NOTICE OF COMPLETION OF CONSTRUCTION

I, Bruce R. Chapin, the holder of Permit No. G-13786,  
to appropriate the public waters of the state of Oregon, completed the construction of the works described  
therein on the 26 day of April, 1996.

Remarks:

If the works have less capacity than described in the permit, or you have definitely abandoned part of the proposed development, you should so state in order that our records may not be unnecessarily encumbered.

IN WITNESS WHEREOF, I have hereunto set my hand this 15 day of January, 1997.

Bruce R. Chapin

(Signature of Applicant)

9965 Wheatland Rd N Salem 97303

(Address)

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when construction work is completed.

## CERTIFICATE OF WATER RIGHT

## THIS CERTIFICATE ISSUED TO

BRUCE R CHAPIN  
9965 WHEATLAND RD N  
SALEM OR 97303

confirms the right to use the waters of A WELL in the Willamette River Basin for AGRICULTURE USE AND SUPPLEMENTAL IRRIGATION of 1.9 ACRES.

This right was perfected under Permit G-12437. The date of priority is AUGUST 15, 1994. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.024 CUBIC FOOT PER SECOND, measured at the well.

Period of allowed use is year round.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Measured Distances
6 S	3 W	WM	11	NW SE	2		197 FEET NORTH & 191 FEET WEST FROM SW CORNER, BEERS DLC 38

A description of the place of use to which this right is appurtenant is as follows:

AGRICULTURE USE AND SUPPLEMENTAL IRRIGATION							
Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Acres
6 S	3 W	WM	11	NW SE	2		1.9

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTEITH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for agriculture use may be made at anytime of the year that the use is beneficial.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interference.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

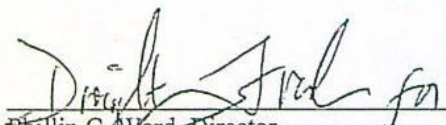

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued OCT 02 2009

Date Mailed: October 2, 2009

## NOTICE OF CERTIFICATE ISSUANCE

The attached certificate confirms the water right established under the terms of a permit issued by this department. The water right is now appurtenant to the specific place where the use was established as described by the certificate. The water right is limited to a specific amount of water, but not more than can be beneficially used for the purposes stated within the certificate.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within **60 days of the mailing date stated above** as specified by ORS 183.484(2).

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

Under ORS 537.260 and 537.270, a water right certificate may be contested before the Water Resources Department within three (3) months of the date it is issued. If a certificate is contested, the qualifying contestant shall be offered an administrative hearing.

Oregon law does not allow the Director to reissue a certificate because of a change in the ownership of the appurtenant place of use. The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If any portion of this water right is not used for five or more consecutive years, that portion of the right may be subject to forfeiture according to ORS 540.610. Land enrolled in a Federal Reserve Program is not subject to forfeiture during the period of enrollment. Other exceptions to forfeiture are explained in ORS 540.610.

If you have any questions please contact Gerry Clark at 503-986-0811.

## NOTICE

Reference: Permit G-12437 Application G-13786

Enclosed is a proposed certificate of water right and a map which illustrates the location of the right. The map and proposed certificate represent the extent water was used within the terms of the permit based upon a survey and inspection.

If you do not agree with the proposed certificate or the map, Oregon Administrative Rule 690-330-010 (2) allows the permittee or landowner 60 days from the mailing date of this notice to request the Department to reconsider the contents of the proposed certificate.

If you agree with the proposed certificate and map no response to this notice is required. Sometime after the 60 day period, the recorded certificate of water right will be mailed to the permittee.

If you have any questions please contact Gerry Clark at 503-986-0811.

Sincerely,

Dwight French  
Administrator  
Water Rights Division

STATE OF OREGON

COUNTY OF MARION

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

BRUCE R CHAPIN  
9965 WHEATLAND RD N  
SALEM, OREGON 97303

(503) 393-6327

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13786

SOURCE OF WATER: A WELL IN WILLAMETTE RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 4.52 ACRES AND AGRICULTURAL USE (NURSERY OPERATIONS, NUT FARM)

RATE OF USE: 0.0563 CFS

PERIOD OF ALLOWED USE: YEAR ROUND

DATE OF PRIORITY: August 15, 1994

POINT OF DIVERSION LOCATION: NW 1/4 SE 1/4, SECTION 11, T 6 S, R 3 W, W.M.; 197 FEET NORTH AND 189 FEET WEST FROM THE SW CORNER OF BEERS DLC 38

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 SE 1/4 4.52 ACRES  
SECTION 11  
TOWNSHIP 6 SOUTH, RANGE 3 WEST, W.M.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The amount of water used for nursery operations use is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for agricultural use may be made at anytime of the year that the use is beneficial.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued April 26, 1996

  
Water Resources Department  
for Martha O. Pagel  
Director

## CLAIM OF BENEFICIAL USE

November 26, 1997

Bruce R. Chapin  
9965 Wheatland Road N.  
Salem, Oregon 97303  
(503)393-6327

Application No. G-13786  
Permit No. G-12437

---

On November 26, 1997 I made an inspection of G-12437 with Bruce R. Chapin for his claim of beneficial use for 0.0563 cfs. The purpose is for supplemental irrigation of 4.52 acres and agricultural use (nursery operations, nut farm) year round. Since Mr. Chapin requested the inspection as soon as possible, this lead me to an inspection when the water was not actually being used and my report is based on Mr. Chapin's information about his operation.

**Source** A well

**Diversion Point** The well is an existing well that serves the two houses and consisted of a 4" casing. 0.4' above the concrete floor of the pump house. The pump house floor is 3.4' below ground. The owner reported that the well was 60' deep. There was no access port, but Mr. Chapin did remove a 3/8" vent pipe. I could not get my probe into the hole but Mr. Chapin had a homemade device that works on the same principle and measured the static level at 17.45' from the well head. The pump was not running at the time of my visit. A search of WRD well logs shows no record.

