

**CLAIM OF
BENEFICIAL USE
for Reservoirs storing less than
9.2 acre-feet permitted under
ORS 537.409**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

**A fee of \$230 must accompany this form.
The Claim will be returned if the fee is not included.**

This form may be completed by the permit holder of record if:

- 1) The permit was issued under the authority of ORS 537.409; and
- 2) No secondary permit exists for the use of water stored in the reservoir; and
- 3) The developed capacity of the reservoir is less than 9.2 acre-feet; and
- 4) The water was stored by the date required in the permit; and

A separate form shall be completed for each permit.

This form must be submitted to the Water Resources Department within one year of storage of water in the reservoir.

Please type or print in dark ink. If the data provided is found to contain errors or omissions, it may be returned. The Department may require the submittal of additional information.

If you have questions regarding the completion of this form, please call 503-979-9103.

**SECTION 1
GENERAL INFORMATION**

File Information:

APPLICATION # R- 88400	PERMIT # R- 15235
----------------------------------	-----------------------------

Received
NOV 04 2024
OWRD

Applicant Information:

APPLICANT NAME BRUND CORNEAU		PHONE NO. 5098454276	ADDITIONAL CONTACT NO.
ADDRESS 1312 NW Greenview Ct			
CITY McMinnville	STATE OR	ZIP 97128	E-MAIL brund@nwwineco.com

SECTION 2

RESERVOIR INFORMATION

Reservoir Dimensions and Capacity:

AVERAGE LENGTH	AVERAGE WIDTH	AVERAGE DEPTH	MAXIMUM CAPACITY IN ACRE-FEET
65'	40'	5'	0,3

To determine capacity in acre-feet use for the above table, use the following calculation:

$$\text{Acre-feet} = \frac{(\text{Average Length})(\text{Average Width})(\text{Average Depth})}{43,560}$$

SECTION 3

MAP

Attach a map identifying the reservoir location. If the water right application map accurately reflects the location of the reservoir, you may attach a copy of it. Otherwise, you must submit a map meeting the standards of OAR 690-310-0050, which are attached.

Preparation of the map by a Certified Water Rights Examiner is **not** required for this type of permit, but may be submitted.

STATE OF OREGON

COUNTY OF YAMHILL

PERMIT TO STORE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

BRUNO CORNEAUX
1312 NW GREENVIEW CT
MCMINNVILLE OR 97128

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-88400

SOURCE OF WATER: RUNOFF, TRIBUTARY TO CHEHALEM CREEK

STORAGE FACILITY: CLOS GALLIA POND

MAXIMUM VOLUME: 0.3 ACRE-FOOT

DATE OF PRIORITY: MARCH 10, 2017

WATER MAY BE APPROPRIATED AS FOLLOWS: NOVEMBER 1 THROUGH MAY 31

USE: MULTIPLE PURPOSE

Dam Location/Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
3 S	3 W	WM	4	SE SW	940 FEET NORTH AND 1550 FEET EAST FROM SW CORNER, SECTION 4

The Area To Be Submerged:

Twp	Rng	Mer	Sec	Q-Q
3 S	3 W	WM	4	SE SW

Measurement Devices, and Recording/Reporting of Annual Water Use / Storage Conditions:

- A. The Director may require the permittee to install a staff gage that measures the entire range and stage between full reservoir level and dead-pool level in the reservoir. If no dead-pool, the gage must measure the full depth of the reservoir. If the Director notifies the permittee to install a staff gage, the permittee shall install such device within the period stated in the notice. Once installed, the permittee shall maintain the device in good working order and shall allow the watermaster access to the device.
- B. The Director may require the permittee to keep and maintain a record of the volume of water stored, and may require the permittee to report water-storage on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
- C. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

Received

NOV 04 2024

OWRD

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.

The permittee shall pass all live flow outside the storage season described above.

The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implementation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually or more frequently.

The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.

Notwithstanding that ODFW has made a determination that fish screens are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish-screening devices to prevent fish from entering the proposed diversion.

This permit allows an annual appropriation (not to exceed the specified volume). This permit does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

STANDARD CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
3. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
4. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
5. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, shall be followed.
6. The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.
7. If the volume of the completed reservoir is 9.2 acre feet or more and a dam is used to impound the water, the height of the dam shall be less than 10.0 feet.
8. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.

Received

NOV 04 2024

OWRD

9. The permitted volume of water shall be stored within five years of the date of permit issuance. If additional time is needed, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
10. Within one year after storage of water, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.
11. The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir capacity is equal to or greater than 9.2 acre-feet.
12. If no secondary permit exists and the reservoir capacity is less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:
 - a. the dimensions of the reservoir;
 - b. the maximum capacity of the reservoir in acre-feet; and
 - c. a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

NOTICE TO PERMITTEE

ASSIGNMENT OF PERMIT: Pursuant to ORS 537.220, this permit may be assigned to a party other than the permittee named hereon, if the land the permit is associated with changes ownership, or if the permittee is an organization whose name changes as a result of sale or merger. Request for Assignment forms are available from the Oregon Water Resources Department web site at <http://www.wrd.state.or.us/>, or may be requested from the Department at 503-986-0801 or Water Right Application Section, Oregon Water Resources Department, 725 Summer St NE Ste A, Salem OR 97301.

