Site Report and Claim of Beneficial Use

Application #: G-12327 Permit #: G-12202

Paul Young
9515 Buena Vista Rd
Independence, Oregon 97351
Tele#: 1-503-838-2891

RECEIVED

SEP 24 1999

**WATER RESOURCES DEPT.
SALEM, OREGON**

Source:

Irrigation water for the 54.9 acres covered under this Permit, is obtained from a ground water well within the Willamette River Basin and described further as follows:

- ▶ **Well** (8" dia. x 43' deep) is located is located 100'S & 1650'W from NE corner of Section 15. The well is equipped with a 30-HP Berkeley submersible turbine pump (350 GPM). Pump discharge is equipped with a pressure gage. An access port is available to measure well static and pumping water levels.
- ▶ Ties for the above diversion point were located from an aerial photo and field measurements.

Pipe:

Irrigation water is transported through approximately 3000' of 4" and 6" main line and is applied through a big gun, wheel line or 3" hand lines. Owner stated that when hand lines are used, approximately 70 heads having 5 GPM FCN are used while operating at a system pressure of 60 PSI. Water usage is computed to be as follows:

$$70 \text{ heads} \times 5.0 \text{ GPM} = 350.0 \text{ GPM} / 0.77 \text{ CFS}$$

Water is being used to full permitted duty of 0.69 CFS

Lift:

Topography of the area being irrigated rises slightly from east to west, ranging in elevation from 170.0 USGS to 190.0 USGS. The well casing is approximately 12" above the surrounding ground at approximately 173.0 USGS. The static water level in the well is approximately 16'; pumping level is approximately 30'. (based on information from the water well report).

Time Limits:

Actual construction work shall begin on or before November 15, 1996 and shall be completed on or before October 1, 1997. Complete application of the water shall be made on or before October 1, 1998. **Time Limits Met.**

Uses:

Water is being used to irrigate corn, pasture, alfalfa, strawberries and nursery stock.

Pump Test :

The Permittee has been advised that a pump test meeting the requirements of the Water Resources Department must be completed and submitted to Water Resources before a certificate of water right will be issued.

Water Meter:

The permit holder will use the pump capacity and electrical meter readings (KWH) to determine the water used as a suitable measuring device for water used.

The final proof survey and inspection of use were found to be completed under the terms and conditions of Permit G-12202. This final proof survey and inspection was completed by me on September 8, 1999, and the facts contained in this report and accompanying final proof map are correct to the best of my knowledge.

I, Paul Young, agree to the findings of the Certified Water Rights Examiner and do submit this site report and map as my Claim of Beneficial Use of the water as provided under the terms and conditions of Permit G-12202.

Subject: Water Right Permit Number G- 12202

Dear Permit holder,

Oregon Administrative Rule 690-217-0020(1) requires that ground water permit holders with a priority date after December 20, 1988, submit the results of a pump test before the Water Resources Department can issue a water right certificate. A copy of your permit is enclosed. The purpose of this letter is to remind you of the pump test requirement.

Pump tests are intended to provide aquifer and well information for ground water resource characterization and to help solve well problems. There is no penalty for not submitting a pump test.

If there is a reason why a pump test cannot be performed on a well, the owner may request from the Director an exemption from the pump test requirement. Requests shall be in writing and include the reason why a pump test cannot be performed. Exemptions, or conditioned exemptions, shall be granted if the reasons are found to be valid and eliminating the problem would place an unreasonable burden on the well owner. Exemptions shall be granted for public water supply wells if pump testing will cause interruption of service to customers.

Pump tests shall not be required of wells with diameters greater than 36 inches and depths less than 30 feet. Pump tests shall not be required of collector-type wells or infiltration galleries. If your well meets one of these two requirements please let us know.

If you are interested in conducting the pump test yourself, you should first review the requirements at http://arcweb.sos.state.or.us/rules/OARS_600/OAR_690/690_217.html or ask that a copy of the rules be sent to you.

A copy of the pump test form has been included. If you have questions, if you are not the owner of a ground water permit or if you have moved, please call the Department at 503-986-0900.

Sincerely,

Diana Durbin
Water Rights Certificate Staff

Qualifications for Conducting Pump Tests

Only pump tests conducted by the well owner, a full-time employee of the well owner who routinely works with and is familiar with wells and pumps, or a qualified individual authorized by the well owner shall be accepted by the Director. Individuals in the following groups will be considered qualified and authorized provided they have significant experience conducting pump tests:

- (1) Oregon licensed water well constructors.
- (2) Oregon registered professional geologists or certified engineering geologists.
- (3) Certified water rights examiners.
- (4) Oregon registered professional engineers.
- (5) Individuals whose primary occupation involves, wholly or in significant part, pump installation, service or testing.