**Motor & Pump** Myer SJ Submersible Pump 1 1/2 Hp  
Model J1535  
Serial No. 154535  
Set at 56'-6"

**RECEIVED**

APR 06 1998

WATER RESOURCES DEPT.  
SALEM, OREGON

**Piping** 4" PVC main buried running north-south 460'  
3" lateral aluminum hand lines 40' x 6 = 240'  
1" service lines to house

**Heads** 6 heads with 13/64 orifice

**Use** Supplemental irrigation lawn, nursery stock (cherry and filbert trees),  
and agricultural use (filbert washing).  
Primary Source Application G-7696

**Lift** Pump test shows lift of 37.5' to surface. Surrounding ground is flat so the only additional lift would be 3.0' to existing ground.

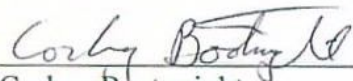

**Calculation** See attached calculation sheet.

**Survey Tie** Used field measurements along with Assessor's office map. Field area was confirmed by field measurements, aerial photo, along with Assessor's office assessment packet improvement listings and map.

**Special Conditions** A flow meter may be required at some future date.

---

*The final proof survey and inspection of the use as found to be completed under the terms and conditions of Permit No G-12437 was completed by me on November 26, 1997, and the facts contained in this report and accompanying final proof map are correct to the best of my knowledge.*

  
Corbey Boatwright CWRE No. 204

*I, Bruce R. Chapin, agree to the findings of the CWRE and do submit this site report and map as my Claim of Beneficial Use of the water as provided under the terms and conditions of my Permit G-12437.*

## Oregon Water Resources Department PUMP TEST COVER SHEET

### Well Owner:

Name Bruce Chapin  
Address 9965 Wheatland Rd N  
City, State, Zip Salem Or 97303  
County Marion

### Well Location:

Township 6S (N or S), Range 3W (E or W)  
Section 11 1/4, 1/4, 1/4 NW 1/4 of SE 1/4  
Well Depth 60' Date Drilled Unknown  
Owner's Well No. (if any) \_\_\_\_\_  
POD-ID \_\_\_\_\_

### Water Right Information:

Application No. G-13786 Permit No. G-12437 Certificate No. \_\_\_\_\_  
Is this well used for more than one water right? N (Y/N) If Yes, fill out numbers below:  
App. No. \_\_\_\_\_ Permit No. \_\_\_\_\_ Cert. No. \_\_\_\_\_  
App. No. \_\_\_\_\_ Permit No. \_\_\_\_\_ Cert. No. \_\_\_\_\_

### Pump Test:

Test conducted by Bruce Chapin Well Owner? Y (Y/N)  
Company Bruce Chapin Orchards  
Address 9965 Wheatland Rd N Date of Test 8-5-97  
City, State, Zip Salem Or 97303

Method of Discharge Measurement Measured time to fill 5 gal bucket from 3 of 5 sprinklers  
Method of Water Level Measurement Electric water level measuring tape  
Depth of Air Line (if used) \_\_\_\_\_  
Pump Type (Turbine, Submersible, etc.) submersible  
Was pump test conducted during normal use of the well Y (Y/N)

Description of point from which water level was measured ground level  
Is measuring point above or below ground level? \_\_\_\_\_  
Distance between measuring point and ground level (correction factor) \_\_\_\_\_

Are you aware of any wells, other than domestic or stock wells, pumping within 1000 feet of the tested well during the test or within 24 hours prior to the test? N (Y/N) If yes, give approximate distances to each and approximate pumping rate of each. If, possible, indicate if they were turned on or off during the test \_\_\_\_\_

Is there a lake, stream or other surface water body within 1/4 mile of the tested well? Y (Y/N)  
If yes, give approximate distance from the well and approximate elevation difference between the surface water and the well head: Approximate distance 800 ft  
Approximate elevation difference -0-  
Is well elevation above or below the surface water body? -0-

**Static Water Level Measurements:** (Three measurements at least 20 minutes apart are required in the hour before pumping begins):

Time: <u>10:10</u>	Depth to Water: <u>22' 4"</u>	(ft/in)
Time: <u>10:50</u>	Depth to Water: <u>22' 4"</u>	(ft/in)
Time: <u>11:10</u>	Depth to Water: <u>22' 4"</u>	(ft/in)

**Discharge Measurements:** (A discharge measurement is required at the start of pumping and once an hour during the test):

Time: <u>11:30</u>	Discharge Rate: <u>35</u>	(gpm)
Time: <u>12:30</u>	Discharge Rate: <u>35</u>	(gpm)
Time: <u>1:30</u>	Discharge Rate: <u>35</u>	(gpm)
Time: <u>2:30</u>	Discharge Rate: <u>35</u>	(gpm)
Time: <u>3:00</u>	Discharge Rate: <u>35</u>	(gpm)

Pump turned on: Date: 8-5-97 Time: 11:10 AM Pump turned off: Date: 8-5-97 Time: 3:22 PM  
Total pumping time: 4 hours, 12 minutes.

Note: Well must be idle for at least 16 hours prior to the test.

SUBJECT: Application G-13786

### GROUNDWATER/SURFACE WATER CONSIDERATIONS

1. PER THE \_\_\_\_\_ Basin rules, one or more of the proposed POA's is/is not within \_\_\_\_\_ feet/mile of a surface water source (\_\_\_\_\_) and taps a groundwater source hydraulically connected to the surface water.
2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed groundwater use  
a. \_\_\_\_\_ will, or \_\_\_\_\_ have the potential for substantial interference with the nearest  
b. ☒ will not \_\_\_\_\_ surface water source, namely lake; or  
c. \_\_\_\_\_ will if properly conditioned, adequately protect the surface water from interference:  
i. \_\_\_\_\_ The permit should contain condition #(s) \_\_\_\_\_;  
ii. \_\_\_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;  
iii. \_\_\_\_\_ The permit should be conditioned as indicated in item 4 below; or  
d. \_\_\_\_\_ will, with well reconstruction, adequately protect the surface from substantial interference.