REAL ESTATE TRANSACTIONS: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.

CULTURAL RESOURCES PROTECTION LAWS: Permittees involved in ground-disturbing activities should be aware of federal and state cultural resources protection laws. ORS 358.920 prohibits the excavation, injury, destruction or alteration of an archeological site or object, or removal of archeological objects from public and private lands without an archeological permit issued by the State Historic Preservation Office. 16 USC 470, Section 106, National Historic Preservation Act of 1966 requires a federal agency, prior to any undertaking to take into account the effect of the undertaking that is included on or eligible for inclusion in the National Register. For further information, contact the State Historic Preservation Office at 503-378-4168, extension 232.

Carefully review the appeal rights included on the first page of your final order. In some cases, if OWRD receives a request for reconsideration or petition for judicial review within 60 days of the date the final order was served, OWRD may take action to withdraw or modify the final order, or issue a final order denying your application.

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE STATE OF OREGON**

In the Matter of Water Rights Application)
R-88400, Yamhill County)

**FINAL ORDER
APPROVING THE STORAGE OF
SURFACE WATER**

Authority

Oregon Revised Statutes (ORS) 537.409 establishes the process by which an application to store waters of the public may be submitted.

Findings of Fact

1. On MARCH 10, 2017, BRUNO CORNEAUX submitted an application for a permit to store water pursuant to ORS 537.409.
Storage Volume: 0.3 ACRE-FOOT
Dam Height: LESS THAN 10 FEET
Source: RUNOFF, TRIBUTARY TO CHEHALEM CREEK
Location: YAMHILL COUNTY IN SECTION 4, TOWNSHIP 3 SOUTH, RANGE 3 WEST, W.M.
2. The required examination fees were paid and minimum application requirements were met.
3. The Department provided public notice of the application in the Department's weekly public notice on MARCH 28, 2017. A 60-day comment period followed.
4. The Department has received public comment related to the possible issuance of the attached permit. The Department has recorded its evaluation of public comment received on Comment Evaluation Forms made part of the application file.

APPEAL RIGHTS

Appeal to a circuit court: This is a final order in other than a contested case. Any party affected by a final order in other than a contested case issued by the Water Resources Commission or Water Resources Department may appeal the order to the appropriate circuit court (ORS 536.075). A petition for judicial review must be filed within the 60-day time period specified by ORS 183.484 (2).

Petition to the Department for Reconsideration of the Final Order: A person entitled to judicial review of this order may also file a petition for the Department's reconsideration of the order. The petition for reconsideration must be filed with the Department within 60 calendar days after the date of the order. A copy of the petition must also be delivered or mailed to all other persons and agencies requiring notification under statute or rule (OAR 137-004-0080). The petition must set forth the specific grounds for reconsideration, and may be supported by a written argument. The petition may include a request for a stay of the order if the petition complies with the requirements of OAR 137-003-0090 (2). The Department may grant or deny the petition by summary order. If the Department takes no action, the petition is deemed denied as provided by ORS 183.484 (2). A final order remains in effect during reconsideration until stayed or changed. Following reconsideration, the agency must enter a new order, which may be an order affirming the existing order (OAR 137-004-0080). Reconsideration cannot be granted after the filing of a petition for judicial review, unless permitted by the court (OAR 137-004-0080 (6)).

ORS 537.409 does not provide an opportunity to request a contested-case hearing. Appeal rights on this final order approving the application are limited to the above procedures.

5. The Department has determined that the proposed source has not been withdrawn from further appropriation.
6. The proposed reservoir is not prohibited under ORS 390.835.
7. Water is available for the proposed use according to the Department's water-availability model and the watermaster's assessment.
8. The Department relies on the Oregon Department of Fish and Wildlife's review and recommendations in determining whether a proposed use would pose a significant detrimental impact to existing fishery resources. The Department has determined that, as conditioned, the proposed use will not pose a significant detrimental impact to existing fishery resources.

Conclusions of Law

1. Water is available for the proposed use.
2. The proposed use will not injure existing water rights.
3. The proposed use will not pose a significant detrimental impact to existing fishery resources.
4. Application R-88400 is consistent with the requirements of ORS 537.409.

Now Therefore, it is Ordered:

Application R-88400 is approved, and Permit R-15235 is issued as limited by the conditions contained therein.

Dated at Salem, Oregon on July 21 2017