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

PAUL YOUNG
9535 BUENA VISTA RD
INDEPENDENCE, OREGON 97351

(503)838-2891

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-12327

SOURCE OF WATER: A WELL IN THE WILLAMETTE RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 54.9 ACRES

RATE OF USE: 0.69 CUBIC FOOT PER SECOND

PERIOD OF ALLOWED USE : MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: December 5, 1990

POINT OF DIVERSION LOCATION: NW 1/4 NE 1/4, SECTION 15, T9S, R4W, W.M.;
100 FEET SOUTH & 1650 FEET WEST FROM NE CORNER, SECTION 15

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 SW 1/4 2.5 ACRES
NW 1/4 SW 1/4 1.0 ACRE
SW 1/4 SW 1/4 6.5 ACRES
SE 1/4 SW 1/4 12.2 ACRES
NW 1/4 SE 1/4 6.0 ACRES
SW 1/4 SE 1/4 15.2 ACRES
SECTION 10

NE 1/4 NW 1/4 10.5 ACRES
NW 1/4 NW 1/4 1.0 ACRE
SECTION 15

TOWNSHIP 9 SOUTH, RANGE 4 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

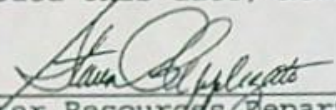

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1997. Complete application of the water to the use shall be made on or before October 1, 1998.

Issued this date, November 15, 1995

STATE OF OREGON

COUNTY OF Polk

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

PAUL YOUNG
9535 BUENA VISTA RD
INDEPENDENCE, OREGON 97351

(503)838-2891

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-12327

SOURCE OF WATER: A WELL IN THE WILLAMETTE RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 54.9 ACRES

RATE OF USE: 0.69 CUBIC FOOT PER SECOND

PERIOD OF ALLOWED USE : MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: December 5, 1990

POINT OF DIVERSION LOCATION: NW 1/4 NE 1/4, SECTION 15, T9S, R4W, W.M.;
100 FEET SOUTH & 1650 FEET WEST FROM NE CORNER, SECTION 15

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 SW 1/4 2.5 ACRES
NW 1/4 SW 1/4 1.0 ACRE
SW 1/4 SW 1/4 6.5 ACRES
SE 1/4 SW 1/4 12.2 ACRES
NW 1/4 SE 1/4 6.0 ACRES
SW 1/4 SE 1/4 15.2 ACRES
SECTION 10

NE 1/4 NW 1/4 10.5 ACRES
NW 1/4 NW 1/4 1.0 ACRE
SECTION 15

TOWNSHIP 9 SOUTH, RANGE 4 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

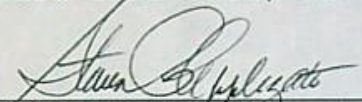

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1997. Complete application of the water to the use shall be made on or before October 1, 1998.

CASEWORKER J

ORIGINAL TO APPLICANT 7/29/93

STATE OF OREGON
WATER RESOURCES DEPARTMENT
WATER RIGHTS DIVISION

Before the Director of the Water Resources Department

In the matter of) FINAL
Groundwater Application) ORDER
G-12327 submitted by)
PAUL YOUNG)

FINDINGS OF FACT

Water Use Request

1. PAUL YOUNG requested use of 1.34 CUBIC FEET PER SECOND (CFS) of water from A WELL IN THE WILLAMETTE RIVER BASIN for IRRIGATION OF 107.0 ACRES within the Willamette basin. On August 10, 1995 this request was amended to IRRIGATION OF 54.9 ACRES.
2. The area of proposed use is in Polk County within SECTION 10 and SECTION 15, TOWNSHIP 9 SOUTH, RANGE 4 WEST, W.M.
3. The water delivery system is described by the applicant as a 30 HP pump and 6 inch pipe with wheel lines and guns.
4. The request was made in Application G-12327 which was received by the Water Resources Department on December 5, 1990.

Affected Waters

1. This proposed use of groundwater is not within or above a State Scenic Waterway.
2. There are no senior water rights from this point of appropriation.

Department Actions

1. The application was determined to be complete and not defective.
2. The Department determined, based upon OAR 690-09, that the proposed groundwater use will not have the potential for substantial interference with the nearest surface water.
3. A technical review of the application was completed and a report of the results of that review was mailed to the applicant on October 5, 1993.
4. The technical review determined:
 - a. IRRIGATION is allowed under the Willamette Basin Program.
 - b. The use is not prohibited by Statute.
 - c. Water for the proposed use is available in the amounts requested
 - d. The use would not injure existing water rights.
5. The report of technical review listed these determinations and disclosed a number of conditions and restrictions that would likely be included in the permit if issued. These conditions and

restrictions are listed in PERMIT G-12202.

