

## INTEROFFICE MEMORANDUM

Oregon Water Resources Department  
Adjudication Section

TO: SWR - 46 FILE

FROM: Don Knauer

DATE: May 13, 1992

SUBJECT: FIELD INSPECTION

Dwight French and I met with the Arlint's on their property on May 4, 1992 to view their water use and to talk about the SWR program. We talked about what they have done in the past; submitting the SWR and water right application, having the SWR returned and our telephone conversation. We talked about their options with the SWR:

- 1) submit 2 SWR, 1 for stock, 1 for irrigation (different priority dates) and 1 map
- 2) submit 1 SWR for stock and 1 map
- 3) submit 1 SWR for stock and 1 map and then submit 1 application for permit for irrigation and 1 map.

They showed me an abstract of title with various patents and deeds with various dates.

We walked around their property and he showed us the diversion point and place of use. He said most of his mainlines were underground and showed us the risers. There is a 10 HP pump at the Mohawk River with about 40 feet of lift to the high point on the property. The application map is well done but would need a few changes to be use for SWR.

re: surface water registration (SWR-46)

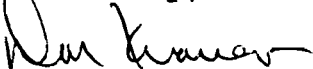

Dear Mr. Arlint,

In reference to our telephone conversation yesterday, I am sending your surface water registration statement to you. As we talked, there are questions you did not answer and the form was not signed. Also, you need to submit a map with your form.

I am sending an updated form which I think you will find easier to use. I suggest you have the map prepared by a Water Right Examineer and then fill out the new form. I am sending our receipt # 80913 for \$ 316.00. I am sending the mapping requirements which you can discuss with your CWRE.

Once the revised form is received in our office I will know the actual fees and we can settle up at that time.

Sincerely,

Don Knauer