### GROUNDWATER AVAILABILITY CONSIDERATIONS

3. BASED UPON available data, I have determined that groundwater for the proposed use  
a. \_\_\_\_\_ will, or \_\_\_\_\_ likely be available in the amounts requested without injury to prior rights  
b. ☒ will not \_\_\_\_\_ and/or within the capacity of the resource; or  
c. \_\_\_\_\_ will if properly conditioned, avoid injury to existing rights or to the groundwater resource:  
i. \_\_\_\_\_ The permit should contain condition #(s) 4i;  
ii. \_\_\_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;  
iii. \_\_\_\_\_ The permit should be conditioned as indicated in item 4 below; or
4. a. \_\_\_\_\_ THE PERMIT should allow groundwater production from no deeper than \_\_\_\_\_ ft. below land surface;  
b. \_\_\_\_\_ The permit should allow groundwater production from no shallower than \_\_\_\_\_ ft. below land surface;  
c. \_\_\_\_\_ The permit should allow groundwater production only from the \_\_\_\_\_ groundwater reservoir between approximately \_\_\_\_\_ ft. and \_\_\_\_\_ ft. below land surface;  
d. \_\_\_\_\_ Well reconstruction is necessary to accomplish one or more of the above conditions.  
e. \_\_\_\_\_ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

## MEMO

Feb 22, 1996

TO

Application G- 13784

FROM

GW: Marc A Norton  
(Reviewer's Name)

SUBJECT    Scenic    Waterway    Interference    Evaluation

11

Yes

14

The source of appropriation is within or above a Scenic Waterway.

☐

Yes

☒

No

Use the Scenic Waterway condition (Condition 7J).

PREPONDERANCE OF EVIDENCE FINDING: (Check box only if statement is true)

At this time the Department is unable to find that there is a preponderance of evidence that the proposed use of ground water will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife.

FLOW REDUCTION: (To be filled out only if Preponderance of Evidence box is not checked)

Exercise of this permit is calculated to reduce monthly flows in \_\_\_\_\_ Scenic Waterway by the following amounts expressed as a proportion of the consumptive use by which surface water flow is reduced.

Form C (690-9-77)

**IMPORTANT**—This form is a notice to the Water Resources Director that permittee is ready to make final proof to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the final proof inspection and survey which will be made in response to the filing of this Form C.

**NOTE:** In the case of an irrigation permit, this Form C should not be mailed to the Water Resources Department until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach and mail to the Water Resources Department, Salem, OR 97310, when all of the water has been applied.

## CERTIFICATE OF WATER RIGHT

**This is to certify,** *That* JACK R. AND MARY L. CHAPIN

of 411 Salmon Street N., Salem, State of OR. 97303, has made  
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of  
a gravel pit

a tributary of Willamette River for the purpose of  
irrigation of 95.0 acres

under Permit No. G-7533 and that said right to the use of said waters has been perfected in  
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from  
February 4, 1977  
that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is  
limited to an amount actually beneficially used for said purposes, and shall not exceed  
1.19 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is  
located in the Lot 3 (SW 1/4 NE 1/4), Section 11, T6S, R3W,  
WM; 800 feet North and 800 feet West from the SW corner DLC 38.

The amount of water used for irrigation, together with the amount secured under any other right  
existing for the same lands, shall be limited to one-eightieth of one cubic foot per second  
per acre, or its equivalent for each acre irrigated and shall be  
further limited to a diversion of not to exceed 2.5 acre-feet per acre for  
each acre irrigated during the irrigation season of each year,

and shall  
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is  
appurtenant, is as follows:

WATER RESOURCES DEPARTMENT

**Application for a Permit to Appropriate Groundwater**

Applicant(s) Bruce R Chapin  
(Please print or type - use dark ink)  
Mailing Address: 9965 Wheatland Rd N  
Salem Or 97303 (503) 393 6327  
City State Zip Daytime Phone No.

I (We) make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. **THE DEVELOPMENT** (number of wells, tile lines, infiltration galleries, etc.):  
one well for domestic use, Nat cleaner & farm irrigation of  
orchards, row crops, field crops & Nursery

If development is less than one mile from a natural stream, give the following:

Distance from development to stream: 2450'

Elevation difference between streambed and development: 20'

NOTE: Wells must be constructed according to standards set by the department for the construction and maintenance of water wells. If the well is already constructed, please enclose a copy of the well driller's log with this application, and skip to Section 2 below.

Old Domestic well No known well log.

Diameter of well: 4" Depth in feet: 60'

Type and size of well casing: metal 4" No. of feet: 60'

Estimated depth to water: 15'

Type of access port or measuring device: Air vent

Wells to be drilled by: NA

Address: \_\_\_\_\_

If the water well is flowing artesian, describe your water control and conservation works: \_\_\_\_\_

NA

2. **TOTAL AMOUNT OF WATER** to be applied to beneficial use: 0.0563 cubic feet per second, OR 25.25 gallons per minute. If water is to be used from more than one groundwater source, give the quantity of water from each: \_\_\_\_\_

3. **INTENDED USE(s) OF WATER:** farm nut washer and for Irrigation of Orchards, Field crops row crops & Nursery

If for more than one use, give the quantity of water from each source for each use; \_\_\_\_\_

Irrigation - 11.3 Acre ft/yr Nut washer 3 acre ft/yr.