Assessment

1. In proceeding with evaluation of Application G-12327, the following criteria were found to be relevant by the Department.
 - a. The Willamette Basin Program (OAR Chapter 690, Division 502)
 - b. The Polk County Comprehensive Plan and Zoning Ordinance
 - c. Groundwater availability as determined by the Groundwater/Hydrology staff (OAR Chapter 690, Division 9)
 - d. The established rate and duty for the proposed use
 - e. Pending, senior applications and existing water rights of record
 - f. Comments received

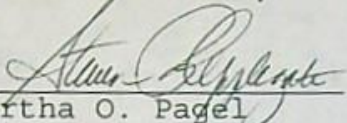

CONCLUSIONS OF LAW

1. Based upon continued evaluation, the Department finds the determinations of the technical review require modification to incorporate the application changes of August 10, 1995 which reduced the request from 107.0 acres to 54.9 acres of irrigation.
2. The Department finds that no more than 0.69 CFS would be necessary for the proposed use. The amount of water requested, 1.34 CFS, is more than necessary for IRRIGATION OF 54.9 ACRES and shall be limited to 0.69 CFS.
3. The period of allowed use is March 1 through October 31.
4. Polk County Planning Department staff completed the Department's Land Use Information Form and indicated thereon that the land use associated with the proposed use is compatible with the Polk County Comprehensive Land Use Plan.
5. The proposed use would not conflict with existing water rights, and, if exercised in accordance with law, rule, and the proposed conditions would not result in injury to existing water users.
6. The proposed use complies with all other rules of the Commission.
7. Pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly, and given the findings listed above, a rebuttable presumption has been established that the use will not impair or be detrimental to the public interest if exercised in the manner described in PERMIT G-12202.
8. No protests were timely filed in response to the Technical Review of OCTOBER 5, 1993, and no significant issues or disputes are known to the Department at this time.
9. Therefore, the proposed use, as conditioned, and described in PERMIT G-12202, would not impair or be detrimental to the public interest.

ORDER

IT IS HEREBY ORDERED that Application G-12327 in the name of PAUL YOUNG be approved for IRRIGATION OF 54.9 ACRES as provided in PERMIT G-12202.

DATED November 15, 1995

for 
Martha O. Pagel
Director
Water Resources Department

NOTICE:

This Final Order is issued by the Department pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly.

If this Final Order has modified the Department's prior findings or conditions, the applicant may request a contested case hearing within 14 days from the date of this order.

Issues on which a contested case hearing may be requested and conducted are limited to issues based on modifications to the Proposed Final Order.

Requests for a contested case hearing must be made in proper form, submitting the information required under Section 11(6), Chapter 416, Oregon Laws, 1995.

Requests for a contested case hearing must be received by the Water Resources Department in Salem, Oregon by 5:00 pm on November 29, 1995.

Only the applicant and any persons who timely filed a protest may appeal the provisions of this final order.

Application for a Permit to Appropriate Ground Water
WATER RESOURCES DEPT.
SALEM, OREGON

Applicant(s) Paul Young
(Please print or type - use dark ink)

Mailing Address: 9535 Buena Vista Road
Independence Oregon 97351
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. THE DEVELOPMENT (number of wells, tile lines, infiltration galleries, etc.):
1

If development is less than one mile from a natural stream, give the following:

Distance from development to stream: N/A

Elevation difference between streambed and development: N/A

NOTE: Wells must be constructed according to standards set by the department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well driller's log with this application, and skip to Section 2 below.

Diameter of well: 10" Depth in feet: 43'

Type and size of well casing: _____ No. of feet: _____

Estimated depth to water: 10'

Type of access port or measuring device: _____

Wells to be drilled by: _____

Address: _____

If the water well is flowing artesian, describe your water control and conservation works: _____

N/A

2. TOTAL AMOUNT OF WATER to be applied to beneficial use: 1.34 cubic feet per second, OR _____ gallons per minute. If water is to be used from more than one ground water source, give the quantity of water from each: _____

200
294

3. INTENDED USE(s) OF WATER: irrigation

If for more than one use, give the quantity of water from each source for each use; _____

If for DOMESTIC use, state the number of households to be supplied; _____

If for MUNICIPAL OR QUASI-MUNICIPAL use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.)

If for MINING use, state the nature (gold, silver, etc.) of the mines to be served; _____

If for IRRIGATION, or other land area use, state the TOTAL number of acres to be developed under each use;

Irrigation 107

Other (describe) _____

4. DESCRIPTION OF WATER DELIVERY SYSTEM: Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

30 HP Pump - 6 inch Pipelines with wheel line + hand lines + Big Guns

5. PROJECT SCHEDULE: (List month and year)

Proposed date construction work will begin N/A

Proposed date construction work will be completed Completed

Proposed date water use will be completed "

NOTE: A map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the subject property are required under ORS 537.140 and OAR 690 as a part of your application. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

Applicant CWRE Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

Applicant CWRE Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? Yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

NOTE: Prior to receiving a certificate of water right, the permit holder must submit to the Water Resources Department the results of a pump test meeting the department's standards. The Director will require water level or pump test results every ten years thereafter.

