beginning construction of any in-channel obstruction.

Notwithstanding that ODFW has made a determination that fish screens are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish-screening devices to prevent fish from entering the proposed diversion.

This permit allows an annual appropriation (not to exceed the specified volume). This permit does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain **Received** by water level or water level or a suitable freshwater condition, an additional water right is required.

NOV C4 /

STANDARD CONDITIONS

- Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
- 2. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
- 3. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

- 4. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
- 5. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, shall be followed.
- 6. If the volume of the completed reservoir is 9.2 acre-feet or more and a dam is used to impound the water, the height of the dam shall be less than 10.0 feet.
- Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
- 8. The permitted volume of water shall be stored within five years of the date of permit issuance. If additional time is needed, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
- 9. Within one year after storage of water, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.
- 10. The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir capacity is equal to or greater than 9.2 acre-feet.
- 11. If no secondary permit exists and the reservoir capacity is less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:
 - a. the dimensions of the reservoir;
 - b. the maximum capacity of the reservoir in acre-feet, and
 - c. a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

¹/₁ Gerry; This email is to confirm my original evaluation of the two water storage permit requests (R-15271 and R-15272) proposed on the Munger Property in Yamhill County. Due to these two pond's location in the channel above the 100 year flood plain, and the conclusion that native migratory fish do not currently have, or did not historically have, access to this reach of the waterway, ODFW confirms that fish passage will not be a requirement for these two projects. ODFW does request, however, that the land owner consider planting trees and other native vegetation around the ponds where feasible to offset thermal increases to impounded water, a potential detriment to the Yamhill River, a DEQ 303d listed system. Thanks, and please contact me as needed for any clarification or further discussion. Tom.