If for **DOMESTIC** use, state the number of households to be supplied; \_\_\_\_\_

If for **MUNICIPAL OR QUASI-MUNICIPAL** use, state the present population to be served, and an estimate of the future requirements; (List population projections, water needs, anticipated areas to be provided water.)  
\_\_\_\_\_  
\_\_\_\_\_

If for **MINING** use, state the nature (gold, silver, etc.) of the mines to be served; \_\_\_\_\_

If for **IRRIGATION**, or other land area use, state the **TOTAL** number of acres to be developed under each use;

Irrigation 4.52 acres

Other (describe) \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

4. **DESCRIPTION OF WATER DELIVERY SYSTEM:** Include dimensions and type of construction of diversion works, length and dimensions of supply ditches or pipelines, size and type of pump and motor. If for irrigation, describe the type of system (i.e., flood, wheel line, hand line, drip, other).

1.5 Hp submers blg. pump 4" main line hand line  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

5. **PROJECT SCHEDULE:** (List month and year)

Proposed date construction work will begin completed

Proposed date construction work will be completed \_\_\_\_\_

Proposed date water use will be completed \_\_\_\_\_

**NOTE:** Prior to the issuance of a permit it will be necessary to submit a map prepared by a Certified Water Right Examiner (CWRE) and a complete legal description of the property on which the water is to be used. The legal description may be copied from your deed, title insurance policy, or land sales contract.

6. a) In the event any deficiencies are noted involving the application map enclosed herein, please return the map with instructions for correction to (check one):

X Applicant      \_\_\_\_\_ CWRE      \_\_\_\_\_ Other (Identify in REMARKS section)

b) In the event any deficiencies are noted involving the application, please return the application with instructions for correction to (check one):

X Applicant      \_\_\_\_\_ CWRE      \_\_\_\_\_ Other (Identify in REMARKS section)

7. Are all lands involved (including the proposed diversion site, place of use, and access for conveying the water) under your ownership? X Yes. If not, list in the REMARKS section below, or on an attached sheet, the names and mailing addresses of the legal owners of all property involved in the proposed development.

NOTE: Prior to receiving a certificate of water right, the permit holder must submit to the Water Resources Department the results of a pump test meeting the department's standards. The Director will require water level or pump test results every ten years thereafter.

REMARKS: \_\_\_\_\_

APPLICATION NO: G 13786

September 2, 1997

BRUCE CHAPIN  
9965 WHEATLAND RD N.  
SALEM OR 97303

WATER  
RESOURCES  
DEPARTMENT

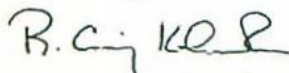

With regard to the pump test requirements for the following well and its associated water right:

APP. #'S: G-13787	PERMIT #'S: G-12300	USER-ID:9561	POD-ID #'S:32270
G-13786	G-12437		32271
G-13419	G-12325		32272

The Water Resources Department has reviewed and accepted the pump test results you submitted. The Department requires no further testing of this well at this time. However, you will be required to submit a static water level measurement of the well on the ten-year anniversary of the test you conducted. If your permit or certificate includes a condition that requires annual static water level measurements, please continue to make and report these measurements unless otherwise instructed.

We appreciate your cooperation with this program. If you have any questions, please contact me at (503) 378-8455 ext. 289 or Mike Zwart at ext. 207. The Department's toll free number is 1-800-624-3199.

Sincerely,

R. Craig Kohanek  
Pump Test Coordinator

WATER RESOURCES DEPT.  
SALEM, OREGON

Water Rights Application  
Number G-13786

Final Order

Application History

On August 15, 1994, BRUCE R CHAPIN submitted an application to the Department for a water use permit. The Department issued a Proposed Final Order on December 12, 1995. The protest period closed January 26, 1996, and no protest was filed.

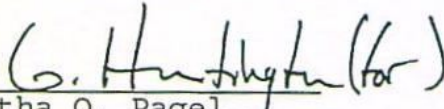

The proposed use would not impair or be detrimental to the public interest. However, the application map does not meet the standards of OAR 690-310-050. The map must show the point(s) of diversion referenced to a recognized public land survey corner.

Order

Upon receipt of a suitable map and payment of outstanding permit recording fees Application G13786 will be approved as proposed by the Proposed Final Order and as provided on the attached draft permit.

A suitable map and permit recording fees are required in the amount of \$200.00. Said map and fees are due and payable no later than 60 days from the date of this Final Order. Failure to provide the required map and pay the required permit recording fees within 60 days from the date of this Final Order will result in the proposed rejection of Application G13786.

DATED MARCH 15, 1996

  
Martha O. Pagel  
Director

Appeal Rights .

Under the provisions of ORS 183.484, the applicant may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

*Appeal Rights*

Under the provisions of ORS 183.484, the applicant may appeal this order by filing a petition for review in the Circuit Court for Marion County or the circuit court for the county in which the applicant resides or has a principal business office. The petition for review must be filed within 60 days after the date this order is served.

DRAFT  
STATE OF OREGON

COUNTY OF Marion

DRAFT PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS DRAFT PERMIT IS HEREBY ISSUED TO

BRUCE R CHAPIN  
9965 WHEATLAND RD N  
SALEM, OREGON 97303

(503) 393-6327

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13786

SOURCE OF WATER: A WELL IN WILLAMETTE RIVER BASIN

PURPOSE OR USE: SUPPLEMENTAL IRRIGATION OF 4.52 ACRES AND  
AGRICULTURAL USE (NURSERY OPERATIONS, NUT FARM)

RATE OF USE: 0.0563 CFS

PERIOD OF ALLOWED USE: YEAR ROUND

DATE OF PRIORITY: August 15, 1994

POINT OF DIVERSION LOCATION: NW 1/4 SE 1/4, SECTION 11, T 6 S, R 3 W,  
W.M.; 149 FEET SOUTH FROM NORTH PROPERTY  
LINE AND 138 FEET WEST FROM CENTER OF  
WHEATLAND ROAD

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NW 1/4 SE 1/4 SUPPLEMENTAL 4.52 ACRES  
SECTION 11  
TOWNSHIP 6 SOUTH, RANGE 3 WEST, W.M.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device.