REMARKS: _____

NOTE: The permit, when issued, is for the beneficial use of water without waste. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible the land use you propose may not be allowed if it is not in keeping with the goals and acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

OCTOBER 5, 1993

PAUL YOUNG
9535 BUENA VISTA RD
INDEPENDENCE, OR 97351

Reference: File G 12327

Hello:

This letter informs you of the current status of your application for a water use permit and accompanies the Satisfactory Report of Technical Review For Water Use Permit(s). We apologize for the delay in transmitting this information and Report to you and for any inconvenience the wait may have caused you.

The enclosed Report of Technical Review is the Department's summary of a specialized analysis of various legal and scientific aspects of your application and proposed water use. We are required by the state of Oregon's administrative rules (in OAR 690-11-160) to conduct this official technical review of each application submitted to the Oregon Water Resources Department for a water use permit. This process was designed to insure that your application receives a fair evaluation and to secure protection of existing water rights and of the public at large.

AS THE RESULT OF OUR TECHNICAL EVALUATION OF YOUR APPLICATION, WE HAVE DETERMINED THAT YOUR APPLICATION SATISFIES THE REQUIREMENTS OF THE TECHNICAL REVIEW.

The Department will now move your application to the next phase of processing. This phase includes a public interest review of your proposed water use. No final action may be taken on your application until the public interest review is completed.

You should also note that the Report of Technical Review describes conditions currently anticipated which may limit the water use proposed in your application.

If you wish to object to any of the analyses contained in the Report, you must submit your objection to the Department in writing within 60 days of the date of mailing of this Report or by the date specified below. Your objection must allege that the technical review is defective and you may also submit evidence which demonstrates that your proposed water use will not impair or be detrimental to the public interest.

Copies of the Report of Technical Review will be distributed to all persons who have filed comments or otherwise expressed an interest in the water use proposed in your application. Interested parties must also submit their objections within the prescribed objection period. Those objections must allege that the technical review is defective and/or that the proposed water use may impair or be detrimental to the public interest.

If an objection contains allegations that the technical review is defective, it must be accompanied by facts which support such allegations. If an objection contains allegations that the proposed water use may impair or be detrimental to the public interest, the objection must specify the particular public interest standards which apply as set out in Oregon Revised Statutes (ORS 537.170(5)) and Oregon Administrative Rules (OAR 690-11-195) and state facts showing how such standards would be violated.

All evidence and objections must be received by our Salem office no later than 5:00 p.m. on or before DECEMBER 13, 1993 or the Department may presume there is no opposition to any of the analyses set out in the technical review report. Evidence and objections must be addressed and delivered to: Oregon Water Resources Department, Water Rights Section, 3850 Portland Road, Northeast, Salem, Oregon 97310.

If objections and evidence are submitted on or before the above time and date, the Director of the Water Resources Department will evaluate each issue raised in the objections and either accept or deny them. Objectors are encouraged to indicate whether they would be interested in resolving their concerns through alternative dispute resolution.

If any of the objections are denied, the objector will be allowed thirty days to submit a protest to the denial. The protest must meet the standards set forth in OAR 690-02-030 through 080.

If you have any questions, please feel free to telephone me or any of the Department's Water Rights Section staff. My telephone number is 378-3739, in Salem, or you may call toll free from within the state to 1-800-624-3199.

Sincerely,

STEVE BROWN
Manager
Water Rights Division

GROUNDWATER AVAILABILITY

This is an application for use of groundwater. The Groundwater/Hydrology Section report indicates that:

Pursuant to OAR 690-09-040, the proposed groundwater withdrawal will not have the potential to cause substantial interference with surface water.

In addition, the Groundwater/Hydrology Section has reported the water is likely to be available to supply the proposed use.

CONFLICTS WITH OTHER WATER RIGHTS:

There are no existing rights from this point of diversion. See proposed permit conditions.

There are existing water rights appurtenant to the lands described in the application. See proposed permit conditions.

REPORT CONCLUSIONS:

Water in the amount of 1.34 cfs is likely available for 8 months of the 8 months normal period of use. Therefore, the Director finds that water is available in sufficient amount and during periods which will reasonably support the proposed use.

THE PROPOSED WATER USE, AS CONDITIONED, SATISFIES THE REQUIREMENTS OF THIS TECHNICAL REVIEW.

This Report of Technical Review sets out the Director's technical analysis of the application. In addition to this technical analysis, the Director will evaluate this application to determine whether the proposed water use might impair or be detrimental to the public interest under the standards set out in ORS 537.170(5) and OAR 690-11-195. Matters relating to public interest in the proposed water use which are raised in objections will be evaluated following the 60-day objection period.

PROPOSED PERMIT CONDITIONS

Application: G-12327

The following conditions will apply to water use under the permit, and will appear in the permit, if issued.

