

November 2, 1929.

Mr. Tom R. Pearce, Watermaster,  
District No. 16,  
Grants Pass, Oregon.

Dear Tom:

On August 28th you informed us that the son of Mrs. Leta E. James was in your office and stated that the proposed change in point of diversion was only temporary and that the matter would probably be dropped.

Under date of October 28th Mrs. James wrote us with further reference to this proposed change, a copy of which letter is enclosed herewith. At your convenience, I would appreciate having you visit Mrs. James and determine, if possible, if this is a temporary change.

In the case that it is a permanent change, check over the Notice of Publication and make what changes you deem necessary and forward to us.

Very truly yours,

HEBA LUPER  
State Engineer,

By

Assistant.