The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The amount of water used for nursery operations use is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of containerized nursery plants, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of in ground nursery plants the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for agricultural use may be made at anytime of the year that the use is beneficial.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

#### STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

WATER RESOURCES DEPARTMENT  
WATER RIGHTS DIVISION

Before the Director of the Water Resources Department

In the matter of	)	PROPOSED
Groundwater Application	)	FINAL
G-13786 submitted by	)	ORDER
BRUCE R CHAPIN		

FINDINGS OF FACT

*Water Use Request*

1. BRUCE R CHAPIN requested use of 0.0563 CUBIC FOOT PER SECOND of water from A WELL IN WILLAMETTE RIVER BASIN for IRRIGATION OF 4.52 ACRES AND AGRICULTURAL USE (NURSERY OPERATIONS, NUT FARM) within the Willamette basin.
2. The area of proposed use is in Marion County within SECTION 11, TOWNSHIP 6 SOUTH, RANGE 3 WEST, W.M.
3. The water delivery system is described by the applicant as follows: A 1.5 horsepower submersible pump with a 4 inch mainline and handlines to irrigate.
4. The request was made in Application G-13786 which was received by the Water Resources Department on August 15, 1994.

*Affected Waters*

1. This proposed use of groundwater is not within or above a State Scenic Waterway.
2. There are no senior water rights from this point of appropriation.

*Department Actions*

1. The application was determined to be complete and not defective.
2. The Department determined, based upon OAR 690-09, that the proposed groundwater use will not have the potential for substantial interference with the nearest surface water source, namely Chapin Lake.
3. A technical review of the application was completed and a report of the results of that review was mailed to the applicant on November 2, 1994.

4. The technical review determined:
  - a. IRRIGATION AND AGRICULTURAL USE is allowed under the Willamette Basin Program.
  - b. The use is not prohibited by Statute.
  - c. Water for the proposed use is available in the amounts requested for the period year round.
  - d. The use would not injure existing water rights.
5. The report of technical review listed these determinations and disclosed a number of conditions and restrictions that would likely be included in the permit if issued. These conditions and restrictions are listed in the attached draft permit.

#### *Assessment*

1. In proceeding with evaluation of Application G-13786, the following criteria were found to be relevant by the Department.
  - a. The Willamette Basin Program (OAR Chapter 690, Division 502)
  - b. The Marion County Comprehensive Plan and Zoning Ordinance
  - c. Groundwater availability as determined by the Groundwater/Hydrology staff (OAR Chapter 690, Division 9)
  - d. The established rate and duty for the proposed use
  - e. Pending, senior applications and existing water rights of record
  - f. Comments received

#### CONCLUSIONS OF LAW

1. Based upon continued evaluation, the Department finds the determinations of the technical review require modifications as follows: The irrigation season is March 1 through October 31 under OAR 690-502-040 (6). The irrigation use under this application will be supplemental to permit G-7533.
2. Based on comments and data received, the Department has determined that the well reporting condition shall be changed to a the small use requirements of metering and reporting.
3. The period of allowed use is year round for agriculture and March 1 through October 31 for Irrigation.

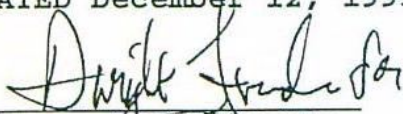

4. The Department finds that no more than 0.0563 cfs, 25.25 gallons per minute, would be necessary for the proposed use. The amount of water requested, 0.0563 CUBIC FOOT PER SECOND, is allowed for the proposed use.
5. Marion County Planning Department staff completed the Department's Land Use Information Form and indicated thereon that the land use associated with the proposed use is compatible with the Marion County Comprehensive Land Use Plan.
6. The proposed use would not conflict with existing water rights, and, if exercised in accordance with law, rule, and the proposed conditions would not result in injury to existing water users.
7. The proposed use complies with all other rules of the Commission.
8. Pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly, and given the findings listed above, a rebuttable presumption has been established that the use will not impair or be detrimental to the public interest if exercised in the manner described in the attached draft permit.
9. Therefore, the proposed use, as conditioned, and described in the attached draft permit, would not impair or be detrimental to the public interest.

#### PROPOSED ORDER

IT IS PROPOSED that Application G-13786 in the name of BRUCE R CHAPIN be approved for SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE as provided in the attached draft permit.

DATED December 12, 1995

Steven R. Applegate  
Administrator  
Water Rights and Adjudications Division

#### NOTICE:

This Proposed Final Order is issued by the Department pursuant to Chapter 416, Oregon laws, 1995, enacted by the 68th Oregon Legislative Assembly.

To seek changes in this proposed final order, you must file a formal protest.

Formal protests to this proposed final order must be made in proper form and accompanied by the statutory fee in the amount of \$200. Note: The applicant is not subject to this fee.

For other than the applicant, if you agree with the findings in this proposed order, but wish to maintain your right to participate in any contested case proceeding or judicial review, you must file a written request for standing. Requests for standing in proceedings relating to this application must be made in the proper form and accompanied by the statutory fee in the amount of \$50.

Protests or requests for standing, along with the appropriate fees must be received by the Water Resources Department in Salem, Oregon by 5:00 pm on January 26, 1996.

Only the applicant and any persons who timely file a protest or request for standing may participate in further proceedings before the Department or the Commission which deal with this Application.

## Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.
- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The amount of water used for nursery operations use is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of **containerized nursery plants**, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of **in ground nursery plants** the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for agricultural use may be made at anytime of the year that the use is beneficial.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

## STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the well shall begin within one year from permit issuance, and shall be completed on or before October 1, 1997. Complete application of the water to the use shall be made on or before October 1, 1998.

WATER  
RESOURCES  
DEPARTMENT

BRUCE R CHAPIN  
9965 WHEATLAND RD N  
SALEM, OR 97303

Reference: File G 13786

Dear Applicant:

The Water Resources Department has finished the first step of its analysis of your application. Enclosed is a copy of this first report, which is called the Report of Technical Review.