1. Period of allowed use: **March 1 to October 31**
2. Rate Volume (cfs) of use: **1.34 IRRIGATION**
3. The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.
4. Water use development requirements:
 - A) Begin construction by (one year from issuance of permit).
 - B) Complete construction by October 1, 1995.
 - C) Completely apply the water to beneficial use by October 1, 1996.
5. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.
6. Measurement, recording and reporting conditions:
 - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
 - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
 - C. The Director may require the permittee to keep and

maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

7. Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.
8. This right is limited to any deficiency in the available supply of any prior right existing for the same land.
9. Failure to comply with any of the provisions of the permit may result in action including, but not limited to, restrictions on the use, penalties, or cancellation of the permit.
10. The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
11. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.
12. The use of water shall be limited when it interferes with any prior surface or ground water rights.
13. This right is limited to any deficiency in the available supply of any prior right existing for the same land.

OCTOBER 5, 1993

PAUL YOUNG
9535 BUENA VISTA RD
INDEPENDENCE, OR 97351

Reference: File G-12327

Dear PAUL YOUNG:

Under separate cover I have enclosed our report of technical review. This process is fairly new to staff and has taken more time to complete than anticipated; however, we believe that the process is more fair and will allow staff to deal with issues in a more timely manner. I truly apologize for the delay.

Our records show an existing water right. Certificate 36333 was issued to Paul Murphy in 1969 and granted the right to the use of of water from a well located in the NE 1/4 NW 1/4 Section 15 for irrigating 50.4 acres.

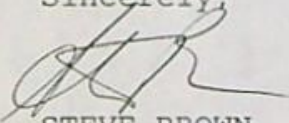

If the right has not been exercised for five successive years it has been forfeited and should be removed from our records by voluntary cancellation by the owner of the land.

If the right is valid and you wish to establish a right to use the water from new well on the lands having the existing right your application and map should be changed by indicating the land that already has a right of record as being supplemental irrigation.

After submission of information regarding the problems outlined above and thier resolution and the deadline for objections to the technical review expires, staff will again review the file for objections and further process your application as soon as possible.

Please feel free to contact me if you have any questions and I will be happy to address any concerns you may have.

Sincerely,

STEVE BROWN
Manager
Water Rights Division

STATE OF OREGON
COUNTY OF POLK
CERTIFICATE OF WATER RIGHT

This Is to Certify, That

PAUL L. MURPHY

of Route 1, Box 117-A, Independence, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of a well

a tributary of Willamette River for the purpose of irrigation of 50.4 acres

under Permit No. G-2676 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from June 10, 1964

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.43 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, as projected within Davidson DLC 42, Section 15, T. 9 S., R. 4 W., W. M. Well located 920 feet North and 1050 feet west from S $\frac{1}{2}$ Corner, Davidson DLC 42. The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

13.2 acres SE $\frac{1}{4}$ SW $\frac{1}{4}$ as projected within Davidson DLC 42
16.2 acres SW $\frac{1}{4}$ SE $\frac{1}{4}$ as projected within Davidson DLC 42
Section 10

19.8 acres NW $\frac{1}{4}$ NE $\frac{1}{4}$ as projected within Davidson DLC 42
0.5 acre Lot 1 (SW $\frac{1}{4}$ NE $\frac{1}{4}$)
2.8 acres Lot 1 (NW $\frac{1}{4}$ NE $\frac{1}{4}$)
1.1 acres NE $\frac{1}{4}$ NW $\frac{1}{4}$ as projected within Davidson DLC 42
Section 15
T. 9 S., R. 4 W., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

Reference: File G 12327

Dear Applicant:

Thank you for submitting a revised map for Application G-12327 showing the proposed use as primary and supplemental irrigation. In reviewing the map, it appears that the area identified as primary irrigation includes more than the 54.9 acres noted on the map. Please indicate on the map the number of acres of primary irrigation, if any, included in the NW 1/4 of the NE 1/4 of Section 15.

The map also appears to show supplemental irrigation in portions of the NE 1/4 of the NW 1/4 of Section 15. Please indicate on the map the total number of acres of supplemental irrigation, including the area in the NW 1/4 of the NE 1/4 of Section 15.

Please keep in mind that permit recording fees are based on the number of acres irrigated. Fees have been paid in the amount of \$494.00, being a \$200.00 examination fee and recording fee for 107.0 acres of irrigation. A change in the total number of acres would result in a corresponding change in the required fee. Additional fees in the amount of \$2.00 for each additional acre, or portion thereof, will be due prior to permit issuance. Any excess fees collected will be refunded to the payer.

If you need further assistance please contact the Water Rights Section at the address listed below or phone (503)378-3739.