The technical review is the Department's legal and scientific analysis of the application, including a calculation of the expected availability of water for your proposed use, an analysis of whether the use would conflict with other existing water rights, and if the use is compatible with the Department's river basin programs and local land use plans. Step two, is the 60-day public review period.

In the case of your application, the Technical Review was satisfactory, and it concluded that water would be available for this use for the time period described in the permit conditions of the attached Report. The Report also includes other conditions which may be placed in the water right permit to protect other water users, the public or fish and wildlife resources.

The Report of Technical Review is only the first step of the review process and does not authorize you to construct a water system or to use the public waters. The Report does not represent any commitment by the Department ultimately to approve your application. Before a permit may be granted, the Department must complete a public interest review.

In this second step of the review process, state regulations require that other water users and the general public be given an opportunity to object to your proposed water use. You also may object to any of the Department's findings or proposed permit conditions contained in the technical report. If you wish to object, you must file your objection with the Department in writing by 5 p.m. on or before January 10, 1995. Interested parties must also submit their objections before the same deadline.

Please review the enclosed informational sheet which describes the appeals process and the steps that must be taken by any party objecting to your Report of Technical Review or by parties wishing to protest issuance of the permit.

GROUNDWATER AVAILABILITY

This is an application for use of groundwater. The Groundwater/Hydrology Section report indicates that:

Pursuant to OAR 690-09-040, the proposed groundwater

withdrawal will not have the potential to cause substantial interference with surface water.

In addition, the Groundwater/Hydrology Section has reported the water will if properly conditioned, avoid injury to existing rights or to the groundwater resource.

#### CONFLICTS WITH OTHER WATER RIGHTS:

There are no existing rights from this point of diversion.

There are existing water rights appurtenant to the lands described in the application. See proposed permit conditions.

#### REPORT CONCLUSIONS:

Based on the Department's review of water availability and Oregon Administrative Rules, water in the amount of 0.05 cfs is likely available for 12 months. Domestic use from a groundwater source is exempt and is not included as part of this technical review.

The evaluation of your application takes into consideration water quality concerns that have been identified by the Oregon Department of Environmental Quality (DEQ).

Therefore, the Director finds that water is available in sufficient amount and during periods which will reasonably support the proposed use.

**THE PROPOSED WATER USE, AS CONDITIONED, SATISFIES THE REQUIREMENTS OF THIS TECHNICAL REVIEW.**

This Report of Technical Review sets out the Director's technical analysis of the application. In addition to this technical analysis, the Director will evaluate this application to determine whether the proposed water use might impair or be detrimental to the public interest under the standards set out in ORS 537.170(5) and OAR 690-11-195. Matters relating to public interest in the proposed water use which are raised in objections will be evaluated following the 60-day objection period.

## PROPOSED PERMIT CONDITIONS

Application: G 13786

The following conditions will apply to water use under the permit, and will appear in the permit, if issued.

1. Use of water under this permit is subject to all prior rights.
2. Period of allowed use: 12 months
3. Rate of use: 0.05 cfs
4. Water use development requirements:
  - A. Begin construction by (one year from issuance of permit).
  - B. Complete construction by October 1, 1996.
  - C. Completely apply the water to beneficial use by October 1, 1997.
5. Measurement, recording and reporting conditions:
  - A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
  - B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
  - C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.
6. Failure to comply with any of the provisions of the permit may result in action including, but not limited

*need  
small  
not  
need*

to, restrictions on the use, penalties, or cancellation of the permit.

7. The permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
8. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.
9. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times. The use of water shall be limited when it interferes with any prior surface or ground water rights.
10. Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.
11. This right is limited to any deficiency in the available supply of any prior right existing for the same land.
12. The amount of water used for agricultural use is limited to a diversion of 0.15 cubic foot per second per acre. For the irrigation of **containerized nursery plants**, the amount of water diverted is limited to ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre feet per acre per year. For the irrigation of **in ground nursery plants** the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre per year. The use of water for agricultural use may be made at anytime of the year that the use is beneficial. For the irrigation of **any other crop**, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.
13. If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference.

The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

### GROUNDWATER/SURFACE WATER CONSIDERATIONS

1. PER THE \_\_\_\_\_ Basin rules, one or more of the proposed POA's is/is not within \_\_\_\_\_ feet/mile of a surface water source (\_\_\_\_\_) and taps a groundwater source hydraulically connected to the surface water.
2. BASED UPON OAR 690-09 currently in effect, I have determined that the proposed groundwater use
  - a. \_\_\_\_\_ will, or \_\_\_\_\_ have the potential for substantial interference with the nearest
  - b. ☒ will not \_\_\_\_\_ surface water source, namely lake; or
  - c. \_\_\_\_\_ will if properly conditioned, adequately protect the surface water from interference:
    - i. \_\_\_\_\_ The permit should contain condition #(s) \_\_\_\_\_;
    - ii. \_\_\_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;
    - iii. \_\_\_\_\_ The permit should be conditioned as indicated in item 4 below; or
  - d. \_\_\_\_\_ will, with well reconstruction, adequately protect the surface from substantial interference.

### GROUNDWATER AVAILABILITY CONSIDERATIONS

3. BASED UPON available data, I have determined that groundwater for the proposed use
  - a. \_\_\_\_\_ will, or \_\_\_\_\_ likely be available in the amounts requested without injury to prior rights
  - b. ☒ will not \_\_\_\_\_ and/or within the capacity of the resource; or
  - c. ☒ will if properly conditioned, avoid injury to existing rights or to the groundwater resource:
    - i. \_\_\_\_\_ The permit should contain condition #(s) 4i;
    - ii. \_\_\_\_\_ The permit should contain special condition(s) as indicated in "Remarks" below;
    - iii. \_\_\_\_\_ The permit should be conditioned as indicated in item 4 below; or
4.
  - a. \_\_\_\_\_ THE PERMIT should allow groundwater production from no deeper than \_\_\_\_\_ ft. below land surface;
  - b. \_\_\_\_\_ The permit should allow groundwater production from no shallower than \_\_\_\_\_ ft. below land surface;
  - c. \_\_\_\_\_ The permit should allow groundwater production only from the \_\_\_\_\_ groundwater reservoir between approximately \_\_\_\_\_ ft. and \_\_\_\_\_ ft. below land surface;
  - d. \_\_\_\_\_ Well reconstruction is necessary to accomplish one or more of the above conditions.
  - e. \_\_\_\_\_ One or more POA's commingle 2 or more sources of water. The applicant must select one source of water per POA and specify the proportion of water to be produced from each source.