Sincerely,

Douglas L. Baer
Senior Water Rights Technician

FINAL PROOF SURVEY
UNDER

Application No. G-2887 Permit No. G-R.676
IN NAME OF

PAUL L. MURPHY

Surveyed Aug. 13, 1968, by W. J. Ruppert

GROUNDWATER AVAILABILITY

This is an application for use of groundwater. The Groundwater/Hydrology Section report indicates that:

Pursuant to OAR 690-09-040, the proposed groundwater withdrawal will not have the potential to cause substantial interference with surface water.

In addition, the Groundwater/Hydrology Section has reported the water is likely to be available to supply the proposed use.

CONFLICTS WITH OTHER WATER RIGHTS:

There are no existing rights from this point of diversion. See proposed permit conditions.

There are existing water rights appurtenant to the lands described in the application. See proposed permit conditions.

REPORT CONCLUSIONS:

Water in the amount of 1.34 cfs is likely available for 8 months of the 8 months normal period of use. Therefore, the Director finds that water is available in sufficient amount and during periods which will reasonably support the proposed use.

THE PROPOSED WATER USE DOES NOT SATISFY THE REQUIREMENTS OF THE TECHNICAL REVIEW AND THEREFORE, THE DIRECTOR OF THE WATER RESOURCES DEPARTMENT PROPOSES THAT YOUR APPLICATION FOR A WATER USE PERMIT BE REJECTED.

This Report of Technical Review sets out the Director's technical analysis of the application. In addition to this technical analysis, the Director will evaluate this application to determine whether the proposed water use might impair or be detrimental to the public interest under the standards set out in ORS 537.170(5) and OAR 690-11-195. Matters relating to public interest in the proposed water use which are raised in objections will be evaluated following the 60-day objection period.

PROPOSED PERMIT CONDITIONS

Application: G-12327

The following conditions will apply to water use under the permit, and will appear in the permit, if issued.

1. Period of allowed use: **March 1 to October 31**
2. Rate Volume (cfs) of use: **1.34 IRRIGATION**
3. The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.
4. Water use development requirements:
 - A) Begin construction by (one year from issuance of permit).
 - B) Complete construction by October 1, 1995.
 - C) Completely apply the water to beneficial use by October 1, 1996.
5. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.
6. Measurement, recording and reporting conditions:
 - A. The Director may at any time require the permittee to report general water use information, including the periods of water use and the place and nature of use of water under the permit.
 - B. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order
 - C. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable

notice.

- D. The Director may at any time require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director.
7. Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.
8. This right is limited to any deficiency in the available supply of any prior right existing for the same land.
9. Failure to comply with any of the provisions of the permit may result in action including, but not limited to, restrictions on the use, penalties, or cancellation of the permit.
10. The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
11. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.
12. The use of water shall be limited when it interferes with any prior surface or ground water rights.
13. This right is limited to any deficiency in the available supply of any prior right existing for the same land.

GROUNDWATER AVAILABILITY

This is an application for use of groundwater. The Groundwater/Hydrology Section report indicates that:

Pursuant to OAR 690-09-040, the proposed groundwater withdrawal will not have the potential to cause substantial interference with surface water.

In addition, the Groundwater/Hydrology Section has reported the water is likely to be available to supply the proposed use.

CONFLICTS WITH OTHER WATER RIGHTS:

There are no existing rights from this point of diversion. See proposed permit conditions.

There are existing water rights appurtenant to the lands described in the application. See proposed permit conditions.

REPORT CONCLUSIONS:

Water in the amount of 1.34 cfs is likely available for 8 months of the 8 months normal period of use. Therefore, the Director finds that water is available in sufficient amount and during periods which will reasonably support the proposed use.

THE PROPOSED WATER USE, AS CONDITIONED, SATISFIES THE REQUIREMENTS OF THIS TECHNICAL REVIEW.

This Report of Technical Review sets out the Director's technical analysis of the application. In addition to this technical analysis, the Director will evaluate this application to determine whether the proposed water use might impair or be detrimental to the public interest under the standards set out in ORS 537.170(5) and OAR 690-11-195. Matters relating to public interest in the proposed water use which are raised in objections will be evaluated following the 60-day objection period.

PROPOSED PERMIT CONDITIONS

Application: G-12327

The following conditions will apply to water use under the permit, and will appear in the permit, if issued.

1. Period of allowed use: March 1 to October 31
2. Rate Volume (cfs) of use: 1.34 IRRIGATION
3. The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.
4. Water use development requirements:
 - A) Begin construction by (one year from issuance of permit).
 - B) Complete construction by October 1, 1995.
 - C) Completely apply the water to beneficial use by October 1, 1996.
5. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.
6. Before use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Department. The permittee shall maintain the measuring device, shall keep a complete record of the amount of water diverted and shall submit a report which includes the recorded water use measurements to the Department annually or as may be required by the Director.
7. Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.
8. This right is limited to any deficiency in the available supply of any prior right existing for

the same land.