WATER RESOURCES DEPT.  
SALEM, OREGON

Bruce R. Chapin  
9965 Wheatland Rd. N  
Salem, OR 97303

January 4, 1995

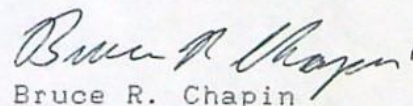

Oregon Water Resources Department  
Commerce Building  
158 12th St. NE.  
Salem, Or 97310-0210

Attention: Jake Szramek  
Ref file: G13786

I wish to appeal item #5 of the proposed permit conditions. This item addresses measurement, recording and reporting conditions.

These requirements appear to be unjustified where such a small volume of water will be used and therefore should be eliminated.

Sincerely,

  
Bruce R. Chapin

# TECHNICAL REVIEW CHECKLIST

9/26/94

1. Application: G 13786
2. Review Date: 11/2/94

S indicates information was completed or adequately addressed.  
 U indicates information is needed, or incomplete, or inadequately addressed  
 N/A indicates Not Applicable

SUMMARY	
<u>S</u>	Land Use
<u>NA/yes/no</u>	Substantial SW interference w/GW (if yes, see results of surface water availability analysis)
<u>S</u>	Conflicts
<u>S</u>	Water Availability <u>(No Connection)</u> (Water Availability Sub-basin#)
<u>U</u>	The application, map and supporting data are complete and free of defects. <i>yes, schedule map.</i>
<u>yes/NA</u>	A TMDL letter has been received for this source or tributary. If yes, the period of use has been adjusted.

3. S The applicant has certified that the information provided in the application is an accurate representation of the proposed use and is true and correct to the best of their knowledge. An oath is required before a permit is issued regardless of the application's priority date.

5. U Application fees:
 

Examination fee:	\$ <u>203</u>	<i>Ag use 100 Irr use 100 <del>Irr use 100</del></i>
Recording fee:	\$ <u>203</u>	
TOTAL REQUIRED	\$ <u>406</u>	
TOTAL SUBMITTED	\$ <u>203</u>	
AMOUNT DUE prior to issuance of permit	\$ <u>200</u>	
AMOUNT OVERPAID	\$ <u>        </u>	
refund due applicant	\$ <u>        </u>	

6. U Proposed dates of beginning and completion of construction, and complete application of water.

7. U A satisfactory map of the proposed place of water use prepared by a certified water right examiner, unless exempt under OAR 690-14-150(3). (A CWRE map is not required for applications filed before November 9, 1987.)

*none*

8. S A written copy of the legal description of the property on which the water is to be used.
9. S A copy of written authorization, contract or easement permitting access to the land or reservoir not owned by the applicant.
10. S No statement of ownership was required for applications filed before August, 1990.
11. S The proposed use is not restricted or prohibited by statute.
12. S The source of water is not withdrawn from appropriation by order of the State Engineer or Water Resources Commission, or legislatively withdrawn under ORS Chapter 538.
13. S Trp Ag & Ind use(s) is/are classified uses(s) under the W.U. Smelter Basin Program, OAR 690 502-.160(2)

**Land Use Compatibility:**

14. As expressed by the Planning Department of Marion County
15. S The land uses to be served by proposed water uses (including proposed construction) are allowed or are not regulated by the local comprehensive plan (ordinance section 136.020).
16. NA The land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals which have been obtained.
17. NA The local government was notified, and sent no comment pursuant to the rules at the time; land use was presumed in compliance per such statement printed on the application.

**For reservoir applications:**

18. NA Plans, specifications and supporting information for the dam and impoundment area must be approved by dam safety before a technical review is issued. Plans and specifications are not required for dams less than 10 feet in height and store less than 9.2 acre-feet. (OAR 690, Div 20)

NOTE TO LOCAL GOVERNMENTS

WATER  
RESOURCES  
DEPARTMENT

RECEIVED  
AUG 15 1994  
WATER RESOURCES DEPT  
SALEM, OREGON

The person presenting the attached request for land use information is applying for a water right. The Water Resources Department (WRD) requires its applicants to obtain land use information to be sure water rights do not result in land uses that would violate your comprehensive plan.

WRD will not accept applications which are not accompanied by this completed land use form or the signed, dated receipt stub detached from the bottom of the land use information form.

You will receive notice once the applicant formally submits his or her request to WRD. The notice will give more detailed information about WRD's water rights process and comment opportunities. If you give the applicant the receipt stub in lieu of completing the form, you will have 30 days from the date of the notice mentioned above to complete the form and return it to WRD. If no land use information is received from you within that 30 day period, WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan.

Your attention to this request for information is greatly appreciated by both the applicant and WRD. If you have questions concerning the form, please contact WRD at 378-3739.

Commerce Building  
158 12th Street NE  
Salem, OR 97310-0210  
(503) 378-3739  
FAX (503) 378-8130

## Description of Water Use

Note to Applicant: This sheet will provide local planning staff with a basic description of your proposed water use. Please fill out this sheet before bringing the attached land use form to your local planning office. It will help local planning offices complete your land use information form quickly.

Note to Local Planning Officials: Please initial this sheet. Do not separate it from the land use information form. If needed, please make a separate copy for your records.