9. Failure to comply with any of the provisions of the permit may result in action including, but not limited to, restrictions on the use, penalties, or cancellation of the permit.
10. The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
11. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.
12. The use of water shall be limited when it interferes with any prior surface or ground water rights.
13. This right is limited to any deficiency in the available supply of any prior right existing for the same land.

Under separate cover I have enclosed our report of technical review. This process is fairly new to staff and has taken more time to complete than anticipated; however, we believe that the process is more fair and will allow staff to deal with issues in a more timely manner. I truly apologize for the delay.

The technical review reveals that your proposed use of water ^{is} are irrigation on 107 acres.

Our records show an existing water right. Certificate 36333 was issued to Paul L. Murphy in 1969 and granted the right to the use of water from a well located in the NE 1/4 NW 1/4 of Section 15 for irrigating 50.4 acres.

If the right has not been exercised for five successive years, it has been forfeited and should be canceled. We will prepare the affidavit of abandonment upon request. ~~Only the legal owner of the property may authorize cancellation of the right.~~

IF YOU WISH TO RETAIN THE EXISTING WATER RIGHT YOU MAY WISH TO APPLY FOR A CHANGE OF POINT OF APPROPRIATION FROM OLD WELL TO NEW WELL IF EXISTING RIGHT IS STILL VALID.

If the right is valid, your application and map should be changed by deleting the area of conflict. Your application would be returned for these changes if you like.

Please feel free to contact me if you have any questions and I will be happy to address any concerns you may have.

Sincerely,

Director from the

RE: Application File #G-12327

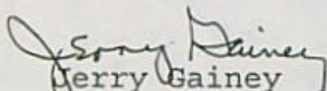

Dear Mr. Young:

On December 1, 1994, a letter was sent from the Department requesting additional information necessary to complete your application for water use. As of this date we have not received your plan to resolve the conflict. Also please sign and return the enclosed oath.

Please submit this item by **August 25, 1995**. If we do not receive the item requested above by this date, we will reject your application consistent with ORS Chapter 537. If your application is rejected, any fees submitted in excess of the examination fee will be refunded; however, the examination fee of \$200.00 is non-refundable and will not be returned. In addition, the priority date associated with your application will be lost.

Should you have any questions regarding your application or the required materials listed above, or if you need to request an extension of time, please call me personally at 1-800-624-3199, extension 458.

Sincerely,

Jerry Gainey

REFERENCE: FILE G-12327

Dear Applicant:

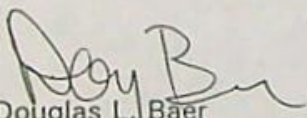

Your application file was reviewed recently and was found to be lacking the following item(s):

- FEES – Please submit recording fees in the amount of \$_____.
- MAP – The map must be prepared/corrected by a Certified Water Rights Examiner.
- LEGAL DESCRIPTION – A complete legal description of the property. This may be found in your deed or title insurance policy.
- EASEMENT – Permission/Authorization to access lands included in the application but not owned by the applicant.
- OATH – The following statement must be signed, dated, and included in the application file:
"I/We certify that the information I have provided in this application is an accurate representation of the proposed water use and is true and correct to the best of my knowledge."
- CONFLICT RESOLUTION – Your proposed use conflicts with an existing water right. Please advise us of how you plan to resolve the conflict.
- OTHER: _____

These items must be received before a permit may be issued. If these items are not received within 30 days (90 days for the map) from the date of this letter, the Department may begin the procedure for rejecting the application. If for any reason you are not able to submit the required material(s) within the time allotted, please let me know as soon as possible.

To help speed processing, please mark the envelope "URGENT" and send the requested items to my attention at the address listed below.

Form supplied by a service of SALEM TITLE COMPANY

KNOW ALL MEN BY THESE PRESENTS, that PAUL L. MURPHY and FRIEDA L. MURPHY, husband and wife,

in consideration of Sixty-one thousand and no/100 Dollars paid by the Grantees herein, do hereby grant, bargain, sell and convey unto

PAUL BARRAN YOUNG and SYLVIA LEE YOUNG, husband and wife, tenants by the entirety, the following described real property, situate in the County of POLK and State of Oregon, to wit:

TRACT 1: Beginning at a point 15.88 chains North of the Southeast corner of the Donation Land Claim of Hezekiah Davidson and Melissa Davidson, his wife, Notification No. 1519, Claim No. 42, being a part of Sections 10 and 15 in Township 9 South, Range 4 West of the Willamette Meridian in Polk County, Oregon; thence West 39.75 chains; thence North 25.20 chains; thence East 39.75 chains; thence South 25.20 chains to the place of beginning.

TRACT 2: Beginning at the Southeast corner of the Hezekiah Davidson Donation Land Claim Notification No. 1519, Claim No. 42, Township 9 South, Range 4 West of the Willamette Meridian in Polk County, Oregon; thence South 3 chains to the North line of Alexander McCarthy Donation Land Claim; thence West 58 chains to a post; thence North 50° 00' East 3.33 chains to a post; thence North 1.01 chains to the South line of said Davidson Donation Land Claim; thence East 15.72 chains to a rock for the Southwest corner of the East 1/2 of said Davidson Donation Land Claim; thence North 15.88 chains; thence East 39.75 chains to the East boundary line of said Davidson Donation Land Claim; thence South 15.88 chains to the place of beginning.

SAVE AND EXCEPT: Beginning at a point which is 39.75 chains West of the Southeast corner of the Hezekiah Davidson Donation Land Claim, Not. No. 1519, Claim No. 42, Township 9 South, Range 4 West of the Willamette Meridian in Polk County, Oregon; thence South 3 chains; thence West 18.25 chains to a post; thence North 50° East 3.33 chains to a post; thence North 1.01 chains to the South line of said Davidson Donation Land Claim; thence East 15.72 chains along said South line to the place of beginning.

FURTHER SAVE AND EXCEPT that portion of the above described tracts of land lying within the boundaries of public roads and highways.

The true and actual consideration paid, stated in dollars, is \$61,000.00. To Have and to Hold the granted premises unto the said Grantees, as tenants by the entirety, their Heirs and Assigns forever.

The Grantees do covenant that they are lawfully seized in fee simple of the above granted premises free from all incumbrances.

NORE

and that they well and their heirs, executors and administrators shall warrant and defend the granted premises against the lawful claims and demands of all persons except as above stated.

Witness our hands and seal this 7th day of July 1969

Land Use Information Form: Permits, Hydroelectric Licenses, Water Uses in Addition to Classified Uses

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT FILL OUT THIS FORM IF water is to be diverted, conveyed, and/or used only on federal lands.

RECEIVED

DEC 05 1990

Applicant's Name: PAUL YOUNG
 Address: 9535 BUENA VISTA ROAD
 City: INDEPENDENCE State: OR Zip: 97351 Day Phone: 503-328-3001
 WATER RESOURCES DEPT SALEM, OREGON

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot or Local I.D.#	Plan Designation/Zoning (e.g. Rural Residential/RR-5)	Check All That Apply		
		Water Diverted	Water Conveyed	Water Use
<u>13-5</u> <u>LOT 2-6, 7C</u>	<u>EXCLUSIVE FORM USE EFU</u>			<u>X</u>

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used. Polk

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within city limits. In this case, only the city planning agency must complete this form. Please request extra forms as needed.

For Local Government Use Only

Local government planning officials are to complete the remainder of this form. If this form can not be completed while the applicant waits, please sign and detach the receipt as instructed below. Please mail the completed form directly to the Water Resources Department (3850 Portland Rd. NE, Salem, OR, 97310) within 60 days of the date of receipt as shown below. If the form is not completed within 60 days, the Department may take action to approve the water use.

a) Check the appropriate box below and provide requested information.

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 136.020. Go to section b) on reverse side.

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus any accompanying findings is sufficient.)

Type of Land Use Approvals Needed (e.g.: plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Please check the box that applies:

Receipt for Request for Land Use Information

WRD Applicant Name: PAUL YOUNG

This receipt must be signed by a local government representative and returned to the applicant for inclusion in the WRD application IF the local government can not provide the above requested land use information while the applicant waits.

City or County: _____

Staff Contact: _____ Phone: _____

Signature: _____ Date of Information Request: _____

(For Local Use Continued)

b) Please provide printed name and written signature.

Name: Sandy Mathewson
Title: Assistant Planner

Date: 11-30-90
Phone: 623-9237

Signature: Sandy Mathewson

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet. For additional information call Roberta Jortner or Rick Bastasch at 378-3671.

Additional Comments:

Lined area for additional comments.

Description of Water Use

Note to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Note to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

REFERENCE FILE: G-12327

We have received your application proposing to use water from a well for irrigating 107 acres along with supporting data and fees of \$494. Our money receipt 69680 was handed to James Grimm. The application has been assigned file number G-12327.

You will have to submit a copy of the legal description of the property. This can be copied from your deed or title insurance policy.

Our records show an existing right of record. Certificate 36333 was issued to Paul L. Murphy in 1969 and granted the right to the use of water from a well located in the NE 1/4 NW 1/4 of Section 15 for irrigating 50.4 acres. A copy of the map showing the area in question is enclosed.

If this right has not been exercised for five successive years, it has been forfeited and should be canceled. We will prepare the affidavit of abandonment upon request. Only the legal owner of the property may authorize cancellation of the right.

If the right is valid, your application and map should be changed by deleting the area of conflict. Your application would be returned for those changes if you like.

Further action will be withheld on this file for a reasonable length of time pending your reply.

Sincerely,

THOMAS E. SHOOK