Applicant Name: Bruce Chapin  
 Address: 9965 Wheatland Rd N  
Salem Or 97303  
 Phone: 503-393-6327

Please indicate what you will use the water for. Check all boxes that apply and fill in the blanks with key characteristics of the project

- ☒ Irrigation (crop type, golf course, nursery or greenhouse): orchards, Field crops, row crops  
Nursery
- ☐ Livestock (type of livestock, feedlot, slaughterhouse): \_\_\_\_\_
- ☒ Residential (# units, single or multi-family, # lots if partition or subdivision): \_\_\_\_\_  
1 unit Single family Farmstead
- ☐ Commercial (i.e., retail, office, restaurant, gas station, hotel, service, etc.): \_\_\_\_\_
- ☐ Industrial (i.e., factory, pulp mill, research and development, processing, etc.): \_\_\_\_\_
- ☐ Institutional (i.e., school, library, etc.): \_\_\_\_\_
- ☐ Mining (aggregate, metal, open pit, placer, etc.): \_\_\_\_\_
- ☐ Recreation (park, campsite, pond, etc.): \_\_\_\_\_
- ☐ Fish and Wildlife (pond, hatchery, etc.): \_\_\_\_\_
- ☐ Hydropower (dam, reservoir, power generating or transmitting facilities): \_\_\_\_\_
- ☒ Other (Name and list key characteristics): On the farm Nut washer

Indicate sources for the proposed water use below:	Indicate the estimated quantity of water the use will require.
<input type="checkbox"/> Surface Water Name sources: _____ _____ _____	_____ Cubic feet per second. <u>40</u> Gallons per minute. <u>14</u> Acre-Feet
<input type="checkbox"/> Reservoir or pond	
<input checked="" type="checkbox"/> Ground Water

Land Use Information Form: Permits, Hydroelectric Licenses, Water Uses in Addition to Classified Uses

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT FILL OUT THIS FORM IF water is to be diverted, conveyed, and/or used only on federal lands.

Applicant's Name: Bruce R Chapin  
Address: 9965 Wheatland Rd N  
City: Salem State: Or Zip: 97303 Day Phone: 503-393-6327

Please provide information as requested below for all tax lots on or through which water will be diverted or used. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot or Local I.D.#	Plan Designation/Zoning (e.g. Rural Residential/RR-5)	Check All That Apply		
		Water Diverted	Water Conveyed	Water Use
<u>48346-295</u>	<u>EFU / Primary Ag</u>	<u>X</u>		<u>X</u>

Please list all counties and cities within which water is proposed to be diverted, conveyed, and/or used. Marion Co

The following section must be completed by a planning official from **each** county and city listed **unless** your project will be located **entirely within city limits**. In this case, only the city planning agency must complete this form. Please request extra forms as needed.

For Local Government Use Only

Local government planning officials are to complete the remainder of this form. If this form can not be completed while the applicant waits, please sign and detach the receipt as instructed below. Please mail the completed form directly to the Water Resources Department (3850 Portland Rd. NE, Salem, OR, 97310) within 60 days of the date of receipt as shown below. If the form is not completed within 60 days, the Department may take action to approve the water use.

a) Check the appropriate box below and provide requested information.

☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 136.020. Go to section b) on reverse side.

☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below. **Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus any accompanying findings is sufficient.)**

Type of Land Use Approvals Needed (e.g.: plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Please check the box that applies:		
		Already Obtained	Already Denied	Being Pursued Satisfactorily

WARRANTY DEED

KNOW ALL MEN BY THESE PRESENTS, That JACK R. CHAPIN and MARY L. CHAPIN, husband and wife, hereinafter called the grantors, for the consideration hereinafter stated, to grantors paid by BRUCE R. CHAPIN and VELAN E. CHAPIN, his wife, hereinafter called the grantees, do hereby GRANT, BARGAIN, SELL and CONVEY unto the said grantees, and grantees' heirs, successors and assigns, that certain real property, with the tenements, hereditaments and appurtenances thereunto belonging or appertaining, situated in the County of MARION, and State of OREGON, described as follows, to-wit:

Beginning at a point marking the intersection of the center line of Russell Road (County Road No. 603), with the center line of Salem Wheatland Road (Market Road No. 24), which point bears South 08°40'23" East 166.10 feet from a railroad spike marking the Southwest corner of the Alanson Beer's Donation Land Claim No. 38, in Township 6 South, Range 3 West of the Willamette Meridian, in Marion County, Oregon; thence South 89°52'36" West along the center line of said Russell Road, 390.62 feet to an iron rod; thence South 35.64 feet to an iron rod marking an angle corner in the center line of said Russell Road, said iron rod also marks an angle in the North boundary of the John Durbin Donation Land Claim No. 60; thence North 87°30' West along the North boundary of said Claim, 72.78 feet; thence North 05°41'08" East 517.38 feet; thence North 80°03'18" East 308.19 feet to a point in the center of said Salem Wheatland Road; thence southeasterly along the center line of said road on the arc of 00°18' curve to the left (the chord of which bears South 11°28'14" East 545.68 feet), a distance of 545.70 feet to the point of beginning, and containing 4.52 acres of land, more or less.

SUBJECT TO:

- (1) The rights of the public in and to that portion included in existing public roads.
- (2) A restrictive agreement of even date herewith executed by the parties hereto pertaining to the subsequent conveyance of the property.

TO HAVE and TO HOLD the same unto the said grantees, and grantees' heirs, successors and assigns forever.

And said grantors hereby covenant to and with said grantees, and grantees' heirs, successors and assigns, that grantors are lawfully seized in fee simple of the above granted premises, free from all encumbrances, EXCEPT as herein stated, and that grantors will warrant and forever defend the above granted premises, and every part and parcel thereof, against the lawful claims and demands of all persons whomsoever, except those claiming under the above described encumbrances.

The true and actual consideration paid for this transfer, stated in terms of dollars, is \$ 30,000.00
